GD 1010

FEATURES

- Strong suction power
- 4-gallon collection capacity
- Lightweight and portable
- Easy-to-replace HEPA and main filter
- Easy to install and remove paper bag
- Motor thermal protection device prevents overheating
- On-board storage clip for floor nozzle
- Impact resistant ABS plastic container
- Stationary and rotating wheels, combined with a low center of gravity, ensure stability
- Special curved design of handle provides for easy lifting and transporting

CONTRACTOR'S CHOICE

The durable GD 1010 safely collects lead, asbestos, silica and other hazardous dusts and fine powders. Its unique filtration system includes a disposable paper bag, main filter and HEPA filter. The large, cotton main filter ensures a steady, even airflow, which extends filter life and eliminates premature clogging. The GD 1010's filtration system effectively removes 99.97% of all particles to 0.3 microns. Although the GD 1010 has tremendous suction power, its low noise level makes for a more pleasant work environment. The easy to install paper bag makes collection and disposal of hazardous material safe and easy. The standard GD 1010 package includes one installed paper bag, HEPA filter, crevice nozzle, dust brush, combination nozzle, two wands and a 6' plastic hose with curved steel tube.

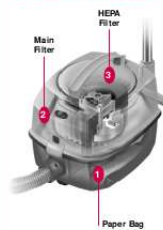

SPECIFICATIONS

Volts, volts	120
Current draw, amps	9.2
Watts consumed	1100
Airflow, cubic ft./minute	85
Waterlift*, inches	102
Air performance, air watts	270
Sound level, dBA at 5 ft. (1.5 meters) with accessories	60
without accessories	55
Container capacity, gallons dry bulk	4
Paper bag capacity, gallons dry bulk	2.4
Weight, lbs.	14
Length, inches	15.8
Width, inches	12
Height, inches	16.8
Cord length, feet	30

*With pressure relief valve inactive.

Not recommended for cleanroom use.

3-Stage Filtration
