Nokia operates a policy of continuous development.

Nokia reserves the right to make changes and improvements to any of ENGLISH Introduction With the Nokia Bluetooth Headset BH-904, you can make and answer calls hands-free with your compatible mobile device. @@Noise cancellation helps you handle calls in noisy environments. Read this user guide carefully before using the headset. @@This product may contain small parts. @@@@The headset and the other device do not need to be in line of sight, but they should be within 10 metres (33 feet) of each other. Connections may be subject to interference from obstructions, such as walls, or other electronic devices. The headset is compliant with the Bluetooth Specification 2.1 + EDR supporting the Headset Profile 1.1 and Hands-Free Profile 1.5.

Check with the manufacturers of other devices to determine their compatibility with this device. ENGLISH Get started The headset contains the following parts shown on the title page: volume key (1), sliding boom (2), earpiece (3), indicator light (4), power key (5), charger connector (6), mute key (7), answer/end key (8), and microphones (9). Before using the headset, you must charge the battery and pair the headset with a compatible device. Parts of the device are magnetic. Metallic materials may be attracted to the device. Do not place credit cards or other magnetic storage media near the device, because information stored on them may be erased. Warning: Use only chargers approved by Nokia for use with this particular model. The use of any other types may invalidate any approval or warranty, and may be dangerous. Use of unapproved chargers may present a risk of fire, explosion, or other hazard. When you disconnect the power cord of any accessory, grasp and pull the plug, not the cord.

Charge the battery Before charging the battery, carefully read "Battery and charger information". 1. Connect the charger to a wall outlet. 2. Lift the cover of the charger connector, and connect the charger cable to it (10).

The red indicator light is displayed during charging. Charging the battery fully may take up 35 minutes with the AC-6 charger. Charging the battery with ENGLISH the AC-6 charger for 15 minutes provides up to 5 hours of talk time. 3. When the battery is fully charged, the green indicator light is displayed.

Disconnect the charger from the headset, then from the wall outlet. Push the cover over the charger connector. To charge the headset with a compatible Nokia charger that has a 2.0 or 3.5 mm charger plug, use the Nokia Charger Adapter CA-146C (sold separately). To charge the battery through the USB port of a compatible PC, connect one end of the Nokia Connectivity Cable CA-101 (sold separately) to the charger connector and the other end to the USB port.

@@@If the indicator light is green, the charge level is sufficient. If the light is yellow, you may need to recharge the battery soon. If the light is red, recharge the battery. @@The headset beeps, and the green indicator light is displayed.

The headset tries to connect to one or two last connected devices. @@@@The headset beeps, and the red indicator light is briefly displayed. @@@@3.

@@@For details, see the user guide of your device. 4. Select the headset from the list of found devices. 5. @@@@1. Ensure that your mobile device is switched on and the headset is off. 2.

@@@@@Gently push the earpiece into your ear. @@@@To mobile device. manually adjust the volume, slide the To answer a call, pull the boom volume key up or down. To adjust the completely down toward your mouth, volume quickly, slide and hold the key. or press the answer/end key.

(For noise The selected volume level is saved for cancellation, the boom has to be the device that you currently use with completely pulled down.) To reject a the headset. call, press the answer/end key twice. To end a call, push the boom up to its Calls initial position, or press the answer/ To make a call, use your mobile device end key. in the normal way when the headset is To mute the microphone, slide the connected to it.

mute key toward your mouth. To To redial the number you last called (if unmute the microphone, slide the your mobile device supports this mute key to the opposite direction. feature with the headset), when no a noisy environment. You can use the boom to answer or end a call. To use the boom, gently pull it down toward your mouth (14), or push it up to its initial position (15). ENGLISH When you mute or unmute the microphone, the headset beeps twice. To switch a call between the headset and a compatible connected device, press and hold the answer/end key for about 2 seconds. down for about 5 seconds. The green indicator light flashes twice. If the headset can connect to two devices at the same time and you use redialling or voice dialling, the call is made on the device that you last used to make a call when the headset was connected to it.

Allow connection to two devices You can have the headset connected to two devices at the same time. By default, the headset can only be connected to one device at a time. To allow the headset to connect to two devices, switch off the headset, and press and hold the power key, and slide and hold the volume key up for about 5 seconds. The blue indicator light flashes twice. To allow the headset to connect to only one device, switch off the headset, and press and hold the power key, and slide and hold the volume key Clear settings or reset To clear all the pairing settings from the headset, switch off the headset, and press and hold the power key and the answer/end key at the same time for about 5 seconds.

*The headset beeps twice, and the red and green indicator lights alternate. After the settings are cleared, the headset enters pairing mode. To reset the headset if it stops functioning, even though it is charged, connect the headset to a charger, and press the power key and the answer/ end key at the same time.*

*ENGLISH Troubleshooting If you cannot connect the headset to your compatible device, check that the headset is charged, switched on, and paired with the device. Battery and charger information This device has an internal, nonremovable, rechargeable battery.*

*@@@@@@@The battery can be charged and discharged hundreds of times, but it will eventually wear out. Recharge your battery only with Nokia approved chargers designated for this device. If a battery is being used for the first time or if the battery has not been used for a prolonged period, it may be necessary to connect the charger, then disconnect and reconnect it to begin charging the battery. If the battery is completely discharged, it may take several minutes before the charging indicator light is displayed. Unplug the charger from the electrical plug and the device when not in use.*

*Do not leave a fully charged battery connected to a charger, since overcharging may s.*
