16 1 1. Outline 1. Outline · In order to use the scan function, the HDD Upgrade Option and a network using the TCP/IP protocol are required. · There are three scan modes you can use with this machine: Use the one appropriate to the network environment and purpose of use. · An user can send the scanning job to the HDD (Mail Box), E-mail and FTP at same time.

The user can select the multiple addresses. Scan to HDD (TCP/IP Network) This function saves data scanned by the copier onto the hard disk drive of the Pi7200e. C46990404CB 2 1. Outline Scan to FTP (TCP/IP Network) · · · Transmits scanned document to the FTP server. Suitable for sending high-resolution data.

Environment of Network with FTP server is necessary. Settings such as the account must be set for the FTP server in advance. FTP Server Intranet Internet FTP Server C46990402CB 3 1. Outline In addition, the system can be set to send to a specified recipient a notification of the FTP server address or Pi7200e server address where the data was uploaded. FTP Server Internet Intranet Client PC Mail Server Internet Client PC C46990403CB 4 1. Outline Scan to E-Mail (TCP/IP Network) · · · Transmits scanned document as attached file with E-Mail. Suitable for sending low-resolution data. Environment of Network with Mail server is necessary. Settings such as the account must be set for the Mail server in advance. Mail Server Client PC Intranet Internet Client PC C46990401CB 5 1.

Outline Necessary Settings To use the Scanner Mode, it is necessary to perform the following network settings first. After you have finished specifying the various settings, print the Configuration page, and then check the selected settings. (The following table indicates which items must be specified from the controller when a scan function is used.) Controller Set Item (Protocol Setup) IP Address Subnet Mask DNS Setup (E-mail Setup) Enable E-mail Service Outgoing Server (FTP Setup) Enable FTP Services Enable Proxy Setup Proxy Server IP Address Proxy Server Port Number Scan to E-Mail Scan to FTP Scan to HDD Yes Yes Option Yes IP address of the SMTP server ----- Yes Yes Option Yes Yes --- v v v v Yes Option Option Option ----- Necessary Devices (servers) Scan to E-Mail SMTP Mail Server FTP Server Yes --Scan to FTP Scan to HDD v Yes v --- Yes: Necessary, ---: Not necessary, v: E-MAIL NOTIFY, Option: Specify according to the operating environment being used. NOTE It is necessary to confirm SMTP Service is ready in receiver's Mail Server when GroupWare (Lotus Notes, Microsoft Exchange, Novell GroupWise, etc.) is used. Scan to E-Mail function can send e-mail to SMTP Server, however GroupWare does not receive e-mail without SMTP Service. So, GroupWare send/receive email with original format not Internet mail format. 6 2. Pi7200e Scan Functions 2.

Pi7200e Scan Functions The Pi7200e supports the following Scan functions. @@@@ Using the control panel of the copier 1. From the control panel of the copier, select the Scan mode. 2. Select "Network" on the screen.
