52 3.5mm Headset Jack Home Key Menu Key Microphone Note: Your smartphone might look a little different. 2 Your smartphone Let's go let's get you up and running Caution: Please read the battery use and safety text in the important legal and safety information packaged with your smartphone. Tip: To save battery life, see "Battery tips" on page 20. Assemble & charge 1 Remove cover (if necessary) 2 Insert microSD (if not already inserted) Set up & go The first time you turn on your smartphone, a setup wizard guides you through signing in to your Gmail™ account.

If you don't have one, don't worry, the wizard will help you create one. After you log in to Gmail, you can set up social networking, or you can do it later. 3 Insert battery Battery removal tab (do not cut) Note: Your smartphone supports data-intensive apps and services. It is strongly recommended that you purchase a data plan that meets your needs. Contact your service provider for details. 1 Press and hold Power/Lock on top of your smartphone to turn it on. 2 Select a language. 3 Follow the setup wizard to create or log in to your Gmail account. 3H Gold contacts 4 Replace cover 5 Charge up Let's go 3 Note: If you have an existing Gmail account, your contacts from that account are synced to your smartphone. Touchscreen & keys a few essentials Wi-Fi connect If you want to use a Wi-Fi network for even faster Internet access, press Menu > Settings > Wireless & networks > Wi-Fi settings.

Touch Wi-Fi to search for and connect to wireless networks. There's more in "Wi-Fi" on page 39. Touch tips Here are some tips on how to navigate around your smartphone. Touch To choose an icon or option, touch it. Voicemail Contacts Browser Market Cool content & more Browse and download thousands of the coolest apps on the planet from Android Market™. Your smartphone can use a microSD memory card (sold separately)--you can load it up with photos, videos, and music from your computer using "Memory card" on page 41. Touch & hold To open special options, touch and hold an icon or other item. Try it: In the home screen, touch Contacts, then touch and hold a contact to open options. Displaying 297 contacts In case of emergency A Abe Baudo Abe Baudo Allie Smyth View contact Anna Medina Add to favorites Astrid Fanning 4 Touchscreen & keys Drag To scroll through a list or move slowly, drag across the touchscreen. Try it: In the home screen, Contacts, touch then drag your Contacts list up or down.

Displaying 297 contacts In case of emergency A You can also zoom in or out by pinching your fingers together or moving them apart on the screen. Abe Baudo Allie Smyth Anna Medina Astrid Fanning To zoom, touch with two fingers, then move them apart. Flick To scroll through a list or move quickly, flick

across the touchscreen (drag quickly and release). Tip: When you flick a long list, touch the screen to stop it from scrolling. Zoom Get a closer look at Google Maps™ or web pages.

To zoom in, double-touch (tap twice, quickly) the screen. To zoom out, double-touch the screen again. Touchscreen & keys 5 Key tips Menu, home, search, & back Power/Lock . To wake up the touchscreen, just press Power/Lock again or press Home . To change how long your smartphone waits before the screen goes to sleep automatically, press Menu > Settings > Display > Screen timeout.

Search Key Menu Key Home Key Back Key Tip: To lock the screen when it goes to sleep, use "Screen lock" on page 45. Adjust volume Press the volume keys to change the ring volume or the earpiece volume (during a call). Press Home to close any menu or app and return to the home screen. In the home screen, press and hold Home to show the last apps you used, then touch an app to open it. Press Search voice search, for text search, or press and hold for Rotate the screen In many apps, the touchscreen adjusts to display in landscape mode when you turn the smartphone sideways: Find it: Menu screen Press Menu to open menu options, or press Back to go back. > Settings > Display > Auto-rotate Power/Lock & sleep key Press and hold Power/Lock to turn Airplane mode or Silent mode on or off, or turn off the smartphone (Power off).

If you don't touch the screen or press any keys for the amount of time you select, the screen locks automatically. Lock & unlock To lock the screen/smartphone: · Press Power/Lock 46 Security . Troubleshooting we're here to help Crash recovery In the unlikely event that your smartphone stops responding to touches and key presses, try a quick reset. Remove the back cover and battery ("Assemble & charge" on page 3), then replace and switch your smartphone on as usual.

Reset To reset your smartphone to factory settings and erase all the data on your smartphone, press Menu > Settings > Privacy > Factory data reset > Reset phone. Warning: All data on your smartphone will be deleted. (Nothing on your memory card is deleted.) Service & repairs If you have questions or need assistance, go to <http://www.motorola.com/support>, where you can select from a number of customer care options. You can also contact the Motorola Customer Support Center at 1-800-734-5870 (United States), 1-888-390-6456 (TTY/TDD United States for hearing impaired), or 1-800-461-4575 (Canada). Troubleshooting 47 Safety, Regulatory & Legal Battery Use & Safety Important: Handle and store batteries properly to avoid injury or damage. Most battery issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries. DON'Ts · Don't disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.

· Don't let the mobile device or battery come in contact with water. * Water can get into the mobile device's circuits, leading to corrosion. If the mobile device and/or battery get wet, have them checked by your service provider or contact Motorola, even if they appear to be working properly. * · Don't allow the battery to touch metal objects. If metal objects, such as jewelry, stay in prolonged contact with the battery contact points, the battery could become very hot. · Don't place your mobile device or battery near a heat source. * Excessive heat can damage the mobile device or the battery. High temperatures can cause the battery to swell, leak, or malfunction. Therefore: · Don't dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave oven.

DOs · Do avoid leaving your mobile device in your car in high temperatures.

* · Do avoid dropping the battery or mobile device. * Dropping these items, especially on a hard surface, can potentially cause damage. * · Do contact your service provider or Motorola if your mobile device or battery has been damaged from dropping or high temperatures. * Note: Always make sure that the battery compartment is closed and secure to avoid direct exposure of the battery to any of these conditions. Important: Use Motorola Original products for quality assurance and safeguards. To aid consumers in identifying authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. Consumers should confirm that any battery they purchase has a "Motorola Original" hologram. Battery Use & Safety Motorola recommends you always use Motorola-branded batteries and chargers. Motorola mobile devices are designed to work with Motorola batteries. If you see a message on your display such as Invalid Battery or Unable to Charge, take the following steps: · Remove the battery and inspect it to confirm that it has a "Motorola Original" hologram; · If there is no hologram, the battery is not a Motorola battery; · If there is a hologram, replace the battery and try charging it again; · If the message remains, contact a Motorola authorized service center.

Important: Motorola's warranty does not cover damage to the mobile device caused by non-Motorola batteries and/or chargers. Warning: Use of a non-Motorola battery or charger may present a risk of fire, explosion, leakage, or other hazard. Proper and safe battery disposal and recycling: Proper battery disposal is not only important for safety, it benefits the environment. Consumers may recycle their used batteries in many retail or service provider locations. Additional information on proper disposal and recycling may be found on the Web: · www.motorola.com/recycling · www.rbrc.org/call2recycle/ (in English only) Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries.

Warning: Never dispose of batteries in a fire because they may explode. 032375o Battery Charging Notes for charging your product's battery: · When charging your battery, keep it near room temperature. Never expose batteries to temperatures below 0°C (32°F) or above 45°C (113°F) when charging. · New batteries are not fully charged. · New batteries or batteries stored for a long time may take more time to charge.

· Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging. Battery Charging 48 Troubleshooting Driving Precautions Responsible and safe driving is your primary responsibility when behind the wheel of a vehicle. Using a mobile device or accessory for a call or other application while driving may cause distraction. Using a mobile device or accessory may be prohibited or restricted in certain areas, always obey the laws and regulations on the use of these products. While driving, NEVER: · Type or read texts.

· Enter or review written data. · Surf the web. · Input navigation information. · Perform any other functions that divert your attention from driving. While driving, ALWAYS: · Keep your eyes on the road. · Use a handsfree device if available or required by law in your area. · Enter destination information into a navigation device before driving. · Use voice activated features (such as voice dial) and speaking features (such as audible directions), if available. · Obey all local laws and regulations for the use of mobile devices and accessories in the vehicle. · End your call or other task if you cannot concentrate on driving.

Remember to follow the "Smart Practices While Driving" in this guide and at www.motorola.com/callsmart (in English only). Caution About High Volume Usage Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing: · Limit the amount of time you use headsets or headphones at high volume. · Avoid turning up the volume to block out noisy surroundings. · Turn the volume down if you can't hear people speaking near you.
