INDIVIDUAL TECHNOLOGY

**MAXDATA PRO 8100 IWS**

**Mobile computing for true professionals:**  
The MAXDATA PRO 8100 IWS

Powerful performance and an excellent range of features make the PRO 8100 IWS notebook an intriguing partner for modern mobile computing.

The Intel® Core™ Duo T2300E CPU is the first dual-core processor for notebooks and allows notebook users the possibility to work with multiple programs at the same time. Processor-intensive programs can be executed parallel without sacrificing performance. The ATI RADEON® X1600 graphics card offers an equitable amount of memory combined with the W5XGA+ which provides a brilliant display. A "multibay" guarantees there is sufficient room for upgrades while a docking station and several other features give the MAXDATA PRO 8100 IWS a powerful degree of connectivity. A fingerprint sensor and TPM technology make the notebook especially secure. Finally, a battery life exceeding three hours rounds off the many mobile features of the PRO 8100 IWS.

**Key Features**

- The Intel® Core™ Duo Processor provides multi-tasking without limitations
- The ATI RADEON® X1600 graphics card with 256 MB of dedicated memory realises the brilliant display quality.
- The W5XGA+ display turns multimedia into a true happening
- Multibay for intelligent upgrades
- The fingerprint sensor and Trusted Platform Module (TPM) prevent unauthorised access to data
- The docking station and a variety of features guarantee a formidable level of connectivity

**Application Areas**

The MAXDATA PRO 8100 IWS is the all-in-one notebook that gives professional users an outstanding and broad range features.

Not all Windows Vista™ features are available for use on all Windows Vista Certified PCs. All Windows Vista Certified PCs will run the same core services of Windows Vista, such as introduction to operating system, firewalls, security, and reliability. Some features available in certain editions of Windows Vista - like the new Windows® Aero™ user interface - require advanced or additional hardware. Check www.microsoft.com for details.
