Nokia reserves the right to make changes and improvements to any of ENGLISH Introduction With the Nokia Bluetooth Headset BH-609, you can make and answer calls hands-free with your compatible mobile device. @@Read this user guide carefully before using the headset. @@This product may contain small parts. Keep them out of the reach of small children. The surface of this device is nickelfree. device. To define the functions, use the Nokia Accessory Setup Application. @@For details, see the help of the application. @@If the application is not available for your Nokia device, you can use the shortcut key to mute the microphone during a call. My own key The headset has a shortcut key that you can set to perform different functions on a compatible Nokia ENGLISH Bluetooth wireless technology Bluetooth wireless technology allows you to connect compatible devices without cables.

The headset and the other device do not need to be in line of sight, but they should be within 10 metres (33 feet) of each other. Connections may be subject to interference from obstructions, such as walls, or other electronic devices. The headset is compliant with the Bluetooth Specification 2.1 + EDR supporting the Headset Profile 1.1 and Hands-Free Profile 1.5. Check with the manufacturers of other devices to determine their compatibility with this device. Get started The headset contains the following parts shown on the title page: indicator light (1), volume key (2), My own key (3), multifunction key (4), microphones (5), earloop (6), charger connector (7), and earpiece (8). Before using the headset, you must charge the battery and pair the headset with a compatible device. Do not place credit cards or other magnetic storage media near the device, because information stored on them may be erased.

Charge the battery Before charging the battery, carefully read "Battery and charger information". 1. Connect the charger to a wall Parts of the device are magnetic. Metallic outlet. materials may be attracted to the device.

ENGLISH 2. Connect the charger cable to the charger connector. The red indicator light is displayed during charging. Charging the battery fully may take up to 1 hour. Charging the battery with the AC-15 charger for 15 minutes provides up to 2 hours of talk time.

3. When the battery is fully charged, the green indicator light is displayed. Disconnect the charger from the headset, then from the wall outlet. This saves energy, as chargers consume a small amount of power when connected to a wall outlet, even when not charging. The fully charged battery has power for up to 6 hours of talk time or up to 180 hours of standby time. To check the battery charge when the headset is not connected to a charger, press the multifunction key when the headset is connected to a mobile device. If the indicator light is green, the charge level is sufficient. If the light is yellow, you may need to recharge the battery soon. If the light is red, recharge the battery. When the battery charge is low, the headset beeps every 5 minutes and the red indicator light flashes.

Switch on or off To switch on, press and hold the multifunction key for about 2 seconds. The headset beeps, and the green indicator light flashes slowly while the headset tries to connect to the last or two last connected devices. When the headset is connected to at least one device and is ready for use, the blue indicator light flashes slowly. If the headset has not been paired with a device, it automatically enters pairing mode. ENGLISH To switch off, press and hold the multifunction key for about 5 seconds. The headset beeps, and the red indicator light is briefly displayed. @@indicator light starts to flash quickly. @@3. @@For details, see the user guide of your mobile device. 4.

Select the headset from the list of found devices. 5. @@@@1. Make sure your mobile device is switched on and the headset is off. 2.

@@@@@@@Point the headset towards your mouth (11). @@@@To use the headset with the earloop, attach the earloop (12). To detach the earloop, gently pull it from the headset. @@Gently push the earpiece against your ear. Point the headset towards your mouth (11).

@@@@@Proceed as described in the user guide of the mobile device. To answer or end a call, press the multifunction key. To reject a call, press this key twice. @@The headset beeps, and a Change the volume Slide the volume key up or down. To change the volume quickly, slide and hold the key. The selected volume level is saved for the device that is currently connected to the headset. ENGLISH related icon is displayed on your device (if supported by the device). To switch a call between the headset and a compatible connected device, press and hold the multifunction key for about 2 seconds. To end the active call and make the call on hold active, press the multifunction key. To switch between the active call and the call on hold, press and hold the multifunction key for about 2 seconds.

Manage two calls To manage two calls with the headset at the same time, your mobile device must support the Bluetooth HandsFree Profile 1.5, and call waiting must be activated in the device. Call waiting is a network service and is available when the headset is connected to only one device. To answer a waiting call and end the active call, press the multifunction key.

To answer a waiting call and put the active call on hold, press and hold the multifunction key for about 2 seconds. Connect to two devices You can connect the headset to two devices at the same time. By default, the headset can only be connected to one device at a time. To allow the headset to connect to two devices, switch off the headset, and press and hold the multifunction key, and slide and hold the volume key up for about 5 seconds. The green indicator light flashes once. To allow the headset to connect to only one device, switch off the headset, and press and hold the multifunction key, and slide and hold the volume key down for about 5 ENGLISH seconds.

The yellow indicator light flashes once. Pair and connect to two devices To pair the headset with two devices, switch on the headset, put it into pairing mode, and pair it with the first device. Switch off the headset, put it into pairing mode, and pair it with the second device. To connect the headset to the two devices, switch the headset off and back on. Handle calls If the headset can connect to two devices at the same time and you use redialling or voice dialling, the call is made on the device that you last used to make a call when the headset was connected to it.

@@@@@@@To turn the lights off in some situations (for example, during a call or when the headset is connected to a mobile device), press and hold the multifunction key, and slide and hold Eclean the surface of the device. · Do not paint the device. Paint can clog the moving parts and prevent proper operation. Recycle Always return your used electronic products, batteries, and packaging materials to dedicated collection points. This way you help prevent uncontrolled waste disposal and promote the recycling of materials.

Check product environmental information and how to recycle your Nokia products at www.nokia.com/werecycle, or with a ENGLISH mobile device, www.nokia.mobi/werecycle. The crossed-out wheeled-bin symbol on your product, battery, literature, or packaging reminds you that all electrical and electronic products, batteries, and accumulators must be taken to separate collection at the end of their working life. This requirement applies in the European Union. Do not dispose of these products as unsorted municipal waste. For more information on the environmental attributes of your device, see www.nokia.com/ecodeclaration.
