Manual abstract:

Book Page 2 Thursday, June 7, 2012 9:43 AM IMPORTANT CAUTION RISK OF ELECTRIC SHOCK DO NOT OPEN The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons. The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance. d3-4-2-1-1_A1_En WARNING This equipment is not waterproof. To prevent a fire or shock hazard, do not place any container filled with liquid near this equipment (such as a vase or flower pot) or expose it to dripping, splashing, rain or moisture. D3-4-2-1-3_A1_En VENTILATION CAUTION When installing this unit, make sure to leave space around the unit for ventilation to improve heat radiation (at least 10 cm at top, 10 cm at rear, and 10 cm at each side). WARNING Slots and openings in the cabinet are provided for ventilation to ensure reliable operation of the product, and to protect it from overheating. To prevent fire hazard, the openings should never be blocked or covered with items (such as newspapers, table-cloths, curtains) or by operating the equipment on thick carpet or a bed. D3-4-2-1-7b*_A1_En WARNING Before plugging in for the first time, read the following section carefully. The voltage of the available power supply differs according to country or region. Be sure that the power supply voltage of the area where this unit will be used meets the required voltage (e. g. , 230 V or 120 V) written on the rear panel. D3-4-2-1-4*_A1_En WARNING To prevent a fire hazard, do not place any naked flame sources (such as a lighted candle) on the equipment. D3-4-2-1-7a_A1_En Operating Environment Operating environment temperature and humidity: +5 °C to +35 °C (+41 °F to +95 °F); less than 85 %RH (cooling vents not blocked) Do not install this unit in a poorly ventilated area, or in locations exposed to high humidity or direct sunlight (or D3-4-2-1-7c*_A1_En strong artificial light) CAUTION This product is a class 1 laser product classified under the Safety of laser products, IEC 60825-1:2007. This product is for general household purposes.

Any failure due to use for other than household purposes (such as long-term use for business purposes in a restaurant or use in a car or ship) and which requires repair will be charged for even during the warranty K041_A1_En period. CLASS 1 LASER PRODUCT D58-5-2-2a_A1_En WARNING When using this product, confirm the safety information shown on the bottom of the unit. D3-4-2-2-4_B1_En Store small parts out of the reach of children and infants. Book Page 3 Thursday, June 7, 2012 9:43 AM If the AC plug of this unit does not match the AC outlet you want to use, the plug must be removed and appropriate one fitted. Replacement and mounting of an AC plug on the power supply cord of this unit should be performed only by qualified service personnel.

If connected to an AC outlet, the cut-off plug can cause severe electrical shock. Make sure it is properly disposed of after removal. The equipment should be disconnected by removing the mains plug from the wall socket when left unused for a long period of time (for example, when on D3-4-2-2-1a_A1_En vacation). CAUTION The ☐STANDBY/ON switch on this unit will not completely shut off all power from the AC outlet. Since the power cord serves as the main disconnect device for the unit, you will need to unplug it from the AC outlet to shut down all power. Therefore, make sure the unit has been installed so that the power cord can be easily unplugged from the AC outlet in case of an accident. To avoid fire hazard, the power cord should also be unplugged from the AC outlet when left unused for a long period of time (for example, when on vacation). D3-4-2-2-2a*_A1_En POWER-CORD CAUTION Handle the power cord by the plug. Do not pull out the plug by tugging the cord and never touch the power cord when your hands are wet as this could cause a short circuit or electric shock. Do not place the unit, a piece of furniture, etc.

, on the power cord, or pinch the cord. Never make a knot in the cord or tie it with other cords. The power cords should be routed such that they are not likely to be stepped on. A damaged power cord can cause a fire or give you an electrical shock. Check the power cord once in a while. When you find it damaged, ask your nearest PIONEER authorized service center or your dealer for a replacement. S002*_A1_En Condensation If the unit is moved suddenly from a cold place into a warm room (in winter, for example) or if the temperature in the room in which the player is installed rises suddenly due to a heater, etc. , water droplets (condensation) may form inside (on operating parts and the lens). When condensation is present, the player will not operate properly and playback is not possible. Let the player stand at room temperature for 1 or 2 hours with the power turned on (the time depends on the extent of condensation). The water droplets will dissipate and playback will become possible. Condensation can also occur in the summer if the player is exposed to the direct wind from an air-conditioner. If this happens, move the player to a different place. S005_A1_En [European model only] Information for users on collection and disposal of old equipment and used batteries Symbol for equipment These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points in accordance with your national legislation.

Symbol examples for batteries By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling. For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items. These symbols are only valid in the European Union. For countries outside the European Union: If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal. And Canadian model only] This Class B digital apparatus complies with Canadian ICES-003.

D8-10-1-3_A1_En The Safety of Your Ears is in Your Hands Get the most out of your equipment by playing it at a safe level – a level that lets the sound come through clearly without annoying blaring or distortion and, most importantly, without affecting your sensitive hearing. sound can be deceiving. Over time, your hearing "comfort level" adapts to higher volumes of sound, so what sounds "normal" can actually be loud and harmful to your hearing.

Guard against this by setting your equipment at a safe level BEFORE your hearing adapts. ESTABLISH A SAFE LEVEL: • Set your volume control at a low setting. ☐ Slowly increase the sound until you can hear it comfortably and clearly, without distortion. ☐ Once you have established a comfortable sound level, set the dial and leave it there. BE SURE TO OBSERVE THE FOLLOWING GUIDELINES: • Do not turn up the volume so high that you can't hear what's around you. • Use caution or temporarily discontinue use in potentially hazardous situations. ☐ Do not use headphones while operating a motorized vehicle; the use of headphones may create a traffic hazard and is illegal in many areas.

Model only] 1) 2) 3) 4) 5) 6) 7) Read these instructions. Do not use this apparatus near water. Clean only with dry cloth. Do not block any ventilation openings. install in accordance with the manufacturer's instructions. 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat. 9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety.

If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet. 10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus. 11) Only use attachments/accessories specified by the manufacturer. 12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13) Unplug this apparatus during lightning storms or when unused for long periods of time. 14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped. D3-7-13-69_En This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: — Reorient or relocate the receiving antenna. ☐ Increase the separation between the equipment and receiver. ☐ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. ☐ Consult the dealer or an experienced radio/TV technician for help.

D8-10-1-2_A1_En Information to User Alterations or modifications carried out without appropriate authorization may invalidate the user's right to operate the equipment. D8-10-2_A1_En WARNING: Handling the cord on this product or cords associated with accessories sold with the product may expose you to chemicals listed on proposition 65 known to the State of California and other governmental entities to cause cancer and birth defect or other reproductive harm.

D36-P5_B1_En CAUTION This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections. Book Page 6 Thursday, June 7, 2012 9:43 AM Thank you for buying this Pioneer product. Please read through these operating instructions so that you will know how to operate your model properly. Cautions on use When moving this unit When moving this unit, be sure to first check that there is no disc loaded and disconnect the iPod/iPhone. Then press ☐ STANDBY/ON, wait until [GOOD BYE] disappears on main display to turn off, and then unplug the power cord. Damage may occur if the unit is transported or moved with a disc inserted, or when another device is connected to the iPod/iPhone connector port, USB terminal, or AUX IN miniplug jack.

Do not place objects on this unit Do not place any objects on top of this unit. Do not obstruct the ventilation holes. Do not use this unit on shaggy rugs, beds, sofas, etc. , or wrapped in cloth , etc. Doing so will prevent the heat from dispersing, leading to damage.

do not expose to heat. Do not place this unit on top of an amplifier or other components that generate heat. When rack mounting it, to avoid the heat given off by the amplifier or other audio components, place it on a shelf below the amplifier. ☐ Turn off the power of this unit when not using it. @@If this happens, turn off the power of this unit.

@@☐ Do not place this unit on top of a TV or color monitor. @@@@Book Page 25 Thursday, June 7, 2012 9:43 AM Additional information 10 Cleaning the product • Unplug the power cord from the power outlet when cleaning this unit.

Clean this unit using a soft cloth. For tough dirt, apply some neutral detergent diluted in 5 to 6 parts water to a soft cloth, wring out thoroughly, wipe off the dirt, and then wipe again with a soft, dry cloth. • Alcohol , thinner , benzene , insecticides , etc. , could cause the print or paint to peel off. Also, leaving rubber or vinyl products in contact with this unit for long periods of time could mar the cabinet. • When using chemical-impregnated wipes , etc. , read the cautions included with the wipes carefully. Do not attach pieces of paper or stickers to discs.

Doing so could warp discs, making it impossible to play them. Also, note that rental discs often have labels attached to them, and the glue of the label may have oozed out. Check that there is no glue around the edges of such labels before using rented discs. english Français About specially shaped discs Specially shaped discs (heart-shaped , hexagonal , etc.) cannot be played on this unit. Do not attempt to play such discs, as they could damage this unit. Cleaning the lens • The lens of this unit should not become dirty in normal use, but if for some reason it should malfunction due to dust or dirt, consult your nearest Pioneer authorized service center. Although lens cleaners for players are commercially available, we advise against using them since some may damage the lens. Español Handling discs Storing • Always place discs in their cases and store them vertically, avoiding hot, humid places, places exposed to direct sunlight and extremely cold places. Be sure to read the cautions included with the disc.

About iPod/iPhone Cleaning discs • Discs may not play if there are fingerprints or dust on them. In this case, use a cleaning cloth, etc. , to gently wipe the disc from the inside towards the outside. Do not use dirty cleaning cloths. Made for iPod" and "Made for iPhone" mean that an electronic accessory has been designed to connect specifically to iPod or iPhone, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod or iPhone may affect wireless performance. Do not use benzene, thinner or other volatile chemicals. Also, do not use record spray or antistatic agents. For tough dirt, apply some water to a soft cloth, wring out thoroughly, wipe off the dirt, and then wipe off the moisture with a dry cloth.

*• Do not use damaged (cracked or warped) discs. Do not let the signal surface of discs get scratched or dirty. , at 8 ohms, 1 kHz with no more than 5 % total harmonic distortion. * Measured pursuant to the Federal Trade Commission's Trade Regulation rule on Power Output Claims for Amplifiers • Disc Disc diameter . 93 lb) x 2 Note • The specifications and design of this product are subject to change without notice.
