**Manual abstract:**

0 2 Introduction About your headset With Nokia Bluetooth Headset BH-109, you can handle calls hands-free, even when you are using two mobile devices at the same time. For support, go to [www.nokia.com/support](http://www.nokia.com/support). The surface of this product is nickel-free. Warning: This product may contain small parts. Keep them out of the reach of small children. Parts of the product are magnetic. Metallic materials may be attracted to the product. Do not place credit cards or other magnetic storage media near the product, because information stored on them may be erased.

Read this user guide carefully before using the product. Also, read the user guide for the device that you connect to the product. About Bluetooth connectivity You can use Bluetooth to make a wireless connection to other compatible devices, such as mobile devices. Devices do not need to be in direct line-of-sight, but they must be within 10 metres (33 feet) of each other. The connection may be affected by obstructions such as walls or other electronic devices.

3 This device is compliant with Bluetooth Specification 2.1 + EDR supporting the following profiles: Headset Profile 1.1 and Hands-Free Profile 1.5. Check with the manufacturers of other devices to determine their compatibility with this device.

Get started Keys and parts 1 2 3 4 5 6 7 8 Power key Earloop Microphone Call key Earpiece Indicator light Volume key Charger connector 4 Charge the battery Before using the headset, you must charge the battery. Warning: Use only chargers approved by Nokia for use with this particular model. The use of any other types may invalidate any approval or warranty, and may be dangerous. Use of unapproved chargers may present a risk of fire, explosion, or other hazard. When you unplug a charger, hold and pull the plug, not the cord. 1 2 3 Connect the charger to a wall outlet. Connect the charger cable to the charger connector in the headset. @@@@ Green light indicates sufficient charge level. If the light is yellow, you may need to recharge the battery soon. If the light is red, recharge the battery.

Switch the headset on or off Press and hold the power key for 2 seconds. When switched on, the headset beeps, and a green indicator light flashes once. The headset tries to connect to a paired mobile device. If the headset is not connected to a device within 30 minutes, it switches off. When switched off, the headset beeps, and a red indicator light flashes once. Pair and connect the headset With pairing, you can control which devices are allowed to connect to your headset. Before using the headset, you must pair and connect it to a compatible device. 1 Switch the headset off and the compatible device on. 5 2 If you have never paired the headset with a device, or you have emptied the paired devices list, switch the headset on. If you have previously paired your headset with another device, press and hold the power key for 5 seconds.

The headset enters pairing mode, and the green indicator light starts to flash quickly. Within 3 minutes, activate Bluetooth on the device, and set it to search for Bluetooth devices. For details, see the user guide of the device. Select the headset from the list of found devices. If required, enter the passcode 0000.

3 4 5 You can pair your headset with 8 compatible devices, but you can only connect it to a maximum of 2 devices at the same time. With some mobile devices, you may need to make the connection separately after pairing. Connect the headset to the last used device manually Press and hold the call key for 2 seconds, if no other device is connected, or go to the Bluetooth menu of the device. Wear the headset Slide the earloop behind your ear (9), and gently push the earpiece against your ear. Carefully bend the earloop around your ear for the best fit.

Push or pull the earloop to set its length. Point the headset towards your mouth (10). The headset is ready to be used on the right ear. To use the headset on the left ear, rotate the earloop so that it is to the left of the Nokia logo (11 and 12). 6 Make calls Make and receive calls Make a call When the headset is connected to your compatible mobile device, make a call normally using your mobile device. Answer or end a call Press the call key. Reject a call Press the call key twice. Switch a call between your headset and mobile device During a call, press the call key for 2 seconds. You can redial the number you last called or make a call by using your voice, if your mobile device supports these features with the headset. @@@@ Change the volume Use the volume key.

To change the volume quickly, press and hold the volume key. @@@@ Switch back to one device only 1 Switch off the headset. 2 Press and hold the power key for 5 seconds. The green indicator light starts to flash quickly. 3 Press and hold the power key and the volume down key for 5 seconds. The yellow indicator light flashes once. Switch to two devices again 1 Switch off the headset. 2 Press and hold the power key for 5 seconds. The green indicator light starts to flash quickly. 3 Press and hold the power key and volume up key for 5 seconds.

The green indicator light flashes once. @@@@ Switch between the calls Press and hold the call key for 2 seconds. @@@@ The yellow indicator light flashes once. @@@@ The green indicator light flashes once. @@@@ The red and green indicator lights alternate.

You can pair the headset with a device, if desired. @@@@ Did the headset stop functioning even though it is charged? @@@@ Do not attempt to remove the battery from the device as you may damage the device. Take the device to the nearest authorised service facility for replacement of the battery. This device is intended for use when supplied with power from the following chargers: AC-3, AC-4, AC-5, AC-8, DC-4, and DC-9. The exact charger model number may vary depending on the type of plug.

The plug variant is identified by one of the following: E, X, AR, U, A, C, K, or B. The battery can be charged and discharged hundreds of times, but it will eventually wear out. When the operating times are noticeably shorter than normal, take the device to the nearest authorised service facility for battery replacement. Recharge your battery only with Nokia approved chargers designated for this device. 9 If a battery is being used for the first time or if the battery has not been used for a prolonged period, it may be necessary to connect the charger, then disconnect and reconnect it to begin charging the battery. If the battery is completely discharged, it may take several minutes before the charging indicator light is displayed. When your charger is not in use, unplug it from the electrical plug and the device. Do not leave a fully charged battery connected to a charger, as overcharging may shorten the battery's lifetime. If left unused, a fully charged battery will lose its charge over time. Always keep the battery between 15°C and 25°C (59°F and 77°F).

Extreme temperatures reduce the capacity and lifetime of the battery.

A device with a hot or cold battery may not work temporarily. Do not dispose of batteries in a fire as they may explode. Dispose of batteries according to local regulations. Recycle when possible. Do not dispose as household waste. Never use any charger that is damaged. Operating times are estimates only. Actual performance depends on many factors such as device settings selected, device features being used (or running in the background), battery condition and ambient temperature. Take care of your device Handle your device, battery, charger and accessories with care.

The following suggestions help you protect your warranty coverage. . . . . Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that corrode electronic circuits. Do not store the device in high temperatures. @@Do not store the device in cold temperatures.

@@Do not attempt to open the device. @@Only use a soft, clean, dry cloth to clean the surface of the device. Do not use or store the device in dusty or dirty areas. @@Rough handling can break internal circuit boards and mechanics. Do not paint the device.

Paint can clog the moving parts and prevent proper operation. Recycle Always return your used electronic products, batteries, and packaging materials to dedicated collection points. This way you help prevent uncontrolled waste disposal and promote the recycling of materials. Check product environmental information and how to recycle your Nokia products at [www.nokia.com/wecycle](http://www.nokia.com/wecycle), or with a mobile device, [nokia.mobi/wecycle](http://nokia.mobi/wecycle). Crossed-out wheeled-bin symbol The crossed-out wheeled-bin symbol on your product, battery, literature, or packaging reminds you that all electrical and electronic products, batteries, and accumulators must be taken to separate collection at the end of their working life. This requirement applies in the European Union. Do not dispose of these products as unsorted municipal waste.

For more information on the environmental attributes of your device, see [www.nokia.com/ecodeclaration](http://www.nokia.com/ecodeclaration). 10 Copyright and other notices DECLARATION OF CONFORMITY Hereby, NOKIA CORPORATION declares that this BH-109 product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. A copy of the Declaration of Conformity can be found at <http://>.
