Your phone features earSmart™, an intelligent voice processor that delivers a clear voice experience, allowing you to hear and be heard™ in nearly any environment. earSmart technology uses the science of human hearing to distinguish sounds, identify your voice and suppress surrounding noise, for clear conversations just about anywhere. How Does It Work? • The earSmart voice processor in your phone captures your voice and all the sounds around you. • Working like the human ear, it processes and distinguishes these sounds, isolates your voice conversation, and removes background noise - from both ends of a call. • It also automatically equalizes and adjusts voice volume so you can hear and talk naturally, even in the noisiest places. • With earSmart technology, you can talk where you want, and have clear conversations for mobile calls, video chats, even speakerphone calls, without worrying about surrounding noise. IC Notice This Class B digital apparatus complies with Canadian ICES-003.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. en. III Carefully slide the SIM card into the SIM card socket (as shown) until the card locks into place. • Make sure that the card's gold contacts face into the phone and that the upper-left angled corner of the card is positioned as shown. Setting Up Your Phone Getting Started 1 Installing the Battery 1. Insert the battery into the opening on the back of the phone, making sure the connectors align (1). 2. Gently press down to secure the battery (2). Note: If the card is not inserted correctly, the phone will not detect the SIM card. Re-orient the card back into the slot if the SIM is not detected. 2 Removing and Installing a Memory Card You can use a microSD (SD) or microSDHC card to expand available memory space if you desire. This secure digital card enables you to exchange images, music, and data between SD-compatible devices. This type of memory card is designed for usnd select one of the listed languages. 2. Tap Start to begin.

The Wi-Fi screen is displayed. 3. If you want to access a currently available Wi-Fi network, tap the network name, enter the password (if required), and tap Connect. If you do not want to connect to a Wi-Fi network, tap Skip. The Samsung Account screen is displayed. 6 4. To access an existing Samsung account, tap Sign in, enter your Email address and Password, and tap Sign in. To create a new Samsung account, tap Create new account. Tap Terms and conditions to read them, tap OK and tap the I accept all the terms above checkbox. Tap Privacy policy, read the policy and tap OK, then Tap Agree.

If you do not want to access a Samsung account at this time, tap Skip. The Make it Google screen is displayed. Note: An active Samsung account is required to begin accessing applications such as ChatON and AllShare Play. 5. If you already have a Google account, tap Sign in, otherwise, tap Get an account and follow the onscreen instructions to create a Google account.

You can also tap Not now if you want to create an account later. Note: In order to utilize your device to the fullest extent, you will need to create a Google™ Account when you first use your device. With a Google Account, you will have access to more Google applications and applications will always be in sync between your phone and computer. 6. At the Use Google location screen, a blue checkmark appears next to the text that explains that you allow Google's location service to collect anonymous location data from your phone.

If you disagree, tap the checkmark to remove it. 7. A blue checkmark also appears next to the text that explains that you allow your location to be used for Google search results and other Google services. If you disagree, tap the checkmark to remove it. Tap Next. 8. In the provided fields, enter your First and Last name so that your phone can personalize some applications. Tap Next. 9. At the Setup complete screen, tap Finish to complete your setup.

The main Home screen is displayed. Getting Started 7 Creating a Samsung Account An active Samsung account is required to begin accessing applications such as ChatON and AllShare Play. To create a Samsung account at any time: 1. From any Home screen, tap Settings . – or – From any Home screen, press Settings. 2. Tap Accounts and sync Add account Samsung account. 3. Tap Create new account. 4.

Tap Terms and conditions to read them and tap OK. 5. Tap the I accept all the terms above checkbox. 6. Tap Privacy policy and read the policy and tap OK. 7. Tap Agree. 8. Enter the required information and tap Sign up. 9.

At the Welcome screen, tap Next. 10. Follow the on-screen instructions to verify your email address and activate your account. Creating a New Google Account In order to utilize your device to the fullest extent, you will need to link it to a Google™ Account. With a Google Account, Google applications will always be in sync between your phone and computer. If you did not link your device to a Google account during the setup procedure when you first turned your phone on, follow these steps: 1. From any Home screen, tap Settings . – or – From any Home screen, press Settings. 2. Tap Accounts and sync Add account Google.

3. Tap New to create a new Google account. – or – If you already have a Google account, tap Existing to sign in and add the account to your phone. 4. Follow the on-screen instructions to add a Google Account. Note: Once you have created a Google account, you only need to sign in. 8 Retrieving your Google Account Password A Google account password is required for Google applications. If you misplace or forget your Google Account password, follow these instructions to retrieve it: 1. From your computer, use an Internet browser and navigate to <http://google.com/accounts>.

2. Click on the Can't access your account? link. 3. Tap the I don't know my password radio button. 4. Enter your Email address and click Continue. 5. Follow the password recovery procedure.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY ACE II X GT-S7560M user guide](http://yourpdfguides.com/dref/4639465)
<http://yourpdfguides.com/dref/4639465>

You may be prompted to enter a password. 2.

When connected, follow the voice prompts from the voice mail center. Accessing Your Voice Mail From Another Phone 1. Dial your wireless phone number. 2. When you hear your voicemail greeting, press the asterisk (*) key on the phone you are using. 3. Enter your password. Troubleshooting If your device has fatal errors, hangs up, or freezes, you may need to reset the device to regain functionality. . III If your device is frozen and unresponsive, press and hold the Power/Lock Key for 8 to 10 seconds.

Setting Up Your Voice Mail 1. From the Home screen, tap , then tap 2. Follow the tutorial to create a password, record a greeting, and record your name. Note: These steps may be different depending on your network. Accessing Your Voice Mail 1. From the Home screen, tap . , then tap and hold Getting Started 9 Section 2: Understanding Your Phone This section outlines some key features of your phone and describes the screen and the icons that appear when the phone is in use. It also shows how to navigate through the phone and provides information on using a memory card. Your phone is lightweight, easy-to-use and offers many useful features. The following list outlines a few of the features included in your phone.

• 4G network with 1.5 gigahertz dual core processor • 5 Megapixel camera and camcorder with 1.3 Megapixel Front Facing camera Features of Your Phone • Android v 4.0.4, Ice Cream Sandwich Platform • Touch screen provides quick response to a variety of in-phone menus and options including applications and up to seven home screens • GPS Navigation functionality provides real-time navigation • HSDP+ 21 mbps high speed download capability • 8 GB built-in memory (on-board) • Up to 32 GB expandable memory slot • Corporate and Personal Email • Sync and update social network applications • Over 250,000 Apps available to download • Full Integration of Google Mobile™ Services (Gmail, YouTube, Google Maps, Google Voice Search) • Multiple Messaging Options: Text/Picture/Video Messaging, Google+, Google Messenger, and Google Talk • Virtual (on-screen) QWERTY keyboard • Ready access to the Internet • Built-in Bluetooth 4.

0 and advanced Wi-Fi® technology • USB Tethering-capable • Mobile Hotspot Capability • Brilliant 4" Super AMOLED display 10 • DivX Certified® to play DivX® video up to HD 720p, including premium content Front View of Your Phone 3. Proximity sensor: uses the ambient light level to adjust keypad access during a call. If the light path is blocked by holding the phone close to your ear, the touch screen will turn off. 4. Volume keys: allow you to adjust the ringer volume while in standby mode or adjust the voice volume during a call.

When receiving an incoming call, briefly press either volume key () to mute the ring tone. Adjusts text size when reading a message or using the browser in the Apps folder. 5. Home key: allows you to return to the main Home screen from any Home screen or menu. Press and hold to display Task Manager. 6. Menu key: allows you to access sub-menus with additional options for different features and applications such as Home screen, Phone, Contacts, Messaging, and Internet. 7. Power/Accessory Interface connector: allows you to connect a Travel Charger or other optional accessories such as a USB/data cable or a hands-free headset for convenient, hands-free conversations. Understanding Your Phone 11 1.

Earpiece: allows you to hear the caller. 2. Front facing camera: allows you to take pictures of yourself when you set the camera shooting mode to Self shot. 8. Display screen: The orientation of the display screen rotates with the device as you turn it. You can turn this feature on and off (see "Display Settings" on page 101). 9. Back key: allows you step backwards when navigating a menu or web page. 10. Microphone: allows callers to hear you when you are speaking to them.

It also used for the Speakerphone. Rear View 11. 3.5mm Headset jack: allows you to plug in headphones. 12.

Power/Lock key: () lets you power your phone on and off. Also allows you to lock or unlock the touch screen. For more information on locking your phone, see "Locking and Unlocking the Phone" on page 22. 12 13. External speaker: allows you to hear when the Speakerphone is turned on.

14. Memory card slot: install a memory card for file storage (see "Installing the Memory Card" on page 3). 15. GPS antenna: receives GPS signals. 16. Camera lens: is used to take pictures and shoot videos. 17. Flash: is used to provide extra light when taking pictures in dark places. 18. Back cover: allows access to the battery and SIM card.

19. Main antenna: receives call and data signals. Display Layout Your display screen provides a wealth of information about the phone's status and options, as well as providing access to application icons. Primary Shortcuts There are five non-movable Application Shortcuts that appear at the bottom of all Home screens. The default shortcuts are: • Phone for dialing a number. • Contacts for accessing your Address book. • Messaging for creating and viewing Messages. • Web for surfing the Internet. • Apps for accessing the applications on your phone. You can change the Phone, Contacts, Messaging, and Web application shortcuts to any icon that is displayed in the Apps menu.

For more information, refer to "Adding and Removing Primary Shortcuts" on page 25. Understanding Your Phone 13 Indicator Icons This list identifies the symbols you'll see on your phone's display and Indicator area: Displays your current signal strength. The greater the number of bars, the stronger the signal. Indicates that the Flight Mode is active. You cannot send or receive any calls or access online information.

Displays when there is no SIM card in the phone. Displays when there is no network available. Displays when there is a system error or alert. Displays when a call is in progress and you exit the call screen. Displays when a call is on hold and you exit the call screen.

Displays when the speakerphone is on and you exit the call screen. 14 Displays when a call has been missed. Displays when a call has been muted. Displays when Call forwarding is set to Always forward. For more information, refer to "Call forwarding" on page 46. Displays when your phone is set to automatically reject all calls. Displays your battery charge level. Icon shown is fully charged. Displays when your battery is charging. Also displays battery charge level.

Device Power Critical – Shows your current battery only has three percent power remaining and will immediately shutdown. Displays when your connection to an EDGE network is active. Displays when your phone is communicating with the EDGE network. 3G 3G Displays when your connection to a UTMS network is active. Displays when your phone is communicating with the UTMS network.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY ACE II X GT-S7560M user guide](http://yourpdfguides.com/dref/4639465)
<http://yourpdfguides.com/dref/4639465>

Displays when your connection to an HSDPA, HSPA, or HSPA+ network is active. Displays when your phone is communicating with the HSDPA, HSPA, or HSPA+ network. Displays when your phone is downloading or has downloaded a file. It will blink green when it is installing. Displays when a Play Store download has completed.

Displays when updates are available for download. Displays when the phone is connected to a computer via a supported USB cable connection. Displays when the phone is tethered via a supported USB cable connection. Displays when a new text or multimedia message is received. Displays when a new voice mail is received.

Displays when Email is received. Displays when the time and date for a Calendar Event has arrived. For more information, refer to “S Planner” on page 148. Displays when you set an alarm to ring at a specified time. For more information, refer to “Alarm” on page 135.

Displays when the Sound profile is set to Mute. Displays when the Sound profile is set to Vibrate. Displays when Bluetooth is activated. Understanding Your Phone 15 Displays when Wi-Fi is connected, active, and communicating with a Wireless Access Point (WAP). Displays when Wi-Fi is active but there is a communication issue with the target Wireless Access Point (WAP). Displays when Wi-Fi Direct is active. Displays when your phone has been configured as a portable Wi-Fi hotspot. Displays when your phone is connected to a PC using Kies air. Displays when GPS is active and acquiring a signal. Displays when data synchronization and application sync is active and synchronization is in progress for Gmail, Calendar, and Contacts.

Displays when the keypad is active. Displays when an emergency call is taking place. For more details on configuring your phone’s settings, see “Changing Your Settings” on page 92. Application Icons The Apps menu provides quick access to the items you use most frequently. The following table contains a description of each application. If the application is already described in another section of this user manual, then a cross reference to that particular section is provided. For information on navigating through the Apps icons, see “Navigating Through the Application Menus” on page 23. 1. From the Home screen, tap , then tap one of the application icons. 2.

Follow the on-screen instructions. 3. To return to the main Home screen, tap The following applications are available: . 16 Calculator: Using this feature you can use the phone as a calculator. The calculator provides the basic arithmetic functions; addition, subtraction, multiplication, and division. You can also use this as a scientific calculator. For more information, refer to “Calculator” on page 134. Camera: Use your 5.0 megapixel camera feature to produce photos and videos. For more information, refer to “Camera” on page 71.

ChatON: With the ChatON application, you can interact with friends and family with text, images, hand-written notes and video shared instantly. You can also chat in groups. For more information, refer to “ChatON” on page 135. Clock: The Clock application allows you to access alarms, view the World Clock, set a stopwatch, and use a timer. For more information, refer to “Clock” on page 135. Contacts: You can manage your daily contacts by storing their name and number in your Address Book. Address Book entries can be sorted by name, entry, or group. For more information, refer to “Contacts and Your Address Book” on page 54. Downloads: The Downloads application allows you to manage all of your downloads from the Play Store and the Browser. For more information, refer to “Downloads” on page 138.

Email: Email enables you to review and create email using various email services. You can also receive text message alerts when you receive an important email. For more information, refer to “Using Email” on page 86. Flipboard: Flipboard collects the content of social media and other websites and presents it in magazine format that lets you “flip” through the content. FM Radio: Listen to music and news on the FM radio. For more information, refer to “FM Radio” on page 78. Understanding Your Phone 17 Gallery: The Gallery is where you view photos and play back videos. For photos, you can also perform basic editing tasks, view a slideshow, set photos as wallpaper or contact image, and share as a picture message. For more information, refer to “Gallery” on page 70. Game Hub: Game Hub is a premium game service that lets you play, connect and share games on Samsung Android devices.

For more information, refer to “Game Hub” on page 139. Gmail: Gmail is a web-based email service. Gmail is configured when you first set up your phone. Depending on your synchronization settings, Gmail can automatically synchronize with your Gmail account on the web. For more information, refer to “Using Gmail” on page 88.

Google +: Google+ makes messaging and sharing with your friends a lot easier. You can set up Circles of friends, visit the Stream to get updates from your Circles, use Messenger for fast messaging with everyone in your Circles, or use Instant Upload to automatically upload videos and photos to your own private album on Google+. For more information, refer to “Google+” on page 90. Internet: Open the web browser to start surfing the web. The browser is fully optimized and comes with advanced functionality to enhance the Internet browsing feature on your phone.

For more information, refer to “Internet” on page 120. Latitude: With Google Latitude, you can see the location of all of your friends on a map or on a list. You can also share or hide your location. For more information, refer to “Latitude” on page 140. Local: Local is an application that uses Google Maps and your location to help you find Restaurants, Cafés, Bars, Attractions, and more. You can also add your own locations. For more information, refer to “Local” on page 141. 18 Maps: Depending on your location, you can view basic, custom, and satellite maps and local business information, including locations, contact information, and driving directions. You can also post public messages about a location and track your friends. For more information, refer to “Maps” on page 142.

Memo: This feature allows you to create a memo. For more information, refer to “Memo” on page 143. Messaging: You can send and receive different types of messages. For more information, refer to “Messaging” on page 80. Messenger: Messenger allows you to bring groups of friends together into a simple group conversation. When you get a new conversation in Messenger, Google+ sends an update to your phone. For more information, refer to “Messenger” on page 90. Music Player: Music Player allows you to play music files that you have stored on your phone and memory card. You can also create playlists.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY ACE II X GT-S7560M user guide](http://yourpdfguides.com/dref/4639465)
<http://yourpdfguides.com/dref/4639465>

For more information, refer to "Music Player" on page 66.

My files: My files allows you to manage your sounds, images, videos, bluetooth files, Android files, and other memory card data in one convenient location. For more information, refer to "My Files" on page 144. *Navigation:* Navigation is an internet-connected GPS navigation system with voice guidance. You can type or speak your destination. For more information, refer to "Navigation" on page 145.

Phone: Allows you to access the dialer keypad, call logs, and favorites. For more information, refer to "Call Functions" on page 33. *Play Books:* With Google Play Books, you can find more than 3 million free e-books and hundreds of thousands more to buy in the eBookstore. For more information, refer to "Play Books" on page 147. *Play Movies:* With Google Play Movies, you can rent thousands of different movies.

You can watch instantly, or download your movie for offline viewing at a later time. For more information, refer to "Play Movies" on page 69. *Understanding Your Phone 19 Play Store:* The Play Store provides access to downloadable applications and games to install on your phone. For more information, refer to "Play Store" on page 147. *S Planner:* With the S Planner application, you can consult the calendar by day, week, month, year, create events, and set an alarm to act as a reminder, if necessary. For more information, refer to "S Planner" on page 148. *Samsung Apps:* Samsung Apps allows you to easily download an abundance of useful applications to your phone. *Talk:* Google Talk is a free Windows and web-based application for instant messaging offered by Google. Conversation logs are automatically saved to a Chats area in your Gmail account. This allows you to search a chat log and store them in your Gmail accounts.

For more information, refer to "Google Talk" on page 89. *Video Player:* The Video Player application plays video files stored on your microSD card. For more information, refer to "Video Player" on page 69. *Voice Recorder:* The Voice Recorder allows you to record an audio file up to one minute long and then immediately send it as a message. For more information, refer to "Voice Recorder" on page 150. *YouTube:* YouTube is a video sharing website on which users can upload and share videos, and view them in MPEG-4 format. For more information, refer to "YouTube" on page 151. *Search:* The Search application is the same on-screen Internet search engine that is on the Google Search Bar on your main Home screen. For more information, see "Google Search Bar" on page 21. *Settings:* This icon navigates to the sound and phone settings for your phone.

@@ For more information, refer to "Changing Your Settings" on page 92. *20 Tip:* To open applications quickly, add the icons of frequently used applications to the Home screen or to the folders you created.
