BLACKARMOR[®] | WS 110
External Storage & Backup System

Interface USB 2.0, eSATA
Capacities 1TB, 2TB

Perfect for when you need to:

- Have extra data storage space for your PC or server.
- Securely back up files.
- Recover your entire system from a PC crash.
- Protect backed up files with encryption.

Business-grade backup solution for PCs and servers

Business-grade software, a reliable Seagate[®] hard drive and incredibly fast eSATA / USB connectivity make the BlackArmor[®] WS 110 drive a powerful external storage and backup solution for your digital assets. The BlackArmor Backup software, preloaded on the drive, offers full-system backup, which includes the operating system, all of your programs, settings, email... Everything Plus, you can choose to safeguard your backed up files with AES 256-bit government-grade encryption.

If you accidentally delete a file or lose data due to a computer crash, you can easily recover individual files or revert your entire system back in time before the problem occurred, all with the included SafetyDra[™] recovery software.

The Try & Decide feature allows you to create a secure, controlled temporary workspace on your computer. You can try out new programs or change system settings without having to worry about losing data or damaging your system. When finished experimenting, simply decide to keep the changes or discard the recent activity as if it never happened.

The BlackArmor WS 110 drive has the option to lie flat or stand vertically to blend into your work environment.
