.Appendix-15 iv OPERATION GUIDE Safety Information About this Operation Guide This Operation Guide contains information on using the facsimile functions of this machine. Please read the Operation Guide before you start using the machine. Keep it close to the machine for easy reference. During use, refer to the Operation Guide for your machine for information regarding the sections listed below. . . . . Caution Labels Installation Precautions Precautions for Use Loading Paper . . . . . Toner Container and Waste Toner Box Replacement Clearing Paper Jams Solving Malfunctions Cleaning Installation Precautions Environment Avoid installing this machine in locations where the top or upper rear portion of the unit will be exposed to direct sunlight. Such conditions might adversely effect the unit's ability to detect the correct size of originals and documents. When such a location cannot be avoided, change the direction the unit is facing in order to eliminate exposure to direct sunlight. Power supply/Grounding the machine Do not connect this machine to the same outlet as an air conditioner or copier, etc. Precautions for Use CAUTION Do not leave the document processor open as there is a dangot; . . . . . DE 08R00 DE 09R00 DE 12R00 DE 14R00 ES 01R01 GR 01R00 GR 03R00 GR 04R00 NO 01R00 NO 02R00 P 03R00 P 04R00 P 08R00 National AN for D National AN for D National AN for D National AN for D National AN for E National AN for GR National AN for GR National AN for GR National AN for N National AN for N National AN for P National AN for P National AN for P OPERATION GUIDE ix Network Compatibility Declaration The manufacturer declares that the equipment has been designed to operate in the public switched telephone networks (PSTN) in the following countries: Austria Belgium Cyprus Czech Denmark Estonia Finland France Germany Greece Hungary Iceland Ireland Italy Latvia Liechtenstein Lithuania Luxembourg Malta Norway Poland Portugal Slovakia Slovenia Spain Sweden Switzerland The Netherlands United Kingdom x OPERATION GUIDE Introduction About This Guide This guide consists of the following chapters.

Chapter 1 - Part Names and Functions Explains the parts of the machine and keys on the operation panel. Chapter 2 - Preparation Before Use Explains the settings required before using fax. Chapter 3 - FAX Operation (Basic) Explains general usage of the fax function such as sending originals and receiving originals. Chapter 4 - FAX Operation (Advanced) Explains convenient fax functions such as setting the transmission time, continuous sending of the same originals to multiple recipients and scheduling the next transmission. Also explains advanced fax communication such as limiting the destinations and systems from which you receive originals, as well as forwarding, saving, and printing the received originals for each requirement.

Furthermore, explains sub address communication functions of the machine that are compatible with other makers' systems and job accounting functions convenient for checking the communication status of fax. Chapter 5 - Checking Transmission Results and Registration Status Explains how to check the status of recent transmissions on the touch panel. Also, explains how to print administrative reports to check communication results and settings and registration status of the machine. Chapter 6 - Setup and Registration Explains various settings and registration pertaining to functions, such as adjusting the volume of the alarm sound. Chapter 7 - Optional Equipment Introduces the optional FAX Backup Kit and Dual FAX and explains how to use the machine when optional features are installed.

Chapter 8 - Internet Faxing (i-FAX) Explains how to use the i-FAX function and the settings required for Internet faxing. OPERATION GUIDE xi Chapter 9 - About Network FAX Explains how to use Network FAX functions. Read the Network FAX Driver Operation Guide in the included CD-ROM (online manual) as well. Chapter 10 - Troubleshooting Explains how to respond to error indications and trouble. Appendix Explains character entry and the specifications of the machine. NOTE: This Operation Guide contains information for using both the inch and metric versions of this machine. The inch version of this machine is shown in the screens in this guide. If you are using the metric version, you should use the messages provided for the inch version as reference only. xii

OPERATION GUIDE Conventions in This Guide The following conventions are used depending on the nature of the description. Convention **Bold** Description Indicates the operation panel keys, the buttons and messages displayed on the PC screen.

Indicates the touch panel keys. Indicates the messages displayed on the touch panel. Indicates supplemental information or operations for reference. Indicates items that are required or prohibited so as to avoid problems. Example Press the Start key. [Regular] *Italic* Press [OK]. Ready to copy is displayed. Note NOTE: -- Important IMPORTANT: -- Description of Operation Procedure In this Operation Guide, the continuous operation of the keys on the touch panel is as follows: Actual procedure Press [FAX/i-FAX]. Press [Next] of Transmission. Press [Next] of FAX.

Press [Change] of TTI. Description in this Operation Guide Press [FAX/i-FAX], [Next] of Transmission, [Next] of FAX, and then [Change] of TTI.

OPERATION GUIDE xiii Originals and Paper Sizes This section explains the notation used in this guide when referring to sizes of originals or paper sizes. As with A4, B5 and Letter, which may be used either in the horizontal or vertical direction, horizontal direction is indicated by an additional letter R in order to indicate the orientation of the originals/paper. Placement direction Vertical direction Indicated size A4, B5, A5, B6, A6, Letter, Statement Original Paper For the originals/paper, dimension A is longer than B.

Horizontal direction A4-R, B5-R, A5-R, B6-R, A6-R, Letter-R, Statement-R Original Paper For the originals/paper, dimension A is shorter than B. . The size of the originals/paper that can be used depends on the function and source tray. For details, refer to the appropriate pages of the function or source tray.

Icons on the Touch Panel The following icons are used to indicate originals and paper placement directions on the touch panel.

Placement direction Vertical direction Originals Paper Horizontal direction xiv OPERATION GUIDE 1 Part Names and Functions This chapter explains the names of parts when the machine is used as a fax machine after installing the FAX kit. For other parts, refer to the machine's Operation Guide. . . .

2-6 OPERATION GUIDE 2-1 Preparation Before Use Selection of Telephone Line (Inch version only) Select the telephone line according to the type you are contracted with. Please note that selecting a wrong telephone line will prevent you from sending fax. NOTE: If you install the Dual FAX option and then use 2 phone lines, select the option for each line. 1 2 3 Press the System Menu key. Press [FAX/i-FAX], [Next] of Transmission, [Next] of FAX, and then [Change] of FAX Port 1 or FAX Port 2 (option). According to the type of telephone line you are contracted with, press [Tone (DTMF)] or [Pulse (10PPS)]. FAX - FAX Port Set FAX port. Tone( DTMF) Pulse(10PPS) Cancel Status OK 10/10/2007 10:00 4 5 Press [OK]. To exit from this setup, press [Close] several times until the System Menu default screen is displayed. 2-2 OPERATION GUIDE Preparation Before Use Selection of Transmit Terminal Identification (TTI) The transmit terminal identification (TTI) is the information about the machine (transmit terminal) to be printed out on the fax on the receiving system. The information includes transmission date and time, the number of transmission pages, and the fax number. This machine enables the user to select if the TTI is printed out on the fax on the receiving system. Regarding the location of the information to be printed, you can select inside or outside of the page image being sent. 2 NOTE: You can specify a separate TTI for fax transmissions and Internet fax transmissions. Normally, the Local FAX Name is printed in the transmit terminal identification (TTI).

However, when job accounting has been enabled, and you send originals after entering an Account ID, the Account Name is printed. 1 2 3 Press the System Menu key. Press [FAX/i-FAX], [Next] of Transmission, [Next] of FAX (Send Fax) or iFAX (Send i-FAX) and then press [Change] of TTI. Press the location for printing the information on the fax. If you don't want to print, press [Off].

FAX - TTI Attach TTI (Transmit Terminal Identification ) in transmitted documents. Off Outside Inside Cancel Status OK 10/10/2007 10:00 4 5 Press [OK]. To exit from this setup, press [Close] several times until the System Menu default screen is displayed. OPERATION GUIDE 2-3 Preparation Before Use Setting the TTI information Register the name (local FAX name), fax number, and local FAX ID printed in the transmit terminal identification (TTI) area. By registering the TTI data, the receiver can easily find out where the FAX came from. Local FAX Name Registration Register the local FAX name printed on in the transmit terminal identification. NOTE: To change the entry, follow the same operation. 1 2 3 Press the System Menu key. Press [FAX/i-FAX], [Next] of Transmission, [Next] of Basic, and then [Change] of Local FAX Name Entry. The entry screen will be displayed.

Enter the Local FAX Name to be registered.

... 3-33 OPERATION GUIDE 3-1 FAX Operation (Basic) Automatic Send General transmission using the numeric keys is explained. NOTE: To send an Internet fax (i-FAX), refer to i-FAX Transmission on page 8-10. Switching to the Send Screen 1 Check that the basic send screen is displayed on the touch panel. (Refer to page 1-7.) On Hook Ready to send. Enter Destination. Destination Detail Destination 0 Address Book 1/1 E-mail Addr Entry Folder Path Entry Chain 002 A OFFICE Detail /Edit 003 Delete 004 Recall 005 No.

001 Free 006 FAX No. Entry i-FAX Addr Entry 007 008 009 010 1/10 Destination Status Quick Setup Type of Original/ Transmission Color/Image Advanced Setup 10/10/2007 10:00 If the basic send screen is not displayed, press the Send/FAX key. 30/40/50 ppm model 25/30 ppm model Selection of Transmission Method 2 There are two transmission methods - memory transmission and direct transmission. The default is memory transmission. To select direct transmission, use the following procedure.

1 Press [Advanced Setup], and then [FAX Direct Transmission]. Zoom Send Ready to send. Enter Destination. Sending Image Border Erase Set Original. Centering File Name Entry Continuous Scan Zoom Job Finish Notice Destination 0 FAX Delayed Transmission E-mail Subject / Body Original : --: 100% : --Preview FAX Direct Transmission FAX Polling RX Send and Print 1/2 Quick Setup Type of Original/ Transmission Color/Image Advanced Setup 10/10/2007 10:00 Destination Status 3-2 OPERATION GUIDE FAX Operation (Basic) 2 3 Press [On].

2 Press [OK]. Ready to directly transmit FAX . Enter Destination. FAX Direct Transmission Send FAX directly, without reading original into memory. FAX can also be sent page by page, with confirmation after each page. Destination 0 Press [OK] to display the image. Off On 3 OK 10/10/2007 10:00 Add Shortcut Status Cancel Setting for Direct transmission Off Description Starts memory transmission. After originals are scanned into memory, the communication starts. Starts direct transmission. Dials the receiving system, and after the communication has started, originals are scanned.

On NOTE: In direct transmission, you can designate only one destination for one transmission. Memory Transmission (When originals are placed in the document processor) After originals placed in the document processor are scanned and stored in the memory, the receiving system is dialed. This method is very convenient because you can have originals returned to you without waiting for sending of the originals to be completed. It is suitable for sending multiple-page sheet originals. Memory Transmission (When originals are placed on the glass surface) This method is suitable for sending book originals that cannot be placed in the document processor. After originals placed on the glass surface are scanned and stored in the memory, the receiving system is dialed. NOTE: When continuous scan is set, you can continue with scanning of a next original after an original on the glass surface has been stored in memory. Every time one page is scanned, you perform an operation to allow continued scanning, and after all the originals have been stored in memory, the receiving system is dialed.

Accepted Time Type 000001 10:00 1/1 Cancel Detail Printing Jobs Status Sending Jobs Storing Jobs Device/ Communication Paper /Supplies 10/10/2007 10:00 Executing TX job1. NOTE: Pressing the Stop key on the operation panel while originals are being scanned cancels the transmission. 3-10 OPERATION GUIDE FAX Operation (Basic) FAX Automatic Reception When using this machine as a FAX-dedicated machine that does not receive telephone calls, set the machine to FAX-dedicated reception.

No special operation is required when receiving faxes. NOTE: When you are receiving DRD service from a telephone company, change the reception method to [Auto (DRD)]. For details, refer to DRD Reception (Available for inch versions only) on page 6-14. Reception Method This machine allows the following five reception methods. · · · · Auto (Normal) Auto (FAX/TEL) (Refer to page 6-2.) Auto (TAD) (Refer to page 6-4.) Auto (DRD) (Refer to page 6-14.) Manual (Refer to page 4-12.) 3 Checking and Changing the Reception Method 1 Press the System Menu key. 30/40/50 ppm model 25/30 ppm model 2 3 4 5 Press [FAX/i-FAX], [Next] of Reception, [Next] of FAX, and then [Change] of RX Setting.

Select [Auto (Normal)]. Press [OK]. To exit from this setup, press [Close] several times until the System Menu default screen is displayed. Reception Starts 1 When a fax has been sent to you, the machine rings the registered number of times, and then starts receiving the fax. After reception has started, the Receive indicator blinks.

OPERATION GUIDE 3-11 FAX Operation (Basic) NOTE: You can change the number of times the ringing tone rings. (Refer to Rings on page 6-7.) To cancel the reception, refer to Cancelling Transmission (Disconnection of Communication) on page 3-15. Memory Reception When the machine cannot print a fax due to paper running out or a paper jams, it temporarily stores originals that have been sent in the image memory. When the machine returns to the printable state, printing starts.

During memory reception, FAX Reception Printing Jobs are displayed on Printing Jobs of the Status screen. To print the received originals, supply paper or remove jammed paper. NOTE: For the Status screen, refer to the machine's Advanced Operation Guide. Reception Print 2 Received originals are output on the top tray with the print side facing downward. Up to 250 sheets of plain paper (80 g/m<sup>2</sup>) can be held on the top tray. However, the number of sheets varies with the condition of the paper to be used. IMPORTANT: · The number of sheets that can be held varies with the output tray. Refer to the machine's Operation Guide. When the number of sheets to be printed exceeds the number of sheets that can be held, remove all the paper on the top tray. Even if the machine is not capable of printing due to paper running out or a paper jam, it can still receive faxes (memory reception).

· 3-12 OPERATION GUIDE FAX Operation (Basic) Cancelling Communication The method for cancelling communication with this machine differs depending on the transmission method (memory transmission or direct transmission) and communication form. Methods of cancelling in various cases are explained here. Cancelling Memory Transmission (while originals are being scanned) During memory 30/40/50 ppm model transmission, to cancel scanning while originals are being scanned, press the Stop key on the operation panel, or press [Cancel] on the touch panel. Scanning of originals is canceled, and the originals are ejected. When originals remain in the document processor, take them out from the original output table. 25/30 ppm model 3 Cancelling Memory Transmission (during communication) During memory transmission, to cancel communication after it has started following the completed scanning of originals, use the following procedure. NOTE: You can cancel transmission by disconnecting the telephone line. For details, refer to Cancelling Transmission (Disconnection of Communication) on page 3-15.
