**Manual abstract:**

The surface of this product is nickel-free. Warning: This product may contain small parts. Keep them out of the reach of small children. Parts of the product are magnetic. Metallic materials may be attracted to the product. Do not place credit cards or other magnetic storage media near the product, because information stored on them may be erased. Read this user guide carefully before using the product. Also, read the user guide for the device that you connect to the product. About Bluetooth connectivity You can use Bluetooth to make a wireless connection to other compatible devices, such as mobile phones. Devices do not need to be in direct line-of-sight, but they must be within 10 metres (33 feet) of each other.

The connection may be affected by obstructions such as walls or other electronic devices. This device is compliant with Bluetooth Specification 3. Check with the manufacturers of other devices to determine their compatibility with this device. 3 Get started Keys and parts 1 2 3 4 5 6 Charger connector Multifunction key NFC area Earloop Earpiece Carrying clip 7 Microphone 4 8 Car holder 9 Charger connector 10 Indicator light Charge the battery Before using the headset, you must charge the battery. Warning: Use only chargers approved by Nokia for use with this particular model.

The use of any other types may invalidate any approval or warranty, and may be dangerous. @@1 2 3 Plug the charger into a wall outlet. @@@@When you unplug a charger, hold and pull the plug, not the cord. The fully charged battery has power for up to 5 hours of talk time and up to 114 hours of standby time. If you keep the headset in the clip, the standby time is up to 90 days.

@@@Check the battery charge When the headset is switched on and you're not in a call, press . A green light means there is enough power. If the light is yellow, you may need to recharge the battery soon. If the light is red, recharge the battery. Switch the headset on or off Switch on Remove the headset from the clip or from the car holder. The headset beeps, and a green indicator light flashes once. If you've never paired the headset with a phone, or you've cleared the pairings, pairing mode is switched on. Pair and connect the headset with your phone within 3 minutes. 5 If you've paired the headset before, it connects to the last phone it was used with. If the headset can't find that phone, it tries the next phone on its list of paired devices.

If not connected to a phone within 30 minutes, the headset switches off. Switch off Put the headset in the clip. The headset beeps, and a red indicator light flashes once. all calls are ended. Tip: Don't have the clip with you? To switch the headset off, press and hold seconds. to switch the headset on , press . For 5

Wear the headset Slide the earloop behind your ear, then gently push the earpiece against your ear. Point the headset towards your mouth. Change the earpad 1 The headset comes with different-sized earpads. @@@The headset is set up to be used on your right ear.

@@@2 Remove the protective film from the bottom of the car holder. 3 Firmly press the car holder into place. 6 Tip: You can also charge your headset through the car holder. @@Pair the device Pair and connect the headset to your phone Before using the headset, you must pair and connect it to a compatible phone. You can pair your headset with 8 phones, but you can only connect it to a maximum of 2 phones at the same time.

With some phones, you may need to make the connection separately after pairing. When the headset is connected to a phone, the Bluetooth indicator light flashes slowly. tip: Can't connect the headset to a compatible phone? Make sure that the headset is charged, switched on, and paired with the device. Pair and connect the headset using NFC With Near Field Communication (NFC), you can pair and connect your headset to your compatible phone easily. @@The headset connects to the phone automatically.

You can also disconnect the headset using NFC. For details on NFC, see the user guide of the phone. 7 If the phone does not support NFC, pair the headset manually. @@@@For details, see the user guide of the phone. 4 On your phone, select the headset from the list of found devices. 5 If asked, type in the passcode 0000. @@@1 2 3 4 Make sure Bluetooth is switched on in both phones. for 5 seconds. @@Switch the headset off and back on. The headset connects to both phones.

@@@Make a call Make a call in the normal way. Answer a call Remove the headset from the clip. @@Tip: To end a call, you can also press Decline a call twice. Press Switch a call between your headset and phone for 2 seconds. @@Redial the last called number twice. @@@@Press End an ongoing call, and answer a call on another phone Press . @@Press and hold Switch between active and held calls for 2 seconds. @@@Change the volume Set the volume on your phone. @@Settings Switch the voice prompts on or off Get verbal feedback and instructions, for example, when pairing your device. On, switch the headset off, then press and hold Press and hold for 2 seconds.

You hear a voice prompt. When you switch the voice prompts off, a yellow indicator light flashes once. When you switch the voice prompts on, a green indicator light flashes once. Clear the pairings for 5 seconds. 1 To switch the headset off, press and hold for 9 seconds.

The headset beeps twice, and the red and green 2 Press and hold indicator lights alternate. 3 When the headset switches on , pairing mode is switched on automatically. @@Always keep your hands free to operate the vehicle while driving. Your first consideration while driving should be road safety.

@@@This device is intended for use when supplied with power from the following chargers: DC-6, AC-8C.

The exact charger model number may vary depending on the type of plug. The plug variant is identified by one of the following: E, X, AR, U, A, C, K, or B. The battery can be charged and discharged hundreds of times, but it will eventually wear out. Talk and standby times are estimates only. Actual times are affected by, for example, device settings, features being used, battery condition, and temperature. If the battery has not been used for a long time, to begin charging, you may need to connect the charger, then disconnect and reconnect it. @@@Do not leave a fully charged battery connected to a charger, as overcharging may shorten the battery's lifetime. If left unused, a fully charged battery will lose its charge over time. @@Extreme temperatures reduce the capacity and lifetime of the battery. A device with a hot or cold battery may not work temporarily.

Do not dispose of batteries in a fire as they may explode. Use the charger for its intended purpose only. @@@ never use a damaged charger. Only use the charger indoors. @@The following suggestions help you protect your warranty coverage. •••Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that corrode electronic circuits.
