MAXDATA recommends Windows® XP Professional for Business.

MAXDATA
INDIVIDUAL TECHNOLOGY

MAXDATA PRO 800 IW

Powerful as well as practical:
The MAXDATA PRO 800 IW

The impressive performance and a hand some set of features paired with compactness and a light-weight design make the MAXDATA PRO 800 IW the ideal notebook for professional users who are often on the move.

Intel® Core™ Duo, a dual-core processor technology, affords the MAXDATA PRO 800 IW multi-tasking capabilities without sacrificing performance. In addition, the Intel® 945 GM Express notebook chipset is equipped with a 128 MB Intel® Media Accelerator 950 for powerful performance. This allows for data throughput speeds of up to 25 times that of its predecessor generation. And, with a 12.1" WXGA display, the PRO 800 IW is also extremely flexible and easy to handle. A sleek profile and weight of only 1.9 kilograms along with the outstanding battery life of up to four hours all contribute to the overall appeal of the system. The PRO 800 IW is equipped with WLAN and Bluetooth as well as an integrated UMTS card.

Key Features

- The Intel® Core™ Duo Processor allows for multi-tasking applications like never before
- More speed, a better multimedia experience
- Powerful 12.1" WXGA display
- Extremely light - weighs only 1.9 kilograms
- Four hours of battery life guarantee a great amount of independence
- Optional UMTS

Application Areas

Business users with high demands with regards to performance, scalability and mobility.

Not all Windows Vista™ features are available for use on all Windows Vista Capable PCs. All Windows Vista Capable PCs will run the same core version of Windows Vista, such as introduction in operating and finding information, security, and stability. Some features available in certain editions of Windows Vista - like the new Windows® Aero™ user interface - require advanced or additional hardware. Check www.microsoft.com/vista for details.
