There is a separate collection system for used electronic products in accordance with legislation that requires proper treatment, recovery and recycling. Private households in the member states of the EU, in Switzerland and Norway may return their used electronic products free of charge to designated collection facilities or to a retailer (if you purchase a similar new one). For countries not mentioned above, please contact your local authorities for the correct method of disposal. By doing so you will ensure that your disposed product undergoes the necessary treatment, recovery and recycling and thus prevent potential negative effects on the environment and human health. CAUTION This product is a Class 1 laser product classified under the Safety of laser products, IEC 60825-1:2007, and contains a class 1M laser module. To ensure continued safety, do not remove any covers or attempt to gain access to the inside of the product. Refer all servicing to qualified personnel. CAUTION—CLASS 1M VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN, DO NOT VIEW DIRECTLY WITH OPTICAL INSTRUMENTS. When using a display connected to V OUT The video output terminal (V OUT) is for connection of a display to enable passengers in the rear seats to watch video images. WARNING NEVER install the rear display in a location that enables the driver to watch video images while driving.

4 Precaution To avoid battery exhaustion Be sure to run the vehicle engine while using this product. Using this product without running the engine can drain the battery. □ We offer the latest information about PIONEER CORPORATION on our website. □ Pioneer regularly provides software updates to further improve its products. Please check the support section of the Pioneer website for all available software updates.

□ Some of the settings and recorded contents will not be reset. The microprocessor must be reset under the following conditions: □ Prior to using this product for the first time after installation. □ If this product fails to operate properly. □ If there appears to be problems with the operation of the system. □ If your vehicle position is shown on the map with a significant positioning error.

WARNING Do not install this product in a vehicle that does not have an ACC wire or circuitry available. About this product □ This product does not work correctly in areas other than Europe. The RDS (Radio Data System) function operates only in areas with FM stations broadcasting RDS signals. The RDS-TMC service can also be used in the area where there is a station that broadcasts the RDS-TMC signal. □ The Pioneer CarStereo-Pass is for use only in Germany. Rear view camera With an optional rear view camera, you are able to use this product as an aid to keep an eye on trailers, or backing into a tight parking spot. □ SCREEN IMAGE MAY APPEAR REVERSED. □ USE INPUT ONLY FOR REVERSE OR MIRROR IMAGE REAR VIEW CAMERA. OTHER USE MAY RESULT IN INJURY OR DAMAGE. 1 Turn the ignition switch OFF.

2 Press the RESET button with a pen tip or other pointed implement. WARNING Protecting the LCD panel and screen □ Do not expose the LCD screen to direct sunlight when this product is not used. This may result in LCD screen malfunction due to the resulting high temperatures. □ When using a cellular phone, keep the antenna of the cellular phone away from the LCD screen to prevent disruption of the video in the form of spots, colored stripes, etc. □ To protect the LCD screen from damage, be sure to touch the touch panel keys only with your finger and do so gently. □ Checking part names and functions on page 6 Settings and recorded contents are reset to the factory settings. About this manual This manual uses diagrams of actual screens to describe operations. However, the screens on some units may not match those shown in this manual depending on the model used. CAUTION The rear view mode is to use this product as an aid to keep an eye on the trailers, or while backing up. Do not use this function for entertainment purposes.

Handling the USB connector □ To prevent data loss and damage to the storage device, never remove it from this product while data is being transferred. □ Pioneer cannot guarantee compatibility with all USB mass storage devices and assumes no responsibility for any loss of data on media players, iPhone, smartphone, or other devices while using this product. Meanings of Symbols Used in This Manual X5700DAB This indicates model name that are supported the described operations. This indicates to touch an appropriate soft key on the touch screen. This indicates to touch and hold an appropriate soft key on the touch screen.

This indicates that there is a reference or supplementary for the key or screen. CAUTION Notes on internal memory Before removing the vehicle battery □ Some of the settings and recorded contents will not be reset. HOLD Data subject to erasure The information is erased by disconnecting the yellow lead from the battery (or removing the battery itself). □ Some of the settings and recorded contents will not be reset. In case of trouble Should this product fail to operate properly, contact your dealer or nearest authorized Pioneer Service Station.

Visit our website Visit us at the following site: <http://www.pioneer.eu> □ Register your product. We will keep the details of your purchase on file to help you refer to this information in the event of an insurance claim such as loss or theft. Resetting the microprocessor CAUTION Pressing the RESET button resets settings and recorded contents to the factory settings. □ Do not perform this operation when a device is connected to this product. 5 Basic operation Checking part names and functions X5700DAB 1 2 3 LCD screen Volume (+/-) button DISP On the AV operation screen, press to turn the button display off. 2.0.4 iPod classic 160GB (2008): Ver. 2.0.1 iPod classic 80GB: Ver. 1.

1.2 iPod nano (7th generation) iPod nano (6th generation): Ver. 1.2 iPod nano (5th generation): Ver. 1.

0.2 iPod nano (4th generation): Ver. 1.0.4 iPod nano (3rd generation): Ver.

1.1.3 p You can connect and control an iPod compatible with this product by using separately sold connector cables. p Operation methods may vary depending on the iPod model and the software version. p Depending on the software version of the iPod, it may not be compatible with this product. For details about iPod compatibility with this product, refer to the information on our website. This manual applies to the following iPod models. iPod with 30-pin connector iPhone 3GS, 4, 4s iPod touch 2nd, 3rd, 4th generation iPod classic 80GB, 160GB iPod nano 3rd, 4th, 5th, 6th generation iPod with Lightning connector iPhone 5, 5s, 5c iPod touch 5th generation iPod nano 7th generation For details about MirrorLink device compatibility with this product, refer to the information on our website. The basic flow of iPod / iPhone or smartphone setup 1 Select the method for connecting your device. Setting the device connection method on page 15 2 Connect your device to this product.

Connection, refer to installation manual. 3 If necessary, connect your device to this product via Bluetooth connection. Registration and connection of Bluetooth device on page 11 Setting the device connection method To use the application for iPhone or smartphone on this product, select the method for connecting your device. Settings are required according to the connected device. 1 Display the "System" setting screen. 2 Touch [Input/Output Settings]. 3 Touch [Smartphone Setup]. Device: Select the device to be connected. Connection: Select the connection method. Information on the connections and functions for each device on page 16 The setting will change after the following processes are automatically executed.

— The source is turned off. — AppRadioMode and MirrorLink mode are exited. — The smartphone connection (USB and Bluetooth) is disconnected. 4 Touch the following settings. Android™ device compatibility p Operation methods may vary depending on the Android device and the software version of the Android OS.

p Depending on the version of the Android OS, it may not be compatible with this product. p Compatibility with all Android devices is not guaranteed. For details about Android device compatibility with this product, refer to the information on our website. MirrorLink device compatibility p This product is compatible with MirrorLink version 1.1.

p Compatibility with all MirrorLink devices is not guaranteed. 15 Setup for iPod / iPhone or smartphone Information on the connections and functions for each device The settings and cables required for connecting each device, and the available sources are as follows. iPod / iPhone with a 30-pin connector Device connection method Smartphone Setup Bluetooth connection Available sources Device Connection iPod (audio) iPod (video) Pandora When connecting via Bluetooth iPhone/iPod / iPod Wireless via BT Bluetooth connection is required. — (AVH-X5700DAB) (AVH-X3700DAB) When connecting via CD-IU201V (sold separately) iPhone/iPod / iPod USB — iPod / iPhone with a Lightning connector Device connection method Smartphone Setup Bluetooth connection Available sources Device Connection iPod (audio) iPod (video) Pandora AppRadioMode When connecting via Bluetooth iPhone/iPod / iPod Wireless via BT Bluetooth connection is required. — (AVH-X5700DAB) (AVH-X3700DAB) — When connecting via CD-IU52 (sold separately) iPhone/iPod / iPod USB — — Android, MirrorLink device Device connection method Smartphone Setup Bluetooth connection Available sources Device Connection Pandora MirrorLink When connecting via Bluetooth Others USB/MTP Bluetooth connection is required for using Pandora. (AVH-X5700DAB) (AVH-X3700DAB) — — When connecting via CD-MU200 (sold separately) Others MirrorLink/AppRadioMode Bluetooth connection is required for using Pandora. When "Connection" of "Smartphone Setup" is set to "MirrorLink". When "Connection" of "Smartphone Setup" is set to "AppRadioMode". AppRadioMode 16 Digital Radio X5700DAB X3700DAB Displays the preset channel list. Select an item on the list to switch to the preset Service.

p By pressing or , you can also switch the preset Service Components. p By pressing and holding or and release, you can also perform seek tuning. p Stored broadcast is overwritten by the latest broadcast. p If the duration that a selection is paused exceeds the length of the memory capacity, playback will resume from the beginning of the selection in memory. Digital Radio tuner operations For improved Digital Radio reception, make sure a Digital Radio antenna with phantom power input (active type) is used. Pioneer recommends using AN-DAB1 (sold separately). Current consumption of Digital Radio antenna should be 100 mA or less. High sound quality (nearly as high as for CDs, although it may be reduced in some cases in order to allow more services to be broadcast) Interference-free reception Some stations perform broadcast testing. Selecting a Service Component You can select a Service Component. Selects the DAB1, DAB2 or DAB3 band.

1 Touch to display the service list screen. 1 2 3 4 5 6 Digital Radio 6/10 21 48 *1 DAB1 Abcdefghi Abcdefghi Abcdefghi MFN support *2 Service (service label): Displays all Service components. Program Type (PTY label): Searches from program type information. Ensemble (ensemble label): Displays the Ensemble list. 2 Touch the service title to display the service list.

3 Touch the desired item. When some ensembles support the same Service Component, switches to another ensemble that has better reception automatically. Updating service list information manually 1 Touch to display the service list screen. p When you start to use this source, service list information is automatically updated. p When there is any change in the current ensemble, service list information is automatically updated.

Performs manual tuning. When there are multiple Services in the same frequency, switches the services one by one. HOLD Starting procedure 1 Display the "AV source selection" screen. 2 Touch [Update Stations]. Performs seek tuning. Skips to the nearest Ensemble. The "Digital Radio" screen appears. p The service list will be automatically updated when the Digital Radio function is started for the first time. If the update succeeds, the station listed at the top of the service list will be automatically tuned in to. Recalls the preset Service Component stored to a key from memory.

HOLD 2 Touch [Digital Radio].
