..... 15 3 Introduction 1. Introduction With the Nokia Bluetooth Headset BH-904, you can make and answer calls while on the move or in the office.

The headset has a sliding boom that allows you to answer and end calls and to talk at a lower volume or in a noisy environment. The headset is provided with noise cancellation that helps you to handle calls in noisy environments. You can use the headset with compatible devices that support Bluetooth wireless technology. The headset can be connected to two devices at the same time. Read this user guide carefully before using the headset. Also, read the user guide for your mobile device that you connect to the headset. For more information, see www.nokia.com/support or your local Nokia website. This product may contain small parts.

Keep them out of the reach of small children. The surface of this device does not contain nickel in the platings. The surface of this device contains stainless steel. Bluetooth wireless technology Bluetooth wireless technology allows you to connect compatible devices without cables. The headset and the <10m other device do not need to be in line of sight, but they should be within 10 metres (33 feet) of each other.

The closer the headset and the other device are to each other, the better is the performance. The optimal operating range is shown in dark grey in the picture.

The connection is subject to interference from distance and obstructions (shown in light grey) or other electronic devices. 4 Introduction The headset is compliant with the Bluetooth Specification 2.1 + EDR supporting the Headset Profile 1.

1 and Hands-Free Profile 1.5. Check with the manufacturers of other devices to determine their compatibility with this device. 5 Get started 2. Get started Keys and parts The headset contains the following parts: 1. Volume key 2. Sliding boom 3. Earpiece 4. Indicator light 5. Power key 6.

Charger connector 7. Mute/unmute key 8. Answer/end key 9. Microphones Before using the headset, you must charge the battery and pair the headset with a compatible device. Parts of the device are magnetic. Metallic materials may be attracted to the device. Do not place credit cards or other magnetic storage media near the device, because information stored on them may be erased. 3 9 1 2 6 4 5 6 7 8 9 Charge the battery Before charging the battery, carefully read "Battery and charger information", p. 14. Warning: Use only chargers approved by Nokia for use with this particular model.

The use of any other types may invalidate any approval or warranty, and may be dangerous. When you disconnect the power cord of any accessory, grasp and pull the plug, not the cord. 6 Get started 1. Connect the charger to a wall outlet. 2.

Lift the cover of the charger connector, and connect the charger cable to it. The red indicator light is displayed during charging. Charging the battery fully may take up to 35 minutes with the AC-6 charger. @@3. @@Disconnect the charger from the headset, then from the wall outlet.

Push the cover over the charger connector. @@@@If the indicator light is green, the charge level is sufficient. If the light is yellow, you may need to recharge the battery soon. If the light is red, recharge the battery. @@The headset beeps, and the green indicator light is displayed. @@@@8).

To switch off, press and hold the power key for about 2 seconds. The headset beeps, and the red indicator light is briefly displayed. @@1. Ensure that your mobile device is on and the headset is off.

2. @@@@3. @@For details, see the user guide of your device. 4. Select the headset (Nokia BH-904) from the list of found devices. 5. @@@@For details, see the user guide of your device. @@@@See also "Connect the headset to two devices", p. 12. @@If you have a device connected to the headset and want to connect a second device, make the connection in the Bluetooth menu of the device.

You may be able to set your mobile device so that the headset connects to it automatically. To activate this feature in a Nokia device, change the paired device settings in the Bluetooth menu. Troubleshooting If you cannot connect the headset to your mobile device, ensure the following: · The headset is charged, switched on, and paired with your device. · The Bluetooth feature is activated on your device. · The headset is within 10 meters (33 feet) of your device and that there are no obstructions between the headset and the device, such as walls, or other electronic devices.

9 Basic use 3. Basic use Change the earplug The headset may be provided with different sized earplugs. Select the earplug that fits best and feels comfortable for your ear. To change the earplug, pull the current earplug from the earpiece (1), and push the new earplug over the earpiece in the same position (2).

[You're reading an excerpt. Click here to read official NOKIA BH-904 user guide](http://yourpdfguides.com/dref/2362532)

<http://yourpdfguides.com/dref/2362532>

Place the headset on the ear Place the headset over your ear in a comfortable position, and slide it downwards.

Gently push the earpiece into your ear. Point the headset toward your mouth. Sliding boom The sliding boom brings the microphone closer to your mouth, which improves the audio quality when you talk at a lower volume or in a noisy environment. You can use the boom to answer or end a call. 10 Basic use To use the boom, gently pull it down toward your mouth (1), or push it up to its initial position (2). Calls To make a call, use your mobile device in the normal way when the headset is connected to it. To redial the number you last called (if your mobile device supports this feature with the headset), when no call is in progress, press the answer/end key twice. To activate voice dialling (if your mobile device supports this feature with the headset), when no call is in progress, press and hold the answer/end key for about 2 seconds until the mobile device starts voice dialling, and proceed as described in the user guide of the device. To answer a call, pull the boom completely down toward your mouth, or press the answer/end key. (For noise cancellation, the boom has to be completely pulled down.

) To reject a call, press the answer/end key twice. To end a call, push the boom up to its initial position, or press the answer/end key. Adjust the headset volume The headset automatically adjusts the volume according to ambient noise. Slide the volume key up to increase or down to decrease the volume. To adjust the volume quickly, slide and hold the key. The selected volume level is saved for the device that you currently use with the headset. 11 Basic use Mute or unmute Exposed, and many other factors. The amount of time a device is used for calls will affect its standby time. Likewise, the amount of time that the device is turned on and in the standby mode will affect its talk time. 14 Care and maintenance Care and maintenance Your device is a product of superior design and craftsmanship and should be treated with care.

The following suggestions will help you protect your warranty coverage. · Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that will corrode electronic circuits. If your device does get wet, allow it to dry completely. · Do not use or store the device in dusty, dirty areas.

Its moving parts and electronic components can be damaged. · Do not store the device in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and warp or melt certain plastics. · Do not store the device in cold areas. @@ · Do not attempt to open the device. · Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics. @@ · Do not paint the device. Paint can clog the moving parts and prevent proper operation. @@@@ Disposal The crossed-out wheeled-bin symbol on your product, literature, or packaging reminds you that all electrical and electronic products, batteries, and accumulators must be taken to separate collection at the end of their working life. This requirement applies to the European Union and other locations where separate collection systems are available. Do not dispose of these products as unsorted municipal waste. By returning the products to collection you help prevent uncontrolled waste disposal and promote the reuse of material resources. More detailed information is available from the product retailer, local waste authorities, national producer responsibility organisations, or your local Nokia representative. For the product 15 Care and maintenance Eco-Declaration or instructions for returning your obsolete product, go to country-specific information at www.
