### BLACKARMOR® NAS 110 CENTRALIZED NETWORK STORAGE

Interface 10/100/1000 Ethernet, USB 2.0  
Capacities 1TB, 2TB

#### Perfect for when you need to:

- Store and access files from a central location.
- Access and manage files remotely.
- Stream media to DLNA-compliant devices or computers running iTunes® software.
- Automatically perform full-system backups on network-connected PCs.
- Secure files with hardware-based encryption.
- Share a USB printer with network-connected PCs and Macs.

The BlackArmor® NAS 110 server is a network attached storage solution designed to provide centralized storage, data backup and media streaming for up to 10 PCs. Help protect important data with a automatic full-system backup, SafetyDri™ bare metal recovery software and powerful hardware-based encryption.

#### Highlights:

- Designed to provide centralized storage and data backup for up to 10 PCs.
- Protect network connected PCs with incremental and full-system, automatic backup.\*
- Secure files with powerful hardware-based encryption.
- Functions as an FTP server, enabling remote file access.
- Stream media to DLNA-compliant devices and computers running iTunes® software.
- OneTouch™ backup button duplicates files from storage devices such as digital cameras and USB drives connected to the front USB port.
- Includes a reliable Seagate® hard drive.
- Connect external drives, share a printer or utilize an uninterrupted power supply with the two USB 2.0 ports.
- Event email notification.
- 3-year limited warranty.

#### Connectivity

- One Ethernet port for local network connection, auto-sense management and remote access.
- Two USB 2.0 ports for external drives, digital cameras and power supplies (UPS).
- One internal SATA II port.
