... 58 Contents 3 Let's go let's get you up and running *Caution: Please read "Battery Use & Safety" on page 58. Note: GSM and UMTS-based global services work only with a SIM card supplied by Verizon Wireless® or by another GSM or UMTS service provider. When you set your phone to use a GSM 900/1800 or UMTS 2100 network (see "Select a network" on page 12), you may be prompted to enter a subsidy code. To get this code, contact Verizon Wireless. Tip: To save battery life, see "Battery tips" on page 25. Assemble & charge 1 microSD in (may be already inserted) 2 SIM in (already inserted) Set up & go 3 Battery in 4 Cover on The first time you turn on your phone, a setup wizard guides you through signing in to your Gmail™ account. If you don't have one, don't worry, the wizard will help you create one.*

After you log into Gmail, you can set up social networking, or you can do it later. 5 Charge up *Note: This phone supports data-intensive apps and services. It is strongly recommended that you purchase a data plan that meets your needs. Contact your service provider for details.* 3H 4 Let's go 1 Press and hold Power on top of your phone to turn it on. 2 Select a language. 3 Follow the setup wizard to create or log in to your Gmail account. *Note: If you have an existing Gmail account, your contacts from that account are synced to your phone. Whenever you choose to select all contacts for the one you want, your phone shows every contact, in every group. Touchscreen & keys a few essentials Touchscreen on/off Your touchscreen is on when you need it and off when you don't.*

· To make your touchscreen sleep or wake up, just press Power . · When you hold the phone to your ear during calls, your touchscreen sleeps to prevent accidental touches. · To change how long your phone waits before the screen goes to sleep automatically, touch Menu > Settings > Display > Screen timeout. · To make the screen lock when it goes to sleep, use "Screen lock" on page 55. To unlock the screen, press Power or open the phone.

Then, drag to the right. *Note: Your touchscreen might stay dark if the sensor just above it is covered. Don't use covers or screen protectors (even clear ones) that cover this sensor. To find Motorola accessories for your phone, visit [www.motorola.com/products](http://www.motorola.com/products).*

Wi-Fi® connect If you want to use a Wi-Fi network for even faster Internet access, touch Menu > Settings > Wireless & networks > Wi-Fi settings. Touch Wi-Fi to search for and connect to wireless networks. There's more in "Wi-Fi®" on page 48. Cool content & more Browse and download thousands of the coolest apps on the planet from Android Market™. Download new apps with "Apps for all" on page 45. Your phone comes with a microSD memory card installed--you can load it up with photos, videos, and music from your computer (see "Memory card" on page 50). Touchscreen & keys 5 Touch tips Here are some tips on how to navigate around your phone. Touch To choose an icon or option, touch it. Text Messa Browser Market Voicemail Drag To scroll through a list or move slowly, drag across the touchscreen.

Try it: In the home screen, touch Contacts, then drag your contact list up or down. Tip: When you drag or flick a list, a scroll bar appears on the right. Drag the scroll bar to move the list to a letter A - Z. Flick To scroll through a list or move quickly, flick across the touchscreen (drag quickly and release). Tip: When you flick a long list, touch the screen to stop it from scrolling. Zoom Get a closer look at Google Maps™, web pages, or photos. To zoom in, double-touch (tap twice, quickly) on the screen. To zoom out, double-touch the screen again. 3 :00 PM Contacts: A-Z Contacts: All contacts Arthur Baudo Barry Smyth Cheyenne Medina Christine Fanning Jim Somers Kat Bleser Kristin Cullen Touch & hold To open special options, touch and hold an icon or other item.

When you move the phone away from your ear, the display lights up again.

[You're reading an excerpt. Click here to read official MOTOROLA DROID 2 GLOBAL user guide](http://yourpdfguides.com/dref/3809451)  
<http://yourpdfguides.com/dref/3809451>

· To call a number, touch it. · To send a text message, view a contact, or other options, touch and hold an entry. Conference calls To start a conference call, dial the first number. After the call connects, touch Add Call. Dial the next number, or select it from contacts or favorites.

When the next number answers, touch Merge calls. 14 Calls Your phone number Find it: Menu > Settings > About phone > Status > My phone number Note: Your mobile device can use GPS and AGPS signals to help emergency services find you. See "GPS & AGPS" on page 63. TTY mode Your phone can use an optional teletypewriter (TTY) device, for people who are hard of hearing or have a speech impairment. 1 Plug the TTY device into the phone's headset connector. 2 Touch Menu > Settings > Call settings > TTY mode and choose a TTY setting. Cool down In very limited circumstances, such as where your phone has been exposed to extreme heat, "Cool Down" message screens will appear. To avoid possible damage to your battery and phone, you should follow these instructions until the phone is within its recommended temperature range. When your phone is in "Cool Down" mode, only emergency calls can be made. Emergency calls Note: Your service provider programs one or more emergency phone numbers (such as 911 or 112) that you can call under any circumstances, even when your phone is locked.

Emergency numbers vary by country. Your pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues. 1 Touch Phone (if your phone is locked, touch Emergency Call). 2 Enter the emergency number. 3 Touch to call the emergency number.

Calls 15 Contacts contacts like you've never had before you flick or drag the list, drag the scroll bar that appears to move the list faster. Quick start: Contacts Find it: Contacts Call or email contacts Find it: Contacts Tip: You can also touch Launcher icon Contacts. > Contacts: A-Z For View contact, Call contact, Send text message, Send email, or other options, touch and hold the contact. Contacts: All contacts Arthur Baudo Barry Smyth Group Touch Menu to choose which group to show (like All or Favorites). View & use contacts When you set up a social networking account (see "Social networking" on page 21), you'll know what everybody's up to and when.

Every time you pick up a call, check a message, or look up a friend's contact info, you'll see their name and number, but you can see their social network status and smiling face, too. Find it: Contacts Create Contacts Cheyenne Medina Christine Fanning Jim Somers Kat Bleser Kristin Cullen Contacts List Touch to view contact information. Touch & hold to call, send a text message, & more. · To find a contact, just type the name. Touch a contact to open its details. While viewing details, you can start a call or message by touching a phone number or other info. Flick the screen left or right to see Social Networking updates or History. Tip: To change which account provides the pictures for your contacts, from the home screen touch Launcher icon > My Accounts, then touch Menu > Picture source. Tip: To search the list, touch and hold Menu to open a touchscreen keypad, then type a name. When 16 Contacts · To change which group of contacts is shown (All, Facebook, and so on) touch the filter name at the top.

· To change how you view the list of contacts, flick left or right at the bottom of the screen to select History (recently used), A-Z (list without status), or Status (list with status). Create contacts Find it: contact Touch to select a picture for the contact. 1:53 PM Contacts, then touch Menu > Add Add contact Edit or delete contacts Find it: Delete. Contacts Sara Walker Touch to add more name details. Touch to add another number. Discard changes Touch the contact, then touch Menu > Edit or Phone Mobile 555-555-2385 Link contacts You might have two contacts for the same person, such as a friend with two email addresses. To combine these two contacts: Find it: Contacts Save Touch to remove this number. To see more details, flick up. Touch to set the number type. Touch a contact to open it, then touch Menu > Link contact and touch the second entry.

Your social networking account remembers this connection. Slide out the keypad, or touch any entry area to open the touchscreen keypad. When you're finished, touch Save. Where are contacts saved? Your phone saves new contacts in its memory and to your Google™ account. It also updates your social networking account.

Contacts 17 Synchronize contacts When you change one of your contacts, your phone automatically updates your other social networking accounts. Also, your phone updates your contacts and social networking account whenever you change a friend in your social networking accounts. Messaging sometimes it's best to text, or IM, or email . . .

[DROID 2 GLOBAL user guide](http://yourpdfguides.com/dref/3809451)

<http://yourpdfguides.com/dref/3809451>

Send & receive attachments To send a file in a message, open a new message and touch Menu > Insert.

When you receive a message with an attachment, open the message and touch the file name to download it. Then, touch the name again to open it. Some file formats can be converted to HTML for faster viewing, and your phone will show Get HTML version. While viewing the attachment, touch it to save it, share it, and more. Tip: To send and receive large attachments faster, use a Wi-Fi® connection, in "Wi-Fi®" on page 48. For email, touch to choose a reply or forward option. To open options, touch and hold a message. Tip: Try the Messages widget in "Widgets" on page 40. Messaging 19 Set up messaging To add email accounts, touch Launcher icon My Accounts > Add account. > Corporate Sync is for Exchange server work email accounts.

Enter details from your IT administrator. Tip: You might need to enter your domain name with your user name (like domain/username). Email is for most personal email accounts. For account details, contact the account provider. Note: While you are using a Wi-Fi network, you cannot access Yahoo Mail accounts. You can still use your browser to see these accounts at mail.yahoo.com. To change your settings, touch Launcher icon Messaging, touch Menu, then touch: > Manage accounts to add or remove an account. Edit Universal Inbox to choose which accounts show messages in the Universal Inbox. Messaging Settings to set the notification for each account type (along with other preferences, for email). Tip: For social network accounts, see "Add accounts" on page 21. Email The first time you turned on your phone (see page 4), you logged in to your Gmail™ account. You can add any other email account that you set up. To add other email accounts to your Messages widget and Universal Inbox: Touch Launcher icon Messaging, then touch Menu > Manage > accounts > Add account.

On the Setup accounts screen, touch Email and enter your email account information. Instant messages To send and receive instant messages, you can use an instant messaging app or your browser. Your phone comes preloaded with Google Talk™. You can also download an instant messaging app from Android Market™: To download and use an instant messaging app, > Market > Apps touch Launcher icon > Communication, then choose an app for your provider. Once you download the app, you'll see it in "Apps" on page 11.

20 Messaging If you don't see an app for your IM provider, you can use your web browser. Touch Home Browser, touch Menu > Go, then enter > your provider's website. Once you're there, follow the link to sign in. Note: Your IM options will depend on your IM provider. Social networking my life, your life Your social networking account You can set up a social network account that integrates and syncs all your contacts, emails, and social networking sites, and serves them up just the way you want them. No opening and closing apps and menus. You can interact by using the Social Networking and Social Status widgets on your home screen. These widgets are your windows into the social networking sites and other accounts you entered into your social status.

Voicemail When you have a new voicemail, shows at the top of your screen. To hear the voicemail, touch Phone, then touch .

If you need to change your voicemail number, in the home screen touch Menu > Settings > Call settings > Voicemail Settings. Add accounts You can add your more accounts to your social networking account. If you don't have accounts on these sites, visit their websites to set them up. For email accounts, see "Set up messaging" on page 20. Find it: Launcher icon account > My Accounts > Add Add an account by touching it. Then enter your user name and password for that account. When you sign into social networking accounts, you'll see your friends and contacts in your Contacts list, and Social networking 21 your status and updates can appear in your Social Networking and Social Status widgets on your home screen. Twitter and MySpace messages will always appear as "read" on your phone, but your phone notifies you when you receive a new message. MySpace marks your messages as "read" online. Tip: To download updates faster, use "Wi-Fi®" on page 48.

To capitalize, go above the keypad. When you enter text, your phone automatically corrects or suggests words. To change these settings, press Menu > Settings > Language & keyboard, then: · To edit your word suggestion dictionary, touch User dictionary.

Tips: · To enter apostrophes in common words (like "I'll"), drag through the n as though it was an apostrophe. · To enter several symbols, touch SYM. · To correct a word, double-tap it. Swype shows a small menu of other word options. Swype might also show a menu if it can't guess your word. · If Swype doesn't know a word, you can still touch the letter keys to enter it. Swype remembers, so next time you can just drag over the letters. Multi-touch keyboard Enter text on a touchscreen keypad one letter at a time. As you type, your phone suggests words from your dictionary and chosen language. Your phone also automatically enters apostrophes in some words, like "dont. You can also touch two keys at the same time, " such as Shift with a letter. 24 Text entry ` · To change the language and the style for your touchscreen keypad, touch Select locale. · To change the sounds, corrections, and other settings for your touchscreen keypad, touch Swype or Multi-touch keyboard. · To change the automatic correction settings for your full keypad, touch Device keyboard. Tips & tricks a few handy hints Battery tips Want to extend your battery life? Try these: · To select a battery profile that suits your phone use, touch Menu > Settings > Battery Manager.

· To turn off automatic applications sync, touch Menu > Settings > Data manager > Data Delivery. General tips · If you can't see the screen while wearing sunglasses, take them off. Screen brightness changes as your phone senses the current lighting conditions. · To return to home screen, touch Home · To see recently dialed numbers, touch > Recent. · To set screen timeout, touch Menu > Display > Screen timeout. · To search, touch Search . . . Phone · To turn off Bluetooth® power, touch Menu > Settings > Wireless & networks > Bluetooth. · To turn off Wi-Fi®, touch Menu > Wireless & networks > Wi-Fi. · > Settings · To sleep/wake your phone, press Power/Lock > Settings · To show last few apps, touch and hold Home · To turn sound on/off, press and hold Power/Lock > Silent mode. · To turn airplane mode on/off, press and hold Power/ Lock > Airplane mode. Tips & tricks 25 Digital living connect and enjoy Note: Copyright--do you have the right? Always follow the rules. See "Content Copyright" in your legal and safety information.

· If you already have a Blockbuster account, touch Enter PIN, then enter your account information. Once your phone is activated, you can browse or search Blockbuster.com to find the videos you want to rent or purchase. BLOCKBUSTER videos Blockbuster On Demand lets you rent or purchase videos and download them to your phone. To use the service, you need a Blockbuster account and a connection to a Wi-Fi network. Rented videos can be played on your phone. Purchased videos can be played on your phone, and on PCs or TVs connected to a TiVo® DVR, Blu-ray player, or 2Wire™ media platform. To get started, click on the free Blockbuster app: Find it: Launcher icon > Blockbuster Media Share Media Share gives you an easy way to share your media content--photos, videos, and tunes--with friends and family. Share your media via DLNA devices: The Media Share wizard guides you through the easy setup steps. Share photos & videos: Share any photos or videos on your phone, even the ones you created. More tunes: Enjoy favorites from your phone playlist on your sound system at home. Or get music from your portable music player and add it to your phone's music library. Connect To share media, you need to connect to a Wi-Fi® network or another device: · Connect to your computer with a USB cable (see "Memory card & file management" on page 50). The app completes an upgrade procedure, which may take a few minutes. When the upgrade is complete, you will be prompted to activate your phone: · If you don't have a Blockbuster account, touch Activate Using Device or Activate Using PC.

When you activate your phone, you will be prompted to provide credit card information for your payment option. 26 Digital living · Connect to a Wi-Fi network or use your own Wi-Fi hotspot (see "Wi-Fi®" on page 48). Media Share will lead you the rest of the way. Your Media Share world Note: If you're using a Wi-Fi connection, you need to allow access to other devices to download media from your phone and to share your files. If you want to access media files on other devices, they need to allow access. To use Media Share, touch Launcher icon Media Share. Then select the Media Share > feature you want to use: · Share media--Allow other devices to access media files on your phone. Without downloading any media from your phone, other people can view your pictures or videos, or play your songs, on their own devices. · Sync media--Sync the media files on your phone with other devices. · Copy media--Copy a picture from one phone to another.

· Play media--Select media for playback on another device in a Wi-Fi network. Share using DLNA DLNA lets you expand the ways you can enjoy your photos and videos on a DLNA Certified computer, TV, or monitor, using your own Wi-Fi network. Make sure your phone is connected to an active Wi-Fi network and has access to a DLNA Certified device. 1 Touch Launcher icon DLNA. > 2 Touch Play media, Copy media to server, Copy media to phone, or Share media. Then follow the instructions you see on your phone. 11:35 PM DLNA Play media Copy media to server Copy media to phone Share media Digital living 27 Photos & videos see it, capture it, share it! Note: Photos are stored on your microSD memory card. Picture Resolution is Widescreen or 5MP, unless you change it. To take the photo, lightly press Camera halfway until the autofocus box turns green, then press all the way to take the photo. · To set the photo as a wallpaper, contact photo, or social network photo, touch Menu > More > Set as.

· To send the photo in a message or post it online, touch Menu > Share. For more info on sharing your photos, see "Share photos & videos" on page 32. · To delete the photo, touch Menu · For more options, touch Menu > Delete. > More. Photos Take & share photos Take that family photo, and post it online for everyone to see. Find it: Press Camera (on the side of your phone) Tip: You can also touch Launcher icon Camera. > Adjust photo capture settings for greater creative control.
