#### The Business PC With Guaranteed Image Stability

Investment security is the key advantage offered by the FAVORIT 3000 I. All of the components are selected with a view to image stability. Because of this, the FAVORIT 3000 I allows for particularly long-term planning for IT structures. Due to its extensive management tools, it is suitable, above all, for use in network environments.

With its focus on the stability of the components employed, the FAVORIT 3000 I ensures investment security and allows for particularly long-term planning of IT structures. With extensive management tools, the FAVORIT 3000 I is optimum for use in mid-sized and large network environments. MAXDATA follows Intel's Granite Peak program for stable platforms, an initiative from Intel and leading hardware and software partners in the IT industry. The continuity of the individual components used makes it possible to use identical images and therefore reduces operating costs.

With Microsoft® Windows® XP Professional, MAXDATA PCs possess the most stable Microsoft® operating system of all time. The improved security functions protect against unauthorized access, data loss, viruses, and hackers.

#### Highlights:

- Guaranteed image uniformity
- Management functions
- Investment security

#### Application areas:

The MAXDATA FAVORIT 3000 I PC is designed for professional users in any size company.

MAXDATA UK Limited, The MAXDATA Centre, Downmill Road, Bracknell, Berkshire, RG12 1GS, UK, [www.maxdata.com](http://www.maxdata.com)
