Guide Guide de Démarrage rapide Schnellanleitung Guida Rapida Guía Rápida de Inicio Guia de Inicio Rápido ML 0405 Part no.: OM837657 R1 Printed in China USB Cable Quick Start Guide Docking Station Pouch Hand Strap AC Adapter Earphone 8 Polaroid izone550TM Digital Camera User Guide www.polaroid.com · Attaching the Hand Strap · Using the Docking Station Polaroid izone550TM Digital Camera User Guide www.polaroid.com 9 · Charging the Battery There are four ways to charge the battery. Fully charge the battery for 3 hours with the camera powered off, and for 6 hours with the camera powered on. IMPORTANT: · It is normal for the camera to be slightly warm while charging the battery. · Electric current varies for different computers. Some computers may not provide a sufficient charging current. For a full battery charge or when you use the camera away from your computer, we recommend the usage of an AC adapter (included, DC 5V, 800 mA, with a USB plug) to charge the battery. Visit www.polaroid.com for detailed information on an adapter.

· For a full battery charge, we recommend turning off the camera before charging the battery. · To get the best performance out of the battery, it is recommended the camera be kept charged at all times. Especially when not in use for a period of time, like over a month or so. · When the camera is connected to a computer, a message may prompt for installing the camera driver. (The message window varies for different Windows® OS) The battery can be charged without installing the driver. Click "Cancel" to close the message window. To install the driver, please refer to page 71 "Installing the Software onto a Computer" for further details. 10 Polaroid izone550TM Digital Camera User Guide www.polaroid.com 1.

Using the AC adapter via the camera · Plug the labelled end of the AC adapter into the USB port on the camera. · Connect the adapter to the household power outlet. The battery begins charging and the battery charge LED on the camera blinks. The LED stops blinking and remains on when battery is fully charged. 2.

Using the AC adapter via the docking station · Place the camera into the docking station. For further details, refer to "Using the Docking Station" on page 9.

The more the clippings on the left, the darker the image. The more the clippings on the right, the brighter the image.

Adjust the exposure compensation to a positive value if the image is too dark. Adjust the exposure compensation to a negative value if the image is too bright. Checking the histogram will enable more precise exposure control for subsequent shots. 2592 X 1944 0005 H 34 Polaroid izeone550TM Digital Camera User Guide www.polaroid.

com 3 Taking Pictures Before you take pictures, please read this note first: Outdoor Pictures Without the Flash · Avoid intense sunlight that may cause sun spots in pictures. · Always make sure that the sun or other light source is in front of the subject. · Taking a Picture Taking pictures at approximately 3.2 feet to infinity (1 meter to infinity). 1.

Set the camera to Still Image mode. 2. Frame your subject using the LCD screen. 3. Hold the camera steady. Press the shutter button completely down to take a picture. A beep will sound (if the beep sound is turned on) when a picture is taken. NOTE: Make sure that the Flash / Battery charge LED remains lighted before shooting. Polaroid izeone550TM Digital Camera User Guide www.polaroid.

com 35 · Setting Flash Mode 1. Set the camera to Still Image mode. 2. Pressing the Flash button cycles through the flash modes in the following sequence. When you press the Flash button, the icon (according to the flash setting you selected) will appear on the LCD screen. You can now take pictures using the flash mode you have selected. The flash will recharge after each flashed picture. The flash range is approximately 3.2 feet to 4.9 feet (1 to 1.

5 meters). 36 Polaroid izeone550TM Digital Camera User Guide www.polaroid.com The camera has three flash modes (default setting is Auto Flash). Use the flash when you take pictures at night, indoors, or outdoors in heavy shadows.

When shooting under these conditions: The flash does not fire. Use this setting for outdoor pictures, or where flash is prohibited or may be distracting, or when shooting towards a reflective surface, such as a window or a mirror. If there is not enough light when using this setting, your pictures may turn out dark. Select this mode Icon shown on the LCD screen Flash Off The flash fires automatically as needed. Use this setting to take most pictures.

Auto Flash The flash fires for every picture. Use this setting in high-contrast situations to provide fill-light or use it indoors in low light. Forced On NOTE: · Flash modes are not available in Video mode. · Never touch or block the flash with your fingers. Polaroid izeone550TM Digital Camera User Guide www.polaroid.com 37 · Setting Self-timer Your camera is designed with a self-timer function, which allows you to take pictures with a 10-second built-in timer. SELF TIMER 1. Set the camera to Still Image mode. 2.

Press the 3. Press the TIMER). ON OFF button. or button to select (SELF SELF TIMER ON OFF 4. Press the 5. Press the setting. button. or button to select the desired 6. Press the 7. The icon button.

will appear on the LCD screen. : SET NOTE: To disable the self-timer function, repeat the above steps and select "OFF". 2048 X 1536 10 +1.5 H 8. Frame your subject using the LCD screen.

9. Press the shutter button to take a picture. The camera beeps (if the beep sound is turned on) and the Self-timer LED blinks. NOTE: Place the camera on a flat surface or use a tripod when using the self-timer function. 38 Polaroid izeone550TM Digital Camera User Guide www.

Remove the memory card from the camera and insert it into the printer's card slot (as illustrated). Location of the card slot may vary from printer to printer model.

NOTE: Make sure you turn off the camera before inserting or removing a memory card. 14. Press the Print button on the printer to start printing. Gently push the SD card inwards and release it for the SD card to eject from the SD card slot. 66 Polaroid izone550TM Digital Camera User Guide www.polaroid.com 8 Using the SD (Secure Digital) Card · Using the SD Card Your camera comes with built-in flash memory for storing pictures and video clips. You can expand the memory using a commercially available SD card (up to 1GB). The camera senses whether a memory card is inserted, and automatically saves pictures and video clips accordingly. Note that you cannot save pictures or video clips to the built-in flash memory while a memory card is installed in the camera. See pages 87 to 89 for storage capacities. Memory Card Precautions 1. Use only an SD memory card with this camera. 2. Electrostatic charge, electrical noise, and other phenomena can cause data corruption or even loss.

Always make sure that you always back up important data on other media (MO disc, computer hard drive, etc.). 3. If a memory card starts to behave abnormally, you can restore normal operation by reformatting it. However, we recommend that you always take along more than one memory card whenever using the camera far away from the home or office.

4. We recommend that you format a memory card before using it for the first time after purchasing it, or whenever the card you are using seems to be the cause of abnormal pictures. Remember to format a memory card if it was used in another digital camera or other devices. Polaroid izone550TM Digital Camera User Guide www.polaroid.com 67 IMPORTANT! · Make sure you turn off the camera before inserting or removing a memory card. · Be sure to orient the card correctly when inserting it. Never try to force a memory card into the slot when you feel resistance. · SD memory cards have a write protection switch that you can use to protect files from accidental deletion. However, you must remove the write protection whenever you want to record new files onto it, format it, or delete its files.

· Files contained in the SD card recorded by other cameras may conflict with the izone550TM camera, and valuable data in your existing SD card may be distorted or lost when the card is inserted in the izone550TM camera. We strongly recommend the user to use a NEW or formatted SD card for the izone550TM camera. The manufacturer is not liable for losing or corrupting any valuable data or files in your SD card due to your improper operation. · As tests prove, the izone550TM works best with popular brands of memory cards such as SanDisk, Panasonic, Lexar and TOSHIBA. Consider using these cards for best performance. Inserting the SD Card Turn off the camera. Insert the SD card and ensure the card is inserted correctly as illustrated. icon will appear on the LCD The screen when a SD card is inserted into the camera. Removing the SD Card To remove the SD card, turn off your camera and gently push the SD card inwards. And then release it for the SD card to eject from the SD card slot.

68 Polaroid izone550TM Digital Camera User Guide www.polaroid.com IMPORTANT! · Never insert any other object into the camera's SD card slot.

[You're reading an excerpt. Click here to read official POLAROID](http://yourpdfguides.com/dref/1222043)

[IZONE 550 user guide](http://yourpdfguides.com/dref/1222043)

Doing so creates the risk of damage to the camera and card. · Should water or any foreign objects ever get into the card slot, immediately turn off the camera, remove the batteries and contact your dealer or nearest service provider.

· Never remove a card from the camera while the camera is powered on. Doing so can cause the recording operation to fail, and even damage the memory card. Formatting the SD Card Formatting the SD card erases all files stored in it, including the protected ones. Removing the SD card during formatting may damage the card. 1.

Insert an SD card into the camera card slot. 2. Turn on the camera. 3. Procedures are the same as for formatting the internal memory. Refer to "Formatting the Internal Memory" on page 25 for details. IMPORTANT! · You can format a memory card on the camera or on a computer. However formatting a memory card on a computer takes much longer. · Note that the data deleted by a format operation cannot be recovered. Make sure you do not have any useful data currently stored on a memory card before you format it.

Polaroid ize550TM Digital Camera User Guide www.polaroid.com 69 · To Copy Pictures and Video Clips from Internal Memory to a Memory Card 1. 2. 3. 4. 5. Insert an SD card into the camera card slot. Turn on the camera. Set the camera to Playback mode.

Polaroid izone550TM Digital Camera User Guide [www.polaroid.com](http://www.polaroid.com) 91 · Using Your Battery Limit the following activities that reduces battery life: · Reviewing your pictures on the LCD screen. · Excessive use of the flash. WARNINGS! · Battery should be recharged by an adult. · Batteries life varies depends on the camera usage. These instructions should be retained for future reference. · Tips, Your Safety & Maintenance Your Camera should only be operated within the following environmental conditions; · 32 - 104° Fahrenheit; 0 - 40° Celsius · 20% - 85% relative humidity, non condensing Battery life or image quality may be affected outside these conditions. . . . . Camera Cautions NEVER immerse any part of the Camera or its accessories into any fluid or liquid.

ALWAYS disconnect the Camera from your PC or TV before cleaning it. ALWAYS remove dust or stains with a soft cloth dampened with water or neutral detergent. NEVER place hot items on the surface of the Camera. NEVER attempt to open or disassemble Camera as this will affect any warranty claim. 92 Polaroid izone550TM Digital Camera User Guide [www.polaroid.com](http://www.polaroid.com) · Regulatory Information FCC Notice This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: . . . . Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is needed. Consult the dealer or an experienced radio/TV technician for help. Polaroid izone550TM Digital Camera User Guide [www.polaroid.com](http://www.polaroid.com) 93 Shielded cable must be used with this unit to ensure compliance with the Class B FCC limits.

Under the environment with electrostatic discharge, the product may malfunction and require user to reset the product. 94 Polaroid izone550TM Digital Camera User Guide [www.polaroid.com](http://www.polaroid.com) US 1105 Part No.: OM3369US004 .
