**Manual abstract:**

*Content may differ from the final product, or from software provided by service providers or carriers, and is subject to change without prior notice. For the latest version of the manual, refer to the Samsung website, [www.samsung.com](http://www.samsung.com). Content (high quality content) that requires high CPU and RAM usage will affect the overall performance of the device. Applications related to the content may not work properly depending on the device's specifications and the environment that it is used in. Available features and additional services may vary by device, software, or service provider. Applications and their functions may vary by country, region, or hardware specifications. Samsung is not liable for performance issues caused by applications from any provider other than Samsung. Samsung is not liable for performance issues or incompatibilities caused by edited registry settings or modified operating system software.*

*Attempting to customise the operating system may cause the device or applications to work improperly. Software, sound sources, wallpapers, images, and other media provided with this device are licensed for limited use. Extracting and using these materials for commercial or other purposes is an infringement of copyright laws. Users are entirely responsible for illegal use of media. You may incur additional charges for data services, such as messaging, uploading and downloading, auto-syncing, or using location services.*

*To avoid additional charges, select an appropriate data tariff plan. For details, contact your service provider. About this manual Default applications that come with the device are subject to updates and may no longer be supported without prior notice. If you have questions about an application provided with the device, contact a Samsung Service Centre. For user-installed applications, contact service providers.*

*Modifying the device's operating system or installing softwares from unofficial sources may result in device malfunctions and data corruption or loss. These actions are violations of your Samsung licence agreement and will void your warranty. [You're reading an excerpt. Click here to read official SAMSUNG GALAXY CORE PLUS SM-G350 user guide](http://yourpdfguides.com/dref/5590109)  
<http://yourpdfguides.com/dref/5590109>

Only microSIM cards work with the device. 9 Getting started 1 Remove the back cover. Be careful not to damage your fingernails when you remove the back cover. Do not bend or twist the back cover excessively.

Doing so may damage the cover. 2 Insert the SIM or USIM card with the gold-coloured contacts facing downwards. • Do not insert a memory card into the SIM card slot. If a memory card happens to be lodged in the SIM card slot, take the device to a Samsung Service Centre to remove the memory card. • Be cautious not to lose or let others use the SIM or USIM card. Samsung is not responsible for any damages or inconveniences caused by lost or stolen cards. 10 Getting started 3 Insert the battery. 2 1 4 Replace the back cover. 11 Getting started Removing the SIM or USIM card and battery 1 Remove the back cover. 2

Pull out the battery.

3 Pull out the SIM or USIM card. 12 Getting started Charging the battery Use the charger to charge the battery before using it for the first time. A computer can be also used to charge the device by connecting them via the USB cable. Use only Samsung-approved chargers, batteries, and cables. Unapproved chargers or cables can cause the battery to explode or damage the device.

• When the battery power is low, the battery icon appears empty. When the battery is completely discharged, the device cannot be turned on immediately when the charger is connected. Allow a depleted battery to charge for a few minutes before turning on the device. Charging with the charger Plug the small end of the charger into the multipurpose jack of the device, and plug the large end of the charger into an electric socket. Connecting the charger improperly may cause serious damage to the device.

Any damage caused by misuse is not covered by the warranty. 13 Getting started • The device can be used while it is charging, but it may take longer to fully charge the battery. • If the device receives an unstable power supply while charging, the touch screen may not function. If this happens, unplug the charger from the device. • While charging, the device may heat up. This is normal and should not affect the device's lifespan or performance. If the battery gets hotter than usual, the charger may stop charging. • If the device is not charging properly, take the device and the charger to a Samsung Service Centre. After fully charging, disconnect the device from the charger. First unplug the charger from the device, and then unplug it from the electric socket.

Do not remove the battery before removing the charger. This may damage the device. To save energy, unplug the charger when not in use. The charger does not have a power switch, so you must unplug the charger from the electric socket when not in use to avoid wasting power. The charger should remain close to the electric socket and easily accessible while charging. Checking the battery charge status When you charge the battery while the device is off, the following icons will show the current battery charge status: Charging Fully charged 14 Getting started Reducing the battery consumption Your device provides options that help you save battery power. By customising these options and deactivating features in the background, you can use the device longer between charges: • When you are not using the device, switch to sleep mode by pressing the Power button. When you lose unnecessary applications with the task manager. • Deactivate the Bluetooth feature. • Deactivate the Wi-Fi feature.

• Deactivate auto-syncing of applications. • Decrease the backlight time. • Decrease the brightness of the display. D Inserting a memory card Your device accepts memory cards with maximum capacities of 64 GB. Depending on the memory card manufacturer and type, some memory cards may not be compatible with your device.

• Some memory cards may not be fully compatible with the device. Using an incompatible card may damage the device or the memory card, or corrupt the data stored in it. • Be cautious to insert the memory card right-side up. • The device supports the FAT and the exFAT file systems for memory cards. When inserting a card formatted in a different file system, the device asks to reformat the memory card.

• Frequent writing and erasing of data shortens the lifespan of memory cards. F • When inserting a memory card into the device, the memory card's file directory W appears in the SD memory card folder. 15 Getting started 1 Remove the back cover. 2 Insert a memory card with the gold-coloured contacts facing downwards. 3 Replace the back cover. Removing the memory card Before removing the memory card, first unmount it for safe removal. On the Home screen, tap Apps → Settings → More → Storage → Unmount SD card. 1 Remove the back cover. 2 Pull out the memory card. 3 Replace the back cover.

Do not remove the memory card while the device is transferring or accessing information. Doing so can cause data to be lost or corrupted or damage to the memory card or device. Samsung is not responsible for losses that result from the misuse of damaged memory cards, including the loss of data. 16 Getting started 22 Basics Control motions Simple motions allow easy control of the device. Before using motions, make sure the motion feature is activated. On the Home screen, tap Apps → Settings → My device → Motions and gestures, and then drag the Motions and gestures switch to the right. Excessive shaking or impact to the device may result in unintended inputs.

Control motions properly. Rotating the screen Many applications allow display in either portrait or landscape orientation. Rotating the device causes the display to automatically adjust to fit the new screen orientation. To prevent the display from rotating automatically, open the notifications panel and deselect Screen rotation. • Some applications do not allow screen rotation.

• Some applications display a different screen depending on the orientation. The S calculator turns into a scientific calculator when rotated to landscape. 23 Basics Picking up When you pick up the device after it has been idle for some time or when the screen has turned off, it vibrates if you have missed calls or new messages. Turning over Turn over the device to mute ringtones, pause media playback, or mute the FM radio (when using the speaker). 24 Basics Notifications Notification icons appear on the status bar at the top of the screen to report missed calls, new messages, calendar events, device status, and more.

Drag down from the status bar to open the notifications panel. Scroll the list to see additional alerts. To close the notifications panel, drag up the bar that is at the bottom of the screen.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY CORE PLUS SM-G350 user guide](http://yourpdfguides.com/dref/5590109)  
<http://yourpdfguides.com/dref/5590109>

From the notifications panel, you can view your device's current settings. Drag down from the status bar, and then tap to use the following options: • i-Fi: Activate or deactivate the Wi-Fi feature. W • PS: Activate or deactivate the GPS feature. G • ound: Activate or deactivate silent mode. You can vibrate or mute your device in silent S mode. • creen rotation: Allow or prevent the interface from rotating when you rotate the device. S • luetooth: Activate or deactivate the Bluetooth feature.

B • obile data: Activate or deactivate the data connection. M • locking mode: Activate or deactivate blocking mode. In blocking mode, the device B will block notifications. To select which notifications will be blocked, tap Settings → My device → Blocking mode. • i-Fi hotspot: Activate or deactivate the Wi-Fi tethering feature. W • Beam: Activate or deactivate the S Beam feature. S • FC: Activate or deactivate the NFC feature. N • iving mode: Activate or deactivate driving mode. D • ync: Activate or deactivate auto-syncing of applications. S • light mode: Activate or deactivate flight mode.

F The available options may vary depending on the region or service provider. To rearrange the options on the notifications panel, open the notifications panel, tap tap and hold an item, and then drag the item to another location. → , 25 Basics Home screen The Home screen is the starting point to access all of the device's features. It displays indicator icons, widgets, shortcuts to applications, and others. The Home screen can have multiple panels.

To view other panels, scroll left or right. Changing the Home screen mode The Home screen has standard and easy modes. In easy mode, you can easily access your favourite contacts, applications, and settings by adding shortcuts to the Home screen. To switch to easy mode, on the Home screen, tap Apps → Settings → My device → Home screen mode → Easy mode → Apply. Rearranging items Adding an application icon On the Home screen, tap Apps, tap and hold an application icon, and then drag it into a panel preview.

Adding an item Customise the Home screen by adding widgets, folders, or panels. Tap and hold the empty area on the Home screen, and then select one of the following categories: • pps and widgets: Add widgets or applications to the Home screen. A • older: Create a new folder. F • age: Add a new panel to the Home screen. P Moving an item Tap and hold an item and drag it to a new location. To move it to another panel, drag it to the side of the screen. 26 Basics Removing an item Tap and hold an item, and drag it to the rubbish bin that appears at the top of the Home screen. When the rubbish bin turns red, release the item. Rearranging panels Adding a new panel Tap → Edit page → . Moving a panel Tap → Edit page, tap and hold a panel preview, and then drag it to a new location.

Removing a panel → Edit page, tap and hold a panel preview, and then drag it to the rubbish bin at the Tap top of the screen. Setting wallpaper Set an image or photo stored in the device as wallpaper for the Home screen. On the Home screen, tap following: → Set wallpaper → Home screen, and then select one of the • allery: See photos taken by the device's camera or images downloaded from the G Internet. • ive wallpapers: See animated images. L • allpapers: See wallpaper images. W Then, select an image and tap Set wallpaper. Or, select an image, resize it by dragging the frame, and then tap Done. 27 Basics Using widgets Widgets are small applications that provide convenient functions and information on your Home screen. To use them, add widgets from the widgets panel to the Home screen. • ome widgets connect to web services.

Using a web-based widget may result in S additional charges. • he widgets available may vary depending on the region or service provider. T On the Home screen, tap Apps → Widgets. Scroll left or right on the widgets panel, and then tap and hold a widget to add it to the Home screen. Put it on a location you want, resize it by dragging the frame if necessary, and then tap anywhere on the screen to save the location of the widget.

Locked screen The locked screen prevents the device from unwanted operation when not in use and also allows you to add convenient widgets. Adding widgets To use widgets when the screen is locked, on the Applications screen, tap Settings → My device → Lock screen, and then tick Multiple widgets. You cannot use widgets on the locked screen in easy mode or when the security features are activated. Tap the widgets panel area at the upper part of the screen. Scroll right to the last page, tap and then select a widget to add to the locked screen.

, 28 Basics Rearranging panels Moving a panel Scroll left or right on the widgets panel area, tap and hold a panel preview, and then drag it to a new location. Removing a panel Scroll left or right on the widgets panel area, tap and hold a panel preview, and then drag it to the rubbish bin at the top of the screen. Using applications This device can run many different types of applications, ranging from media to Internet applications. Opening an application On the Home screen or the Applications screen, select an application icon to open it. Opening from recently-used applications Press and hold the Home button to open the list of recently-used applications. Select an application icon to open. Closing an application Close applications not in use to save battery power and maintain device performance. Press and hold the Home button, tap , and then tap End next to an application to close it. To close all running applications, tap End all. Alternatively, press and hold the Home button, and then tap .

29 Basics Applications screen The Applications screen displays icons for all applications, including any new applications installed. On the Home screen, tap Apps to open the Applications screen. To view other panels, scroll left or right. Rearranging applications → Edit, tap and hold an application, and then drag it to a new location. To move it to Tap another panel, drag it to the side of the screen. Organising with folders Put related applications together in a folder for convenience. → Edit, tap and hold an application, and then drag it to Create folder. Enter a folder Tap name and then tap OK. Put applications into the new folder by dragging, and then tap Save to save the arrangement. Rearranging panels Pinch on the screen, tap and hold a panel preview, and then drag it to a new location.

Installing applications Use application stores, such as Samsung Apps, to download and install applications. Uninstalling applications Tap → Uninstall, and then select an application to uninstall it. Default applications that come with the device cannot be uninstalled. 30 Basics Sharing applications Share downloaded applications with other users via email, Bluetooth, or other methods.

[You're reading an excerpt. Click here to read official SAMSUNG](http://yourpdfguides.com/dref/5590109)

[GALAXY CORE PLUS SM-G350 user guide](http://yourpdfguides.com/dref/5590109)

<http://yourpdfguides.com/dref/5590109>

→ Share app, select applications, tap Done, and then select a sharing method.

The Tap next steps vary depending on the method selected. Entering text Use the Samsung keyboard or the voice input feature to enter text. Text entry is not supported in some languages. To enter text, you must change the input language to one of the supported languages. Changing the keyboard type Tap any text field, open the notifications panel, tap Choose input method, and then select the type of keyboard to use.

Using the Samsung keyboard Changing the keyboard layout Tap → Alphabets or Numbers and symbols, and then tap Qwerty keyboard or 3x4 keyboard. On the 3x4 keyboard, a key has three or four characters. To enter a character, tap repeatedly the key corresponding to the character. Set options for the Samsung keyboard. Delete a preceding character. Enter uppercase. Break to the next line. Enter numerals and punctuation marks. Enter a space. 31 Basics Entering uppercase Tap before entering a character.

For all caps, tap it twice. Changing language keyboards Add languages to the keyboard, and then slide the space key left or right to change language keyboards. Entering text by voice Activate the voice input feature and then speak into the microphone. The device displays what you speak. If the device does not recognise your words correctly, tap the underlined text and select an alternative word or phrase from the dropdown list. To change the language or add languages for the voice recognition, tap the current language. Copying and pasting Tap and hold over text, drag or to select more or less text, and then tap Copy to copy or Cut to cut. The selected text is copied to the clipboard. To paste it into a text entry field, place the cursor at the point where it should be inserted, and then tap → Paste. Connecting to a Wi-Fi network Connect the device to a Wi-Fi network to use the Internet or share media files with other devices.

(p. 90) Turning Wi-Fi on and off Open the notifications panel, and then tap Wi-Fi to turn it on or off. Turn off Wi-Fi to save the battery when not in use. 32

Basics Joining Wi-Fi networks On the Applications screen, tap Settings → Connections → Wi-Fi, and then drag the Wi-Fi switch to the right. Select a network from the list of detected Wi-Fi networks, enter a password if necessary, and then tap Connect.

Networks that require a password appear with a lock icon. After the device connects to a Wi-Fi network, the device will automatically connect to it any time it is available. Adding Wi-Fi networks If the desired network does not appear in the networks list, tap Add Wi-Fi network at the bottom of the networks list.

Enter the network name in Network SSID, select the security type and enter the password if it is not an open network, and then tap Connect. Forgetting Wi-Fi networks Any network that has ever been used, including the current network, can be forgotten so the device will not automatically connect to it.

Select the network in the networks list, and then tap Forget. Setting up accounts Google applications, such as Play Store, require a Google account, and Samsung Apps requires a Samsung account. Create Google and Samsung accounts to have the best experience with the device. Adding accounts Follow the instructions that appear when opening a Google application without signing in to set up a Google account. To sign in with or sign up for a Google account, on the Applications screen, tap Settings → Accounts → Add account → Google. After that, tap New to sign up, or tap Existing, and then follow on-screen instructions to complete the account setup. More than one Google account can be used on the device. Set up a Samsung account as well. 33 Basics Removing accounts On the Applications screen, tap Settings → Accounts, select an account name under My accounts, select the account to remove, and then tap Remove account. Transferring files Move audio, video, image, or other types of files from the device to the computer, or vice versa.

• The following file formats are supported by some applications. Some file formats are not supported depending on the version of the device's software or the computer operating system. -- Music: mp3, m4a, mp4, 3gp, 3ga, wma, ogg, oga, aac, flac, wav, amr, awb, mid, midi, xmf, mxmf, imy, rttl, rtx, and ota -- Image: bmp, gif, jpg, and png -- Video: 3gp, mp4, avi, wmv, flv, asf, m4v, webm, and mkv -- Document: doc, docx, dot, dotx, xls, xlsx, xltx, csv, ppt, pptx, pps, ppsx, pot, potx, pdf, hwp, txt, asc, rtf, and zip • Some file formats, such as DivX or AC3, are not supported. To play these files, install an application which supports them. Connecting with Samsung Kies Samsung Kies is a computer application that manages media contents and personal information with Samsung devices. Download the latest Samsung Kies from the Samsung website. 1 Connect the device to the computer using the USB cable. 2 Transfer files between your device and the computer. Samsung Kies launches on the computer automatically. If Samsung Kies does not launch, double-click the Samsung Kies icon on the computer.

Refer to the Samsung Kies help for more information. 34 Basics Connecting with Windows Media Player Ensure that Windows Media Player is installed on the computer. 1 Connect the device to the computer using the USB cable. 2 Open Windows Media Player and sync music files. Connecting as a media device 1 Connect the device to the computer using the USB cable.

2 Open the notifications panel, and then tap Connected as a media device → Media device (MTP). Tap Camera (PTP) if your computer does not support Media Transfer Protocol (MTP) or not have any appropriate driver installed. 3 Transfer files between your device and the computer. Securing the device Prevent others from using or accessing personal data and information stored in the device by using the security features. The device requires an unlock code whenever unlocking it.

Setting a face unlock On the Applications screen, tap Settings → My device → Lock screen → Screen lock → Face unlock. Fit your face in the frame to be captured. Then, set a backup unlock PIN or pattern to unlock the screen in case the face unlock fails. 35 Basics Setting a pattern On the Applications screen, tap Settings → My device → Lock screen → Screen lock → Pattern. Draw a pattern by connecting four dots or more, and then draw the pattern again to verify it. Set a backup unlock PIN to unlock the screen when you forget the pattern. Setting a PIN On the Applications screen, tap Settings → My device → Lock screen → Screen lock → PIN. Enter at least four numbers, and then enter the password again to verify it. Setting a password On the Applications screen, tap Settings → My device → Lock screen → Screen lock → Password. Enter at least four characters including numbers and symbols, and then enter the password again to verify it.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY CORE PLUS SM-G350 user guide](http://yourpdfguides.com/dref/5590109)  
<http://yourpdfguides.com/dref/5590109>

36 Basics Unlocking the device Turn on the screen by pressing the Power button or the Home button, and enter the unlock code. If the unlock code is forgotten, take the device to a Samsung Service Centre to reset it. Upgrading the device The device can be upgraded to the latest software. This feature may not be available depending on the region or service provider. Upgrading with Samsung Kies Launch Samsung Kies and connect the device to the computer. Samsung Kies automatically recognises the device and shows available updates in a dialogue box, if any. Click the Update button in the dialogue box to start upgrading. Refer to the Samsung Kies help for details on how to upgrade. • o not turn off the computer or disconnect the USB cable while the device is D upgrading. • hile upgrading the device, do not connect other media devices to the computer.

W Doing so may interfere with the update process. Upgrading over the air The device can be directly upgraded to the latest software by the firmware over-the-air (FOTA) service. On the Applications screen, tap Settings → More → About device → Software update → Update. 37 Communication Phone Use this application to make or answer a call. Tap Phone on the Applications screen.

Making calls Making a call Use one of the following methods: • eypad: Enter the number using the keypad, and then tap . K • ogs: Make a call from the history of incoming and outgoing calls and messages. L • avourites: Make a call from the list of favourite contacts. F • ontacts: Make a call from the contacts list. C Speed dial numbers For speed dial numbers, tap and hold the corresponding digit.

Number prediction When entering numbers on the keypad, automatic predictions appear. Select one of these to make a call. 38 Communication Finding contacts Enter a name, phone number, or email address to find a contact in the contacts list. As characters are entered, predicted contacts appear. Select one to place a call to it. Making an international call Tap and hold 0 until the + sign appears. Enter the country code, area code, and phone number, and then tap . During a call The following actions are available: • : Hold a call. Tap to retrieve the held call. • dd call: Dial a second call.

A • eypad: Open the keypad. K • nd call: End the current call. E • peaker: Activate the speakerphone. Keep the device away from your ears when using S the speakerphone. • ute: Turn off the microphone so that the other party cannot hear you. M • eadset: Switch to a Bluetooth headset if it is connected to the device. H • wap: Switch between two calls. S • erge: Make a multiparty call when connected to two calls. Repeat this to add more M parties. This feature is available only if the multiparty call service is active.

• • • → Contacts: Open the contacts list. → Message: Send a message. → Memo: Create a memo. • → Transfer: Connect the first party to the second party. This disconnects you from the conversation.

• → Manage conference call: Have a private conversation with one party during a multiparty call or disconnect one party form the multiparty call. 39

Communication Adding contacts To add a phone number to the contacts list from the keypad, enter the number and tap Add to contacts. Sending a message Tap → Send message to send a message to the number on display. Viewing call logs Tap Logs to view the history of incoming and outgoing calls. To filter a call log, tap → View, and then select an option.

To go to another webpage, tap 55 Web & network Searching the web by voice Tap the address field, tap , speak a keyword, and then select one of the suggested keywords that appear. Syncing with other devices Sync open tabs and bookmarks to use with Chrome on another device, when you are logged in with the same Google account.

To view open tabs on other devices, tap To view bookmarks, tap . → Other devices. Select a webpage to open. Bluetooth Bluetooth creates a direct wireless connection between two devices over short distances. Use Bluetooth to exchange data or media files with other devices.

•amsung is not responsible for the loss, interception, or misuse of data sent or S received via the Bluetooth feature. •lways ensure that you share and receive data with devices that are trusted A and properly secured. If there are obstacles between the devices, the operating distance may be reduced. •ome devices, especially those that are not tested or approved by the Bluetooth S SIG, may be incompatible with your device. •o not use the Bluetooth feature for illegal purposes (for example, pirating copies D of files or illegally tapping communications for commercial purposes). Samsung is not responsible for the repercussion of illegal use of the Bluetooth feature. To activate Bluetooth, on the Applications screen, tap Settings → Connections → Bluetooth, and then drag the Bluetooth switch to the right. 56 Web & network Pairing with other Bluetooth devices On the Applications screen, tap Settings → Connections → Bluetooth → Scan, and detected devices are listed. Select the device you want to pair with, and then accept the autogenerated passkey on both devices to confirm. Sending and receiving data Many applications support data transfer via Bluetooth.

An example is Gallery. Open Gallery, select an image, tap → Bluetooth, and then select one of the Bluetooth devices. After that, accept the Bluetooth authorisation request on the other device to receive the image. The transferred file is saved in the Bluetooth folder. If a contact is received, it is added to the contacts list automatically. NFC Your device allows you to read near field communication (NFC) tags that contain information about products. You can also use this feature to make payments and buy tickets for transportation or events after downloading the required applications. The battery contains a built-in NFC antenna. Handle the battery carefully to avoid damaging the NFC antenna. If the screen is locked, your device will not read NFC tags or receive data. To activate the NFC feature, on the Applications screen, tap Settings → Connections → NFC. Drag the NFC switch to the right. Reading information from an NFC tag Place the NFC antenna area on the back of your device near an NFC tag. The information from the tag will appear. 57 Web & network Making a purchase with the NFC feature Before you can use the NFC feature to make payments, you must register for the mobile payment service. To register or get details about the service, contact your service provider.
