..... 9 Product Handling  Do not let the camera get wet. Liquid getting into the camera could cause a short circuit.  Wipe the camera gently with a dry cloth to remove any dust or dirt. If the product is very dirty, spray a mild detergent on the cloth first.  Do not clean with thinner, alcohol, benzene or any other volatile agent.

. These may damage the product's surface or affect its operation.  Do not disassemble, repair or alter the product. Incorrect disassembly may cause a fire, electric shock, or injury.  Do not shake the camera.

Do not pull on the cable. Installation Instructions  Make sure you have enough space for connections when installing the product.  Do not install in a dusty, dirty or moist area.  Do not install in direct sunlight or near a heat source.  Magnetic objects, such as speakers, may interfere with the camera's operation.

Remove all the protective plastic bags (Vinyl) before use. . @All trademarks reserved. @holder Stand-Bottom Stand Activity.Indicator NOTE:  For best results when using

external speakers, only use the front right/left (stereo) speakers when using Skype.  When making a video call with Skype using a PC, the Skype software version for Windows should

be 4.2 or newer. (Visit the Skype homepage (www.skype.com) for operating systems other than Windows, e.g. OS X, Linux, etc.)  Video calls can not

be made to a Mac that runs Skype 2.8 or lower.  Content can be changed or deleted depending on Content Provider.  Please visit the content providers

web site for specific information on their services.  The software update screen will automatically appear when an update is

available. @content). @ Set up with the television switched off. @ menu, enter your Skype name and password.
