UNIVERGE
Wireless Handsets

Mobilise your VoIP system

NEC's UNIVERGE wireless handsets help you get more out of your IP telephony investment. With UNIVERGE Wi-Fi handsets running on your wireless LAN, your business can enjoy the reduced cost and simpler management benefits of IP telephony, while increasing the reach and mobility of your workforce.

Benefits

NEC's wireless handsets:

- make your staff more mobile and accessible;
- offer excellent voice quality on converged wireless networks;
- integrate fully with NEC's range of UNIVERGE IP telephony servers;
- are durable enough for use in all business environments; and
- are simple to use, with no need for extensive training.

UNIVERGE MH110 for the busy office

The UNIVERGE MH110 Wireless Handset is ideally suited to general office, retail and hospitality environments. The handset features exceptional voice quality, a high resolution display, simple menu navigation and text messaging functions – all in a lightweight, ergonomic design. Various accessories and carrying options are available, making the MH110 an extremely versatile handset.

UNIVERGE MH120 for the tough stuff

When you need a handset that can withstand high usage in demanding work environments, choose the UNIVERGE MH120. The MH120 is small enough to be highly mobile, extremely simple to use, and is packed with features, including push-to-talk functionality, which eliminates the need for 'walkie-talkies'. The handset has been rigorously tested to ensure it is rugged enough for even the most challenging work sites.
