way navigation key of the emulator to navigate to the Installed folder in the emulator's application grid. @@@@ Click Restart. @@In the Carbide.

c++ IDE, go to Window > Preferences... > Carbide.c++ > SDK Preferences and verify that the SDK is listed in Available Symbian OS SDKs.

Version 1.0 \ January 2nd, 2009 S60 5th Edition SDK Installation Guide \ 16 5 Configuring the Emulator Once the SDK has been installed, you need to configure Bluetooth and Ethernet for the emulator. For detailed instructions on how to do this, please refer to the Emulator guide in the SDK Help. The SDK Help can be opened through the Windows Start menu by choosing Start > All Programs > S60 Developer Tools > 5th Edition > v1.0 > SDK Documentation. Version 1.0 \ January 2nd, 2009 S60 5th Edition SDK Installation Guide \ 17 6 Uninstalling the SDK To uninstall the SDK, do the following: 1 2 3 4 5 6 In the Windows Start menu, go to Start > Settings > Control Panel. In the Control Panel double click the Add/Remove Programs icon. In the Add/Remove Programs window, select the S60 SDK from the list of currently installed programs. With the S60 SDK selected, click Remove. The InstallShield window opens. When prompted to confirm that you really want to uninstall the SDK, click Yes. Once the SDK has been removed from your PC, InstallShield informs you of this: Click Finish to exit the InstallShield application. @@Do not attempt to remove the SDK contents manually. For example, in the Windows Explorer.

@@These files and folders need to be removed manually by, for example, deleting them in the Windows Explorer.

Version 1.0 \ January 2nd, 2009 S60 5th Edition SDK Installation Guide \ 18.7 Multiple SDKs on the Same Computer 7.1 Multiple SDK instances on the same computer Installing multiple instances of the SDK is supported in the S60 5th Edition SDK. To install additional instances of the SDK, follow normal installation steps, as described in Installing the SDK. Once an additional SDK has been installed, it is displayed in the Windows Start menu by, for example, opening the SDK Help by selecting Start > All Programs > S60 Developer Tools > 5th Edition SDK > v1.0 > SDK Documentation. Notice, that the new SDK instance is numbered in the Start menu as v1.0_2. The same consecutive numbering is also applied in the default SDK installation directory, followingly: First installed SDK instance: C:\S60\devices\S60_5th_Edition_SDK_v1.

0\ Second installed SDK instance: C:\S60\devices\S60_5th_Edition_SDK_v1.0_2\ Third installed SDK instance: C:\S60\devices\S60_5th_Edition_SDK_v1.0_3\ 7.2 Devices basics Since Symbian.
