- 3 - 1 Press the 9 or 0 button to select the item to set. · Select the item from the "hour", "minute", "year", "month" and "day" with a flashing point. 2 Press the + or - button to set. · Follow the same steps by pressing the 9 or 0 button to select the next item, and press the + or - button to set. · You can select between 12 and 24 hour display by pressing the FOLDER/INDEX/SCENE button while setting the hour and minute. · You can select the order of the "month", "day" and "year" by pressing the FOLDER/INDEX/SCENE button while setting them. 3 Press the `OK/MENU button to complete the setting. · The clock will start from the set date and time.

Press the `OK/MENU button according to the time signal. · While the recorder is during stop mode, press and hold the STOP (4) button to display the [Time & Date], and [Remain]. Changing the time and date Select [Time & Date] from the menu on the [Device Menu]. (please see "Menu setting" P.9, "Time & Date" P.

14) h Notes on the Folders The recorder provides five folders, [F], [G], [H], [I] and [W]. To change the folder selection, press the FOLDER/INDEX/SCENE button while the a recorder is stopped. a Folder indicator Note: · Each folder can store up to 200 files. About recording h Recording Before starting recording, select a folder between [&] to [*]. These five folders can be selectively used to distinguish the kind of recording; for example, Folder [&] might be used to store private information, while Folder ['] might be dedicated to holding business information.

1 Press the FOLDER/INDEX/ SCENE button to select the desired folder. a Folder indicator · Newly recorded audio will be saved as the last file in the selected folder. a 2 Press the REC (s) button to start recording. · Turn the microphone in the direction of the source to be recorded. b Recording mode/ c Elapsed recording time/ d Remaining recording time · [Rec Mode] cannot be changed in the recording standby mode or while recording. Configure this while the recorder is stopped. b c d 3 Press the STOP (4) button to stop recording. e File length e Note: For VN-8700PC/VN-8600PC only · If a recording is made in stereo modes ([192 kbps] or [128 kbps]), it will be a monaural recording through the built-in microphone, and the same audio will be recorded on both Left channel (Lch) and Right channel (Rch). - 4 - h Pause While the recorder is during recording mode, press the REC (s) button. · The recorder will time out after 60 minutes when left in "Rec Pause".

Resume Recording: Press the REC (s) button again. · Recording will resume at the point of interruption. h To quickly check on the recorded contents While the recorder is during recording mode, press the `OK/MENU button. · Stop recording and the file that was just recorded will be played back. h Microphone sensitivity Microphone sensitivity is adjustable to meet recording needs. Select [Mic Sense] from the menu on the [Rec Menu]. (please see "Menu setting" P.9, "Mic Sense" P.11) h Recording from external microphone or other devices The external microphone and other devices can be connected and the sound can be recorded. Connect as follows by the device to be used.

· Do not plug and unplug devices into the recorder's jack while it is recording. To MIC jack Recording with external microphone: Connect an external microphone to the MIC jack of the recorder. Notes: · The built-in microphone will become inoperable when an external microphone is plugged into the recorder's MIC jack. · Microphones supported by plug-in power can also be used. · When the external stereo microphone is used while [Rec Mode] is set to a monaural recording mode, audio will be recorded to the L channel only*.

· When an external monaural microphone is used while [Rec Mode] is set to a stereo recording mode, it enables recording only with the L channel microphone*. * For VN-8700PC/ VN-8600PC only. Notes: · To ensure recording from the beginning, start recording after you see the display and the recording indicator lights on. · When remaining recording time is less than 60 seconds, the recording indicator light starts flashing. When the recording time is decreasing to 30 or 10 seconds, the light flashes faster.

· [Folder Full] will appear when the recording cannot be made any further. Select on other folder or delete any unnecessary files before recording. · [Memory Full] will appear when the memory is full. Delete any unnecessary files before recording any further. · When external devices are connected, perform a test recording and then adjust the output level for the external devices. · When you adjust the various sound quality settings related to playback on the recorder, the audio output signal sent out from the EAR jack will change as well. - 5 - About playback h Plr speaker will be switched-off. Notes: · To avoid irritation to the ear, insert the earphone after turning down the volume level. · When you listen with the earphone during playback, do not raise the volume too much. It may cause hearing impairment and decrease in hearing ability.

h Setting an index mark or a temp mark If index marks and temp marks are placed, you can quickly find a location you want to listen to in fast forward and fast rewind and when cuing a file. Index marks cannot be placed on files created on machines other than this recorder, but temp marks can be placed instead to temporarily remember desired locations. Temp marks are temporary markings. They will be automatically erased if you move to another file or connect the recorder to a computer. 1 While the recorder is during recording mode or playback mode, press the FOLDER/INDEX/SCENE button. · Even after an index or temp mark is placed, recording or playback will continue so you can place index or temp marks in other locations in a similar manner. Clearing an index mark or a temp mark: 1 Locate the index or temp mark you want to clear. - 7 - 2 Press the 9 or 0 button to select the index or temp mark to erase. 3 While the index or temp number appears for approximately 2 seconds on the display, press the ERASE button. · The index or temp mark is erased.

· Index or temp numbers after the erased index or temp number will automatically move up. Notes: · Up to 16 index and temp marks can be set in a file. If you try to place more than 16 index or temp marks, [Index Full] message will appear for index marks, and [Temp Mark Full] for temp marks. · Index or temp marks cannot be set or erased in a locked file. h How to begin segment repeat playback This function enables repeated playback of part of the file being played.

[You're reading an excerpt. Click here to read official OLYMPUS VN-8700PC user guide](http://yourpdfguides.com/dref/3607011)
<http://yourpdfguides.com/dref/3607011>

1 Press the **OK/MENU** button to start playback. 2 Press the **REC (s)** button at the point you want to start segment repeat playback. · Fast forwarding and rewinding can be conducted when [w] is flashing in the same manner as during normal playback, and you can quickly proceed as far as the end position. · When it reaches to the end of the file while [w] is flashing, the point will become the end position, and repeat playback will start. 3 Press the **REC (s)** button again at the position where you want to end segment repeat playback.

· The recorder repeatedly plays back the segment until the segment repeat playback is canceled. Note: · As in normal playback mode, playback speed can be changed during segment repeat playback as well. If an index mark and temp mark are inserted or eliminated during segment repeat playback, segment repeat playback will be canceled and it will return to normal playback mode. Cancel the segment repeat playback function: Pressing any of the following buttons will release the segment repeat playback. a Press the **STOP (4)** button b Press the **REC (s)** button c Press the **9** button d Press the **0** button h Erasing A selected file can be erased from a folder. Also, all files in a folder can be erased simultaneously. 1 Select the folder or file you want to erase. - 8 - 2 While the recorder is during stop mode, press the **ERASE** button. 3 3 Press the **+ or -** button to select [Erase in Folder] or [File Erase]. 4 Press the **OK/MENU** button.

5 Press the **+ button** to select [Start]. 6 Press the **OK/MENU** button. · The display changes to [Erase!] and erasing will start. · [Erase Done] is displayed when the file is erased. File numbers will be reassigned automatically. Notes: · The locked files and files set as read-only cannot be erased. · If an action is not selected within 8 seconds, the recorder will return to stop status. · It may take over 10 seconds to complete processing. Never remove batteries during this time because data may be corrupted. In addition, replace the batteries with new ones in order to ensure that the batteries will not run out while processing. · You cannot delete folders through the recorder. Menu setting h Menu setting method Items in menus are categorized so that you can quickly set a desired item. You can set each menu item as follows. 1 While the recorder is during stop mode, playback mode or recording mode, press the **OK/MENU** button for 1 second or longer. 2 Press the **+ or -** button to move to the item you want to set.

3 Press the **OK/MENU** or **9** button to move the cursor to the item to set. 4 Press the **+ or -** button to move to the item you want to set. - 9 - 5 Press the **OK/MENU** or **9** button. · Moves to the setting of the selected item. 6 Press the **+ or -** button to change the setting.

7 Press the **OK/MENU** button to complete the setting. · You will be informed that the settings have been established via the screen. · Pressing the **0** button without pressing the **OK/MENU** button will cancel the settings and return you to the previous screen. 8 Press the **STOP (4)** button to close the menu screen. · If you enter the menu during recording or playback and press the **0** button, it will allow you to return back to the previous screen without interrupting recording or playback. Notes: · The recorder will stop if you leave it idle for 3 minutes during a menu setup operation, when a selected item is not applied. · When entering menu settings during recording or playback, the menu settings will be cancelled if 8 seconds elapse with no buttons being pressed. h File Menu Erase Lock Locking a file keeps important data from being accidentally erased. Locked files are not erased when you select to erase all files from a folder. 1 Select [Erase Lock] from the menu on the [File Menu].

In Menu mode selection: [On]: [Off]: Locks the file and prevents it from being erased. Unlocks the file and allows it to be erased. a a File lock indicator File Divide (For VN-8700PC/VN-8600PC only) Files with large capacities and long recording times can be split so that they are easier to manage and edit. 1 Select the file you want to divide. 2 Start Playback or fast-forward the file, and stop the playback at divide position. 3 Select [File Divide] from the menu on the [File Menu]. 4 Press the **+ button** to select [Start], and then press the **OK/MENU** button. · [Dividing!] will be displayed and file splitting will start. Splitting is completed when [File divide completed] is displayed. Notes: · Only MP3 file recorded on this recorder can be divided. · The recorder cannot divide files when the number of files in the folder exceeds 198. · Locked files cannot be divided. · After splitting the file, the front part of the file will be renamed as [File name_1.MP3] and the latter part of the file will be named as [File name_2.MP3]. · If a file has an extremely short recording time, it may not be divide even if it is a MP3 file. · Do not remove the battery during dividing file. This may damage the data. Property Select the files for which you would like to confirm information in advance before operating the menu. 1 Select [Property] from the menu on the [File Menu]. [Name] (File name), [Date] (Time stamp), [Size] (File size), [Bit Rate] (File format) will appear on the display. - 10 - h Rec Menu Mic Sense Microphone sensitivity (Built-in or external microphone) is adjustable to meet recording needs. 1 Select [Mic Sense] from the menu on the [Rec Menu]. In Menu mode selection: [High]: High recording sensitivity suitable for conferences with many participants and recording audio at a distance or low volume. [Low]: Standard recording sensitivity suitable for dictation. a Microphone sensitivity indicator Notes: · When you would like to clearly record a speaker's voice, set [Mic Sense] to [Low] and hold recorder's built-in microphone close to the speaker's mouth (5-10 cm). @@@@Select the recording mode appropriate to your needs. @@@@Disables this function. @@@@2 Press the **+ or -** button to select the item to set, and then press the **OK/MENU** or **9** button. In Menu mode selection: When [Scene Select] is selected: Press the **+ or -** button to select the recording scene you want to set, and then press **OK/MENU** button.

[Off]: Disables this function. [Memo]: Suitable for dictation. [Meeting]: Suitable for recording meetings. [Conference]: Suitable for seminars with a small number of a people. [User Setting]: Recording with menu settings saved using [Scene Save]. a Rec Scene indicator When [Scene Save] is selected: Press **OK/MENU** button. · You can save the current [Rec Menu] menu settings in [User Setting]. · To change the [Rec Scene], return the screen to [Scene Select] by pressing and holding the **FOLDER/INDEX/SCENE** button for 1 second or longer while the recorder is during stop mode.

[You're reading an excerpt. Click here to read official OLYMPUS VN-8700PC user guide](http://yourpdfguides.com/dref/3607011)
<http://yourpdfguides.com/dref/3607011>

Note: · If the [Rec Scene] is set to a setting other than [Off], the menu settings for the recording functions will not be available. Set the [Rec Scene] to [Off] to use these functions.

h Play Menu Voice Filter (For VN-8700PC/VN-8600PC only) The recorder has a Voice Filter Function to cut low and high frequency tones during normal, fast, or slow playback, and enable clear audio playback. 1 Select [Voice Filter] from the menu on the [Play Menu]. In Menu mode selection: [On]: [Off]: Enables the Voice Filter function. Disables this function. a a Voice Filter indicator Play Mode You can select the playback mode that fits your preference. 1 Select [Play Mode] from the menu on the [Play Menu]. In Menu mode selection: When [Play Area] is selected: [File]: Stop after playing back the current file. [Folder]: Play files continuously in the current folder until the last file and stop. a When [Repeat] is selected: [Repeat]: Sets to repeat playback mode. [Off]: Disables this function.

a Playback mode indicator - 12 - Notes: · In [File] mode, when the recorder comes to the end of the last file in the folder, [End] flashes for two seconds on the display and the recorder stops at the start of the last file. · In [Folder] mode, when the recorder comes to the end of the last file in the folder, [End] flashes for two seconds on the display and the recorder stops at the start of the first file in the folder. Skip Space This function enables you to skip (forward) or reverse skip (rewind) a file being played for a set period. This function is convenient for quickly skipping to another playback position or repeatedly playing back short phrases. 1 Select [Skip Space] from the menu on the [Play Menu]. In Menu mode selection: When [Forward Skip] is selected: [File Skip], [10sec. Skip], [30sec. Skip], [1min. Skip], [5min. Skip], [10min. Skip]

When [Reverse Skip] is selected: [File Skip], [1sec. Skip], [5sec. Skip], [10sec. Skip], [30sec. Skip], [1min. Skip], [5min. Skip], [10min. Skip] Forward/Reverse Skip Playback: 1 Press the OK/MENU button to start playback. 2 Press the 9 or 0 button. · The recorder will skip (forward) or reverse skip (rewind) a set space and start playing back.

Note: · If there is an index mark/temp mark or a cue closer than the skip space, the recorder will forward skip/reverse skip to that position. h LCD/Sound Menu Font Size Changing the displayed character size on the display. 1 Select [Font Size] from the menu on the [LCD/Sound Menu]. In Menu mode selection: [Large]: Text is displayed large characters. [Small]: Text is displayed small characters.

Note: · When the [Font Size] is set to [Small], the layout of the display will change so that more information is displayed (please see "Display (LCD panel)" P.2). Contrast Display contrast can be adjusted in 12 levels. You can adjust the LCD display contrast level from [01] to [12]. 1 Select [Contrast] from the menu on the [LCD/Sound Menu].

LED You can set it so the LED indicator light does not turn on. 1 Select [LED] from the menu on the [LCD/Sound Menu]. In Menu mode selection: [On]: [Off]: LED light will be set. LED light will be cancelled. Beep The recorder beeps to alert you to button operations or warn you of errors. System sounds may be turned off. 1 Select [Beep] from the menu on the [LCD/Sound Menu]. In Menu mode selection: [On]: [Off]: Enables the Beep function. Disables this function. - 13 - Language(Lang) You can select the display language for this recorder.

1 Select [Language(Lang)] from the menu on the [LCD/Sound Menu]. [English], [Deutsch], [Français], [Español], [Italiano], [Polski], [,] Note: · The selectable language differs depending on the region. h Device Menu Time & Date If the current time and date is not correct, set it. 1 Select [Time & Date] from the menu on the [Device Menu]. (please see "Setting time and date [Time & Date]" P.3) Reset Settings This returns the functions back to their initial settings (factory default). 1 Select [Reset Settings] from the menu on the [Device Menu]. Menu settings after setting reset (initial settings): Rec Menu: [Mic Sense] [Rec Mode] [Low Cut Filter] [VCVA] [Rec Scene] [High] [192 kbps]*1 [HQ]*2 [Off] [Off] [Off] [Off] [File] [Off] [Skip Space] [Forward Skip] [Reverse Skip] [File Skip] [File Skip] [Large] [Level 06] [On] [On] [English] LCD/Sound Menu: [Font Size] [Contrast] [LED] [Beep] [Language(Lang)] Play Menu: [Voice Filter]*1 [Play Mode] [Play Area] [Repeat] *1 For VN-8700PC/VN-8600PC only *2 For VN-8500PC only Note: · After resetting the settings, the time settings and file numbers will be preserved from before the reset and will not return to their initial settings. Format If you format the recorder, all files will be removed and all function settings will return to defaults except date and time settings. Transfer any important files to a computer before formatting the recorder.

1 Select [Format] from the menu on the [Device Menu]. 2 Press the + button to select [Start], and then press the OK/MENU button. · After [Data will be cleared] message is on for two seconds, [Start] and [Cancel] will turn on. 3 Press the + button again to select [Start], and then press the OK/MENU button. Formatting begins and [Format !] flashes on the display.

· [Format Done] appears when formatting ends. Notes: · It may take over 10 seconds to complete processing. Never remove batteries during this time because data may be corrupted. In addition, replace the batteries with new ones in order to ensure that the batteries will not run out while processing. · Never format the recorder from a PC.

· When the recorder is formatted, all the saved data, including locked files and read-only files, are erased. · After formatting, recorded audio file names may start from [0001]. · When returning the settings for the functions to their initial settings, use [Reset Settings]. - 14 - System info. You can check the recorder's information on the menu screen. 1 Select [System info.] from the menu on the [Device Menu]. [Model] (Model Name), [Version] (System version) and [Serial No.] (Serial Number) appears on the display. Using the recorder on your PC Apart from using this unit as a recorder, you can use it as an external memory for your computer, as a storage device.

· The files recorded by this recorder can be played back on your computer using Windows Media Player. You can also transfer the WMA files downloaded with Windows Media Player to your recorder and listen to them (excluding files with copyright protection). Notes: · While transmitting data, [Busy] is appeared, and the recording indicator light flashes. NEVER disconnect the USB while the recording indicator light is flashing. If you do, the data will be destroyed. · In the Mac OS operational environment, WMA format files cannot be played back.

h Operating environment Windows: Operating System: Microsoft Windows XP/Vista/7 (Standard Installation) Compatible PC's: Windows PC's equipped with more than one free USB port Macintosh: Operating System: Mac OS X 10.4.11 - 10.6 (Standard Installation) Compatible PC's: Apple Macintosh series equipped with more than one free USB port Note: · Even if operational environment is satisfied, we do not support such as upgraded OS, the multiboot environment and self-modified PC's.

h Connecting to your PC 1 Turn the recorder's power ON. 2 Connect the USB connection cable to the USB port of the PC. 3 Make sure that the recorder is stopped, and then connect the USB cable to the connecting port on this recorder. Windows: When you open [My Computer], it will be recognized by the drive name of the product name. Macintosh: When connected, the recorder will be recognized by the drive name of the product name on the desktop.

· [Remote] is appeared on recorder if the USB cable is connected. Notes: · Do not use USB connection cables other than the supplied cable. Using cables from other manufacturers could result in damage to the recorder. Do not use the supplied USB extension cable with devices from other manufacturers. · Refer to the user's manual for your PC regarding the USB port on your PC.

· Be sure to push the cable connector all the way in. Otherwise, the recorder may not operate properly. · When connecting the recorder through an USB hub the operation may become unstable. In such cases, refrain from using a USB hub. Disconnecting from your PC: Windows: 1 Click [] on the task bar located at the lower-right corner of the screen. Click [Safely remove USB Mass Storage Device]. · The drive letter will differ depending on the PC being used. 2 When the safe to remove hardware window appears, click [OK]. 3 Disconnect the recorder from the PC. - 15 - Macintosh: 1 Move the drive icon for this recorder that is appear on the desktop to the garbage bin by Drag & Drop it.

2 Disconnect the recorder from the PC. Note: · NEVER disconnect the USB while the recording indicator light is flashing. If you do, the data will be destroyed. Safe and proper usage General precautions · Do not leave the recorder in hot, humid locations such as inside a closed automobile under direct sunlight or on the beach in the summer. · Do not store the recorder in places exposed to excessive moisture or dust. · Do not use organic solvents such as alcohol and lacquer thinner to clean the unit. · Do not place the recorder on top of or near electric appliances such as TVs or refrigerators. · Avoid recording or playing back near cellular phones or other wireless equipment, as they may cause interference and noise. If you experience noise, move to another place, or move the recorder further away from such equipment. · Avoid sand or dirt.

These can cause irreparable damage. · Avoid strong vibrations or shocks. · Do not disassemble, repair or modify the unit yourself. · Do not operate the unit while operating a vehicle (such as a bicycle, motorcycle, or go-cart). · Keep the unit out of the reach of children.

<Warning regarding data loss> Recorded content in memory may be destroyed or erased by operating mistakes, unit malfunction, or during repair work. It is recommended to back up and save important content to other media such as a computer hard disk. Any liability for passive damages or damage of any kind occurred due to data loss incurred by a defect of the product, repair performed by the third party other than Olympus or an Olympus authorized service station, or any other reasons is excluded from the Olympus's liability. Batteries f Danger: · Batteries should never be exposed to flame, heated, short-circuited or disassembled. · Never store batteries where they will be exposed to direct sunlight, or subjected to high temperatures in a hot vehicle, near a heat source, etc.

f Warning: · Do not solder lead wires or terminals directly onto a battery or modify it. · Do not connect the = and - terminals together. This may cause fire, overheating or electric shock. · When carrying or storing the batteries, be sure to put it in the provided case to protect its terminals. Do not carry or store the batteries with any metal objects (such as key rings). If this warning is not followed, fire, overheating or electric shock may occur. · Do not connect the batteries directly to a power outlet or a cigarette lighter of an automobile. · Do not insert the batteries with their = and - terminals reversed. · If any liquid from a battery gets into your eyes, promptly wash it off with clean water and consult your doctor at once. · Do not attempt to recharge alkaline, lithium or any other non-rechargeable batteries.

· Never use any batteries with a torn or cracked outer cover. · Keep batteries out of the reach of children. · If you notice anything unusual when using this product such as abnormal noise, heat, smoke, or a burning odor: 1 remove the batteries immediately while being careful not to burn yourself, and; 2 call your dealer or local Olympus representative for service. · Do not expose the batteries to water. Do not allow water to contact the terminals. · Do not remove or damage the batteries insulating sheet. @@@@ · When using rechargeable batteries that have not been used for a while, be sure to recharge them before use. · Rechargeable batteries have limited lifetime. When the operating time becomes shorter even if the rechargeable battery is fully charged under the specified condition, replace it with a new one. Troubleshooting Q1: A1: Nothing happens when a button is pressed.

The POWER/HOLD switch may be set to [HOLD] position. The batteries may be depleted. The batteries may be inserted incorrectly. No sound or quiet sound is heard from the speaker while playing back. The earphone plug may be plugged into the recorder.

The volume may be set to the minimum level. Recording is not possible. By pressing the STOP (4) button repeatedly while the recorder stops, check if the display shows: · The remaining recording time in the selected folder may have reached [00:00]. Check if the display shows [Memory Full] by pressing the REC (s) button. Check if the display shows [Folder Full] by pressing the REC (s) button.

The playback speed is too fast (slow). The recorder may be set to fast (slow) Playback. Q2: A2: Q3: A3: Q4: A4: Accessories (Optional) s Stereo microphone: ME51SW s Compact Zoom Microphone (unidirectional): ME32 s Highly sensitive noisecancellationmonaural microphone (unidirectional): ME52W s Tie clip microphone (omnidirectional): ME15 s Telephone pickup: TP7 s Ni-MH rechargeable battery and charger set: BC400 (For Europe) s Ni-MH rechargeable battery: BR401 s Connecting cord: KA333 Specifications General points 4 Recording medium: Built-in memory VN-8700PC: 4 GB VN-8600PC: 2 GB VN-8500PC: 1 GB 4 Recording format: MP3 (MPEG-1 Audio Layer3), WMA (Windows Media Audio) 4 Input level: - 70 dBv 4 Maximum working output: 250 mW (8 speaker) 4 Maximum headphone output: 150 mV (according to EN 50332-2) _ 4 Wide band characteristic headphone output: _ 75 mV (according to EN 50332-2) 4 Speaker: Built-in ø 28 mm round dynamic speaker 4 MIC jack: ø 3.*

5 mm mini-jack, impedance 2 k 4 EAR jack: ϕ 3.5 mm mini-jack, impedance 8 or more 4 Input power requirement: AAA battery (LR03) or Olympus Ni-MH rechargeable battery 4 External dimensions: 108 mm \times 39 mm \times 16.8 mm (without protrusions) 4 Weight: 66 g (including battery) 4 Operating temperature: 0°C - 42°C * For VN-8700PC/VN-8600PC only Overall frequency response 4 During recording or playback mode: MP3 format (For VN-8700PC/VN-8600PC only) Recording mode Overall frequency response 192 kbps 128 kbps 48 kbps WMA format Recording mode 70 Hz to 19 kHz 70 Hz to 17 kHz 70 Hz to 10 kHz Overall frequency response HQ SP LP 70 Hz to 13 kHz 70 Hz to 8 kHz 70 Hz to 3 kHz 4 Built-in microphone (During recording mode): 40 Hz to 14 kHz · However, the upper limit value of the frequency response depends on each recording mode (see above diagram). - 17 - About music file In cases where the recorder is unable to playback music files that have been transferred to it, check to make sure that the sampling rate and bit rate are in the range where playback is possible. Combinations of sampling rates and bit rates for music files which the recorder can playback are given below. File format Sampling frequency MPEG1 Layer3: 32 kHz, 44.1 kHz, 48 kHz MPEG2 Layer3: 16 kHz, 22.

05 kHz, 24 kHz 8 kHz, 11 kHz, 16 kHz, 22 kHz, 32 kHz, 44.1 kHz, 48 kHz Bit rate MP3* format From 8 kbps up to 320 kbps WMA format From 5 kbps up to 320 kbps * · · · For VN-8700PC/VN-8600PC only. Variable bitrate MP3 files (in which conversion bitrates can vary) may not play properly. This recorder is compatible with Microsoft Corporation DRM9, but not with DRM10. Even if the file is a compatible format to playback on the recorder, the recorder does not support every encoder. Guide to recording times 4 MP3 format: (For VN-8700PC/VN-8600PC only) Recording mode VN-8600PC (2 GB) VN-8700PC (4 GB)

192 kbps 128 kbps 48 kbps approx. 22 h. 30 min. approx. 34 h.

approx. 91 h. 30 min. approx. 45 h.

approx. 68 h. 30 min. approx. 183 h.

4 WMA format: Recording mode VN-8500PC (1 GB) VN-8600PC (2 GB) VN-8700PC (4 GB) HQ SP LP approx. 67 h. approx. 131 h. approx. 421 h. approx. 134 h. approx. 264 h.

approx. 843 h. approx. 268 h. approx. 529 h. approx. 1684 h. Notes: · The above values are strictly rough guides. · Caution is required, since the differences in the available recording time will increase when the bit rate is low.

· Available recording time may be shorter if many short recordings are made (The displayed available recording time and recorded time are approximate indications). Maximum recording time per file 4 MP3 format: (For VN-8700PC/VN-8600PC only) 192 kbps 128 kbps 48 kbps approx. 49 h. 40 min. approx. 74 h. 30 min. approx. 198 h. 40 min.

Notes: · The maximum capacity for a single file is limited to approx. 4 GB for WMA and MP3. · Regardless of the memory remaining amount, the longest sound recording time per file is restricted to the above value. 4 WMA format: HQ SP LP approx. 26 h. 40 min. approx. 53 h. 40 min. approx.

148 h. 40 min. Guide to battery life 4 Alkaline battery : Recording mode Built-in microphone (During recording mode) Built-in speakers (During playback mode) Earphone Playback MP3 192 kbps* WMA LP approx. 32 h. approx. 51 h. approx. 17 h. approx. 20 h.

approx. 37 h. approx. 44 h. 4 Ni-MH Rechargeable battery : Recording mode Built-in microphone (During recording mode) Built-in speakers (During playback mode) Earphone Playback MP3 192 kbps* WMA LP approx.

25 h. approx. 40 h. approx. 14 h.

approx. 16 h. approx. 30 h. approx. 34 h. * For VN-8700PC/VN-8600PC only. Notes: · The above values are strictly rough guides. · Battery life is measured by Olympus. It varies greatly according to the type of battery used and the conditions of use.

Specifications and design are subject to change without notice. - 18 - .
