INDIVIDUAL TECHNOLOGY

**MAXDATA FAVORIT 3000 A**

**All around system for powerful business computing:  
The MAXDATA FAVORIT 3000 A**

Quiet operation despite powerful performance. Excellent graphics and high security for day-to-day business tasks: The FAVORIT 3000 A is a powerful all-rounder for professionals.

The FAVORIT 3000 A from MAXDATA proves that high performance and low noise are possible at the same time. The PC system is able to achieve this goal through the use of an AMD Athlon™ 64 processor. Its Cool'n'Quiet™ technology adapts the CPU performance to the particular performance requirement to reduce noise, power consumption and heat generation. An S-ATA RAID controller supports performance and data security while integrated NVIDIA® GeForce™ 6150 graphics combine the best multimedia features with a reasonable price. Likewise, security does not get short shift: Hardware-based and user-friendly NVIDIA ActiveArmor™ firewall is integrated directly into the platform processor to protect the FAVORIT 3000 A from data theft of all sorts.

**Key features:**

- AMD Athlon™ 64 processor with "Cool'n'Quiet™" technology
- Integrated NVIDIA® GeForce™ 6150 graphics
- NVIDIA ActiveArmor™ firewall

**Application areas:**

- Professional users in companies of all sizes
- Open-plan offices
- Multimedia applications
- Environments with high security requirements
