Tip: To save battery life, see "Battery tips" on page 26.

Let's go 3 Set up & go Create or log into a MOTOBLUR account to get your contacts, email, messages and status information, for all your accounts, all in one place, all the time. There's more in "Your MOTOBLUR account" on page 11. Registration is secure and should only take a few minutes: 1 Turn on. 2 Select a language. 3 Register, log in. To create a MOTOBLUR account, enter your name, your email address (for account information) and a new MOTOBLUR password.

Tip: Open your phone to type. Your name: e.g. John Smith MOTOBLUR ID: Enter email address Password: Password Back Creating your MOTOBLUR account..

. Next 4 Add your accounts to MOTOBLUR. Facebook Myspace T Twitter Last FM Photobucket Picasa Touch an account type, then enter the username or email address and password that you set up on that account. This step imports the contacts saved on your SIM card. 5 After you finish, your home screen appears.

Touch , then touch Menu > More > Settings > Import from SIM card. Touch OK to confirm. You can add other accounts later in "Add account" on page 11. Turn it on & off To turn on your phone, press Power on top of your phone. To turn off your phone, press and hold Power , then touch Power off in the menu that appears. 4 Let's go Wi-Fi connect If you want to use a Wi-Fi network for even faster Internet access, touch Menu > Settings > Wireless controls > Wi-Fi settings. Touch Wi-Fi to search for and connect to wireless networks. There's more in "Wi-Fi" on page 44. Of course it doesn't stop there. There are plenty of ways to protect your phone and your information, in "Security" on page 50.

Cool content & more Browse and download thousands of the coolest apps on the planet from Android. On top of that, you get a full HTML browser, so you can surf in style. Download new apps with "Apps for all" on page 42. Your phone comes with a microSD memory card installed--you can fill it with photos, videos and music from your computer using "Transfer files with a USB connection" on page 45. Note: Do not remove your memory card while your phone is using it or writing files to it. Security Your contacts are backed up on MOTOBLUR, so don't worry. Even if you lose your phone, MOTOBLUR can help you find it or wipe it. When you receive your next MOTOBLUR product, your stored info makes it a breeze to set up with just a username and password. Let's go 5 Touchscreen & keys a few essentials Drag To scroll through a list or move slowly, drag across the touchscreen. Try it: on the home screen, touch Contacts, then drag your list up or down.

Tip: When you drag or flick a list, a scroll bar appears on the right. Drag the scroll bar to move the list to a letter from A - Z. Flick Contacts: All contacts Touch tips Here are some tips on how to navigate around your phone. Touch To choose an icon or option, touch it. Try it: on the home screen, touch Contacts.

Voicemail Find it: 14 Calls Dialler > · To send a text message, create a contact, view a contact, add the call to speed dial or other options, touch and hold an entry.

[You're reading an excerpt. Click here to read official MOTOROLA BACKFLIP user guide](http://yourpdfguides.com/dref/3771172)  
<http://yourpdfguides.com/dref/3771172>

· To filter the list, touch the view name (such as All calls) at the top. · To clear the list, touch Menu . Emergency calls Note: Your service provider programmes one or more emergency phone numbers (such as 000 or 112) that you can call under any circumstances, even when your phone is locked. Emergency numbers vary by country. Your pre-programmed emergency number(s) may not work in all locations, and sometimes it may not be possible to place an emergency call due to network, environmental or interference issues. 1 Touch Dialler (if your phone is locked, touch Emergency call or touch Menu > Emergency call).

Frequent calls Find it: Dialler > Frequent · To call a number, touch it. · To send a text message, view a contact, add the call to speed dial or other options, touch and hold an entry. Conference calls To start a conference call, call the first number. After the person answers, touch Menu > New call and call the next number. When the next number answers, touch Menu > Join.

2 Enter the emergency number. 3 Touch Call to call the emergency number. Note: Your mobile device can use AGPS satellite signals to help emergency services find you (see the important legal and safety information packaged with your phone). Your phone number Find it: Menu > Settings > About phone > Status > Phone number Call forwarding & waiting You can forward calls all the time, or only when your phone is busy, unanswered or unreachable (not on the network): Find it: Menu forwarding Your caller ID To hide your number from the people you call, touch Menu > Settings > Call settings > Additional call settings > Caller ID > Hide number. > Settings > Call settings > Call Calls 15 When you're on a call and a second call comes in, Call waiting lets you answer it by touching Answer.

You can turn off Call waiting, to send second calls straight to your voicemail: Find it: Menu > Settings > Call settings > Additional call settings > Call waiting Contacts contacts like you've never had before Quick start: Contacts Find it: Contacts: All contacts Contacts Group Press Menu to choose which group to display (like All, Favourites or Facebook). Create contacts Contacts list Touch to view contact information. Touch & hold to edit, delete and more. Views Touch a list view or flick the display right or left to show: History - recently used A-Z - list without status Status - list with status Restrict outgoing calls To restrict your phone so that it can only dial a few numbers: Find it: Menu dialling number Alex Pico Dan Smith Kate Shunney Keith Zang Luke Carmody Mariana Bukvic History A-Z Status > Settings > Call settings > Fixed · To turn fixed dialling on, touch FDN disabled. · To add or delete allowed numbers from the list, touch Manage FDN list. Tip: To search the list, open your phone (or touch and hold Menu to open a display keypad), then type a name. When you flick or drag this list, a scroll bar appears on the right. Drag the scroll bar to move the list faster. 16 Contacts Import contacts from your SIM Note: You might have done this already during "Set up & go" on page 4. If you need to import the contacts from your SIM card, Contacts, then touch touch Menu > More > Settings > Import from SIM card.

touch Menu > Settings > Accounts > Menu > Picture source. · To change the list view, touch History (recently used), A-Z (list without status) or Status (list with status) at the bottom. · To find a contact, just type the name. Touch a contact to open their details. To start a call or compose a message, just touch their phone number or other info. You can touch History, Info or Happenings at the bottom of the screen to see more. Call, text or email contacts Find it: Contacts For Call, Send text message, Email, View contact or other options, touch and hold the contact. Edit or delete contacts Find it: Contacts View & use contacts With a MOTOROLA BACKFLIP with MOTOBLUR, you'll know what everybody's up to and when. Every time you answer a call, check a message or look up a friend's contact info, not only will you see their name and number, but you'll also see their social network status and smiling face as well. Find it: Contacts Touch the contact, then touch Menu > Edit or Delete.

You can set a ringer, address and other details that will be saved on your phone and your MOTOBLUR account. Where are contacts edited or deleted? Your phone edits the contacts in its memory and also updates your MOTOBLUR account. Your changes won't affect your SIM card. · To filter the contacts by group (All, Facebook, etc.), touch the filter name at the top.

Tip: To change which account provides the pictures for your Contacts, from the home screen Link contacts You might have two Contacts for the same person, maybe a Facebook friend who is also stored on your Contacts 17 SIM card, or one friend with two email addresses. To combine these two contacts: Find it: Contacts Touch a contact to open it, then touch Menu > Link contact and touch the second entry. Your MOTOBLUR account remembers this connection. Create contacts Find it: Contacts > Menu Where are contacts saved? Your phone saves new contacts in its memory, your MOTOBLUR account and other accounts you select: In Contacts, touch Menu > More > Settings to choose which accounts are updated. New contacts won't be on your SIM card, but they will be downloaded to any new MOTOBLUR phone when you log into your MOTOBLUR account.

> Add contact Synchronise contacts Tip: Your phone works best if you have fewer than 2,000 Contacts. When you change one of your Contacts, your phone automatically updates your MOTOBLUR account online. Your phone also updates your Contacts and MOTOBLUR account whenever you change a friend in your social networking accounts. So you don't have to do anything to synchronise your Contacts with your other accounts! MOTOBLUR takes care of it for you. Open your phone to type the name and details. Touch Mobile to choose a different type for this entry. Add contact + adds another entry. - removes this entry. First, last Adam Aaronson Phone Mobile Phone My details Emails Find it: details Contacts > Menu > View my To see more details, flick up. To edit details, touch them.

> Save. When you're finished, touch Menu 18 Contacts Groups You can put your Contacts into groups that you create (like "friends", "family" or "work"). You can then find contacts faster by showing one group at a time. > To create a group in your Contacts, touch Menu Add group. Enter a group name, then touch Add to add members. To show only one group in your Contacts, touch Contacts at the top of your screen and choose the group name.

Messaging sometimes it's best to text, IM or email . . . Quick start: Messaging Find it: > Messaging > Universal inbox Check for messages now 8:34 PM Universal inbox (4) Alex Pico Some guys have all the luck - me.

.. Right now, you're busy flexing...

Seth Rementer 25 Sep The cinnamon bun place is right next to the store. It's like 8 hours... Create message Touch to create a new message and see a list of your drafts (indicated by the number).

Message type Message list Touch to open a message. Touch & hold to move, delete and more. Message status Icons indicate: unread urgent has attachments

Keith Zang 25 Sep Job It's only a freelance gig, but it pays... Kate Shunney 25 Sep I have so much energy today, I have no IDEA why. Tip: To see more messages, flick or drag up. Read & reply to messages Every text, email, friend-feed, wall post and bulletin is automatically delivered to you, ready for you to reply instantly using the flip-open keypad. The best part is that you don't have to dig through any apps, screens or menus--every message streams right to the phone, for you to view exactly the way you want. Messaging 19 Find it: > Messaging > Universal inbox Send & receive attachments To send a file in a message, open a new message, touch Menu > Attach files and choose the file.

When you receive a message with an attachment, open the message and touch the file name to download it. Then, touch the name again to open it. Some file formats can be converted to HTML for faster viewing. Your phone will show a button that says Get HTML version. Note: Universal inbox shows all of your messages together--text, email and social networking messages. To show only one type of message, touch a message account type instead of Universal inbox. To open a message and all of its replies, touch it. To respond to a message, just open it and enter your response in the text box at the bottom. To forward a text message, touch and hold a message in the conversation, then touch Forward message. Tip: To send and receive large attachments faster, use a Wi-Fi connection, in "Wi-Fi" on page 44.

For email, touch to choose a reply or forward option. To open options, touch and hold a message. Tip: Try the Messages widget in "Widgets" on page 27. Set up messaging To add email accounts, touch Menu Accounts > Add account. > Settings > Corporate Sync is for Exchange server work email accounts.

Enter details from your IT administrator. Tip: You might need to enter your domain name with your username (like domain/username) Note: Some work accounts might require you to add a password lock to your phone, for security. To stop an account from showing the contacts you create on your phone, touch Contacts, touch Menu > More > Settings, then untick the account under New contacts. Create messages Find it: > Messaging > Messaging Choose a message type. Then enter the recipient and message.

In text messages and emails, touch Menu to add files or choose other options. 20 Messaging Email is for most personal email accounts. For account details, contact the account provider. Note: While you are using a Wi-Fi network, you will not be able to access Yahoo Mail accounts. You can still use your browser to see these accounts at mail.yahoo.com. To change your settings, touch > Menu, then touch: > Messaging your phone. If you don't have accounts, you can visit the relevant websites to set them up. on page 11.

Instant messages To send and receive instant messages, you can use an instant messaging app or your browser. To download and use an instant messaging app, touch > Market > Applications > Communication, then choose an app for your provider. Once you have downloaded the app, you'll see it in "Main menu" on page 10. If you don't see an app for your IM provider, you can use your web browser. Touch > Browser > Menu > Go, then enter your provider's website. Once you're there, follow the link to sign in. Note: Your IM options will depend on your IM provider. To browse instant messaging apps from your computer, go to www.android.com/market.

Manage accounts to change your username or password (or server settings, for email). Edit universal inbox to choose which accounts show messages in the Universal inbox. Messaging settings to set the notification for each account type (along with other preferences, for email). To get Google Mail™ in your Messages widget and Universal inbox, you'll need to add it as an Email account: Touch > Messaging > Menu, then touch Manage accounts > Add account > Email and enter your Google Mail™ details. If you added your Google account too, turn off its email sync to avoid duplicate email notices: Touch > Account settings, touch your Google™ account and touch the tick mark to turn off Google Mail.

Tip: For social network accounts, see "You can add your Facebook, MySpace, Twitter or other accounts to Voicemail When you have a new voicemail, appears at the top of your screen. To listen to the voicemail, touch Dialler, then touch and hold. If you need to change your voicemail number, on the home screen touch Menu > Settings > Call settings > Voicemail. .. Delete a widget or shortcut Touch and hold a widget or shortcut until you feel a vibration, then drag it to the bin at the bottom of your screen. · email updates: Touch Messaging > Menu > Messaging settings > Email > Get new email > Every hour or Manually. · Google™ app updates: Touch Menu > Settings > Google synchronisation > Background data.

· network speed: Touch Menu > Settings > Wireless controls > Mobile networks > Select network > 2G only saves battery. · network searching: If you are out of coverage, to prevent your phone from looking for networks, press and hold Power to open the Power key menu, then touch Flight mode. · display brightness: Touch Menu > Settings > Display & security > Brightness > (dimmer setting). · display timeout delay: Touch Menu > Settings > Display & security > Screen timeout > (shorter setting). Battery tips Your phone is like a small computer, giving you a lot of information and apps, at 3G speed, with a touch display! Depending on what you use, that can take a lot of power. So, if you want to save battery life between charges, you could reduce: · the number of videos you watch or record, the amount of music you listen to or the number of pictures you take. · the number of widgets that stream information to your home screen, like news or weather ("Use & change your home screen" on page 9). · unused online accounts that you registered with MOTOBLUR ("Edit & delete accounts" on page 12). · GPS, Wi-Fi and Bluetooth™ use: Press and hold Power to open the Power key menu, then touch items to turn them off or on. 26 Tips & tricks Personalise add your personal touch · Messages: Change the widget name or choose how long it shows new messages.

To add email accounts, see "Set up messaging" on page 20. · Music: Set this widget to an artist, album, song, playlist or just touch Menu > Party shuffle.

There's more about "Music" on page 32. · News: Change the widget name, choose how long it shows new stories or choose a news source. To choose a source, touch , then choose preset Bundles or Channels, or choose Custom to enter a URL for a Webpage or an RSS feed. · Weather: Change temperature units or add locations. To add locations, touch , enter a city and touch Search. When you open the weather widget, flick left to see other locations you have added. Note: Some apps have custom widget types that you can add and set up after you install the app. Widgets Create widgets 1 Find an empty spot on your home screen where you want to add a widget.

You can flick left or right to open other panels on your home screen. 2 Touch and hold the empty spot until you see the Add to Home screen menu. 3 Touch Widgets. 4 Touch the type of widget. If necessary, enter the widget settings.

Set up widgets You can customise some widgets. Touch a widget to open it, then touch Menu : · Happenings: Update your status, choose which accounts appear in this widget or manage your accounts (the same as "You can add your Facebook, MySpace, Twitter or other accounts to your phone. If you don't have accounts, you can visit the relevant websites to set them up. on page 11). · Ringtones To change your ringtone and notifications, touch Menu > Settings > Sound & ringtones.

To set vibrate for messages, touch > Messaging > Menu > Messaging settings > Text messaging, Email or Social messaging. Personalise 27 Tip: To use a song as a ringtone, touch > Music > Songs, touch and hold the song name, then touch Use as phone ringtone. features set animation Menu > Settings > Display & security > Animation Sounds features set volume for media and videos Menu volume Quick launch shortcuts To use a quick launch shortcut, press and hold Search on the keypad, then press the assigned key, such as Search and B to launch the browser. > Settings > Sound & ringtones > Media play tones when using dial pad Menu > Settings > Sound & ringtones > Audible Date & time Set date, time, time zone and formats: Find it: Menu > Settings > Date & time touch tones play sound on screen selection Menu selection > Settings > Sound & ringtones > Audible Language & region Set your menu language and region: Find it: Menu locale Display settings features set display brightness Menu > Settings > Display & security > Brightness > Settings > Locale & text > Select set orientation Menu 28 > Settings > Display & security > Orientation Personalise Photos & videos see it, capture it, share it! To take the photo, lightly press Camera halfway until the autofocus box turns green, then press all the way to take the photo.
