AT21 Analogue Phone

Expand the reach of your NEC Xen and NEAX system with an affordable and reliable AT21 analogue phone solution. Perfect for areas of your business that don't require the power and features of a digital multiline phone, the AT21 analogue phone provides a simple, high quality solution for areas such as corridors, lobbies and warehouses. And with a dedicated data jack for connecting a computer with a modem, it's an ideal choice for hotel guest rooms.

Affordable, Reliable, Quality

With a host of basic system features including voicemail, paging and transfer to name a few, the AT21 provides your business with an ideal solution to keep low traffic areas connected with affordable, reliable, quality.

The AT21 analogue phone is built for plug-and-play integration with any member of the Xen or NEAX families of communication systems - the NEAX 2400 IPX, the NEAX 2000 IPS, and Xen system series.

AT21 features include:

- Hearing Aid Compatibility
- Receive Call Volume Control
- Ring Volume Control
- Large Message Waiting Indicator Lamp
- Last Number Redial
