The advertisement banner for the M-AUDIO MicroTrack II features a central image of a person playing a guitar with the recorder in the foreground. The text "It's all about the sound" is prominently displayed. To the left, a detailed diagram of the device shows various controls: power on/off button, volume knob, input level adjust, output level adjust, record button, and delete button. To the right, another diagram shows the back of the device with labels for the multi-function wheel, menu button, hold button, power switch, and phantom power. A central text box lists the included items: Pre-shaped stereo electret microphones, USB cable (USB A to Mini B, 1.7'), IEP preposition cable with loop plug (1.7'), Carabiner, and USB power supply. It also notes that the carrying case with the microphone is sold separately. The banner includes the M-AUDIO logo, website (www.m-audio.com), and the slogan "GET M-POWERED".

MicroTrack II Professional 2-Channel Mobile Digital Recorder The redesigned MicroTrack™ II brings even more professional features to the original high-fidelity mobile digital recorder that's been embraced by audio and film professionals worldwide. With an extended input gain range, analog input limiter, 48V phantom power, faster file transfer rate, multi-part recording of files beyond 2GB in size and other enhancements, MicroTrack II delivers the highest quality mobile recording experience available today. Simply record WAV (BWF) and MP3 files to CompactFlash or Microdrives through balanced line inputs or builtin microphone preamps--then drag and drop recordings to your computer via high-speed USB 2.0 for immediate editing or Web posting. MicroTrack II is perfect for a wide variety of applications including field recording, capturing live shows, songwriting, education and more. Key Features SuperiorAnalogInputLimiter The MicroTrack II analog limiter attenuates signal peaks before they are converted to digital--preserving the warm analog sound of your recordings. This carefully designed signal path provides far better gain reduction than the digital limiters found in other recorders. Applications RecordLiveMusic MicroTrack II makes it easy to record a wide variety of sound sources--from band rehearsals and instrument lessons to choir performances and live gigs. Just plug in the included stereo electret microphone, power up your MicroTrack II and start recording. Capturing high-SPL sources is no problem thanks to an extended input gain range and built-in analog input limiter.

@@@@@@@@@@@@@@@@@@@@@@@@@@@@@@@@@@@@Musicians can upload tracks to MySpace, while speakers can prepare podcasts for digital distribution. Producers can import recordings directly into Pro Tools for editing and processing. Educators can post classes, lectures and seminars without delay. Faith-based organizations can broadcast worship services. Professional presenters can create and sell back-end collateral content almost instantly--and the list goes on. Recording Time vs. Media Chart WAV Recording Time in Hours:Minutes:Seconds TheProfessionalChoice M-Audio's MicroTrack handheld recording technology has been embraced across the digital media production spectrum. From cuttingedge music producers and Hollywood sound designers to top-shelf video game developers and photojournalism agencies, working pros depend on the MicroTrack for reliability and pristine sound quality. They've tested the unit in all kinds of conditions--so you know your MicroTrack II will deliver every time.
