*Manual abstract:*

@@@With the compactness and manoeuvrability to get in and out of tight spaces, and the power to clean effectively in heavily soiled areas, the BR 600S series is suited to a wide variety of applications, from retail areas to factory warehouses. @@@@The water-detergent mixing ratio is always accurate, never guesswork. Plus, the mixing takes place at the scrub deck not in the tank, thus eliminating the need to empty and clean the tank since it only contains water. @@EDS offers better productivity by cutting cleaning time. .
