- Quick Installation

Internet Phone Adapter

with 2 Ports for Voice-over-IP

VoIP

Quick Installation

Model No. PAP2T

If you already have an account set up with your Internet phone service provider, then proceed to Step 1.

If you do not have an account set up, then go to the website of your Internet phone service provider and sign up for service. After you have set up an account, proceed to Step 1.

1 Connect the Internet Phone Adapter

Step 1 explains how to connect the Internet Phone Adapter to your network and telephones or fax machines. Shown below is a connection diagram displaying a typical setup with one Internet phone line.

A Connect the included Ethernet network cable to the ETHERNET port of the Internet Phone Adapter.

Connect the other end to one of your router's Ethernet ports.

B Connect the included power adapter to the POWER port of the Internet Phone Adapter.

Connect the other end to an electrical outlet.

C Using a telephone cable, connect your telephone to the PHONE 1 port of the Internet Phone Adapter.

D If you have a second Internet phone service account, then connect another telephone or a fax machine to the PHONE 2 port of the Internet Phone Adapter.

E The Power, Ethernet, and Phone LEDs will be solidly lit when the Internet Phone Adapter is ready for use.

F Follow the instructions provided by your Internet phone service provider.

NOTE: For information about your Internet phone service, refer to the materials supplied by your Internet phone service provider.
