**Manual abstract:**

For that purpose Konica Minolta's colour multifunctionals bizhub C452, C552 and C652 combine advanced technology, amazing versatility and absolute reliability with an attractive, futuristic InfoLine design. A convincing performance is the key to productivity - and the bizhub C452/C552/C652 boasts an array of high performance features: Their 1GHz CPU provides a truly amazing processing speed and guarantees impressive computing power.

Ease of operation has been improved with the introduction of a customised printer driver tab: under MyTab users can individually combine their frequently used features enabling them to make all settings in a single screen. Unique Simitri® HD toner With tiny and uniformly shaped toner particles Konica Minolta's proprietary Simitri® HD polymerised toner achieves an image quality second to none. Razor-sharp text and lines, colours that don't fade and a smooth and highly durable print finish ensure longerlasting prints of better quality than ever perfect for professional materials like mailings and leaflets, the print surface doesn't break or peel on folded pages. merised toner enables fixing at lower temperatures, for which induction heating provides an accurate and instantaneous source of heat. This minimises the warm-up time to a revolutionary 45 seconds while maximising energy efficiency. Pursuing an ISO 14001-based environmental management system, Konica Minolta promotes resource-friendly product development and with its zero waste manufacturing concept, strives to minimise the ecological impact of its products with efficient environmental activities throughout all stages of the product lifecycle. Especially convenient is the direct Box to USB capability that lets users transfer documents from their box to a USB stick and vice versa. This open system enables users to take advantage of the bizhub's multifunctional communication capabilities without requiring a PC.

Competent printing & copying As productive printers and copiers, the bizhub C452/C552/ C652 offer enhanced multifunctionality for a powerful performance and focus on the fully automatic production of professional documents. These systems impress with 100% duplex productivity and a versatile feature set for the creation of sophisticated print products. In colour as much as in black and white, they are highly flexible, economical and always ready to go. High-speed scanning & faxing Similarly productive as scanners, the bizhub C452, C552 and C652 streamline the simple distribution and sharing of information. With an impressive 78 opm they offer scan to eMail, FTP SMB and user , box, making them the ideal input tools for professional document archiving and integration into Document Management Systems.

The practical Print Status Notifier keeps users informed of the device status and progress of their jobs with automatic pop-up messages on the PC screen. Users can concentrate on other tasks and save time, as there's no need to keep checking the printer. The PageScope Box Operator provides convenient direct access from the PC to documents stored in user boxes and with multi-file preview enables fast searches via thumbnails. PageScope Enterprise Suite This enhanced software suite gives administrators a full monitoring and management application that provides complete access to all user- and devicerelated information from a central server platform. The modules can be integrated individually or in combination for maximised benefits: The standard PageScope NetCare Device Manager facilitates the central implementation of system network configurations and central status monitoring.

The application provides fast access to and simple monitoring of individual or all devices on the network, helping to maximise the uptime of all monitored equipment. bEST can make life easier also for copying and printing. Bringing user experience to the next level, the design of the panel can be completely customised, using i-Option and bEST OpenAPI in conjunction with each other. Impressive security standards In addition to Konica Minolta's comprehensive standard security features, the bizhub C452/C552/ C652 include advanced security functionality and are of course certified to ISO 15408 EAL3. With client authentication via IEEE 802.1x, the systems can be connected to secure networks. Safe network communication from and to these devices is ensured by encryption with the IPsec protocol. user boxes Max.
