Introduction ENGLISH Bluetooth wireless technology With the Nokia Bluetooth Headset BH-608, you can make and answer calls hands-free with your compatible mobile device. @@Read this user guide carefully before using the headset. @@This product may contain small parts. @@@@The headset and the other device do not need to be in line of sight, but they should be within 10 metres (33 feet) of each other. Connections may be subject to interference from obstructions, such as walls, or other electronic devices. This device is compliant with Bluetooth Specification 2.1 + EDR supporting the following profiles: Headset Profile 1.1 and Hands-Free Profile 1.5. Check with the manufacturers of other devices to determine their compatibility with this device.

Get started ENGLISH The headset contains the following parts shown on the title page: earpiece (1), microphone (2), mute key (3), answer/end key (4), charger connector (5), volume up key (6), volume down key (7), clip (8), indicator light (9), and power key (10). Before using the headset, you must charge the battery and pair the headset with a compatible device. Warning: Use only chargers approved by Nokia for use with this particular model. The use of any other types may invalidate any approval or warranty, and may be dangerous. Use of unapproved chargers may present a risk of fire, explosion, or other hazard.

When you disconnect the power cord of any accessory, grasp and pull the plug, not the cord. Parts of the device are magnetic. Metallic materials may be attracted to the device. Do not place credit cards or other magnetic storage media near the device, because of information stored on them may be erased.

Charge the battery Before charging the battery, carefully read "Battery and charger information".

1. Connect the charger to a wall outlet. 2. Connect the charger cable to the charger connector. The red indicator light is displayed during charging. Charging the battery fully may take up to 1 hour. Charging the battery for 15 minutes provides up to 3 hours and 30 minutes of talk time. If the ambient temperature falls below 0°C (32°F) or exceeds 55°C (131°F), charging stops temporarily until the temperature rises to 0°C (32°F) or falls below 55°C (131°F). 3. When the battery is fully charged, the green indicator light is displayed.

Disconnect the charger from the headset, then from the wall outlet. The fully charged battery has power for up to 8 hours of talk time or up to 200 hours of standby time. To check the battery charge when the headset is not connected to a charger, press the power key when the headset is connected to a mobile device. If the indicator light is green, the charge level is sufficient. If the light is yellow, you may need to recharge the battery soon. If the light is red, recharge the battery. Switch on or off When the battery charge is low, the headset beeps every 5 minutes and the red indicator light flashes. ENGLISH To switch on, press and hold the power key for about 2 seconds. The headset beeps, and the green indicator light flashes slowly while the headset tries to connect to the last one or two connected devices. @@@@To switch off, press and hold the power key for about 2 seconds.

The headset beeps, and the red indicator light is briefly displayed. @@@@1. Ensure that your mobile device is switched on and the headset is off. 2.

@@@@@3. @@For details, see the user guide of your mobile device. 4. Select the headset from the list of found devices. 5.

@@@@@To adjust the volume quickly, press and hold the key.

@@@@@To activate voice dialling (if your mobile device supports this feature with the headset), when no call is in progress, press and hold the answer/ end key for about 2 seconds. Proceed as described in the user guide of the mobile device. To answer or end a call, press the answer/end key. To reject a call, press this key twice. To mute the microphone during a call, slide the mute key towards the microphone.

To unmute, slide the key to the opposite direction. To switch a call between the headset and a compatible connected device, press and hold the answer/end key for about 2 seconds. Manage two calls Activate or deactivate vibration mobile device must support the Bluetooth Hands-Free Profile 1.5, and call waiting must be activated in the device. Call waiting is a network service and is available when the headset is connected to only one device.

To answer a waiting call and end the active call, press the answer/end key. To answer a waiting call and put the active call on hold, press and hold the answer/end key for about 2 seconds. To end the active call and make the call on hold active, press the answer/ end key. To switch between the active call and the call on hold, press and hold the answer/end key for about 2 seconds. ENGLISH To manage two calls with the headset at the same time, your You can set the headset to vibrate and flash the indicator light when you receive a call. By default, the vibration and the indicator light are activated. To deactivate the vibration and the light, press and hold the answer/end key and the volume down key for about 5 seconds when the headset is connected to a device.

To activate the vibration and the light, press and hold the answer/end key and the volume up key for about 5 seconds. press and hold the power key and the volume up key for about 5 seconds. The green indicator light flashes once.

To allow the headset to connect to only one device, switch off the headset, and press and hold the power key and the volume down key for about 5 seconds. The yellow indicator light flashes once. Handle calls ENGLISH Use the headset with two connected devices You can connect the headset to two devices at the same time. @@@@To answer a call on the second connected device and put the active call on hold on the first device, press and hold the answer/end key for about 2 seconds. To end the active call on the second connected device and make the call on hold active on the first device, press the answer/end key. To switch between the active call on second device and the call on hold on the first device, press and hold the answer/end key for about 2 seconds. Clear settings or reset Troubleshooting beeps twice, and the red and green indicator lights alternate. After the settings are cleared, the headset enters pairing mode. To reset the headset if it stops functioning, even though it is charged, connect the headset to a charger while you press and hold the power key. ENGLISH To clear all the settings from the headset, switch off the headset, and press and hold the power key and the answer/end key at the same time for about 8 seconds.

The headset If you cannot connect the headset to your compatible device, make sure that the headset is charged, switched on, and paired with the device. Battery and charger information This device has an internal, nonremovable, rechargeable battery. Do not attempt to remove the battery from the device as you may damage the device. This device is intended .
