B730 Specifications

OKI PRINTING SOLUTIONS

Business printing performance you can rely on

The B730 A4 mono printer brings fast, reliable and affordable printing to the large workgroup and business critical print environment. The B730 combines advanced security, management and performance with robust and durable technology offering speeds of 50 pages per minute (ppm) for improved business efficiency.

The B730 offers enhanced productivity through fast print speeds, effective network management and reduced user intervention. Combine this with a low total cost of ownership, simple network integration and an intuitive control panel with a 5-line LCD back-lit display and you get a printer that offers complete versatility in any working environment.

Fast and affordable printing
The B720 prints at an impressive 50ppm and thanks to a combination of high standard RAM memory (128MB) and 600MHz processing power has a fast first page out time of just 8 seconds. It comes with two input trays as standard (700 sheets) for flexible media handling, which can be expanded up to 1,800 sheets from 4 paper sources. The B730 has PCL/PostScript emulations and its 1,200 x 1,200dpi resolution ensures pin-

sharp output every time – a must for all customer facing documents and output. An optional Offset Catch Tray can be added to ease job separation,

Low total cost of ownership
Bringing affordable printing closer to the workgroup, the B730 combines low hardware costs with a high yield toner cartridge up to 25,000 pages reducing both your capital and consumables costs. The single consumable is changed in seconds ensuring the printer is always 'ready' for business critical processes. With a 3-year warranty added to the list you have a printer that makes complete business sense. The B730 delivers a reduced total cost of ownership and will continue to provide value for money and reliable printing now and in the future,

Easy management and simple security
Printing securely and protecting sensitive information has never been easier. The B730 allows you to print securely using a pin number, which when entered through the standard numeric keypad releases the job. This simple to use system ensures that only authorised users can access sensitive documents at the printer.

PrintSuperVision network management software enables control and visibility over the network, to maintain the printers in optimal condition and always ready to print. For even faster performance a 1GB network card can be added as an option. The integrated USB port allows PDF files to be printed direct from a USB stick for added flexibility.

Built to last
The B730 is designed to perform in the most demanding environments. The robust design and innovative technology not only delivers outstanding reliability but also offers you consistently high quality print over and over again.

Saving money and energy
Built to meet Energy Star and Blue Angel certification, the B730 is kind to the environment, providing energy savings, reducing costs and CO2 emissions. The duplex model will also reduce paper usage significantly.
