Manual abstract:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTICE This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. @@@@If this equipment does not cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna Increase the separation between the equipment and receiver Connect the equipment into an outlet or on a circuit different from that to which the receiver is connected Consult the dealer or an experienced radio/TV technician for help. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter. This equipment complies with the FCC/IC radiation exposure limits sent forth for uncontrolled equipment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET62 and RSS-102 for the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that is deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated with at least 20cm and more between the radiator and person's body (excluding extremities: hands, wrists, feet, and ankles). This device complies with Part 15 of the FCC Rules and the RSS-Gen of IC Rules. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device. CAUTION RISK OF EXPLODING IF BATTERY IS REPLACED BY AN INCORRECT TYPE.

BATTERY CAUTIONS 1. Use only the provided charger with this product. 2. Only charge the battery as recommended by the instructions. 3. The battery provided with his product is intended for this product only. 4. Prolonged use of the printer will result in the battery becoming warm. **BATTERY WARNINGS** 1. Avoid contact with leaking or a damaged battery. 2. Do not short battery terminals. 3. Adult supervision is recommended when product is used by young children. 4. Avoid areas of excessive heat or moisture. 5. Do not disassemble the battery. This product contains electrical or electronic materials. The presence of these materials may, if not disposed of properly, have potential adverse effects on the environment and human health.

@@@@@DO: · Turn off the printer. Open the paper tray door and remove the photo paper. @@Gently glide the photo paper under the print head. Close the paper tray door. The sheet of photo paper will automatically eject. Open the paper tray door and reload the photo paper. DO NOT: · Send another image to be printed. DO: · · · · Open paper tray door. Check to see if there is paper in the tray. If so, ensure the paper is loaded correctly.

@@DO: · Turn off the printer. Open the paper tray door and remove media. @@Gently glide the photo paper under the print head. Close the paper tray door. The sheet of photo paper will automatically eject.

Open the paper tray door and reload the photo paper. @@@@Replace the battery and batter cover. @@@@Install the battery (see above steps). 2. Connect the AC adapter to the printer and the power source.

@@@@@2. @@Search for devices and select the Polaroid printer. @@@@Select the Polaroid printer and print. 3. If your camera cell phone does not include "send via Bluetooth" under the "options" menu, select the image you want to print. Select the "options" menu and select "print via Bluetooth". Search for devices, select the Polaroid printer, and print. 1 Press and release latch on the paper tray door. 2 Unwrap the 10-pack of Polaroid ZINK Photo Paper. Printing: Digital Camera For specific print directions for your digital camera, please review your digital camera user's manual or manufacturer's website.

For additional troubleshooting for your camera, visit www.polaroid.com/pogo. @@The terminology used in your camera may be different. 1. Connect your digital camera and printer to determine if a print option or printer icon is automatically displayed on the camera screen. 2. If no print option appears, select "menu" and navigate to confirm that PictBridge is enabled. Note: if "USB" is displayed under "settings" then PictBridge is NOT enabled. 3.

Once PictBridge is enabled, select the image you want to print and follow the on-screen instructions to print. Notes: · Do not disconnect the USB cord until entire printing process is complete. · Do not turn off the printer while printing. · Do not open paper tray door while printing. @@@@Make sure the ZINK Smart Sheet™ is placed facedown.

Close the printer tray door. @@· The printer must be empty before refilling. Do not fill the printer with more than one 10-pack of Polaroid ZINK Photo Paper. Having more than 10 sheets of paper may damage the printer. · Aviod bending the Polaroid ZINK Photo Paper. · Only hold the Polaroid ZINK Photo Paper by its edges; avoid touching the printing surface with your fingers. ·
