MAXDATA recommends Windows® XP Professional for Business.

**MAXDATA**  
INDIVIDUAL TECHNOLOGY

**MAXDATA PRO 600 IW**

**Mobility is a new dimension:  
The MAXDATA PRO 600 IW**

The third Intel® Centrino® generation – Intel® Centrino® Duo mobile technology – is the first to use a dual core processor in a mobile computing system. The new Intel® 945 Express chipset technology makes the PRO 600 IW a notebook with powerful features when it comes to complex applications requiring multi-tasking.

The dual core processor is supported by a 2 MB cache, which means that the cores are closely connected to make working with several programs at a time faster – without sacrificing performance. This results in an outstanding improvement in performance. And all of this without taking up a lot of space. The PRO 600 IW has a 14.1 inch WXGA screen that requires less space on the desktop thanks to the new form factor. A new WLAN module provides better connectivity while the Intel® Media Accelerator 950 that is integrated into the chipset provides brilliant graphics performance.

**Key Features**

- Impressive multi-tasking features
- 14.1 inch WXGA screen and Intel® Media Accelerator 950 for first-class display quality
- Improved connectivity owing to Gbit LAN, new WLAN technology and Bluetooth
- Battery life up to 4 hours
- Port replicator connection

**Application Areas**

- Working environments with limited space
- Simultaneous work with several applications
- Business users with high demands with regards to flexibility and performance
