..... 121 8 Contents Assembling Unpack Check your product box for the following items: · The items supplied with your device may vary · Mobile device · Battery · Travel adapter (charger) · Quick Start Guide Use only Samsung-approved software. Pirated or illegal software may cause damage or malfunctions that are not covered by your manufacturer's warranty, depending on the software and accessories available in your region or offered by your service provider. · You can obtain additional accessories from your local Samsung dealer.

· The supplied accessories perform best for your device. · Accessories other than the supplied ones may not be compatible with your device. Install the SIM or USIM card and battery When you subscribe to a cellular service, you will receive a Subscriber Identity Module (SIM) card, with subscription details, such as your personal identification number (PIN) and optional services. To use UMTS or HSDPA services, you can purchase a Universal Subscriber Identity Module (USIM) card. Assembling 9 To install the SIM or USIM card and battery, 1 2 3 If the device is on, press and hold [] and select Power off OK to turn it off. Remove the back cover. Insert the SIM or USIM card with the gold-coloured contacts facing down. If you do not insert a SIM or USIM card, you can only use your device's non-network services and some menus. Be careful not to damage your fingernails when you remove the back cover. 10 Assembling 4 Insert the battery.

Charge the battery Before using the device for the first time, you must charge the battery. You can charge the device with the provided travel adapter or by connecting the device to a PC with a PC data cable. 5 Replace the back cover. Use only Samsung-approved chargers and cables. Unauthorised chargers or cables can cause batteries to explode or damage your device.

When your battery is low, the device will emit a warning tone and display a low battery message. The battery icon will also be empty.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY MINI GT-S5570 user guide](http://yourpdfguides.com/dref/4262415)
<http://yourpdfguides.com/dref/4262415>

If the battery level becomes too low, the device will automatically power off. Recharge your battery to continue using your device. Assembling 11 > 1 2 Charge with the travel adapter Open the cover of the multifunction jack.

Plug the small end of the travel adapter into the multifunction jack. 3 Plug the large end of the travel adapter into a power outlet. · You can use the device while it is charging, but it may take longer to fully charge the battery. · While the device is charging, the touch screen may not function due to an unstable power supply. If this happens, unplug the travel adapter from the device. · While charging, the device may heat up. This is normal and should not affect your device's lifespan or performance. · If your device is not charging properly, bring your device and the charger to a Samsung Service Centre. Connecting the travel adapter improperly may cause serious damage to the device. Any damage caused by misuse is not covered by the warranty.

12 Assembling 4 When the battery is fully charged (the battery icon is no longer moving), unplug the travel adapter from the device and then from the power outlet. Do not remove the battery before removing the travel adapter. Doing this may cause damage. select Flight mode. Getting started 17 Multifunction jack Headset jack Camera lens > Keys Function Power/ Lock Menu Home Back Turn on the device (press and hold); Access the quick menus (press and hold); Lock the touch screen. Open a list of options available on the current screen; Open the quick search bar (press and hold). Return to the idle screen; Open the list of recent applications (press and hold). Return to the previous screen. Adjust the device's volume. Getting started 29 Enter text You can enter text by selecting characters on the virtual keypad or by inputting handwriting on the screen. You cannot enter text in some languages. To enter text, you should change the writing language to one of the supported languages. p. 101 2 3 Pause on the second character for a moment and drag the finger to the next character. Continue until you have finished the word. You can change the keyboard type. Tap and hold the text input field and select Input method a keyboard type (Swype or Samsung keypad). > > Change the keyboard type 1 Enter text using the Swype keyboard Select the first character of a word and drag your finger to the second character without releasing the finger from the screen. 4 5 Release the finger on the last character.

The word is inserted into the text input field. Repeat steps 1-4 to complete your text. Tap and hold each key to enter additional characters. 30 Getting started You can also use the following keys: Number Function Enter text by voice; This icon is available only when you activate the voice input feature for the Samsung keypad. This feature may be unavailable depending on the selected input language. 1 2 3 4 5 6 6 Number 1 2 3 4 5 Function Change case. Switch between Symbol mode and ABC/ Number mode. Insert a space. Delete characters. Start a new line.

· To hide the Swype keyboard, press []. · To view help information for using the Swype keyboard, tap and hold . > 1 2 Enter text using the Samsung keypad Select Portrait keypad types and select a text input method. You can select one of key input methods (QWERTY or traditional keypad) or handwriting input methods. Enter text by selecting alphanumeric keys or writing on the screen.

Getting started 31 You can also use the following keys: Number 4 5 6 Function Clear your input. Start a new line. Access the keypad settings; Change the text input method (tap and hold). Insert a space; Insert a period (double-tap); Change the input language (scroll left or right). Functions of this key may vary depending on your service provider.

1 2 3 4 5 6 7 Number 1 2 Function Change case. Switch between Number/Symbol mode and ABC mode. Enter text by voice; This icon is available only when you activate the voice input feature for the Samsung keypad. This feature may be unavailable depending on the selected input language. 7 3 If you have text input keyboards downloaded from the web, you can change the keypad type. Tap and hold the text input field and select Input method a keypad type. 32 Getting started > Copy and paste text Place the cursor on the text you want to copy. Select . Select or . to cut the text onto the Drag or to select the text you want.

Select to copy, or clipboard. While you are entering text, you can use the copy and paste feature to use text in other applications. Download applications from Android Market Based on the Android platform, your device's functionality can be extended by installing additional applications. Android Market provides you an easy and quick way to shop for games and mobile applications. 1 2 3 4 5 6 7 · This feature may be unavailable depending on · Your device will save user files from downloaded applications to the internal memory. your region or service provider. In another application, place the cursor where you want to paste the text. Select to insert the text from the clipboard into the text field. > 1 2 3 Install an application In Idle mode, open the application list and select Market. Select Accept when the terms and conditions appear.

Search for a file or application and download it. Getting started 33 > 1 2 3 Uninstall an application From the Android Market home screen, select My apps. Select the item you want to delete. Select Uninstall OK. To download files from the web, 1 2 In Idle mode, open the application list and select Internet.

Search for a file or application and download it. Download files from the web When you download files or web applications from the web, your device saves them in a memory card. Files you download from the web can include viruses that will damage your device. To lessen your risk, only download files from sources you trust. Some media files include Digital Rights Management to protect copyrights.

This protection may prevent you from downloading, copying, modifying, or transferring some files. To install applications downloaded from websites other than Android Market, you must select Settings Applications Unknown sources. Synchronise data You can synchronise data with various web servers and back up or restore your data. Once the synchronisation is completed, your device stays connected to the web. If any change is made on the web, the updated information will appear on your device and will automatically begin synchronisation, and vice versa. This feature may be unavailable depending on your region or service provider. 34 Getting started > 1 2 3 Set up a server account In Idle mode, open the application list and select Settings Accounts and sync. Select Add account an account type. Follow the on-screen instructions to complete the account setup. For online community services, such as Facebook or MySpace, enter your user name and password and select Log in.

3 4 Select an account. Select the applications you want to synchronise. To exclude applications from automatic synchronisation, clear the check boxes next to the applications you want. > 1 2 3 Synchronise data manually In Idle mode, open the application list and select Settings Accounts and sync. Select an account.

Press [] Sync now. Your device will start synchronising the data you set for synchronisation. > 1 2 Activate automatic sync In Idle mode, open the application list and select Settings Accounts and sync. Select Auto-sync. Getting started 35 Communication Calling Learn to use calling functions, such as making and answering calls, using options available during a call or customising and using call-related features.

Make a call 1 2 3 In Idle mode, open the application list and select Keypad, and enter an area code and a phone number. Select to make a call. To end the call, select End. · Use the phonebook to save numbers you dial frequently. p.

64 · To quickly access the call log to redial the numbers you dialled recently, select Logs. > Make and answer a call When you turn on the proximity sensor, your device automatically turns off and locks the touch screen to prevent accidental inputs when you hold the device near your face. p. 96 You can use the buttons or the touch screen when you make, accept, end, or reject calls. Answer a call 1 2 When a call comes in, drag right until it reaches the dot. When the device is ringing, press and hold the Volume key to mute the ringtone. To end the call, select End.
