..... @@@@ Operators shall be adequately instructed on the use of this machine.

This machine is for dry use only. CAUTION This machine is for indoor use only. This machine shall be stored indoors only. · · This machine is equipped with a thermal cut-out to protect the motor and other vital machine parts from overheating. Should the machine cut out, you will have to wait at least 5-10 minutes for it to automatically reset.

While you are waiting, switch the machine off and unplug it, then check the hose, dust bag and filters to be sure that nothing is blocking the flow of air through the machine. 8 Original instruction The filter/filters on selected models in this product range are manufactured using HEPA material. This is not a HEPA certified machine and should not be used in cleaning environments where approved HEPA machines are required. @@Never use the vacuum cleaner without a properly fitted dust bag. @@Regularly inspect the cable and the plug for damage.

@@Do not handle the electrical cable or plug with wet hands. Do not unplug by pulling on cable. To unplug, grasp the plug, not the cable. @@@@petrol, solvents, acids, alkalis, etc.) · Flammable, explosive dust (e.g. magnesium or aluminum dust, etc.) Maintenance Always keep the cleaner in a dry place. The cleaner is designed for continuous heavy work. @@@@As specified in European Directive 2002/96/EC on old electrical and electronic appliances, used electrical goods must be collected separately and recycled ecologically.

Contact your local authorities or your nearest dealer for further information.
