Manual abstract:

3 **Safety** Read these simple guidelines. Not following them may be dangerous or illegal. @@Obey all instructions in restricted areas. ROAD SAFETY COMES FIRST Obey all local laws. Always keep your hands free to operate the vehicle while driving. Your first consideration while driving should be road safety.

@@QUALIFIED SERVICE Only qualified personnel may install or repair this product. BATTERIES, CHARGERS, AND OTHER ACCESSORIES Use only batteries, chargers, and other accessories approved by Nokia for use with this device. Third-party chargers that comply with the IEC/EN 62684 standard, and that can connect to your device micro USB connector, may be compatible. Do not connect incompatible products.

KEEP YOUR DEVICE DRY Your device is not water-resistant. Keep it dry. **GLASS PARTS** The device screen is made of glass. This glass can break if the device is dropped on a hard surface or receives a substantial impact. If the glass breaks, do not touch the glass parts of the device or attempt to remove the broken glass from the device.

Stop using the device until the glass is replaced by qualified service personnel. **PROTECT YOUR HEARING** To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use. © 2012–2013 Nokia.

All rights reserved.

4 **Get started** Get to grips with the basics and have your phone up and running in no time. **Keys and parts** Explore the keys and parts of your phone. 1 Connector for headphones and loudspeakers (3.5 mm) 2 Earpiece 3 Proximity sensor. Do not cover, for example, with protective film or tape. 4 Volume keys 5 Power/Lock key 6 Camera key 7 Microphone 8 Back key 9 Start key 10 Search key 11 Micro-USB connector. Used also to charge the battery. 12 13 Camera lens Loudspeaker © 2012–2013 Nokia. All rights reserved. 5 Back, start, and search key The back, start, and search keys help you navigate your phone.

•••• To switch between open apps, press and hold , swipe left or right, and tap the app you want. To go back to the previous screen you were in, press . Your phone remembers all the apps and websites you've visited since the last time your screen was locked. To go to the start screen, press . The app you were in remains open in the background. To control your phone with your voice, press and hold , and say a voice command. This feature is not available in all languages. For more info on feature and service availability, see the How-to section at www.windowsphone.com.

To search the web, press . • **Insert the SIM card** Read on to learn how to put your SIM card in your phone. Important: This device is designed to be used with a mini-UICC SIM card, also known as a microSIM card only. A micro-SIM card is smaller than the standard SIM card. Use of incompatible SIM cards may damage the card or the device, and may corrupt data stored on the card.

Do not use SIM cards that have been modified to fit the micro-SIM slot. To replace a standard SIM card with a micro-SIM card, contact your service provider. Do not attach any stickers to the card. 1. Put your fingernail in the gap on the lower right edge of the phone, and carefully lift and remove the back cover.

2. If the battery is in the phone, lift it out. © 2012–2013 Nokia. All rights reserved. 6 3. Push the card in, contact area face down. 4. Line up the battery contacts, and put the battery in. 5. Put the cover back on.

Remove the SIM card Remove the back cover and battery, and pull the card out. © 2012–2013 Nokia. All rights reserved. 7 **Charge your phone with a USB charger** Your battery has been partially charged at the factory, but you may need to recharge it before you can switch the phone on for the first time. Make sure you use a compatible USB charger to charge your phone. 1. Plug the charger into a wall outlet, then connect the USB cable to your phone. 2. When the battery is full, disconnect the charger from the phone, then from the wall outlet. You don't need to charge the battery for a specific length of time, and you can use the phone while it's charging.

If your phone is off when you start charging, it automatically switches on. If the battery is completely discharged, it may take several minutes before the charging indicator is displayed or before any calls can be made. Tip: You can use USB charging when a wall outlet is not available. Data can be transferred while charging the device. The efficiency of USB charging power varies significantly, and it may take a long time for charging to start and the device to start functioning.

First connect the USB cable to the computer, then to your phone. When the battery is full, first disconnect the USB cable from your phone, then from the computer. **Antenna locations** Learn where the antennas are located on your phone to get the best possible performance. Avoid touching the antenna area while the antenna is in use. Contact with antennas affects the communication quality and may reduce battery life due to higher power level during operation. © 2012–2013 Nokia. All rights reserved. 8 The antenna areas are highlighted. Switch the phone on Are you ready? Switch your phone on, and start exploring it. Press and hold the power key until the phone vibrates. Switch the phone off Press and hold the power key, and drag the lock screen down. © 2012–2013 Nokia. All rights reserved. 9 **Windows Live ID** With a Windows Live ID (also called Microsoft account), you can access all Windows Live and Zune services with a single username and password on your computer or phone. You can also use the same username and password to access Xbox Live services on your Xbox.

With your Windows Live ID, you can, for example: ••••• Download content from Marketplace Back up your contacts in Windows Live Upload, store, and share pictures and documents on SkyDrive Get your gaming achievements on your phone, and add to them when you play games on your phone Keep track of and lock your lost phone with Find My Phone To learn more about Windows Live ID and Windows Live services, go to www.live.com. Copy contacts Have your nearest and dearest instantly at your fingertips. Use the Contacts Transfer app to easily copy your contacts from your old phone. © 2012–2013 Nokia. All rights reserved. 10 Your old phone needs to support Bluetooth. The contacts on your old phone need to be stored in the phone memory, not on the SIM.

The app does not work with all phone models.

1. On your old phone, switch Bluetooth on. 2. On the start screen of your new phone, swipe left to the apps menu, and tap Contacts Transfer. 3. Tap continue, and switch Bluetooth on. 4. Select your old phone from the list of found devices, and follow the instructions shown on both phones. Tip: If you have previously backed up your contacts in Windows Live, you can also import them to your phone straight from the service. If your contacts are written in a language that is not supported by your new phone, the contact information may not be shown correctly.

Lock keys and screen Want to avoid accidentally making a call when your phone is in your pocket or bag? To lock the keys and screen of your phone, press the power key. Unlock the keys and screen Press the power key, and drag the lock screen up. © 2012–2013 Nokia. All rights reserved. 11 Set the keys and screen to lock automatically Tap Settings > lock+wallpaper > Screen times out after, and select the length of time after which the keys and screen are locked automatically. Connect the headset Enjoy your favourite music, or free your hands for other things when in a call. Connect the headset to your phone. Do not connect products that create an output signal, as this may damage the device. Do not connect any voltage source to the audio connector. If you connect an external device or headset, other than those approved for use with this device, to the audio connector, pay special attention to volume levels.

Change the volume Trouble hearing your phone ringing in noisy environments, or calls too loud? You can change the volume to your liking. Use the volume keys. The volume keys control all sounds, including the volume of alarms and reminders. Tip: When you change the volume, you can also switch your phone to silent or normal mode. On the volume control bar at the top of the screen, tap , , or . © 2012–2013 Nokia. All rights reserved. 12 Set up sync with computer Keep your stuff with you – with the Zune PC app, you can sync your music, videos, and photos between your phone and your compatible computer. You can also back up and update your phone with the latest software, to improve performance and get new features. 1.

Download and install the latest version of Zune on your PC from www.zune.net. Tip: If you're using an Apple Mac, download Windows Phone 7 Connector for Mac from the Mac App Store. 2.

Make sure your phone is not locked with a security code. 3. Connect your phone to your computer with a compatible USB cable, and follow the instructions shown on your computer. 4. To change Zune sync settings, on your computer, select SETTINGS.

If you have previously used another app, such as Nokia Ovi Suite or Nokia Suite, to sync your files between your phone and computer, you can set Zune to sync files to the same folders you have used earlier, and have your music and other content easily synced to your new phone. Icons shown on your phone The bar at the top of the screen tells you the current time, battery and signal strength, and much more. Tip: To see hidden icons, tap the status bar. Signal strength Battery power level The battery is charging. Battery saver mode is switched on. Your calls are forwarded to another number or your voice mailbox. There is no SIM card in your phone. Your SIM card is locked. © 2012–2013 Nokia. All rights reserved.

13 A Bluetooth device is connected to your phone. A Wi-Fi connection is available. A Wi-Fi connection is active. An app or service is using your location info. Your phone is roaming and not on your home mobile network. Vibrate mode is switched on. Flight mode is switched on. Silent mode is switched on. The type of mobile network you're currently connected to may be shown with a single letter, a combination of letters, or a combination of letters and numbers. For example, , depending on your network service provider.

The icons may vary depending on your region or network service provider. © 2012–2013 Nokia. All rights reserved. 14 Basics Learn how to get the most out of your new phone. Get to know your phone Your phone has two main views, making it easy for you to keep up with what is going on and what's where.

Start screen (1): Animated live tiles show missed calls and received messages, the latest news and weather forecasts, and more. You can rearrange and resize the pdates are displayed on the tile, and you can call them directly from the start screen. Pin a website Go to a website, and tap > pin to start. Move a tile Tap and hold the tile, drag and drop it to the new location, and tap the screen. Resize or unpin a tile To resize, tap and hold the tile, and tap the arrow icon.

To unpin the tile, tap and hold the tile, and tap . © 2012–2013 Nokia. All rights reserved. 20 Change your theme You can change the display colours, to match your taste and mood. 1. On the start screen, swipe left, and tap 2. Tap Background or Accent colour. Personalise the lock screen Would you like to make your lock screen look more unique? You can, for example, set your own favourite photo as a background picture. Settings > theme. On the home screen, swipe left, and tap Settings > lock+wallpaper.

. Change the background picture Tap change wallpaper, select a picture, adjust it to get the best possible fit, and tap Personalise your phone tones You can select the best sounds for your phone. 1. On the start screen, swipe left, and tap Settings > ringtones+sounds. 2. Select the type of ringtone or alert you want to change, and select the sound. Silence your phone When you switch silent mode on, all ringtones and alert tones are muted. Use this when you are, for example, at the cinema or in a meeting. 1. Press a volume key to see the volume status bar at the top of the screen, and tap .

© 2012–2013 Nokia. All rights reserved. 21 Silent mode is switched on. If you have set your phone to vibrate, vibrate mode instead of silent mode. 2. If you want to set your phone to vibrate, on the start screen, swipe left, tap . +sounds, and switch Vibrate to On is switched on Settings > ringtones Extend battery life Find the balance between getting the most out of your phone while getting the battery life you need. There are steps you can take to save power on your phone. ••••Always charge the battery fully. Mute unnecessary sounds, such as key press sounds.

Use wired headphones, rather than the loudspeaker. The camera viewfinder can be a power drain, so after you've finished taking photos, press . Tip: You can set your phone to automatically save power when the battery charge level is low. To check the battery status, and switch battery saver mode on, on the start screen, swipe left, and tap Settings > battery saver. When your phone goes into battery saver mode, you may not be able to change the settings of all apps. To save power, you can also do the following: Set the phone screen to switch off after On the start screen, swipe left, and tap +wallpaper > Screen times out after. a short time Use a dark theme Lower the screen brightness On the start screen, swipe left, tap and under Background, tap Dark. Settings > lock Settings > theme, On the start screen, swipe left, and tap Settings > , and brightness. Switch Automatically adjust to Off select the level you want. •Set your phone to check for new mail less frequently.

Use network connections selectively: © 2012–2013 Nokia. All rights reserved. 22 ••••Switch Bluetooth on only when needed. Use a Wi-Fi connection to connect to the internet, rather than a mobile data connection.

[You're reading an excerpt. Click here to read official NOKIA LUMIA 510 user guide](http://yourpdfguides.com/dref/5574820)

<http://yourpdfguides.com/dref/5574820>

Stop your phone scanning for available wireless networks. On the start screen, swipe left, tap Settings, and switch WiFi to Off. If you're listening to music or otherwise using your phone, but don't want to make or receive calls, switch flight mode on. Save on data roaming costs Want to go easy on your phone bills? You can save on data roaming costs by changing mobile data settings. Data roaming means using your phone to receive data over networks that your network service provider doesn't own or operate. Connecting to the internet when roaming, especially when abroad, can raise data costs substantially.

Your network service provider can charge you a fixed fee for data transfer or on a pay as you use basis. To use the optimal connection method, change the Wi-Fi, mobile data, and mail download settings. Using a Wi-Fi connection is generally faster and less expensive than using a mobile data connection. If both Wi-Fi and mobile data connections are available, your phone uses the Wi-Fi connection. On the start screen, swipe left, and tap Settings.

1. Tap WiFi. 2. Make sure WiFi networking is switched to On 3.

Select the connection you want to use. Close a mobile data connection Tap mobile network, and switch Data connection to Off. Stop data roaming Tap mobile network, and switch Data roaming options to don't roam. Set mail download to manual Set your phone to check for new mail less frequently, or even by request only. In every mailbox you > settings > synchronisation settings, and change the setting for Download new have, tap content. Write text Learn how to write text quickly and efficiently with your phone's keyboard. Use the on-screen keyboard Writing with the on-screen keyboard is easy and fun. You can use the keyboard when holding your phone in portrait or landscape mode. Tap a text box. © 2012–2013 Nokia.

All rights reserved. 23 1 2 3 4 5 6 7 8 Character keys Shift key Numbers and symbols key Smiley key Space key Language key Enter key Backspace key The keyboard layout can vary in different apps. The language key is only shown when more than one language is selected. The example shows the English keyboard. Switch between upper and lower case characters Tap the shift key. To switch caps lock mode on, double-tap the key. To return to normal mode, tap the shift key again. Type in a number or special character Tap the numbers and symbols key. To see more special character keys, tap the shift key. Some special character keys bring up more symbols.

To see more symbols, tap and hold a symbol or special character. Tip: To put a full stop at the end of a sentence, and to start a new sentence, tap the space key twice. Tip: To quickly type in a number or special character, while holding the numbers and symbol key, slide your finger to the character, and lift your finger. © 2012–2013 Nokia. All rights reserved.

24 Copy and paste text Tap a word, drag the arrows before and after the word to highlight the section you want to copy, and tap . To paste the text, tap . Add an accent to a character Tap and hold the character, and tap the accented character. Delete a character Tap the backspace key. Switch between the writing languages Tap the language key repeatedly until the language you want is shown.

The language key is only shown when more than one language is selected. Move the cursor Tap and hold the text until you see the cursor. Without lifting your finger, drag the cursor to the place you want. Use keyboard word suggestions Your phone suggests words as you write, to help you write quickly and more accurately. Word suggestions are available in several languages. When you start writing a word, your phone suggests possible words. When the word you want is shown in the suggestion bar, tap the word. To see more suggestions, swipe left. Tip: If the suggested word is in bold, your phone automatically uses it to replace the word you wrote. If the word is wrong, tap it, and you see the original word and a few other suggestions.

Correct a word If you notice that you have misspelled a word, tap it, and you see suggestions for correcting the word. Add a new word to the dictionary If the word you want isn't in the dictionary, write the word, tap it, and tap the plus sign (+) in the suggestion bar. Your phone also learns new words when you have written them a few times. © 2012–2013 Nokia. All rights reserved. 25 Switch word suggestions off On the start screen, swipe left, and tap Settings > keyboard > typing settings. Tap your language keyboard, and clear the Suggest text and highlight misspelt words check box. Remove manually added words On the start screen, swipe left, and tap suggestions. Add writing languages You can add several writing languages to your keyboard and switch between the languages when writing. 1.

On the start screen, swipe left, and tap Settings > keyboard. 2. Select the languages you want to write in. Switch between the languages when writing Tap the language key repeatedly until the language you want is shown. The keyboard layout and word suggestions change according to the language selected.

The language key is only shown when more than one writing language has been selected. Settings > keyboard > typing settings > reset © 2012–2013 Nokia.

All rights reserved. 26 Clock Keep track of time – learn how to use your phone as a clock, as well as an alarm clock. Set an alarm You can use your phone as an alarm clock.

1. On the start screen, swipe left, and tap Alarms. 2. Tap . 3. Fill in the alarm details, set the time, and tap . 4. For the alarm to sound, your phone must be switched on, and the phone volume needs to be loud enough. Switch an alarm off Switch the alarm to Off Delete an alarm Tap the alarm, and tap .

© 2012–2013 Nokia. All rights reserved. 27 Snooze an alarm Don't want to get up just yet? When an alarm sounds, you can snooze the alarm. When the alarm sounds, tap snooze. Update the time and date automatically You can set your phone to update the time, date, and time zone automatically. Automatic update is a network service. On the start screen, swipe left, and tap Switch Set automatically to On . Settings > date+time. Update the time and date manually , and edit the time and date. Switch Set automatically to Off Update the time zone manually when travelling abroad , and tap Time zone and a location.

Switch Set automatically to Off Nokia account Your Nokia account is the key to Nokia services. With your Nokia account, you can, for example: •••Access Nokia services with a single username and password on your computer or phone. Sync your favourites in Maps Download content from Nokia services Save details about your phone model and contact info. You can also add your payment card details to your Nokia account. The available services may vary.

To learn more about the Nokia account and Nokia services, go to account.nokia.com. © 2012–2013 Nokia. All rights reserved.

28 People & messaging Contact your friends and family, and share files, such as photos, using your phone.

[You're reading an excerpt. Click here to read official NOKIA LUMIA 510 user guide](http://yourpdfguides.com/dref/5574820)

4. Tap the social networking service where you want to upload the photo. 5. Add a caption if you want, and tap . . Messages Stay in touch with your friends, and send them text or multimedia messages, or start a chat. © 2012–2013 Nokia. All rights reserved. 35 You can open messages directly from the start screen.

Tap You can send and receive different kinds of messages: •••Messaging.

Text messages Multimedia messages that contain attachments, such as photos Chat messages Messages and chats between you and a particular contact are arranged into conversations. When you want to get in touch with a contact, your phone can help you pick the best method. If your contact is signed in to a chat service, you can send a chat. Otherwise, you can send a text message instead. If you make contact groups containing, for example, family or colleagues, you can send a message to a group.

You can send text messages that are longer than the character limit for a single message. Longer messages are sent as two or more messages. Your service provider may charge accordingly. Characters with accents, other marks, or some language options, take more space, and limit the number of characters that can be sent in a single message. Using services or downloading content may cause transfer of large amounts of data, which may result in data traffic costs. Send a message With text and multimedia messages, you can quickly contact your friends and family. 1. Tap Messaging. 2. Tap . 3. To add a recipient from your contacts list, tap , or start writing a name. You can also type in a phone number. You can add more than one recipient. 4.

Tap the message box, and write your message. Tip: To add a smiley, tap 5. To add an attachment, tap . and the file. © 2012–2013 Nokia. All rights reserved.

36 Tip: You can also take a new photo while writing your message. Tap picture or video > a photo, and tap accept. If the item you insert in a multimedia message is too large for the network, the device may automatically reduce the size. 6.

To send the message, tap . , take Only compatible devices can receive and show multimedia messages. Messages may look different in different devices. Read a message You can see on the start screen when you've received a message. You can view the messages between you and a contact in one conversation thread.

The thread can contain text messages, multimedia messages, and chats. 1. Tap Messaging. 2. Tap a conversation.

Save an attachment Tap the attachment, such as a photo, and tap Delete a conversation > delete thread. Tap Reply to a message Don't keep your friend waiting – reply to the message straight away. 1. Tap Messaging. 2. In threads, tap the conversation containing the message. 3. Tap the message box, and write your message. Tip: If you have more than one phone number for the contact stored in your phone, you can also send your reply to a different number. Tap to pick another phone number.

4. Tap . > save to phone. © 2012–2013 Nokia. All rights reserved. 37 Forward a message Tap and hold the message, and tap forward. Before forwarding the message, you can edit what's written or add or remove attachments. Send a message to a group Need to send a message to a group of people? Create a group in the People hub, and you can reach them all with a single message or mail. 1. On the start screen, tap People.

2. Tap the group, and text or send email, and write and send your message. Keep replies in one thread When sending messages with a group of people, replies to you are shown as separate threads, unless you use Group text.

Tip: You can also take a new photo while writing your mail. Tap accept. 6. Tap to send the mail. Read mail Waiting for important news? Use your phone to read your mails instead of checking them only when you're at your desk.

You can see when you have new mail on the start screen. 1. On the start screen, tap . © 2012–2013 Nokia. All rights reserved.

40 2. In your mailbox, tap the mail. Unread mail is marked in a different colour. Tip: To zoom in or out, place two fingers on the screen, and slide them together or apart. Tip: If a mail contains a web address, tap it to go to the website. Read mail in a conversation In your mailbox, tap the conversation that includes the mail, and tap the mail. A conversation with unread mail is marked in a different colour. Save an attachment With the mail open, tap the attachment, such as a photo, and it downloads to your phone. Tap the > save to phone. Not all file formats can be saved.

attachment again, and tap Reply to mail Do you receive mail that needs a quick answer? Reply straight away using your phone. 1. On the start screen, tap . 2. Open the mail and tap . Tip: To reply to the sender only, tap reply. To reply to the sender and all other recipients, tap reply all. Forward a mail Open the mail and tap Delete mail Is your mailbox overflowing? Delete some mails to free up space in your phone. 1. In your mailbox, tap to the left of the mails you want to delete.

2. Tap the check boxes that appear next to the mails, and tap > forward. © 2012–2013 Nokia. All rights reserved. 41 All the mails you selected are deleted. Depending on your mail account, the mails may be deleted from your mail server, too. Delete one mail Open the mail and tap View mails separately Mails are grouped by title in conversations. A conversation also includes your replies. If you'd like to view all your mails separately, you can switch the conversations feature off. 1.

On the start screen, tap . > settings. 2. Tap 3. Switch Conversations off. Link several mailboxes as a unified inbox If you have more than one mail account, you can choose which inboxes you want to link together into one inbox. The unified inbox lets you see all your mail at a glance. 1. On the start screen, tap a mailbox. > link inboxes.

2. Tap 3. In the other inboxes list, tap the inboxes you want to link to the first one. 4. Tap rename linked inbox, write a new name for the mailbox and tap . The new unified inbox is pinned to the start screen. Unlink unified inboxes If you want to view your mailboxes individually, or start using only one mail account, you can unlink the unified inboxes. 1. On the start screen, tap the unified inbox. > linked inboxes.

2. Tap 3. In the this inbox list, tap the inboxes you want to unlink and unlink. Delete a mailbox If you don't want to use a mailbox anymore, you can delete it from your phone. © 2012–2013 Nokia.

All rights reserved. . 42 1. Swipe left, and tap Settings > email+accounts. 2.

Tap and hold the mailbox, and tap delete. © 2012–2013 Nokia. All rights reserved. 43 Camera Why carry a separate camera if your phone has all you need for capturing memories? With your phone camera, you can easily take photos or record videos. Take a photo Shoot sharp and vibrant photos – capture the best moments in your photo album.

[You're reading an excerpt. Click here to read official NOKIA LUMIA 510 user guide](#)

1. To open the camera, press the camera key. 2. To zoom in or out, select + or - on zoom control 3. To take the photo, press the camera key.

. Keep the phone still until the photo is saved, and the camera is ready for a new photo. To view the photo you just took, swipe right. Photos are saved in your Camera Roll in the Pictures hub. Take a photo without using the camera key To focus on a specific object or area, tap the object or area on the screen. Hold the phone still until the white square stops blinking. © 2012–2013 Nokia. All rights reserved. 44 Use different scene modes Learn how to shoot photos in various situations using the different scene modes in your phone camera. Take a close-up photo It can be tricky to get small objects, such as flowers, in focus.

You need to move the camera closer to the object. To take sharp and precise photos of even the tiniest details, use close-up mode. 1. To open the camera, press the camera key. 2.

To switch close-up mode on, select > Scenes > Macro. Take a photo of a moving object Are you at a sports event and want to capture the action with your phone? Use sports mode to take a sharper photo of moving people. 1. To open the camera, press the camera key. 2.

To switch sports mode on, tap > Scenes > Sports. Take a photo in low light Want to take better photos even in dim light? Use night mode. 1. To open the camera, press the camera key. 2. To switch night mode on, tap > Scenes > Night. Record a video Besides taking photos with your phone, you can also capture your special moments as videos. 1. To open the camera, press the camera key. 2.

To switch from photo to video mode, tap . 3. To start recording, press the camera key. The timer starts to run. © 2012–2013 Nokia. All rights reserved. 45 4. To stop recording, press the camera key. The timer stops. To view the video, swipe right and tap .

The video is saved to your Camera Roll in the Pictures hub. Camera tips Here are some tips to help you get the most out of your phone camera. ••••• Use both hands to keep the camera steady. To zoom in or out, tap + or - on zoom control . When you zoom in, the image quality may decrease.

To switch between taking photos and recording videos, tap or . To change camera settings, such as scene modes and resolution, tap and the setting. If you don't use the camera for a few minutes, it goes to sleep. To wake the camera up, press the power key, and drag the lock screen up. Save location info to your photos and videos If you want to remember exactly where you were when you took a particular photo or video, you can set your phone to automatically record the location.

1. On the start screen, swipe left, and tap Settings. 2. Swipe to applications, and tap pictures+camera. 3. Switch Include location information in pictures you take to On . If you want to include location information in your photos when you upload them to a sharing service, . such as Facebook or SkyDrive, switch Keep location information on uploaded pictures to On Location info can be attached to a photo or video, if your location can be determined using satellite or network methods. If you share a photo or video that contains location info, the location info may be visible to those who view the photo or video. You can switch geotagging off in the phone settings.

Share your photos and videos After taking a photo or recording a video you can upload it to a sharing service, such as Facebook or SkyDrive. 1. To open the camera, press the camera key. 2. Take a photo or record a video. > share.... 3.

Swipe right. Tap 4. Select how you want to share, and follow the instructions. Tip: To make sharing easier, you can set Facebook or SkyDrive as your quick share account. The quick share account is in the menu when you start sharing.

To set the quick share account, on the start screen, swipe left, and tap Settings. Swipe to applications, and tap pictures+camera > Quick Share Account and the account. Using services or downloading content may cause transfer of large amounts of data, which may result in data traffic costs. Not all sharing services support all file formats or videos recorded in high quality. © 2012–2013 Nokia.

All rights reserved. 46 Manage your shots Shot lots of great photos and videos? Here's how you view, organise, and share them. Pictures hub The photos you have taken or videos you have recorded with your phone are saved in the Pictures hub, where you can browse and view them. To find your photos and videos easily, mark your favourites, or organise them into albums. View photos Relive those important moments – view the photos on your phone. Tap Pictures. 1. To view a photo you've taken, tap Camera Roll and the photo. 2. To view the next photo, swipe left.

To view the previous photo, swipe right. Zoom in or out Place two fingers on the screen, and slide your fingers together or apart. Tip: To quickly zoom in or zoom back out, tap the photo twice. © 2012–2013 Nokia. All rights reserved. 47 View the available options Tap and hold the photo. Mark a photo as a favourite Would you like to find your best shots quickly and easily? Mark them as favourites, and see them in the favourites view in the Pictures hub. 1. Tap Pictures. 2.

Tap albums, and browse to the photo. If the photo is in an online album, save it to your phone first. Tap 3. Tap and hold the photo, and tap add to favourites. Tip: You can also mark a photo as a favourite right after taking it.

Just swipe right, tap and hold the photo, and tap add to favourites. View your favourites In the Pictures hub, swipe to favourites. Upload photos and videos to the web Want to upload your photos and videos to a social networking service for your friends and family to see? You can do that directly from the Pictures hub. 1. Tap Pictures.

2. Select a photo or video to upload. > share.... 3. Tap 4. Select how you want to share, and follow the instructions on the screen. Tip: To access your photos from all your devices, you can set up uploading to SkyDrive.

SkyDrive is then available in the menu when you view your photos. To set up the feature, on the start screen, swipe left, and tap Settings. Swipe to applications, and tap pictures+camera > Quick Share Account and the account. Change the background in the Pictures hub Have a superb shot that makes you feel good every time you look at it? Set it as the background of the Pictures hub. 1. Tap Pictures. 2. Tap > choose background. 3. Select the photo, and tap

Tip: You can also set your phone to periodically change the photo automatically. Tap shuffle background. > > save to phone. © 2012–2013 Nokia. All rights reserved.

48 Create an album To easily find photos of an occasion, a person, or a trip, organise your photos into albums according to subject, for example. 1. Open the Zune PC app on your computer. 2. In Zune, select Collection and Pictures.

Right-click an album in My Pictures, select New album, and give it a name. 3. Add photos to the album, and sync it with your phone.

57 Positioning methods Your phone shows your location on the map using GPS, A-GPS, Wi-Fi, or network (Cell ID) based positioning. The availability, accuracy and completeness of the location info depend on, for example, your location, surroundings, and third party sources, and may be limited. Location info may not be available, for example, inside buildings or underground. For privacy info related to positioning methods, see the Nokia Privacy Policy. The

Assisted GPS (A-GPS) network service retrieves location info using the cellular network, and assists GPS in calculating your current location.

A-GPS and other enhancements to GPS may require transferring small amounts of data over the cellular network. If you want to avoid data costs, for example when travelling, you can switch the mobile data connection off in your phone settings. Wi-Fi positioning improves positioning accuracy when satellite signals are not available, especially when you are indoors or between tall buildings. If you're in a place where the use of Wi-Fi is restricted, you can switch Wi-Fi off in your phone settings. The trip meter may not be accurate, depending on the availability and quality of your satellite connection. © 2012–2013 Nokia. All rights reserved. 58 Internet Learn how to create wireless connections and browse the web while keeping your data costs down. Define internet connections

Does your network service provider charge you a fixed fee for data transfer or on a pay as you use basis? Change the Wi-Fi and mobile data settings to reduce your data costs while roaming and at home. Using a Wi-Fi connection is generally faster and less expensive than using a mobile data connection.

If both Wi-Fi and mobile data connections are available, your phone uses the Wi-Fi connection. 1. On the start screen, swipe left, and tap Settings > WiFi. 2. Make sure WiFi networking is switched to On . 3. Select the connection you want to use. Use a mobile data connection On the start screen, swipe left, and tap to On. Settings > mobile network, and switch Data connection Use a mobile data connection when roaming Connecting to the internet when roaming, especially when abroad, can raise data costs substantially. Data roaming means using your phone to receive data over networks that your network service provider doesn't own or operate.

On the start screen, swipe left, tap options to roam. Settings > mobile network, and switch Data roaming Connect your computer to the web Want to use the internet on your laptop but don't have access? You can use your phone's mobile data connection with your laptop or other devices. A Wi-Fi connection is then created. 1. On the start screen, swipe left, and tap 2.

Switch Sharing to On . © 2012–2013 Nokia. All rights reserved. Settings > Internet Sharing. 59 3.

To change the name of your connection, tap setup > Broadcast name, and write a name. Tip: You can also type in a password for the connection. 4. Select the connection on the other device. The other device uses data from your data plan, which may result in data traffic costs. For info on availability and costs, contact your network service provider. Web browser Catch up on the news, and visit your favourite websites. You can use Internet Explorer 9 Mobile in your phone to view web pages on the internet. Your browser can also help warn you against security threats. Tap Internet Explorer.

To browse the web, you must be connected to the internet. Browse the web Who needs a computer, when you can browse the internet on your phone? Tip: If your network service provider doesn't charge you a fixed fee for data transfer, to save on data costs, use a Wi-Fi network to connect to the internet. 1. Tap Internet Explorer. 2. Tap the address bar. 3. Write a web address. Tip: To quickly write a web address suffix such as .org, tap and hold the suffix key on the keyboard, and tap the suffix you want.

4. Tap . . Tip: To search the internet, write a search word in the address bar, and tap Zoom in or out Place two fingers on the screen, and slide your fingers apart or together. © 2012–2013 Nokia.

All rights reserved. 60 Tip: You can also double-tap the screen. Open a new tab When you want to visit several websites at the same time, you can open up to 6 browser tabs and switch between them. Tap Tap Internet Explorer. > tabs > .

Switch between tabs > tabs and a tab.
