Manual abstract:

If you're familiar with CX-Supervisor, then like many automation professionals, you probably love its ease-of-use, its full visualisation, its instant overviews, and its advanced functionality the type you only expect from much more expensive packages. Extended graphics library It now supports "Smart Graphics" with embedded animations. In addition you can easily create your own objects so your virtual machine looks just like the yet-to-be-built one. Page editor: shows project pages and lets you create new pages. Simply adjust the zoom for intricate HMIs. Now, prepare yourself for the new CX-Supervisor V3. It's more powerful, more convenient and more versatile than ever take a look at how you can benefit: One-click simulation Spectacular, instant simulations that test your applications with a single click of a mouse. Point editor: lists all project points, which can easily be imported from other CX applications. Enables easy and direct reuse of symbols used in CX-Programmer. Remote maintenance See the exact status of your application from anywhere in the world without modifying your application.

Simply use your web browser to securely access your application and monitor its status. Alarm editor: lets you set and visualise process alarm conditions. Automatic alarm acknowledgement and audible warning are selectable. Animation editor: serves the wide range of animations supported to visualise changing process parameters. Recipe editor: recipes are often linked to batches of production.

So, use of the editor means you can easily download a new recipe to start a new batch. Continuous performance improvement Analyse at a glance The improved data log viewer gives you the best way yet to continuously fine-tune your machine and optimise its performance, all in a simple visual way. You can overlay one week on top of another, and identify anomalies at a glance. You can compare one week against another or one month against another, no more guess work, just quick and easy identification of what works best. @@@@@@@@Any errors in the past week? @@@@@@@@@@@@@@@@@@@And more drivers are continuously being added for registered users.

You can also choose which scripting language you use. @@@@@@Supporting connection of up to 15 devices and up to 500 user-defined points, it is flexible and powerful enough for the control and supervision of a complete machine or an entire manufacturing process. And its easy-to-use Windows® Explorer-style development environment makes simple work of building even the most advanced graphic interfaces. The Plus version is for those exceptional cases where an application demands a higher number of devices or points than can be handled by CX-Supervisor V3 Machine Edition. It otherwise shares all of the same power and features. Product selector Indicator CX-Supervisor Development Package Description Development program and runtime for testing. Does not include a runtime dongle. Includes 12 months free maintenance and upgrades. Product Code CX-SUPERVISOR-V_ Benefits for developers Faster simulation faster prototypes CX-Supervisor has always given you fast and easy simulation of HMI and PLC applications, but now with the improved CX-Supervisor V3's integrated simulation you can do them both on one screen and, with just one click of the mouse. CX-Supervisor Development Upgrade Package Upgrade for the Development program and runtime for testing.

Does not include a runtime dongle. Includes 12 months free maintenance and upgrades. CX-Supervisor runtime CD media including Machine Edition USB dongle. CX-Supervisor runtime CD media including PLUS Edition USB dongle. Available for all CX-Supervisor V2 customers including a CX-Supervisor runtime CD (no dongle included) CX-SUPERVISOR-UPGR-V_ Improved picture handling The new CX-Supervisor V3 supports JPEG and GIF images and transparency so you can layer images and create perfect pictures. CX-Supervisor Runtime Machine Edition CX-Supervisor Runtime PLUS Edition CX-Supervisor Runtime upgrade CX-SUPERVISOR-RUN-ME-V_ CX-SUPERVISOR-RUN-PLUS-V_ Any colour you want The new palette tool let's you choose from 16 million. CX-SUPERVISOR-RUN-UPGR-V_ New graphics library CX-Supervisor V3 supports "Smart Graphics" with embedded animations. There's also a new "Point Substitution" feature for easy object connection. Since you can now create your own objects, your virtual machine looks just like a real one. @@Wegalaan 67-69, NL-2132 JD, Hoofddorp, The Netherlands. @@.
