This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in your device setup menu. Com for more information on how to complete your registration. 14 Insert the SIM or USIM card . 21 Lock or unlock the touch screen and the keys . 144 Contents 10 Assembling Unpack Check your product box for the following items: Mobile device Quick start guide Use only Samsung-approved software. Pirated or illegal software may cause damage or malfunctions that are not covered by your manufacturer's warranty. The items supplied with your device and available accessories may vary depending on your region or service provider.

You can buy additional accessories from your local Samsung retailer. The supplied items are designed only for your device and may not be compatible with other devices. Other accessories may not be compatible with your device. Assembling 11 Device layout > Front view 1 2 3 3 5 4 6 Number 1 2 3 4 5 6 Function Front camera lens Light sensor Speaker Multifunction jack Touch screen Microphone Assembling 12 > Rear view 7 8 9 10 11 12 13 14 Number 7 8 9 10 11 12 13 14 Function Headset jack SIM card slot Main antenna GPS antenna1 Memory card slot Power/Reset/Lock key Volume key Rear camera lens 1. Do not touch or cover the area around the antenna with your hands or other objects while using the GPS functions. Assembling 13 Keys Key Power/ Reset/ Lock Function Turn on the device (press and hold); Access the device options (press and hold); Reset the device (press and hold for 8-10 seconds); Turn off and lock the touch screen or turn it on. If your device experiences fatal errors, hanging, or freezing, you may need to reset the device to regain functionality.

Assembling 14 Insert the SIM or USIM card When you subscribe to a cellular service, you will receive a Subscriber Identity Module (SIM) card, with subscription details, such as your personal identification number (PIN) and optional services. To use UMTS or HSDPA services, you can purchase a Universal Subscriber Identity Module (USIM) card. 1 2 Open the cover of the SIM card slot. Insert the SIM or USIM card with the gold-coloured contacts facing downwards. Do not insert a memory card into the SIM card slot. If the memory card becomes lodged in the SIM card slot, you must take your device to a Samsung Service Centre to have the memory card removed. The SIM card slot of your device is only suited for standard SIM cards. Inserting a microSIM card or a microSIM card with an unauthorised holder may cause damage to the SIM card slot of your device.

3 Close the cover of the SIM card slot. Assembling 15 Charge the battery Before using the device for the first time or when the battery has been unused for an extended period, you must charge the battery. Charge the battery only with a charger. You cannot charge the battery with a USB cable. You cannot replace the battery in the device.

If you have problems with the battery or need it replaced, take the device to a Samsung Service Centre. use only Samsung-approved chargers and cables. Unapproved chargers or cables may cause batteries to explode or damage your device. When your battery is low, the device will emit a warning tone and show a low battery message. Recharge your battery to continue using your device. If the battery is completely discharged, you cannot turn on the device, even while it is charging. Allow a depleted battery to charge for a few minutes before you try to turn on the device. The shape of the USB power adapter may differ depending on your region. Assembling 16 1 Connect the USB cable to the USB power adapter and then plug the end of the USB cable into the multifunction jack. Connecting the USB cable improperly may cause serious damage to the device or USB power adapter.

Any damage caused by misuse is not covered by the warranty.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY TAB 2 10.1 GT-P5100 user guide](http://yourpdfguides.com/dref/4312072)  
<http://yourpdfguides.com/dref/4312072>

2 Plug the USB power adapter into a power outlet. If the device receives an unstable power supply while charging, the touch screen may not function. If this happens, unplug the USB cable from the device. The device may heat up while charging. This is normal and should not affect your device's lifespan or performance. If your device is not charging properly, take your device and the charger to a Samsung Service Centre. Assembling 17 3 When the battery is fully charged, first unplug the USB cable from the device, and then unplug the USB power adapter from the electrical socket. To save energy, unplug the USB power adapter when not in use. The USB power adapter does not have a power switch, so you must unplug the USB power adapter from the electrical socket when not in use to avoid wasting power.

The device should remain close to the electrical socket while charging. > Reduce the battery consumption Your device provides options that help you save battery power. By customising these options and deactivating features in the background, you can use the device longer between charges: When you are not using your device, switch to Sleep mode by pressing the Power key. Close unnecessary applications with the task manager. Decrease the brightness of the display.

Assembling 18 Insert a memory card (optional) Your device accepts microSDTM or microSDHCTM memory cards with maximum capacities of 32 GB (depending on the memory card manufacturer and type). Samsung uses approved industry standards for memory cards, but some brands may not be fully compatible with your device. Using an incompatible memory card may damage your device or the memory card. It may also corrupt data saved on the memory card. Your device supports only the FAT file structure for memory cards.

If you insert a memory card formatted with a different file structure, your device will ask you to reformat the memory card. Frequent writing and erasing of data will shorten the lifespan of your memory cards. When you insert a memory card into your device, the memory card's file directory will appear in the extSdCard folder. 1 2 Open the cover of the memory card slot. Insert a memory card with the gold-coloured contacts facing downwards. Assembling 19 3 4 Push the memory card into the memory card slot until it locks in place. Close the cover of the memory card slot. > Remove a memory card 1 2 3 4 5 Ensure that the device is not currently accessing the memory card. In the application list, select Settings Storage Unmount SD card OK. Open the cover of the memory card slot.

Push the memory card gently until it disengages from the device. remove the memory card. Close the cover of the memory card slot. Do not remove a memory card while the device is transferring or accessing information, as this could result in loss of data or damage to the memory card or device. Formatting your memory card on a computer may cause incompatibilities with your device. Format the memory card only on the device. In the application list, select Settings Storage Format SD card Format SD card Erase everything. Before formatting the memory card, remember to make backup copies of all important data. The manufacturer's warranty does not cover loss of data resulting from user actions. > Format a memory card Assembling 20 Getting started Turn on or off your device To turn on your device, press and hold the Power key.

If you are turning on your device for the first time, follow the on-screen instructions to set up your device. You must sign in to Google or create a Google account to use applications that interact with the Google server. To turn off your device, press and hold the Power key, and then select Power off OK. Follow all posted warnings and directions from approved personnel in areas where the use of wireless devices is restricted, such as aeroplanes and hospitals. To use only your device's non-network features, switch to Flight mode.

p. 117 Use the touch screen Your device's touch screen lets you easily select items or perform functions. Learn basic actions for using the touch screen. Do not press the touch screen with your fingertips, or use sharp tools on the touch screen. Doing so may damage the touch screen or cause it to malfunction. Do not allow the touch screen to come into contact with other electrical devices. Electrostatic discharges can cause the touch screen to malfunction. Do not allow the touch screen to come into contact with liquids. The touch screen may malfunction in humid conditions or when exposed to liquids. Getting started 21 For optimal use of the touch screen, remove the screen protection film before using your device. Your touch screen has a layer that detects small electrical charges emitted by the human body. For best performance, tap the touch screen with your fingertip. The touch screen will not react to touches from hold the panel's thumbnail image, and then drag it to the rubbish bin. to add a new panel , select . To set the main panel of the Home screen, select .

To change the order of panels, tap and hold the panel's thumbnail image, and then drag it to a new location. To return to the previous screen.
