B440dn **OKI**
PRINTING SOLUTIONS

Professional desktop mono printing for small workgroups

In our experience, simplicity equals reliability. And that's what you can expect from the B440dn printer - a robust, simple design with ultra-quiet digital LED technology for monochrome printing with absolute confidence.

Combine that with intelligent design and a range of handy utilities you'll see why OKI printers just keep on printing, page after page and day after day. They're just what you need for a busy office.

Everything you need
As you would expect from OKI, the B440dn gives you everything you need from a small workgroup desktop printer. With its high duty cycle, true 1200 x 1200dpi resolution, a paper capacity that's expandable to 1,110 sheets, including a 50 sheet multi-purpose tray, and the potential for using toner cartridges up to 10,000 pages, this is the printer of choice for busy offices. What's more automatic two-sided printing is standard, saving paper and reducing costs.

Easy to live with
The B440dn has that famous OKI ease of use. A front-facing LCD display gives clear, at-a-glance status information, the toner cartridge can be replaced in moments (it's the same with the paper), and there's a whole suite of powerful productivity software to make life in the office easier than ever. And that's OKI. Reliable, high quality printers that everyone in the office can depend upon.

Dependable performance
You'll find that the first page appears in just 5.5 seconds and the rest follow at an impressive 28 pages per minute (ppm) - speeds you can be confident of, thanks to a powerful processor and a generous standard 64MB memory that's expandable right the way up to 320MB.

Powerful productivity software
The B440dn is complemented with useful utilities to help you get even more value from this reliable desktop printer:

- **Pilot Control** - for tracking usage and controlling access for tighter cost control.
- **PrintSuperVision** - browser-based monitoring and management of all your network printers, regardless of make or model.
- **Template Manager 3.0** - editable, easy to use templates for creating a wide range of office documents.
