Pirated or illegal software may cause damage or malfunctions that are not covered by your manufacturer's warranty. The items supplied with your device and available accessories may vary depending on your region or service provider. You can buy additional accessories from your local Samsung retailer. The supplied items are designed only for your device and may not be compatible with other devices.

Other accessories may not be compatible with your device. use only Samsung-approved accessories. Unapproved accessories may cause your device to malfunction. Assembling 11 Device layout > Front view 1 2 3 7 8 9 4 5 6 10 11 Number 1 2 3 4 5 6 7 8 9 10 11 Function Service light Earpiece Volume key Home key Option key Multifunction jack Front camera lens Proximity/Light sensor Touch screen Back key Microphone Assembling 12 > Rear view 12 13 14 15 16 17 18 19 20 Number 12 13 14 15 16 17 18 19 20 Function Microphone1 GPS antenna2 Flash Power/Reset/Lock key Rear camera lens Headset jack Speaker Back cover Main antenna 1. Active only when you use the speakerphone feature or record videos.

2. Do not touch or cover the area around the antenna with your hands or other objects while using the GPS functions. Assembling 13 Keys Key Power/ Reset1/ Lock Function Turn on the device (press and hold); Access the device options (press and hold); Reset the device (press and hold for 8-10 seconds); Turn off and lock the touch screen or turn it on. Open the list of options available on the current screen; On the Home screen, launch the search application (press and hold); Open the search input window while using some applications (press and hold). Return to the Home screen; Open the list of recent applications (press and hold); Launch the S Voice application (press twice).

Return to the previous screen. If your device experiences fatal errors, hanging, or freezing, you may need to reset the device to regain functionality. Assembling 14 Insert the SIM or USIM card and the battery When you subscribe to a cellular service, you will receive a Subscriber Identity Module (SIM) card, with subscription details, such as your personal identification number (PIN) and optional services. To use UMTS or HSDPA services, you can purchase a Universal Subscriber Identity Module (USIM) card. You can use microSIM cards only. 1 Remove the back cover. Be careful not to damage your fingernails when you remove the back cover. Assembling 15 2 Insert the SIM or USIM card with the gold-coloured contacts facing downwards. Do not insert a memory card into the SIM card slot. If the memory card becomes lodged in the SIM card slot, you must take your device to a Samsung Service Centre to have the memory card removed.

Assembling 16 Charge the battery Before using the device for the first time or when the battery has been unused for an extended period, you must charge the battery.

You can charge the battery with a travel adapter or by connecting the device to a computer with a USB cable. use only Samsung-approved chargers and cables. Unapproved chargers or cables may cause batteries to explode or damage your device. When your battery is low, the device will emit a warning tone and show a low battery message. Recharge your battery to continue using your device. If the battery is completely discharged, you cannot turn on the device, even with the travel adapter connected. Allow a depleted battery to charge for a while before you try to turn on the device. If you use multiple applications at once, network applications, or applications that need a connection to another device, the battery will drain quickly. To avoid disconnecting from the network or losing power during a data transfer, always use these applications after fully charging the battery.

Assembling 17 > Charge with a travel adapter 1 Plug the small end of the travel adapter into the multifunction jack. Connecting the travel adapter improperly may cause serious damage to the device. Any damage caused by misuse is not covered by the warranty. 2 Plug the large end of the travel adapter into an electrical socket. If the device receives an unstable power supply while charging, the touch screen may not function.

If this happens, unplug the travel adapter from the device. The device may heat up while charging. This is normal and should not affect your device's lifespan or performance. If your device is not charging properly, take your device and the charger to a Samsung Service Centre. Assembling 18 3 When the battery is fully charged, first unplug the travel adapter from the device, and then from the electrical socket.

Do not remove the battery while the device is connected to the travel adapter. Doing so may damage the device. To save energy, unplug the travel adapter when not in use. The travel adapter does not have a power switch, so you must unplug the travel adapter from the electrical socket when not in use to avoid wasting power. The device should remain close to the electrical socket while charging. About the battery charging icons When you charge the battery while the device is off, the following icons will show the current battery charging status: Low battery Charging Fully charged Assembling 19 > Charge with a USB cable 1 2 Before charging, ensure that your computer is turned on. Plug the small end (micro-USB) of the USB cable into the multifunction jack. Plug the large end of the USB cable into a USB port on a computer. Depending on the type of the USB cable you are using, it may take some time before charging begins. When the battery is fully charged, first unplug the USB cable from the device, and then from the computer.

3 > Reduce the battery consumption Your device provides options that help you save battery power. By customising these options and deactivating features in the background, you can use the device longer between charges: Activate Power saving mode. When you are not using your device, switch to Sleep mode by pressing the Power key. Close unnecessary applications with the task manager. Decrease the brightness of the display. Assembling 20 Insert a memory card (optional) Your device accepts memory cards with maximum capacities of 64 GB. Depending on the memory card manufacturer and type, some memory cards may not be compatible with your device. Samsung uses approved industry standards for memory cards, but some brands may not be fully compatible with your device. Using an incompatible memory card may damage your device or the memory card. It may also corrupt data saved on the memory card.

Your device supports only the FAT file structure for memory cards. If you insert a memory card formatted with a different file structure, your device will ask you to reformat the memory card. Frequent writing and erasing of data will shorten the lifespan of your memory cards. When you insert a memory card into your device, the memory card's file directory will appear in the extSdCard folder. 1 2 Remove the back cover.

Insert a memory card with the gold-coloured contacts facing downwards. Assembling 21 3 4 Push the memory card into the memory card slot until it locks in place. replace the back cover. > Remove a memory card 1 2 3 4 5 Ensure that the device is not currently accessing the memory card. In the application list, select Settings Storage Unmount SD card OK.

remove the back cover. Push the memory card gently until it disengages from the device. Do not remove a memory card while the device is transferring or accessing information, as this could result in loss of data or damage to the memory card or device. Formatting your memory card on a computer may cause incompatibilities with your device. Format the memory carmation from Yahoo News, Yahoo Finance, or AccuWeather. Updates will not work for widgets on the Home screen. Double-tap Double-tap the device to move to the top of a list of contacts or email messages. Turn over Place the device face down to mute ringtones, pause media playback, or mute the FM radio. Getting started 29 Hand sweep Sweep your hand to the left or right across the screen to capture a screenshot.
