<http://yourpdfguides.com/dref/1261417>

· Double-click the Lexmark Imaging Studio shortcut located on the desktop. Note: The Lexmark Imaging Studio icon can be added to the desktop by dragging the icon from the Start Programs Lexmark 2300 Series Lexmark Imaging Studio menu. · Right-click the Lexmark Imaging Studio icon in the system tray (often located in the bottom right corner of the computer screen), and select Lexmark Imaging Studio. 12 Lexmark Imaging Studio task buttons These buttons can be used to go directly to the Lexmark All-In-One Center. Click To Browse & Print Photos Details Opens the Lexmark All-In-One Center to the Saved Images tab so you can locate and select photos to reorganize or print. To print, select the photo(s) and click Next to open the Fast Pics program.

You can also select from a Creative Tasks list. For more information, see "Printing photos" on page 34. Opens a small dialog where you can scan and e-mail a photo or find and e-mail a saved photo. For more information, see "E-mailing a scanned image or document" on page 41 or "E-mailing a saved image or document" on page 41. Opens the Lexmark All-In-One Center to the Scanning & Copying tab where you can scan text to a text-editing program. For more information, see "Editing scanned text using Optical Character Recognition (OCR)" on page 42. Opens the Lexmark All-in-One Center to the Scanning & Copying tab where you can scan photos or documents to be stored on your computer. For more information, see "Scanning an item" on page 37. Share

Photos Scan & Edit Text (OCR) Scan 13 Click sks Note: For more information about the Saved Images tab, click Help at the top of the screen. 17

Maintain/Troubleshoot link The Maintain/Troubleshoot link provides you with direct access to the Lexmark Solution Center.

Clicking Maintain/Troubleshoot lets you choose from these topics: · · · · · Maintain or fix quality problems Troubleshoot All-In-One problems Device status and ink levels More printing ideas and how-to's Contact information Advanced (skin, voice, and communication options) View the software version and copyright information Help Link The Help link provides you with instant access to the Help program. Click the Index button, and use the Find function to locate more information about the All-In-One or its software. Using Lexmark Fast Pics Lexmark The I Want To menu The "I Want To" menu appears when you open Print Properties. It contains a variety of task wizards--printing a photograph, printing an envelope, printing a banner, printing on both sides of the paper, printing a poster--to help you pick the correct settings for the project. Click See more printing ideas for more options.

Close the menu for a full view of the Print Properties dialog. 23 Print Properties tabs All of the print settings are on the three main tabs of the Print Properties software: Quality/Copies, Paper Setup, and Print Layout. Quality/Copies tab From Quality/Speed Paper Type Multiple Copies Select Quick Print, Normal, or Photo, depending on the quality of output you want. Quick Print is the fastest option. Your paper type from the menu options · The number of copies you want to print · Collate Copies if you want to print more than one copy of a document.

This option prints all the pages of the first copy, and then all the pages of the second copy, and so on. · Print Last Page First if you want to print the pages in reverse order Select Automatic Image Sharpening to sharpen the image automatically based on image content. Paper Setup tab From Paper Size Select Paper, Envelope, Banner, or Borderless, and then select the size specific to the paper type. If the paper size is not listed, select Custom Size. Portrait or Landscape Orientation 24 Print Layout tab From Layout Duplexing Select Normal, Banner, Mirror, N-up, Poster, Booklet or Borderless · Two-Sided to print the document on both sides of the page · Side Flip or Top Flip to set which way the pages of the finished documents turn Note: If you select Side Flip, the pages of the document turn like the pages of a magazine. If you select Top Flip, the pages turn like the pages of a legal pad. Using the Lexmark Solution Center To open the Lexmark 2300 Series Solution Center (LSC): · Click Start Programs Lexmark 2300 Series Lexmark Solution Center. · Right-click the Lexmark Imaging Studio icon in the system tray (often located in the bottom right corner of the computer screen), and select Lexmark 2300 Series Solution Center. 25 Lexmark Solution Center tabs From this tab Printer Status (Main dialog) You can · View the status of the All-In-One. For example, while printing, the status is Busy Printing.

· View the ink levels of the print cartridge. · View an indicator showing if there is a cartridge problem. · Access the Lexmark Web site. Learn how to: · Use basic features. · Print, scan, copy, and fax. · Print banners, iron-on transfers, photos, envelopes, and other items. · Find and change settings. Troubleshooting Maintenance · Learn about the current status of the All-In-One. · Solve All-In-One problems. · · · · · Install a new print cartridge.

View shopping options for new cartridges. Print a test page. Clean to fix horizontal streaks. Align to fix blurry edges. Troubleshoot other ink problems. How To Contact Information Advanced Learn how to contact Lexmark on the Web and by phone. · Change the appearance of the Printing Status window, or turn printing voice notification on or off. · Change the network printing settings. · Participate in Lexmark Connect. · Obtain software version information.

Note: For more information, click Help at the bottom of the Lexmark Solution Center screen. 26 Loading paper and original documents Loading paper into the paper support You can load up to 100 sheets of plain paper, depending on the thickness of the paper. 1 Place the paper against the right side of the paper support. Note: Do not force the paper into the All-In-One. 2 1 2 Squeeze the release tab, and slide the paper guide to the right until it rests against the edge of the paper. Note: If you are using A4 or letter size paper, adjusting the paper guide may not be necessary. 27 Loading specialty media Follow these guidelines when loading specialty media: Load Up to 100 sheets of inkjet paper (depending on the thickness) Make sure · The print side is facing you. · The paper guide rests against the edge of the paper. Up to 10 iron-on transfers · The print side (blank side) is facing you. · The paper guide rests against the edge of the iron-on transfers.

· You follow the loading instructions on the iron-on transfer packaging.

[X2350 user guide](http://yourpdfguides.com/dref/1261417)

<http://yourpdfguides.com/dref/1261417>

Up to 25 sheets of photo/ · The glossy or coated side is facing you. glossy paper · You use photo paper that is made for inkjet printers. · If the paper came with instructions, you read them carefully. · You load the photo paper vertically against the right side of the paper support. · The paper guide rests against the edge of the photo paper. Note: To prevent smudging, remove each photo as it exits the All-In-One, and then let it dry before stacking. 28 Load Banner paper Make sure · You remove any paper from the paper support before inserting banner paper. · You select A4 or letter size Banner paper in Print Properties. See "Changing print settings" on page 33.

Note: Failure to choose the correct paper size will cause a paper jam. · You place a stack of banner paper on or behind the All-In-One, with only the number of sheets you need to print the banner. · You load the leading edge of the banner paper into the All-In-One against the right side of the support, as shown. · You squeeze and slide the paper guide to the left edge of the banner paper. · If the cards came with instructions, you read them Up to 25 sheets of carefully. greeting card stock, postcards, or photo cards · The print side is facing you. · The cards are loaded vertically against the right side of the paper support. · You do not force the cards into the All-In-One. · You squeeze and slide the paper guide to the left side of the cards. 29 Load Up to 20 transparencies Make sure · The rough sides of the transparencies are facing you.

· The paper guide rests against the edge of the transparencies. Note: Since transparencies require more drying time, we recommend that you remove each transparency as it exits, and allow it to dry to avoid ink smudging. Up to 100 sheets of · If the paper came with instructions, you read them coated or premium paper carefully. · You load the paper vertically against the right side of the paper support. · If there is a watermark on the paper, you place the mark facing away from you. · You do not force the paper into the All-In-One. · You squeeze and slide the paper guide to the left side of the paper. 30 Load Up to 10 envelopes Make sure · The print side is facing you. · The envelopes are loaded vertically against the right side of the paper support. · The stamp location is in the upper left corner.

· The paper guide rests against the edge of the envelopes. Note: Do not load envelopes with: · Holes, perforations, or deep embossing · Metal clasps, string ties, or metal folding bars · Exposed flap adhesive 31 Placing documents on the scanner glass 1 Open the top cover of the All-In-One. 2 Place the item you want to scan or copy face down on the glass. Make sure the longer edge of the document is parallel to the front of the All-In-One. Note: Make sure the corner of the document fits securely in the front right corner of the scanner glass. 3 Close the top cover. 32 Printing Printing a document 1 Load paper. For more information, see "Loading paper into the paper support" on page 27. 2 With the document open, click File Print. If you want to change print settings, see "Changing print settings" on page 33.

3 Click Properties, Preferences, Options, or Setup, and select the "I Want To" menu to select a print wizard for a project such as printing an envelope or a banner. 4 From the Wizard, click OK. 5 From Print Properties, click OK. 6 From the Print dialog, click Print. @@@@ @@@@ @@@@ @@@@ 8 When you are finished customizing the photo, click OK. 9 Click OK or Print to complete the task. @@@@ @@@@ @@@@ 6 From the Selected Layouts box, select Only Borderless. 7 Click OK. 8 Select a paper size for the photos. 9 From the Page Layout, select a page layout.

10 Drag the photos onto the page. 11 Click Printer Settings. 12 Select the paper size and paper type. @@ You can print a photo, print on an envelope, print a banner, make a poster, create a booklet, or print a greeting card. 1 With the document open, click File print settings. Print. 2 Click Properties, Preferences, Options, or Setup to customize The Print Properties dialog appears along with the "I Want To" menu. 3 Select one of the available projects, or click See more printing ideas. 4 Follow the instructions on the computer screen to complete the project. 36 Scanning Scanning an item 1 Open the top cover of the All-In-One.

2 Place the item you want to scan on the scanner glass. For more information, see "Placing documents on the scanner glass" on page 32. 3 Close the top cover. 4 Press the button on the All-In-One control panel. The All-In-One Center appears on the computer screen with a preview of the item on the scanner glass. 5 From the "Send scanned image to:" drop-down menu, select a program. 6 Adjust the dotted lines to fit around the portion of the image you want to scan. 37 7 Customize the scan settings. @@@@ 3 From the What is being scanned? area, select an option. @@@@ @@@@ · Choose to scan using pure optical resolution.

@@ · Select the area to be scanned. · Choose to convert the scanned item to text for editing. · Choose to scan multiple images before output. · Update the list of programs to send scans. · Update the default fax driver.

@@ Choose whether to sharpen or blur the images. Adjust the brightness of the image. @@@@ · Select whether to process with Best quality or Best speed. @@@@ 2 Open the All-In-One Center. @@ The All-In-One Center appears.

3 Make sure the Scanning & Copying tab is selected. 4 From the Scan section, click Preview Now. @@ From the control panel 1 Place the item on the scanner glass. @@ 2 Press the button. @@@@ in the drop-down box. @@@@ @@@@ 3 Select Scan and e-mail a photo. @@ 6 Write a note to accompany the attached item, and then send it. @@@@ 3 Select Find and e-mail a saved photo. 4 Click Show Folders to browse to the folder where the saved images are stored. 5 Click Hide Folders to close the folder window.

6 Select the photo(s) you want to send. 7 Follow the instructions on the computer screen to prepare the item for e-mailing. 8 Click Attach Now. 9 Write a note to accompany the attached item, and then send it. 41 Editing scanned text using Optical Character Recognition (OCR) 1 Place the image face down on the scanner glass. For more information, see "Placing documents on the scanner glass" on page 32. 2 Open the Lexmark Imaging Studio. For more information, see "Using the Lexmark Imaging Studio" on page 12. 3 Click the Scan and Edit Text (OCR) button. The Edit text in a document feature appears. You can preview the image if you want. 4 From the "Select your text editor" drop-down menu, select a word-processing or text-editing program.

5 If you have more than one page, click Yes, prompt me for each page. 6 Click Send Now. The text-editing program appears, and the scanned text appears on the computer screen.

42 Copying Making a copy 1 Open the top cover of the All-In-One. 2 Place the item you want to copy on the scanner glass. For more information, see "Placing documents on the scanner glass" on page 32. 3 Close the top cover. 4 Change copy settings as needed. For more information, see "Changing copy settings" on page 44. 5 Press the button. 43 Changing copy settings 1 Open the Lexmark Imaging Studio. For more information, see "Using the Lexmark Imaging Studio" on page 12. 2 Click the Copy button. 3 Select a copy quantity and color. 4 Click See More Copy Settings to: Choose a copy quality. Select the Blank Paper size. Select the original document size. Lighten or darken the document.

5 Click Display Advanced Copy Settings to change options such as paper size or quality. For more information, see "Advanced Copy Settings" on page 45. 6 When you are finished customizing the copy settings, click OK. 7 On the main page, click Copy Now. 44 Advanced Copy Settings Click this tab Print To Select the paper size. Select the paper type. Select borderless printing options. Select the print quality. Select the color depth. Select the scan resolution.

Choose to scan using pure optical resolution. Select whether to auto-crop the scanned image. Select an exact size to be scanned. Select whether to deskew the image. Select whether to sharpen blurry edges.

Adjust the brightness of the image. Adjust the color correction curve (gamma) of the image. Scan Image Enhancements Image Patterns · Smooth the conversion of a gray image to a black and white dot pattern (dither). Select whether to process for Best quality or Best speed. Select whether you are scanning a newspaper, magazine, or lithograph.

Control the darkness of the edges of the text. · Remove wavy patterns from magazines or newspapers (descreen). · Reduce more or less of the background noise (scratches) on the color document. Copying photos 1 Place the photo face down on the scanner glass. @@For more information, see "Loading specialty media" on page 28. 45 3 Open the Lexmark All-In-One Center. @@@@7 Select a copy quantity and color. 8 To further customize the photo, click See More Copy Settings. @@@@ @@@@ @@@@ @@@@ @@@@ @@@@ @@@@ @@@@ @@@@ @@@@ You scan the image in a later step. 5 Click Next.

@@@Note: Faxes can be received only when the fax software is open. @@The All-In-One is network-capable and can be networked in one of two ways: · Using the peer-to-peer method · Using the point-and-print method Note: The All-In-One cannot scan across a network. Peer-to-peer Requirements: · You must install the driver software on all computers that will use the All-In-One. · The host computer must be on any time the client wants to print. See "Setting up a network printer with the peer-to-peer method" on page 50. Point-and-print Requirements: The host computer must be on any time the client wants to print.

See "Setting up a network printer with the point-and-print method" on page 51. 49 Setting up a network printer with the peer-to-peer method With this method, the printer driver is fully installed on each client computer. Network clients retain control of driver modifications. The client computer handles the print job processing.

1 Follow the instructions on the Lexmark 2300 Series Setup sheet to install the hardware and software on the host computer. 2 From the host computer, Click Start 4 Select the network connection. 5 Click Properties. Settings Control Panel. 3 Select Network and Dial-up Connections.

6 Make sure a check mark appears next to File and Printer Sharing for Microsoft Networks. If no check mark appears, click the box next to File and Printer Sharing for Microsoft Networks. 7 Click OK. 8 From the client computer, insert the All-In-One software CD. 9 Follow the instructions on the client computer screen.

10 Select USB cable when asked how the All-In-One is connected to the computer. 11 Select Peer to Peer when asked how the All-In-One is connected to the network. 12 Repeat steps 8 through 11 for each of the client computers. 50 Setting up a network printer with the point-and-print method With this method, the printer driver is partially installed on each of the client computers networked to the host computer. The host computer controls driver changes and handles print job processing. 1 Follow the instructions on the Lexmark 2300 Series Setup sheet to install hardware and software on the host computer. 2 From the host computer, click Start Printers and Faxes. Settings Printers or 3 Right-click the Lexmark 2300 Series icon. 4 Click Sharing. 5 Click Shared As, and then type a distinctive name for the All-In-One.

6 Click OK. 7 From the client computer, double-click Network Neighborhood, My Network Places, or My Network. 8 Find the host name of the server, and look for the shared name you assigned to the All-In-One. 9 Right-click the All-In-One icon, and then select Open, Install, or Connect. 51 Maintaining the All-In-One Replacing the print cartridge Your All-In-One uses the following cartridge: Print cartridge part number -1 -2 Removing a used cartridge Note: Make sure the All-In-One is on. 1 Lift the scanner unit. 2 Snap the scanner support into position to hold up the scanner unit. The print cartridge carrier moves and stops at the loading position unless the All-In-One is busy. 52 3 Press down on the cartridge lever to raise the cartridge lid. 4 Remove the old cartridge, and dispose of it.

For more information, see "Recycling Lexmark products" on page 60. 1 1 1 53 Installing the print cartridge 1 If you are installing a new print cartridge, remove the sticker and transparent tape from the back and bottom of the cartridge. 1 1 1 2 Warning: Do not touch the gold contact area on the cartridges. 2 Unless it is already open, press down on the cartridge lever to raise the cartridge lid. 3 Insert the cartridge in the carrier.

1 1 54 4 Snap the lid closed. 5 While lifting the scanner unit, press the scanner support back until it slides into the slot, and close the scanner unit. Note: The scanner unit must be closed to start a new print, scan, or copy job. 55 Aligning the print cartridge Following cartridge installation, you should align your cartridge. However, you may also need to align the cartridge when: · Characters are not properly formed or are not aligned at the left margin. · Lines that should be vertical and straight are printed as wavy.

<http://yourpdfguides.com/dref/1261417>

To align the cartridge using a computer: 1 Load plain paper. For more information, see "Loading paper into the paper support" on page 27. 2 Open the Lexmark Solution Center. For more information, see "Using the Lexmark Solution Center" on page 25. 3 From the Maintenance tab, click Align to fix blurry edges. 4 Follow the instructions on the computer screen. To align the cartridge from the control panel: 1 Load plain paper. For more information, see "Loading paper into the paper support" on page 27. 2 Press and hold the button for three seconds.

An alignment page prints. 3 Place the alignment page onto the scanner glass. For more information, see "Placing documents on the scanner glass" on page 32. 4 Press the button. Once scanning is complete, the cartridge has been aligned for optimal print quality. Alignment must be complete before continuing with any print jobs. 56 Improving print quality If you are not satisfied with the print quality of the document: · Use paper that is a heavier weight, is bright white, or is coated. · Select a higher print quality: 1 With a document open, click File The Print dialog appears. Print. 2 From the Print dialog, click Properties, Preferences, or Options.

3 From the Quality/Speed area, select a higher quality setting. 4 Print the document again. If the document still does not have the print quality you want, align the print cartridge, and print the document again. For more information, see "Aligning the print cartridge" on page 56. If print quality has not improved, continue with "Cleaning the print cartridge nozzles".

Cleaning the print cartridge nozzles 1 Load paper. For more information, see "Loading paper into the paper support" on page 27. 2 Click Start Programs Solution Center. Lexmark 2300 Series Lexmark 3 From the Maintenance tab, click Clean to fix horizontal streaks. 4 Click Print.

A page prints, forcing ink through the clogged nozzles to clean them. 5 Print the document again to verify that the print quality has improved. If you are not satisfied with the print quality, continue with "Wiping the print cartridge nozzles and contacts" on page 58. 57 Wiping the print cartridge nozzles and contacts 1 Remove the print cartridge. For more information, see "Removing a used cartridge" on page 52. 2 Dampen a clean, lint-free cloth with water. 3 Gently hold the cloth against the nozzles for about three seconds, and then wipe in the direction shown. 1 4 Using another clean section of the cloth, gently hold the cloth against the contacts for about three seconds, and then wipe in the direction shown. 5 With another clean section of the cloth, repeat steps 3 through 4. 6 Let the nozzles and contacts dry completely.

7 Reinsert the print cartridge. For more information, see "Installing the print cartridge" on page 54. 1 8 Print the document again. 58 If the print quality does not improve, repeat "Wiping the print cartridge nozzles and contacts" up to two more times. If print quality is still not satisfactory, replace the print cartridge.

For more information, see "Ordering supplies" on page 60. Preserving the print cartridge To ensure the longest life from the print cartridge and optimum performance from the All-In-One: · Keep a new print cartridge in its packaging until you are ready to install it. · Do not remove the print cartridge from the All-In-One except to replace, clean, or store it in an airtight container. Lexmark's All-In-One warranty does not cover repair of failures or damage caused by a refilled cartridge. Lexmark does not recommend the use of refilled cartridges.

Refilling cartridges can affect print quality and cause damage to the All-In-One. For best results, use Lexmark supplies. Cleaning the scanner glass 1 Dampen a clean, lint-free cloth with water. 2 Gently wipe the scanner glass. Note: Make sure all ink or corrective fluid on a document is dry before placing the document on the scanner glass.

59 Ordering supplies To order All-In-One supplies or to locate a dealer near you, visit the Lexmark Web site at www.lexmark.com. The Lexmark 2300 Series All-In-One is designed to print using these parts: Print cartridge part number · 1 · 2 USB cable part number 12A2405 Lexmark offers premium photo paper, optimized for Lexmark inkjet printers and inks: Lexmark photo paper types and sizes · · · · · Photo paper (glossy) 4 x 6 Photo paper (glossy) 8 1/2 x 11 Photo paper (glossy) A4 Premium photo paper (high gloss) 4 x 6 Premium photo paper (high gloss) 8 1/2 x 11 Premium photo paper (high gloss) A4 Premium photo paper (high gloss) L Recycling Lexmark products To return Lexmark products to Lexmark for recycling: 1 Visit our Web site: www.lexmark.com/recycle 2 Follow the instructions on the screen. 60 Troubleshooting Should the All-In-One have a problem, this section helps you find the solution. From the following list, select the category that best describes the type of problem you are having. Turn to the page listed, and use the table to find solutions to specific symptoms. · "Setup troubleshooting" on page 62 · "Jams and misfeeds troubleshooting" on page 65 · "Print troubleshooting" on page 66 · "Scan and copy troubleshooting" on page 69 · "Error messages troubleshooting" on page 71 61 Setup troubleshooting Symptom The Power light is not lit Solution 1

Disconnect the power supply cord from the wall outlet, and then from the All-In-One. 2 Plug the cord all the way into the power supply on the All-In-One. 3 Plug the cord into an electrical outlet that other electrical devices have been using. 4 If the Software will not install button light is not on, press the button. If the software does not launch automatically when you insert the CD: 1 Close all open software applications. 2 Temporarily disable any anti-virus programs.

3 Double-click the My Computer icon. For Windows XP, click Start to access the My Computer icon. 4 Double-click the CDROM drive icon. 5 If necessary, double-click setup.exe. 6 Follow the instructions on the computer screen to install the software. Note: After installing the software, be sure to re-enable your anti-virus software. The following operating systems are supported: · Windows 98/Me · Windows 2000 · Windows XP 1 Remove the software CD. 2 Turn off the computer. 3 Restart the computer.

4 When the desktop appears, reinsert the software CD. 5 Follow the instructions on the computer screen. 62 Symptom Software will not install Solution 1 Check the USB cable for any obvious damage. 2 Firmly plug the rectangular end of the USB cable into the USB port of the computer. The USB port is marked with the USB symbol.

[You're reading an excerpt. Click here to read official LEXMARK X2350 user guide](http://yourpdfguides.com/dref/1261417)
<http://yourpdfguides.com/dref/1261417>

3 Firmly plug the square end of the USB cable into the back of the All-In-One. If the All-In-One is connected to the computer through another device: 1 Disconnect the USB cable from any other device such as a USB hub or switch box. 2 Directly connect the cable to the All-In-One and the computer. Page will not print Make sure the All-In-One is set as the default printer and is not on hold or paused. For more information, see "Checking the All-In-One status" on page 68.

Make sure the tape has been removed from the print cartridge and that the print cartridge has been installed properly. For more information, see "Replacing the print cartridge" on page 52. 63 Removing and reinstalling the software If the All-In-One software is not functioning properly or a communications error message appears, you may need to remove and then reinstall the All-In-One software. Note: Before reinstalling, shut down and restart the computer. If the problems persist, follow these steps: 1 From the desktop, click Start Lexmark 2300 Series All-In-One software. Programs Uninstall. 2 Follow the instructions on the computer screen to remove the 3 Restart the computer. 4 Click Cancel on any Add New Hardware screens. 5 Eject and reinsert the software CD. If the All-In-One software installation screen does not appear: a From the desktop, double-click My Computer.

For Windows XP, click Start to access the My Computer icon. b Double-click the CD-ROM drive icon. If necessary, double-click setup.exe. c When the All-In-One software installation screen appears, click Install or Install Now. d Follow the instructions on the computer screen to complete the installation. 64 Jams and misfeeds troubleshooting To prevent jams and misfeeds: · Place the All-In-One on a flat, level surface. · Use paper recommended for an inkjet All-In-One. · Do not force the paper into the All-In-One. Symptom Paper jam in the paper support Paper jam inside the All-In-One Solution 1 Firmly grasp the paper, and gently pull it out.

2 Press the button to reset the All-In-One. 1 Lift the scanner unit. 2 Snap the scanner support into position to hold up the scanner unit. 3 Firmly grasp the paper, and gently pull it out. 4 While lifting the scanner unit, press the scanner support back until it slides into the slot, and close the scanner unit. 5 Press the button to reset the All-In-One. Paper or specialty media: Load a smaller amount of paper into the All-In-One. · misfeeds or skews · multiple sheets feed or stick together See "Loading paper into the paper support" on page 27 for information about: · Maximum loading amounts for each paper type · Paper exit tray capacity · Specific loading instructions for supported paper and specialty media Load paper with the print side facing you. Remove each page as it exits the All-In-One, and let it dry completely before stacking. Use only new, unwrinkled paper.

65 Print troubleshooting Symptom Poor text and graphic quality, including: · · · · · Blank page Incorrect colors Missing characters Faded print Dark print Skewed lines Smudges Streaks Unexpected characters · White lines in print Solution If you are using the scan or copy features, see "Scan and copy troubleshooting" on page 69. Check the ink levels, and install a new print cartridge if necessary. See "Improving print quality" on page 57. To avoid ink smudging when you are using the following types of media, remove each sheet as it exits and allow it to dry before stacking: · · · · · Document with graphics or images Photo paper Coated or glossy paper Transparencies Iron-on transfers Note: Transparencies may take up to 15 minutes to dry. Use high quality paper or specialty media. For photo printing, we recommend Lexmark photo paper. Use only new, unwrinkled paper. Poor text and graphic quality at the edges of the page Unless you are using the borderless feature, use these minimum print margin settings: · Left and right margins: 6.35 mm (0.25 inches) for all paper except A4 3.

175 mm (0.125 inches) for A4 size paper · Top margin: 1.7 mm (0.067 inches) · Bottom margin: 19 mm (0.75 inches) 66 Symptom Poor quality at the edges of the page Solution Select the Borderless print feature. 1 From the software application, Click File Properties, Preferences, Options, or Print Setup. 2 Click Print Layout. 3 Click Borderless. Make sure that the paper size being used matches the printer setting. 1 From the software application, click File Print Properties, Preferences, Options, or Setup.

2 Click Paper Setup. 3 Check the paper size. All-In-One does not print or respond See "Page will not print" on page 63. Uninstall the All-In-One software, and reinstall it. See "Removing and reinstalling the software" on page 64.

See "Checking the All-In-One status" on page 68. 1 Turn the printer off by pressing the button. 2 Disconnect the power supply cord from the electrical outlet. 3 Gently remove the power supply from the printer. 4 Reconnect the power supply to the printer.

5 Plug the power supply cord back into the electrical outlet. 6 Press the button to turn the printer back on. Restart the computer. Print speed is slow Close all applications not in use. Try minimizing the number and size of graphics and images in the document. Consider purchasing more Random Access Memory (RAM) for the computer. 67 Checking the All-In-One status Check the All-In-One status to make sure a document is not being held or paused and that the All-In-One is set as the default printer. To check the status: 1 Click Start or Settings Printers and Faxes or Printers. Click Start Control Panel Printers and Faxes. Printers and Other Hardware 2 Double-click the Lexmark 2300 Series icon.

3 Click Printer, and make sure no check mark appears next to Pause Printing. 4 Make sure a check mark does appear next to Set As Default. 68 Scan and copy troubleshooting Symptom Scanner or copier does not respond Solution If the button light is not on, see "The Power light is not lit" on page 62. Make sure the computer is on. 1 Check the USB cable for any obvious damage. 2 Firmly plug the rectangular end of the USB cable into the USB port of the computer. The USB port is marked with the USB symbol. 3 Firmly plug the square end of the USB cable into the back of the All-In-One. Make sure the All-In-One is set as the default printer and is not on hold or paused. For more information, see "Checking the All-In-One status" on page 68.

See "Scanning takes too long or freezes the computer" on page 70. If none of the previous options fix the problem, uninstall the All-In-One software and reinstall it. For more information, see "Removing and reinstalling the software" on page 64.

[You're reading an excerpt. Click here to read official LEXMARK X2350 user guide](http://yourpdfguides.com/dref/1261417)

Scanner unit does not close 1 Lift the scanner unit. 2 Remove any obstruction keeping the scanner unit open.

3 While lifting the scanner unit, press the scanner support back until it slides into the slot, and close the scanner unit. 69 Symptom Scanning takes too long or freezes the computer Solution Close all programs not being used. To change the scanning resolution to a lower value: 1 Click Start Programs Lexmark 2300 Series All-In-One Center. 2 From the Scan area, click See More Scan Settings. 3 Click Display Advanced Scan Settings.

4 From the Scan Resolution area, select a lower number. Poor quality from scan or copy feature including: · Blank page · Checkerboard pattern · Distorted graphics or pictures · Missing characters · Faded print · Dark print · Skewed lines · Smudges · Streaks · Unexpected characters · White lines in print Be sure the document is placed face down on the scanner glass. See "Changing copy settings" on page 44. Gently wipe the scanner glass with a damp, clean, lint-free cloth. Try using another version of the document or image. See "Aligning the print cartridge" on page 56. See "Improving print quality" on page 57. Replace the print cartridge with a new cartridge. For more information, see "Replacing the print cartridge" on page 52. 70 Error messages troubleshooting Error Message Ink Low Solution Check the ink cartridge level, and install a new cartridge if necessary.

To check the ink cartridge level, open the Lexmark Solution Center. See "Using the Lexmark Solution Center" on page 25. To install a new cartridge, see "Replacing the print cartridge" on page 52. The Ink Low warning occurs when the cartridge is 25% full, 15% full, and 10% full. Paper Jam Paper Out Power light blinks twice See "Jams and misfeeds troubleshooting" on page 65. Load more paper into the All-In-One. @@1 Open the scanner unit. 2 Remove the print cartridge. @@3 Close the scanner unit. 4 If the blinking stops, reinstall the print cartridge.

@@@Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The FCC Class B limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. @@· Increase the separation between the equipment and receiver.

@@@@@Unauthorized changes or modifications could void the user's authority to operate this equipment. Note: To assure compliance with FCC regulations on electromagnetic interference for a Class B computing device, use a properly shielded and grounded cable such as Lexmark part number I2A2405 for USB attach. Use of a substitute cable not properly shielded and grounded may result in a violation of FCC regulations. Any questions regarding this compliance information statement should be directed to: Director of Lexmark Technology & Services Lexmark International, Inc. 740 West New Circle Road Lexington, KY 40550 (859) 232-3000 Industry Canada compliance statement This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

Avis de conformité aux normes de l'industrie du Canada Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada. European Community (EC) directives conformity This product is in conformity with the protection requirements of EC Council directives 89/336/EEC and 73/23/EEC on the approximation and harmonization of the laws of the Member States relating to electromagnetic compatibility and safety of electrical equipment designed for use within certain voltage limits. 72 A declaration of conformity with the requirements of the directives has been signed by the Director of Manufacturing and Technical Support, Lexmark International, S.A., Boigny, France. This product satisfies the Class B limits of EN 55022 and safety requirements of EN 60950. Japanese VCCI notice If this symbol appears on your product, the accompanying statement is applicable. Korean MIC statement If this symbol appears on your product, the accompanying statement is applicable. This equipment has undergone EMC registration as a household product. It can be used in any area, including a residential area.

Noise emission levels The following measurements were made in accordance with ISO 7779 and reported in conformance with ISO 9296. 1-meter average sound pressure, dBA Printing Idling ENERGY STAR 50 or less 0 The EPA ENERGY STAR Office Equipment program is a partnership effort with office equipment manufacturers to promote the introduction of energy-efficient products and to reduce air pollution caused by power generation. Companies participating in this program introduce products that power down when they are not being used. This feature will cut the energy used by up to 50 percent. Lexmark is proud to be a participant in this program. As an ENERGY STAR Partner, Lexmark International, Inc. has determined that this product meets the ENERGY STAR guidelines for energy efficiency. 73 Printer energy consumption The following table documents the energy power consumption characteristics of the printer. Mode Printing Copying Scanning Ready Off Description Product is generating hard copy output from electronic inputs Product is generating hard copy output from hard copy originals Product is scanning hard copy documents Product is waiting for a print job All-In-One is plugged into a wall outlet, but switch is turned off Power consumption 12 W 10 W 6.6 W 5W 4.

8 W The power consumption levels listed in the previous table represent time-averaged measurements. Instantaneous power draws may be substantially higher than the average. Power Saver As part of the ENERGY STAR program, this printer is designed with an energy saving mode called Power Saver. The Power Saver Mode is equivalent to the EPA Sleep Mode. The Power Saver Mode saves energy by lowering power consumption during periods of inactivity. The period of time between the last operation and entering Power Saver is called the Power Saver Timeout. For this product, the Power Saver Mode is entered after 0 minutes. The Power Saver Timeout cannot be modified by the user. Off modes This printer has an off mode which still consumes a small amount of power. To completely stop printer power consumption, disconnect the power supply from the wall outlet.

Total energy usage It is sometimes helpful to calculate the total printer energy usage.

[You're reading an excerpt. Click here to read official LEXMARK X2350 user guide](http://yourpdfguides.com/dref/1261417)
<http://yourpdfguides.com/dref/1261417>

Since power consumption claims are provided in power units of Watts, the power consumption should be multiplied by the time the printer spends in each mode in order to calculate energy usage. The total printer energy usage is the sum of each mode's energy usage. Waste from Electrical and Electronic Equipment (WEEE) directive The WEEE logo signifies specific recycling programs and procedures for electronic products in countries of the European Union. We encourage the recycling of our products. If you have further questions about recycling options, visit the Lexmark Web site at www.lexmark.com for your local sales office phone number. 74 Index A Advanced tab 26 All-In-One Center 15 All-In-One Center tabs Saved Images 17 Scanning & Copying 16 All-In-One parts 9 All-In-One software 12 copy troubleshooting 69 copying document 43 photos 45 photos, 4x6 46 Creative Tasks section 16, 17 customizing print settings 33 greeting cards 29 H How To tab 26 I I Want To menu 23 improving print quality 57 ink low 71 installing print cartridges 54 software 64 iron-on transfers 28 B banner paper 29 borderless printing 35 E editing document text (OCR) 42 graphics 20 e-mailing document 41 image 41 emission statement 72 envelopes 31 error messages Ink Low 71 Paper Jam 71 Paper Out 71 C cartridge aligning 56 cleaning 57 installing 54 ordering 60 preserving 59 removing 52 replacing 52 changing print settings 33 cleaning print cartridge nozzles 57 scanner glass 59 coated paper 30 Contact Information tab 26 control panel menus 11 using 11 Copy section 16 J jams and misfeeds 65 L Lexmark All-In-One Center 15 Lexmark Fast Pics 18 Lexmark Imaging Studio 13 Lexmark Photo Editor 20 Lexmark products ordering 60 recycling 60 Lexmark Solution Center (LSC) 25 Lexmark Solution Center tabs Advanced 26 Contact Information 26 How To 26 Maintenance 26 F Fast Pics 18 faxing receiving 48 sending 47 FCC statement 72 finding more information 7 G glossy paper 28 75 Printer Status 26 Troubleshooting 26 Lexmark Web site 60 loading 4 x 6 cards 29 banner paper 29 documents on scanner glass 32 envelopes 31 glossy paper 28 greeting cards 29 photo cards 29 photo paper 28 plain paper 28 transparencies 30 low ink 71 P paper exit tray 9 paper guide 9 paper jam 71 paper out 71 Paper Setup tab 24 paper support 9 paper, loading 27 photo cards 29 Photo Editor opening 20 task menus 21 using 20 photo paper 28 Photo Prints section 17 placing documents on the scanner glass 32 postcards 29 power light blinks twice 71 not lit 62 power supply cord 8 preserving print cartridges 59 Preview section 16 print cartridge aligning 56 cleaning 57 installing 54 ordering 60 preserving 59 removing 52 replacing 52 Print Layout tab 25 Print Properties I Want To menu 23 using 22 Print Properties tabs 24 print settings changing 33 customizing 33 print troubleshooting 66 Printer Status tab 26 printing M Maintain/Troubleshoot page links 18 maintaining the All-In-One 52 Maintenance tab 26 borderless photos 35 documents 33 photos 34 projects collating copies 36 creating a booklet 36 faxing 47 making a poster 36 printing a banner 36 printing a greeting card 36 printing a photo 36 printing last page first 36 printing on an envelope 36 scanning a photograph to e-mail 41 R receiving a fax 48 recycling 60 reinstalling software 64 removing print cartridge 52 software 64 replacing print cartridge 52 N networking 49 peer-to-peer method 50 point-and-print method 51 nozzles, print cartridge cleaning 57 wiping 58 S safety information 2 Saved Images tab 17 Scan section 16 scan troubleshooting 69 scanner glass cleaning 59 placing documents on 32 scanner unit 10 scanning 37 sending a fax 47 setup troubleshooting 61 software Lexmark All-In-One O OCR editing document text 42 Open with section 17 ordering supplies 60 out of paper 71 76 Center 15 Lexmark Fast Pics 18 Lexmark Imaging Studio 13 Lexmark Photo Editor 20 Lexmark Solution Center 25 Print Properties 22 reinstalling 64 removing 64 understanding 12 uninstalling 64 specialty paper banner paper 29 envelopes 31 greeting cards 29 photo/glossy paper 28 postcards 29 transparencies 30 supplies ordering 60 recycling 60 install 62 Troubleshooting tab 26 U understanding Lexmark Solution Center 25 Print Properties 22 uninstalling software 64 USB cable 60 W Web site, Lexmark 60 wiping print cartridge nozzles 58 T top cover 9 transparencies 30 troubleshooting All-In-One does not print or respond 67 Ink Low message 71 paper jam 65 Paper Out message 71 poor graphic quality 70 power light is not on 62 scanner or copier does not respond 69 scanner unit does not close 69 slow print speed 67 software will not 77 .
