32) P Package contents Check the product box for the following items: Device D Battery B Quick start guide Q Use only Samsung-approved software. Pirated or illegal software may cause damage or malfunctions, which are not covered by the warranty. 10 Getting started The items supplied with the device and any available accessories may vary depending on the region or service provider. The supplied items are designed only for this device and may not be compatible with other devices. Appearance and specifications are subject to change without prior notice. A You can purchase additional accessories from your local Samsung retailer. Make sure they are compatible with the device before purchase. Other accessories may not be compatible with your device. Use only Samsung-approved accessories. Malfunctions caused by using unapproved accessories are not covered by the warranty service. Availability of all accessories is subject to change depending entirely on a manufacturing companies. For more information about available accessories, refer to the Samsung website. Installing the SIM or USIM card and battery Insert the SIM or USIM card provided by the mobile telephone service provider, and the included battery. Only microSIM cards work with the device. 1 Remove the back cover. Be careful not to damage your fingernails when you remove the back cover. Do not bend or twist the back cover excessively. Doing so may damage the cover. 11 Getting started 2 Insert the SIM or USIM card with the gold-coloured contacts facing downwards. Do not remove the protective tape covering the antenna, as this can damage the antenna. Do not insert a memory card into the SIM card slot. If a memory card happens to be lodged in the SIM card slot, take the device to a Samsung Service Centre to remove the memory card. Be cautious not to lose or let others use the SIM or USIM card. Samsung is not responsible for any damages or inconveniences caused by lost or stolen cards. 3 Push the SIM or USIM card into the slot until it locks in place. 4 Insert the battery. 2 1 12 Getting started 5 Replace the back cover. Removing the SIM or USIM card and battery 1 Remove the back cover. 2 Pull out the battery. 3 Push the SIM or USIM card until it disengages from the device, and then pull it out.

13 Getting started Charging the battery Charge the battery before using it for the first time. Use the charger to charge the battery. A computer can be also used to charge the device by connecting them via the USB cable. Use only Samsung-approved chargers, batteries, and cables. Unapproved chargers or cables can cause the battery to explode or damage the device. When the battery power is low, the device emits a warning tone and displays a low battery power message. If the battery is completely discharged, the device cannot be turned on immediately when the charger is connected. Allow a depleted battery to charge for a few minutes before turning on the device. If you use multiple applications at once, network applications, or applications that need a connection to another device, the battery will drain quickly. To avoid disconnecting from the network or losing power during a data transfer, always use these applications after fully charging the battery.

Charging with the charger Plug the small end of the charger into the multipurpose jack of the device, and plug the large end of the charger into an electric socket. Connecting the charger improperly may cause serious damage to the device. Any damage caused by misuse is not covered by the warranty. 14 Getting started The device can be used while it is charging, but it may take longer to fully charge the battery. If the device receives an unstable power supply while charging, the touch screen may not function.

If this happens, unplug the charger from the device. While charging, the device may heat up. This is normal and should not affect the device's lifespan or performance. If the battery gets hotter than usual, the charger may stop charging. If the device is not charging properly, take the device and the charger to a Samsung Service Centre.

After fully charging, disconnect the device from the charger. First unplug 8 Getting started Holding the device Do not cover the antenna area with your hands or other objects. This may cause connectivity problems or drain the battery. Locking and unlocking the device When not in use, lock the device to prevent unwanted operation. Pressing the Power button turns off the screen and puts the device into lock mode. The device automatically gets locked if it is not used for a specified period. To unlock the device time or when the screen has turned off, it vibrates if you have missed calls or new messages. Holding to ear While viewing call, message, or contact details, pick up and hold the device to your ear to make a call. 26 Basics Panning to move Tap and hold an item, and then move the device to the left or right to move the item to another panel on the Home screen or the Applications screen. Panning to browse When an image is zoomed in, tap and hold a point on the screen, and then move the device in any direction to browse the image.

27 Basics Double-tapping Double-tap the device to move to the top of a list of contacts or emails. Rotating While the screen is locked, tap and hold the screen, and then rotate the device to landscape orientation to launch the camera. To use this motion, on the Home screen, tap Apps → Settings → Lock screen → Lock screen options, and then drag the Camera quick access switch to the right. 28 Basics Turning over Turn over the device to mute ringtone, pause media playback, or mute the FM radio. Shaking Shake the device to search for Bluetooth devices. S Shake the device to update the list of emails or information from Yahoo News, Yahoo Finance, or AccuWeather. Updates will not work for widgets on the Home screen. 29 Basics Sweeping Sweep your hand across the screen to capture a screenshot. The image is saved in Gallery → Screenshots. It is not possible to capture a screenshot while using some applications. Covering Cover the screen with a palm to pause media playback. 30 Basics Tilting Tap and hold two points on the screen, and then tilt the device back and forth to zoom in or out. Moving When the touch screen is turned off, move your hand across the Proximity/Light sensor to turn on the screen and view the number of missed calls and new messages, the battery power level, and more.

<http://yourpdfguides.com/dref/4578856>

**31 Basics Page Buddy** Use this feature to use specific applications based on your actions. Pages related to your actions appear in the following conditions:

• When you connect a headset or dock to the device. • When you are roaming. • Activating Multi Window Use this feature to run two applications on the screen at the same time. • Only applications on the Multi Window panel can run. • When launching applications that contain multimedia files, such as music or W videos, sound from both files will be played.

• This feature may not be available depending on the region or service provider. To activate Multi Window, tap and hold . The Multi Window panel appears on the left side of the screen. Select one application, and then drag another application to a new location. Drag the bar between the application panels up or down to adjust the size of the panels. Tap the panel handle to hide or show the panel. When a panel is open, tap and hold the handle and drag it to an edge of the screen to move the panel. When a panel is hidden, tap and hold the handle and drag it up or down or left or right to move the handle. **32 Basics Using the S Pen** The included S Pen can be used to easily select items or perform functions. Actions using the S Pen with the button pressed provide additional conveniences, such as screen capture.

Pull out the S Pen from the slot to use it. When you pull out the S Pen from the slot, the device detects it and performs the following:

- Turns on the touch screen (if it is off).
- Announces S Note (during a call).
- Opens the S Pen page (from the Home screen).
- The tip of the S Pen is not replaceable. If the tip gets dull, purchase a new S Pen.
- If the S Pen is not working properly, take it to a Samsung Service Centre. Refer to the Samsung website for more information about the S Pen.
- For best results, keep the S Pen mostly perpendicular to the touch screen and avoid using it at sharp angles.
- The Menu button and the Back button cannot be activated by the S Pen.

**T 33 Basics Opening a menu** With the S Pen button pressed, draw to open a list of the screen's available options. Undoing the last action With the S Pen button pressed, draw to undo the last action. **34 Basics Capturing screenshots** With the S Pen button pressed, touch the screen until you hear a click. A screenshot is saved in the Gallery → Screenshots folder. It is possible to draw or write on or to crop a screenshot.

The edited image is saved in the Gallery → IMG\_edited folder. It is not possible to capture a screenshot while using some applications. **Launching S Note** With the S Pen button pressed, double-tap the screen to launch S Note. **35 Basics Selecting text** With the S Pen button pressed, drag left or right on the text to select. If you drag between lines, you may select unwanted text.

To select only the text you intend, drag across the middle of the text or drag the text selection icons. **Samsung UserManual Launching Quick Command** With the S Pen button pressed, drag the S Pen up the screen to launch Quick Command. On the Quick Command screen, draw a gesture command to launch the assigned application or feature. To view assigned gesture commands, press the S Pen button while hovering over the Quick Command screen. **36 Basics**

**Selecting and capturing an image** With the S Pen button pressed, draw a line around an area to select it. The selected area is saved in the Gallery → Screenshots folder. Select an application to use with the selected area from the icons that appear at the bottom of the screen. **S Pen Air View** When you hold the S Pen near the screen, a pointer appears on the screen. Move the pointer to files, subjects, or options to preview the contents or view information in pop-up windows. You can scroll through panels or lists by moving the pointer to an edge (top/bottom/left/ right) of the screen.

**37 Basics S Pen Keeper** When the touch screen is off and S Pen is removed from the device, the device displays a popup alert and emits a sound if you walk.

Access the S Pen settings to activate or deactivate the feature. **Quick Command** Use this feature to make a call, send a message, or search for content by drawing gesture commands on the screen. With the S Pen button pressed, drag the S Pen up on the screen to launch Quick Command. Adding gesture commands Tap → Add a pen gesture → Select an application or Select functions. Select an application or a feature → an option. Draw a new gesture command, and then tap Done. Using gesture commands Draw a gesture command to launch applications or features. For more specific tasks, draw a keyword, such as a name or phone number, after a gesture command. For example, when drawing @, the Email application launches.

When adding a recipient's name after @, an email composing screen opens so that you can send an email to the recipient. **38 Basics Notifications** Notification icons appear on the status bar at the top of the screen to report missed calls, new messages, calendar events, device status, and more. Drag down from the status bar to open the notifications panel. Scroll the list to see additional alerts. To close the notifications panel, drag up the bar that is on the bottom of the screen.

From the notifications panel, you can view your device's current status and use the following options:

- Wi-Fi: Activate or deactivate the Wi-Fi feature.
- GPS: Activate or deactivate the GPS feature.
- Silent mode: Activate or deactivate silent mode. You can vibrate or mute your device in silent mode.
- Screen rotation: Allow or prevent the interface from rotating when you rotate the device.

• Bluetooth: Activate or deactivate the Bluetooth feature. • Mobile data: Activate or deactivate the data connection. • Locking mode: Activate or deactivate blocking mode. In blocking mode, your device will block all notifications. • Power saving: Activate or deactivate power-saving mode. • AllShare Cast: Activate or deactivate the AllShare Cast feature. • Auto sync: Activate or deactivate auto sync of applications. The available options may vary depending on the region or service provider. **39 Basics Home screen** The Home screen is the starting point to access all of the device's features. It displays indicator icons, widgets, shortcuts to applications, and others.

The Home screen can have multiple panels. To view other panels, scroll left or right. **Changing the Home screen mode** The Home screen has basic and easy modes. In easy mode, you can easily access your favourite contacts, applications, and settings by adding shortcuts to the Home screen. To switch to easy mode, on the Home screen, tap Apps → Settings → Home screen mode → Basic mode → Easy mode → Apply. Rearranging items Adding an application icon On the Home screen, tap Apps, tap and hold an application icon, and then drag it into a panel preview.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY NOTE 2/GALAXY NOTE II/GT-N7100 user guide](http://yourpdfguides.com/dref/4578856)  
<http://yourpdfguides.com/dref/4578856>

Adding an item Customise the Home screen by adding widgets or folders. Tap and hold the empty area on the Home screen, and then select one of the following categories: • pps and widgets: Add widgets to the Home screen. A • older: Create a new folder. F Moving an item Tap and hold an item and drag it to a new location.

To move it to another panel, drag it to the side of the screen. 40 Basics Removing an item Tap and hold an item, and drag it to the rubbish bin that appears at the top of the Home screen. When the rubbish bin turns red, release it. Rearranging panels Adding a new panel Tap → Edit page → . Moving a panel Tap → Edit page, tap and hold a panel preview, and then drag it to a new location.

Removing a panel → Edit page, tap and hold a panel preview, and then drag it to the rubbish bin at the Tap bottom of the screen. Setting wallpaper Set an image or photo stored in the device as wallpaper for the Home screen. On the Home screen, tap following: → Set wallpaper → Home screen, and then select one of the •allery: See photos taken by the device's camera or images downloaded from the G Internet. •ive wallpapers: See animated images. L •allpapers: See wallpaper images.

W Then, select an image and tap Set wallpaper. Or, select an image, resize it by dragging the frame, and then tap Done. 41 Basics Using widgets Widgets are small applications that provide convenient functions and information on your Home screen. To use them, add widgets from the widgets panel to the Home screen. •ome widgets connect to web services. Using a web-based widget may result in S additional charges. •he widgets available may vary depending on the region or service provider. T Adding widgets to the Home screen On the Home screen, tap Apps → Widgets. Scroll left or right on the widgets panel, and then tap and hold a widget to add it to the Home screen. Using the setting shortcut widget On the Home screen, tap Apps → Widgets, and then tap and hold Settings shortcut to open a list of setting options.

Select a setting option to add it to the Home screen as a shortcut. Using applications This device can run many different types of applications, ranging from media to Internet applications. Opening an application On the Home screen or the Applications screen, select an application icon to open it. Opening from recently-used applications Press and hold the Home button to open the list of recently-used applications. Select an application icon to open. 42 Basics Closing an application Close applications not in use to save battery power and maintain device performance. Press and hold the Home button, tap , and then tap End next to an application to close it. To close all running applications, tap End all. Alternatively, press and hold the Home button, and then tap .

Applications screen The Applications screen displays icons for all applications, including any new applications installed.

On the Home screen, tap Apps to open the Applications screen. To view other panels, scroll left or right. Rearranging applications → Edit, tap and hold an application, and then drag it to a new location. To move it to Tap another panel, drag it to the side of the screen. Organising with folders Put related applications together in a folder for convenience.

→ Edit, tap and hold an application, and then drag it to Create folder. Enter a folder Tap name and then tap OK. Put applications into the new folder by dragging, and then tap Save to save the arrangement. Rearranging panels Pinch on the screen, tap and hold a panel preview, and then drag it to a new location. 43 Basics Installing applications Use application stores, such as Samsung Apps, to download and install applications.

Uninstalling applications Tap → Uninstall, and then select an application to uninstall it. Default applications that come with the device cannot be uninstalled.

Sharing applications Share downloaded applications with other users via email, Bluetooth, or other methods. → Share app, select applications, tap Done, and then select a sharing method. The Tap next steps vary depending on the method selected. Help Access help information to learn how to use the device and applications or configure important settings. Tap Help on the Applications screen. Select an item to view tips. To reset help pop-ups if you have hidden them, tap Show help tip pop-ups, and then select items by ticking. One-handed operation You can activate one-handed operation mode for your convenience.

In this mode, application interfaces are modified for easy use with one hand. On the Applications screen, tap Settings → One-handed operation. Tick applications or features to use with the mode. 44 Basics Entering text Use the Samsung keyboard or the voice input feature to enter text. Text entry is not supported in some languages. To enter text, you must change the input language to one of the supported languages. Changing the keyboard type Tap any text field, open the notifications panel, tap Choose input method, and then select the type of keyboard to use. Using the Samsung keyboard Changing the keyboard layout Tap and hold keyboard. , tap → Portrait keyboard types, and then tap Qwerty keyboard or 3x4 On the 3x4 keyboard, a key has three or four characters. To enter a character, tap repeatedly the key corresponding to the character.

Switch to handwriting mode. Delete a preceding character. Enter uppercase. Break to the next line. Enter punctuation marks.

Enter a space. Entering uppercase Tap before entering a character. For all caps, tap it twice. 45 Basics Changing language keyboards Slide the space key left or right to change language keyboards. Handwriting Tap , and then write a word with a finger or the S Pen.

Suggested words appear as characters are entered. Select a suggested word. Entering text by voice Activate the voice input feature and then speak into the microphone. The device displays what you speak. If the device does not recognise your words correctly, tap the underlined text and select an alternative word or phrase from the dropdown list. To change the language or add languages for the voice recognition, tap the current language at the bottom of the screen.

When you are finished, tap . Copying and pasting Tap and hold over text, drag or to select more or less text, and then tap cut. The selected text is copied to the clipboard. to copy or to To paste it into a text entry field, tap and hold at the point where it should be inserted, and then tap Paste.

46 Basics Connecting to a Wi-Fi network Connect the device to a Wi-Fi network to use the Internet or share media files with other devices. (p. 117) Turning Wi-Fi on and off Open the notifications panel, and then tap Wi-Fi to turn it on or off. •his device uses a non-harmonised frequency and is intended for use in all T European countries. The WLAN can be operated in the EU without restriction indoors, but cannot be operated outdoors.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY NOTE 2/GALAXY NOTE II/GT-N7100 user guide](http://yourpdfguides.com/dref/4578856)

• Turn off Wi-Fi to save the battery when not in use. T Joining Wi-Fi networks On the Applications screen, tap Settings → Wi-Fi, and then drag the Wi-Fi switch to the right. Select a network from the list of detected Wi-Fi networks, enter a password if necessary, and then tap Connect. Networks that require a password appear with a lock icon. After the device connects to a Wi-Fi network, the device will automatically connect to it any time it is available.

Adding Wi-Fi networks If the desired network does not appear in the networks list, tap Add Wi-Fi network at the bottom of the networks list. Enter the network name in Network SSID, select the security type and enter the password if it is not an open network, and then tap Save. Forgetting Wi-Fi networks Any network that has ever been used, including the current network, can be forgotten so the device will not automatically connect to it. Select the network in the networks list, and then tap Forget. 47 Basics Setting up accounts Google applications, such as Play Store, require a Google account, and Samsung Apps requires a Samsung account.

Create Google and Samsung accounts to have the best experience with the device. Adding accounts Follow the instructions that appear when opening a Google application without signing in to set up a Google account. To sign in with or sign up for a Google account, on the Applications screen, tap Settings → Add account → Google. After that, tap New to sign up, or tap Existing, and then follow onscreen instructions to complete the account setup. More than one Google account can be used on the device.

Set up a Samsung account as well. Removing accounts On the Applications screen, tap Settings, select an account name under Accounts, select the account to remove, and then tap Remove account. 48 Basics Transferring files Move audio, video, image, or other types of files from the device to the computer, or vice versa. The following file formats are supported by some applications. Some file formats are not supported depending on the version of the device's software. • Music: mp3, m4a, mp4, 3gp, 3ga, wma, ogg, oga, aac, and flac M • Image: bmp, gif, jpg, and png I • Video: 3gp, mp4, avi, wmv, flv, and mkv V • Document: doc, docx, xls, xlsx, ppt, pptx, pdf, and txt D Connecting with Samsung Kies Samsung Kies is a computer application that manages media libraries, contacts, and calendars, and syncs them with Samsung devices. Download the latest Samsung Kies from the Samsung website. 1 Connect the device to the computer using the USB cable. 2 Transfer files between your device and the computer. Samsung Kies launches on the computer automatically.

If Samsung Kies does not launch, double-click the Samsung Kies icon on the computer. Refer to the Samsung Kies help for more information. Connecting with Windows Media Player Ensure that Windows Media Player is installed on the computer. 1 Connect the device to the computer using the USB cable. 2 Open Windows Media Player and sync music files. 49 Basics Connecting as a media device 1 Connect the device to the computer using the USB cable. 2 Open the notifications panel, and then tap Connected as a media device → Media device (MTP). Tap Camera (PTP) if your computer does not support Media Transfer Protocol (MTP) or not have any appropriate driver installed. 3 Transfer files between your device and the computer. Securing the device Prevent others from using or accessing personal data and information stored in the device by using the security features.

The device requires an unlock code whenever unlocking it. Setting a face unlock On the Applications screen, tap Settings → Lock screen → Screen lock → Face unlock. Fit your face in the frame to be captured. Then, set a PIN or pattern to unlock the screen in case the face unlock fails. Setting a face and voice unlock On the Applications screen, tap Settings → Lock screen → Screen lock → Face and voice.

Fit your face in the frame to be captured and then set a voice command. Then, set a PIN or pattern to unlock the screen in case the face and voice unlock fails. 50 Basics Setting a pattern On the Applications screen, tap Settings → Lock screen → Screen lock → Pattern. Draw a pattern by connecting four dots or more, and then draw the pattern again to verify it. Set a secondary unlock PIN.

Setting a PIN On the Applications screen, tap Settings → Lock screen → Screen lock → PIN. Enter at least four numbers, and then enter the password again to verify it. Setting a password On the Applications screen, tap Settings → Lock screen → Screen lock → Password. Enter at least four characters including numbers and symbols, and then enter the password again to verify it. Unlocking the device Turn on the screen by pressing the Power button or the Home button, and enter the unlock code. If the unlock code is forgotten, take the device to a Samsung Service Centre to reset it. 51 Basics Upgrading the device The device can be upgraded to the latest software. This feature may not be available depending on the region or service provider. Upgrading with Samsung Kies Launch Samsung Kies and connect the device to the computer. Samsung Kies automatically recognises the device and shows available updates in a dialogue box, if any.

Click the Update button in the dialogue box to start upgrading. Refer to the Samsung Kies help for details on how to upgrade. • Do not turn off the computer or disconnect the USB cable while the device is upgrading. • While upgrading the device, do not connect other media devices to the computer. W Doing so may interfere with the update process. Upgrading over the air The device can be directly upgraded to the latest software by the firmware over-the-air (FOTA) service. On the Applications screen, tap Settings → About device → Software update → Update. 52 Communication Phone Use this application to make or answer a call. Tap Phone on the Applications screen.
