SIM or USIM card and battery . 18 Turn your device on and off . 23 Lock or unlock the touch screen and keys . 153 Contents 9 Assembling Unpack Check your product box for the following items: Mobile device Battery Quick start guide Use only Samsung-approved software. Pirated or illegal software may cause damage or malfunctions that are not covered by your manufacturer's warranty.

The items supplied with your device and available accessories may vary depending on your region or service provider. You can purchase additional accessories from your local Samsung dealer. The supplied accessories perform best for your device. Accessories other than the supplied ones may not be compatible with your device. Install the SIM or USIM card and battery When you subscribe to a cellular service, you will receive a Subscriber Identity Module (SIM) card, with subscription details, such as your personal identification number (PIN) and optional services. To use UMTS or HSDPA services, you can purchase a Universal Subscriber Identity Module (USIM) card. Assembling 10 To install the SIM or USIM card and battery, 1 2 If the device is on, press and hold the Power key and select Power off OK to turn it off. remove the back cover. Be careful not to damage your fingernails when you remove the back cover. 3 Insert the SIM or USIM card with the gold-coloured contacts facing down.

The antenna is located in the upper area on the back of the device. Do not remove the protective tape covering the antenna, as this can damage the antenna. Charge the battery Before using the device for the first time, you must charge the battery. You can charge the device with a travel adapter or by connecting the device to a PC with a USB cable. use only Samsung-approved chargers and cables.

Unauthorised chargers or cables can cause batteries to explode or damage your device. Assembling 12 When your battery is low, the device will emit a warning tone and display a low battery message. the battery icon will also be empty. If the battery level becomes too low, the device will automatically power off. Recharge your battery to continue using your device.

If the battery is completely discharged, you cannot turn on the device, even with the travel adapter connected. Allow a depleted battery to charge for a few minutes before you try to turn on the device. > Charge with a travel adapter 1 Plug the small end of the travel adapter into the multifunction jack. Connecting the travel adapter improperly may cause serious damage to the device. Any damage caused by misuse is not covered by the warranty. Assembling 13 2 Plug the large end of the travel adapter into a power outlet. You can use the device while it is charging, but it may take longer to fully charge the battery. While the device is charging, the touch screen may not function due to an unstable power supply. If this happens, unplug the travel adapter from the device. While charging, the device may heat up.

This is normal and should not affect your device's lifespan or performance. If your device is not charging properly, bring your device and the charger to a Samsung Service Centre. When the battery is fully charged, first unplug the travel adapter from the device and then from the power outlet. Do not remove the battery before removing the travel adapter. Doing this may cause damage to the device. To save energy, unplug the travel adapter when not in use. The travel adapter does not have a power switch, so you must unplug the travel adapter from the outlet when not in use to avoid wasting power. The travel adapter should remain close to the socket when in use. 3 Assembling 14 > Charge with a USB cable 1 2 Before charging, ensure that your PC is turned on.

[GALAXY MINI 2 GT-S6500 user guide](http://yourpdfguides.com/dref/4312068)

<http://yourpdfguides.com/dref/4312068>

Plug one end (micro-USB) of the USB cable into the multifunction jack.

Plug the other end of the USB cable into a USB port on a PC. Depending on the type of USB cable you are using, it may take some time before charging begins. When the battery is fully charged, first unplug the USB cable from the device and then from the PC. 3 Insert a memory card (optional) To store additional multimedia files, you must insert a memory card. Your device accepts microSDTM or microSDHCTM memory cards with maximum capacities of 32 GB (depending on memory card manufacturer and type).

Samsung uses approved industry standards for memory cards, but some brands may not be fully compatible with your device. Using an incompatible memory card may damage your device or the memory card and can corrupt data stored on the card. Your device supports only the FAT file structure for memory cards. If you insert a card formatted with a different file structure, your device will ask you to reformat the memory card. Frequent writing and erasing of data will shorten the lifespan of memory cards.

When you insert a memory card in your device, the file directory of the memory card will appear in the sdcard folder. Assembling 15 1 2 Open the cover of the memory card slot on the side of the device. Insert a memory card with the gold-coloured contacts facing up. 3 4 Push the memory card in the memory card slot until it locks in place. Close the cover of the memory card slot. > Remove the memory card 1 2 3 4 5 Before removing a memory card, first unmount it for safe removal. In Idle mode, select Settings Storage Unmount SD card OK. Open the cover of the memory card slot on the side of the device. Push the memory card gently until it disengages from the device. Pull the memory card out of the memory card slot.

Close the cover of the memory card slot. Do not remove a memory card while the device is transferring or accessing information, as this could result in loss of data or damage to the memory card or device. Assembling 16 Formatting your memory card on a PC may cause incompatibilities with your device. Format the memory card only on the device. In Idle mode, select Settings Storage Unmount SD card OK Format SD card Format SD card Erase everything. Before formatting the memory card, remember to make backup copies of all important data stored on your device. The manufacturer's warranty does not cover loss of data resulting from user actions. > Format the memory card Attach a hand strap (optional) 1 Remove the back cover. Assembling 17 Getting started Turn your device on and off To turn on your device, press and hold the Power key. If you turn on your device for the first time, follow the on-screen instructions to set up your device.

To turn off your device, press and hold the Power key and then select Power off OK. Follow all posted warnings and directions from authorised personnel in areas where the use of wireless devices is restricted, such as aeroplanes and hospitals. To use your device's non-network services only, switch to Flight mode.

Press and hold the Power key and select Flight mode. Getting started 18 Get to know your device > Device layout Earpiece Volume key Proximity sensor Touch screen Home key Memory card slot Menu key Back key Mouthpiece Headset jack GPS antenna1 Back cover Camera lens Speaker Power/Reset/ Lock key Main antenna Multifunction jack 1.

Do not touch or cover the antenna area with your hands or other objects while using the GPS functions. Getting started 19 > Keys Key Power/ Reset1/ Lock Function Turn on the device (press and hold); Access the quick menus (press and hold); Reset the device (press and hold for 8-10 seconds and release); Lock the touch screen.
