Power up your Office with the Latest Technologies

To go the extra mile you need smart solutions that efficiently handle your every day tasks. With the Aficio® MP C2500/MP C3000, you can get the job done on time, in any time, increase your productivity, easily share information and up limits security. Should your business needs change, your multifunctional device simply grows with you.

Top Multifunctional Performers

Whether you are looking for a digital copy/print/copy solution or a full blown multifunctioner with fax and finishing capabilities, the Aficio® MP C2500/MP C3000 can be customized to suit your specific needs. In fact, you can process all your documents using one compact multifunctional device, cost efficient and space saving! The system warms up in a mere 45 seconds and your first black and white job is ready in 6.7 seconds*. Colour prints and copies are on your desk just as fast as black and white documents: at 30 pages per minute (25 ppm for the Aficio® MP C2500) your productivity is never compromised!

*Full colour 3.7 seconds

Efficient Distribution

Digitally organize, edit and distribute information to save time and costs. Instead of filling archive cabinets, you can easily:

- digitise documents and store them on the document server
- share a document by scanning it to the addressee's e-mail address or a specific folder
- avoid network overloads and prevent huge e-mail inboxes by sending an e-mail containing a URL address

Advanced Printing

The confidential documents you print should stay confidential. With the Aficio® MP C2500/MP C3000 they remain that way: the system keeps your document until you release it with your password. Print jobs you send during the day can also be held in the digital paper tray. You simply release them at a convenient time. When printing multiple sets, you can avoid misprints by first printing a sample set and correcting it if necessary before the device processes the remaining sets. Should you choose the system's Adobe® PostScript® 3™ option, you obtain PDF Direct Print, a handy tool to reduce network traffic and increase total productivity.

Safeguard Access & Information

Protect your business against possible security threats with the latest in authentication, temporary data overwriting and unauthorized copy prevention:

- advanced access limitation: Windows® authentication & colour usage restriction
- prevention of industrial spying & information leaks: Data Overwrite Security Unit
- watermark protection to rule out unauthorized copying

Distributing scanned documents is easy: you can store them on the device's Document Server, send them to any e-mail address in the world or directly to a specific folder in the network.
