..... 60 Check it out | At a glance First look Your new Moto X™ has a bright display that goes from one side all the way to the other. Its body curves to fit in your hand. And you'll rarely have to plug it in.

Note: Your smartphone may look a little different. Tips & tricks • Start: The SIM card is pre-installed in your smartphone. Just charge up, power on, and register. See "Start" on page 4. • Low Battery LED: This LED lights up when you plug in your charger and the smartphone's battery level is too low to power on the display.

It means that your smartphone is charging and will be ready to use shortly. • Top topics: Just want a quick list of what your smartphone can do? See "Top topics" on page 3. • More: All your questions answered, right on your smartphone. Just tap and tell your smartphone what you Help. Want even want help with.

Or tap Apps > more? See "Get more!" on page 58. Note: Certain apps and features may not be available in all countries. This product meets the applicable limit for exposure to radio waves (known as SAR) of 1.6 W/kg (FCC & IC). The limits and guidelines include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The highest SAR values measured for this device are listed in the regulatory information packaged with your product. Note: When using the product while worn on your body, maintain a distance of 2.5 cm (1 inch) from the body to ensure compliance with SAR requirements. Note that the product may be transmitting even if you are not making a phone call. Low Battery LED 4:00 3.

> Moto • Helpful: To quickly change common smartphone settings, drag the status bar down and tap in the upper right. For Settings. even more settings, tap At a glance 3 Start Charge up Your SIM card is pre-installed in your smartphone. If you need to replace your SIM, pull the volume keys/SIM tray out of the smartphone as shown in step 1. Otherwise, just charge up and power on.

Caution: Before using your smartphone, please read the safety, regulatory, and legal information provided with your product. Tips & tricks • SIM tray & tool: The SIM tray is on the side of your smartphone. Press the key-like tool that came in your smartphone's box into the SIM tray to open it. Put your SIM card into the tray. Push the tray back into the phone. • Power/Sleep key: To make the screen sleep or wake up, press the Power key. To turn your smartphone on or off, press and hold the Power key. • Battery: Squeeze every bit of juice out of your battery. See "Battery life" on page 5. Warning: Don't try to remove or replace the battery yourself—doing so may damage the battery and could cause burning and injury.

If your smartphone becomes unresponsive, try a reboot—press and hold both the Power and the Volume Up keys until the screen goes dark and your smartphone restarts. 1 Use the tool to pop out the SIM tray. Clip the SIM card into the tray. Push the tray back into your smartphone. 2 Charge up. 3 Power on. 3H Power Key 4 Start Battery life Your smartphone gives you tons of information and apps at 4G LTE speed. Depending on what you use, that can take a lot of power. To see what's using up battery power, tap Apps Settings > Battery. To set automatic rules to save power, > Assist (see "Motorola Assist" on page 21).

tap Apps > Tips & tricks To save even more battery life between charges, you could reduce: Settings, then • Wi-Fi and Bluetooth® use: Tap Apps > tap the switch next to Wi-Fi or Bluetooth to turn them OFF when you don't need them. Settings > Location access, • GPS use: Tap Apps > and uncheck GPS satellites. • Display brightness: Tap Apps > > Brightness > (dimmer setting). • Display timeout delay: Tap Apps > > Display > Sleep > (shorter setting).

<http://yourpdfguides.com/dref/5583303>

Find it: Tap Apps Touch & hold to see the text. Drag up to open the text, or down to unlock your smartphone. > Play Store • Find: To search, tap in the top right. • Download: To download an app you found, tap it to open details and then tap Install, or the price.

• Share: To share an app you found, tap it to open details and then tap Menu > Share. • Reinstall: To show or reinstall apps you downloaded from Play Store, tap Menu > My Apps. Home screen & apps 13 • Use a computer: To find and manage apps from any computer, go to <http://play.google.com> using your Google account and password.

There, you can browse apps on the big screen, manage your apps across multiple devices (like a smartphone and tablet), and even set new apps to download to your devices. • Enjoy music, books & movies: You can also use Google Play Store to access the “Play Music”, “Play Books”, and “Play Movies & TV” apps. • Get help: To get help and more, tap Menu in the top right. Choose carefully Apps are great. There's something for everyone. Play, communicate, work, or have fun. But remember, choose your apps carefully. Here are a few tips: • To help prevent spyware, phishing, or viruses from affecting your smartphone or privacy, use apps from trusted sites, like Google Play. • On Google Play, check the app's ratings and comments before installing. • If you doubt the safety of an app, don't install it.

• Like all apps, downloaded apps will use up memory, data, battery, and processing power—some more than others. For example, a simple battery level widget will use less than a streaming music player app. After installing an app, if you're not happy with how much memory, data, battery or processing power it's using, uninstall it. You can always install it again later. • Just like web browsing, you may want to monitor children's access to apps to help prevent exposure to inappropriate content. • Certain apps may not provide completely accurate information. Take care, especially when it comes to personal health.

Apps from the web You can get apps from online app stores using your browser. Tip: Choose your apps and updates carefully, as some may impact your smartphone's performance—see “Choose carefully” on page 14. Note: When installing an app, make sure you read the alerts that tell you what information the app will access.

If you don't want the app to have access to this information, cancel the installation. To let your smartphone install apps that are not on Google Play, Settings > Security and check Unknown tap Apps > sources. To download files from your browser, see “Downloads” on page 38. 14 Home screen & apps Take Care of your apps From your home screen tap Apps , then swipe left to scroll through apps. To close the apps screen, tap Home or Back .

Settings > Apps. Swipe • Uninstall apps: Tap Apps > left to ALL, tap an app, then tap Disable or Uninstall in the top right (if available). Disable removes the app from your menu—to Enable it, reopen this window and tap Enable (disabled apps are at the bottom of the list). Tip: To quickly show these app details from your app screen: Touch and hold an app, then drag it to App info. • Show app data usage: To show which apps are using the Settings > Data usage.

For most data, tap Apps > more, see “Data use” on page 52. Update your smartphone Use your smartphone or computer to check, download, and install smartphone software updates. • Using your smartphone: If your smartphone notifies you about an update, follow the instructions to download and install it. To manually check for updates, tap Apps > About phone > System updates. > Settings If an app locks up your smartphone as soon as you turn it on, restart in Safe Mode: Turn off your smartphone, then turn it back on—when you see the “Motorola” logo during power-up, press and hold both volume keys until you see the home screen, with Safe Mode in the lower left. Then, try removing the app. • Reinstall apps: To reinstall apps on Google Play Store, tap Play Store > Menu > My apps. The apps Apps > you downloaded are listed and available for download. • Share, show, or clear app details: Tap Apps Settings > Apps. A bar at the bottom tells you how > much app storage space you have left.

Swipe left or right to see the list of DOWNLOADED, RUNNING, or ALL apps, then tap an app in the list to show its details and storage usage. You can tap Share, Clear data or other options. Your smartphone downloads updates over your Wi-Fi connection (if available) or mobile network. We recommend that you download updates when you have a Wi-Fi connection. Remember, these updates can be quite large (25MB or more) and may not be available in all countries. If the mobile network updates are not available in your country, update using a computer. • Using your computer: On your computer, go to www.motorola.com/support and check the “Software Updates” links. If an update is available, just follow the installation instructions.

Home screen & apps 15 Control & customize Quick start: Control & customize Take control of your smartphone: • Touch: It's all in the touch. Simple gestures and touch keys to move about. • Search: Type text in the Google Search box at the top of your home screen, or tap to search by voice. • Customize: Get your notifications and more—drag the Settings for more status bar down and tap . Tap settings.

Tips & tricks • Tap: Choose an icon or option. • Touch and hold: Open options for items in lists. • Drag: Move items on the home screen. • Flick: Quickly open or delete items. • Swipe: Scroll through lists or between screens.

• Pinch or double-tap: Zoom in and out on websites, photos, and maps. • Twist: Twist a map with two fingers to rotate it, and pull two fingers down to tilt it. • Speak: Tap keyboard. Touch & hold an empty spot to change wallpaper. 4:00 2:37 WED, SEPTEMBER 25 in a search window or on a touchscreen • Add shortcuts & widgets: Tap Apps , touch and hold an app or widget, then drag it to one of your home screen pages. (To see widgets, tap Apps , then tap WIDGETS at the top. • Ringtone for a contact: To set a personal ringtone for a People, tap the contact, then tap Menu contact, tap > Set ringtone. • Quick settings: To change Wi-Fi, Bluetooth, Airplane mode, and other settings, drag the status bar down and Settings. tap . For even more settings, tap Google Play Store Tap an app to open.

Touch & hold to move or delete. 16 Control & customize • Home screen: For more about changing your home screen, see “Redecorate your home” on page 9. Don't use covers or screen protectors (even clear ones) that cover this sensor.

(You may need to scroll to the top of the screen.) 20 Control & customize Motorola Assist Wish your smartphone could automatically reply to texts when you're driving, silence your ringer during meetings, and conserve your battery when it runs low? It can. Motorola Assist suggests actions to automate, based on how you use your smartphone. When you see a suggestion in the status bar, drag the bar down to accept or delete it. Find it: Tap Apps Assist Accessibility See, hear, speak, feel, and use. Accessibility features are there for everyone, helping to make things easier. Find it: Tap Apps > Settings > Accessibility Note: For general information, accessories, and more, visit www.motorola.com/accessibility.

> Assist. Pick your categories. Voice recognition Just tell your smartphone what you'd like to do—dial, browse, search, send a text, and more. Check it out—tap at the top of the home screen for voice search. Or, say "OK Google Now" to launch always-on smart voice commands. Stay focused on the road Driving Tap a category to get started. TalkBack Use TalkBack to read your screen out loud—your navigation, your selections, even your books. Avoid interruptions Meeting Settings > Accessibility To turn on TalkBack, tap Apps > > TalkBack, then tap OFF at the top to turn it ON. Get a good night's rest Sleeping Note: You might need to download text-to-speech software (data charges may apply).

To use TalkBack: • Menus and screens: Tap an item in a menu or screen. Your smartphone speaks the name. • Dialer & text entry: Start typing. Your smartphone speaks each number or letter. Control & customize 21 • Notifications: Drag the status bar down. Your smartphone speaks all of the notifications. • Books & more: Open a book, file, message, and more. Your smartphone reads the text out loud (app dependent). • Browsers: Enable web pages in your browser to be read out loud: See "Web accessibility" on page 23. Move between pages, paragraphs, lines, words, or characters.

Tip: Navigate through your menus to hear how voice readouts work on your smartphone. To pause/resume TalkBack: • Wave your hand over the proximity sensor at the top of the smartphone. To activate this feature, tap Apps Settings > Accessibility > TalkBack > Settings > Use > proximity sensor. • When Explore by Touch is on, swipe down then right to open the global context menu, then use the menu to pause TalkBack. Tip: When you turn on TalkBack for the first time, your smartphone asks if you want to Enable Explore by Touch? Tap OK to turn it on. Explore by Touch changes your smartphone's touch gestures so the location of your touches can be read out loud. • Touch something on the screen to hear a description or text readout. • Double-tap anywhere on the screen to open or activate the last touched item. • Swipe using two fingers to scroll through lists or between screens. Shortcut gestures let you navigate your smartphone with simple swipe gestures (for example, swipe up then left in a single motion to go to the home screen).

To see or change Settings > Accessibility these shortcuts, tap Apps > > TalkBack > Settings > Manage shortcut gestures. Note: The way these gestures are interpreted is specific to TalkBack. Other accessibility services may use the same gestures for different actions. To learn more about navigating your smartphone with Explore Settings > Accessibility by Touch, tap Apps > > TalkBack > Settings > Launch "Explore by touch" tutorial. To turn off Explore by Touch when TalkBack is active, tap Settings > Accessibility > TalkBack > Settings, Apps > and uncheck Explore by touch. Explore by touch Use Explore by Touch to expand TalkBack, and have your touches read out loud as you move your finger around the screen. To turn on Explore by Touch when TalkBack is active, tap Settings > Accessibility > TalkBack > Settings Apps > > Explore by touch. 22 Control & customize Braille Combine your Braille display with TalkBack for braille and speech feedback. 1 Download the BrailleBack app on Google Play™ Store (tap Play Store), and install it on your smartphone. Apps > 2 Tap Apps > Settings > Accessibility > BrailleBack.

Caller ID When you want to hear who's calling: • Read out loud: Have your caller announced—tap Apps Settings > Accessibility > Talkback > SETTINGS > > Speak Caller ID. • Ringtones: Assign a unique ringtone to a contact—tap People, tap the contact, then tap Menu > Set ringtone. 3 Turn on your Braille display and put it in Bluetooth® pairing mode. Settings 4 On your smartphone, tap Apps > > Bluetooth, then tap the Bluetooth power switch to turn it ON and scan. Volume & vibrate Find it: Tap Apps Vibrate when ringing > Settings > Sound > Volumes or 5 Tap the name of your Braille display to pair it with the smartphone.

• Volumes opens sliders that let you set different volumes for your music or videos, ringtone, text or email notifications, and alarms. • Vibrate when ringing determines whether your smartphone vibrates for incoming calls (even if the ringer is silent). Web accessibility Apps can install Google™ scripts on your smartphone that make their web content more accessible. Tap Apps Settings > Accessibility > Enhance web accessibility. > Zoom Get a closer look. • Pinch to zoom: Pinch to zoom on maps, web pages, and photos—To zoom in, touch the screen with two fingers and then drag them apart. To zoom out, drag your fingers together. Tip: To zoom in, you can also double-tap. • Screen magnification: Triple tap the screen for full screen magnification, or triple tap and hold to temporarily Accessibility shortcut Use simple gestures to quickly activate Talkback and other accessibility features on your smartphone. For more Settings > Accessibility information, tap Apps > > Accessibility shortcut. Control & customize 23 magnify—tap Apps > > Magnification gestures. Settings > Accessibility • Keys: To feel screen keyboard touches (vibrate), select Vibrate on touch. • Screen lock: To hear when you lock or unlock the screen (click), select Screen lock sound. • Big text: Show bigger text throughout your Settings > Accessibility smartphone—tap Apps > > Large text. • Browser: Choose text scaling and other accessibility Chrome settings for your browser—tap Apps > > Menu > Settings > Accessibility.

Tip: Use Force enable zoom to allow zooming on all webpages. Messages To make text entry even easier, use features like auto-complete, Settings auto-correct, and auto-punctuate—tap Apps > next to a keyboard type. Of > Language & input, then tap course if you don't want to type at all, then use your voice—tap on the touchscreen keyboard.

Display brightness Your smartphone automatically adjusts the screen brightness when you're in bright or dark places. But you can set your own brightness level instead: Find it: Tap Apps > Settings > Display > Brightness *Hearing aids* To help get a clear sound when using a hearing aid or cochlear implant, your smartphone may have been rated for use with hearing aids. If your smartphone's box has "Rated for Hearing Aids" printed on it, then please read the following guidance. Note: Ratings are not a guarantee of compatibility (visit www.motorola.com/hacphones). You may also want to consult your hearing health professional, who should be able to help you get the best results.

- **Settings:** Tap settings. Phone > Menu > Settings > HAC mode Uncheck Automatic brightness to set your own level. Note: Setting brightness to a high level decreases your smartphone's battery life. To maximize battery life, select Automatic brightness. Touchscreen & keys To hear or feel when you touch the screen, tap Apps Settings > Sound.
- > • **Touchscreen:** To hear screen touches (click), select Touch sounds. • **Call volume:** During a call, press the side volume keys to set a call volume that works for you. 24 **Control & customize** • **Position:** During a call, hold the smartphone to your ear as normal, and then rotate/move it to get the best position for speaking and listening. Apps Want more? No problem. Google Play™ Store provides access to thousands of apps, many with useful accessibility features. Find it: Tap Apps > Play Store **TTY** You can use your smartphone in TTY mode with standard Phone > Menu > Settings > TTY teletype machines. Tap mode and select the mode you need: • **TTY Full:** Type and read text on your TTY device. • **TTY HCO:** Hearing-Carry-Over—type text on your TTY device and listen to voice replies on your smartphone's speaker. • **TTY VCO:** Voice-Carry-Over—speak into your smartphone and read text replies on your TTY device. Note: You'll need a cable/adaptor to connect your TTY device to the headset jack on your smartphone. Refer to your TTY device guide for mode and usage information. Control & customize 25 **Calls Quick start:** Calls Dial numbers, recent calls, or contacts, all from one app. Find it: Tap Phone Tips & tricks • **During a call:** Your touchscreen goes dark to avoid accidental touches. To wake it up, move it away from your face or press the Power key. • **Multi-task:** While you're on a call, tap Home to hide the call screen and look up a phone number, address, or open other apps.

To reopen the call screen, drag the status bar down and tap Current call. • **People:** To search your contacts, tap . • **Favorite contact:** Have someone you call all the time? Tap Apps , tap WIDGETS at the top, then touch and hold the Direct dial widget. Drag it to your home screen, then select the contact. Tap the widget to dial the person. • **Voicemail:** appears in the status bar when you have new Phone, then touch and hold 1. voicemail. To hear it, tap To make a call, enter a number and tap to call it, or swipe left to access your recent calls and favorites. Recent Calls & Favorites 1 800-734-5870 ABC DEF Delete numbers you entered. Make, answer & end calls GHI JKL MNO During a call: PQRS TUV WXYZ When you make or answer a call, you have options: • **Make a call:** Tap Phone, enter a number, then tap Hang up.

. To enter the international dialing code (+), touch and hold 0. To add a pause or wait after numbers, tap Menu . • **Answer a call:** Touch and drag to . Add Call Dialpad Speaker Mute Hold Find a contact.

Call. See options. With call waiting on, touch and drag to to answer the new call, then tap Hold current call + Answer or End current call + Answer. 26 **Calls** • **Ignore a call:** Touch and drag to to send the call to your voicemail. You can also press the Power key to ignore the call, or press a volume key to silence the ringer.

• **End a call:** Tap . Mute at the bottom of the call screen • **During a call:** Tap to mute the call. To hide the call screen, tap Home . To reopen it, drag the status bar down and tap Current call. Favorites Set your most-used contacts as favorites, so you can get to them faster. • **To set a favorite,** tap Apps and tap . > People, select a contact • **To see your favorites,** tap Apps > People > . Note: When you hold your smartphone to your ear, the touchscreen goes dark to avoid accidental touches. When you move your smartphone away from your ear, the screen lights up again. During a call, your touchscreen might stay dark if the sensor just above it is covered.

Don't use covers or screen protectors (even clear ones) that cover this sensor. 3-way calls During a call, you can start another call, switch between them, or join them in a 3-way call: • **To answer a second call,** touch it, touch and drag to . and drag to . To ignore The first call goes on hold if you answer the second call. To switch between calls, tap . Add call, enter a number or • **To dial a second call,** tap select a number from recent calls or contacts, then tap . Recent calls View your calls (with newest first), to call, text, or store them: Find it: Tap Phone > • **To call a number,** tap on the right. The first call goes on hold when you tap after the second call answers, tap . . To join the calls • **To send a text message,** store the number, or other options, tap an entry.

• **To search the list,** tap at the bottom. • **To clear the list,** tap Menu > Clear call log. Your phone number Find it: Tap Apps > > My phone number. Settings > About phone > Status Calls 27 **Emergency calls** Note: Verizon Wireless programs one or more emergency phone numbers that you can call under any circumstances, even when your smartphone is locked. Emergency numbers vary by country.

Your pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues. 1 Tap Phone (if your smartphone is locked, tap Emergency Call or tap Menu > Emergency call). Contacts Quick start: Contacts Combine information from your Google™ contacts and social networks for quick access to everyone you know. Find it: Tap Apps > People 2 Enter the emergency number. 3 Tap to call the emergency number.

ME 297 contacts Note: Your smartphone can use location based services (GPS and AGPS) to help emergency services find you. See "Location Services" in your legal and safety information. Set up my profile A Create & view groups of contacts. Cool down In very limited circumstances, such as where your smartphone has been exposed to extreme heat, you may see "Cool Down" messages. To avoid possible damage to your battery and smartphone, you should follow these instructions until the smartphone is within its recommended temperature range.
