Manual abstract:

With their powerful processors these compact ECOSYS devices produce professional quality copies and prints at up to 26ppm in colour*. With a truly impressive scan speed of 35ipm, these multifunctional devices have the capacity to handle heavy document management workflows. Operating these multifunctional devices is just as fast and smooth thanks to an operation panel with a highly intuitive structure that provides fast and easy access to all of the device's capabilities. With their reduced power and toner consumption, reduced waste thanks to the highly-reliable long-life components and quiet operation, these devices help to create a perfect working environment inside and outside the office. ECOSYS is the business approach to environmentally sustainable office operations. Our hardware and toner technology have been designed to consume only the absolute minimum and still deliver the highest quality. When toner finally does run out all you have to replace is the toner kit, not an entire cartridge including the drum and/or developer. This saves resources, reduces your company's environmental impact and means even lower costs for you. Double-sided printing is standard, saving you money and reducing your paper consumption by simply allowing you to print on both sides of the paper. And ECOSYS does more than just reducing the use of consumables and energy to give you exceptionally low printing costs.

@@@@ECOSYS: where economy and ecology meet. For the environment. For your budget. @@@@With an impressive warm-up time and a really fast first copy time, waiting is a thing of the past. Conveniently compact, these multifunctional devices offer you a lot of advanced features.

Full-colour scans can be saved as a TIFF, PDF, JPEG or XPS files and saved directly to a USB memory stick, to any PC in your network, or attached to an e-mail and sent right from the device. With doublesided functionality for print, copy, scan and fax*, these multifunctional devices can reduce your paper consumption and the need for office filing space, another great boost when it comes to optimizing office workflow. And with up to five* different paper feeders the paper capacity of these fast multifunctional devices can be expanded from the large standard 500-sheet* capacity up to a total of 2,100 sheets*. No matter how large the job, you can get it done quickly and without unnecessary interruptions. * Technical specifications depend on the device 3 BUSINESS DOCUMENTS PROCESSED BY A PROFESSIONAL QUALITY YOUR BUSINESS NECESSITY Highly robust and very reliable, you can always count on these multifunctional devices to deliver superior print quality.

The combination of improved hardware and toner technology provides a resolution that's sharp and clear, and the FS-3040MFP/FS-3140MFP even delivers impressive 1,200 dpi resolution. The FS-C2026MFP/FS-C2126MFP also come with advanced colour technology that includes improved calibration, colour optimisation and trapping to remove unwanted shadows. Their extended range of colours is produced with a vibrancy and clarity that sends a very clear message to anyone who deals with your documents. Whatever your document-processing needs, these multifunctional devices will handle them quickly, easily and in truly professional quality. Whether it is printing, copying, scanning or faxing*, with these office professionals every thing always comes across with clarity and precision. Easy to integrate in almost every network environment, these devices perform as secure network products with professional output. * Technical specifications depend on the device 4 EASE OF USE DESIGNED TO SIMPLIFY YOUR DOCUMENT WORKFLOWS Designed for heavy daily office use, all of these multifunctional devices are very easy to operate. The control panel has a highly intuitive layout that gives the user simple and convenient access to all of the different functions that a busy office needs in the course of a workday. That saves time at the device and ensures that you can make optimal use of all the functionalities the device has to offer. The operation panel also includes convenient program keys, with which you can reduce a whole series of processing steps to one simple click.

It is ideal for carrying out complex and recurring companyspecific tasks. By programming a button to handle office workflow demands, you can save a lot of time and avoid the confusion and human error that often come with complex processes. These intuitive displays are already being used successfully in other KYOCERA multifunctional devices. That is a big advantage for employees who have access to several different devices since there is no need users to learn numerous control panels. The USB host interface is positioned at the front of the device for easy accessibility. Printing from and scanning to a USB stick can be carried out just as easily as it can from a computer in a network, giving the user complete independence from their computer and opening up printing capabilities throughout the company. KEEPING YOUR INFORMATION SECURE These multifunctional devices offer the latest safety standards needed in modern network environments. Easily integrated into your company's IT, the IPSec and the SSL suite of encryption protocols guarantee that the data travelling through your network is secure. Active Directory authentication delivers further security without the need to create new user accounts for each every user. @@@@for simple and convenient access.
