Manual abstract:

Content may differ from the final product, or from software provided by service providers or carriers, and is subject to change without prior notice. For the latest version of the manual, refer to the Samsung website, www.samsung.com. Content (high quality content) that requires high CPU and RAM usage will affect the overall performance of the device. Applications related to the content may not work properly depending on the device's specifications and the environment that it is used in. Available features and additional services may vary by device, software, or service provider. Applications and their functions may vary by country, region, or hardware specifications. Samsung is not liable for performance issues caused by applications from any provider other than Samsung. Samsung is not liable for performance issues or incompatibilities caused by edited registry settings or modified operating system software.

Attempting to customise the operating system may cause the device or applications to work improperly. Software, sound sources, wallpapers, images, and other media provided with this device are licensed for limited use. Extracting and using these materials for commercial or other purposes is an infringement of copyright laws. Users are entirely responsible for illegal use of media. You may incur additional charges for data services, such as messaging, uploading and downloading, auto-syncing, or using location services.

To avoid additional charges, select an appropriate data tariff plan. For details, contact your service provider. About this manual Default applications that come with the device are subject to updates and may no longer be supported without prior notice. If you have questions about an application provided with the device, contact a Samsung Service Centre. For user-installed applications, contact service providers.

Modifying the device's operating system or installing softwares from unofficial sources may result in device malfunctions and data corruption or loss. These actions are violations of your Samsung licence agreement and will void your warranty. Instructional icons Warning: situations that could cause injury to yourself or others Caution: situations that could cause damage to your device or other equipment Note: notes, usage tips, or additional information Copyright

[GALAXY TAB 4 10.1 SM-T535 user guide](http://yourpdfguides.com/dref/5588866)

<http://yourpdfguides.com/dref/5588866>

•nly microSIM cards work with the device. O •ome LTE services may not be available depending on the service provider. For S details about service availability, contact your service provider. 1 Open the cover of the SIM card slot. 2 Insert the SIM or USIM card with the gold-coloured contacts facing downwards.

3 Push the SIM or USIM card into the slot until it locks in place. •o not insert a memory card into the SIM card slot. If a memory card happens to D be lodged in the SIM card slot, take the device to a Samsung Service Centre to remove the memory card. •se caution not to lose or let others use the SIM or USIM card. Samsung is not U responsible for any damages or inconveniences caused by lost or stolen cards. 4 Close the cover of the SIM card slot. 10 Getting started Removing the SIM or USIM card 1 Open the cover of the SIM card slot. 2 Push the SIM or USIM card until it disengages from the device, and then pull it out. 3 Close the cover of the SIM card slot. Charging the battery Use the charger to charge the battery before using it for the first time. Use only Samsung-approved chargers, batteries, and cables. Unapproved chargers or cables can cause the battery to explode or damage the device. •hen the battery power is low, the battery icon appears empty. W •f the battery is completely discharged, the device cannot be turned on I immediately when the charger is connected. Allow a depleted battery to charge for a few minutes before turning on the device.

•f you use multiple applications at once, network applications, or applications I that need a connection to another device, the battery will drain quickly. To avoid disconnecting from the network or losing power during a data transfer, always use these applications after fully charging the battery. 11 Getting started Charging with the charger Connect the USB cable to the USB power adaptor and then plug the end of the USB cable into the multipurpose jack. Connecting the charger improperly may cause serious damage to the device. Any damage caused by misuse is not covered by the warranty.

•he device can be used while it is charging, but it may take longer to fully charge T the battery. •f the device receives an unstable power supply while charging, the touch screen I may not function. If this happens, unplug the charger from the device. •hile charging, the device may heat up. This is normal and should not affect the W device's lifespan or performance. If the battery gets hotter than usual, the charger may stop charging. •f the device is not charging properly, take the device and the charger to a I Samsung Service Centre. After fully charging, disconnect the device from the charger. First unplug the charger from the device, and then unplug it from the electric socket. To save energy, unplug the charger when not in use.

The charger does not have a power switch, so you must unplug the charger from the electric socket when not in use to avoid wasting power. The charger should remain close to the electric socket and easily accessible while charging. 12 Getting started Checking the battery charge status When you charge the battery while the device is off, the following icons will show the current battery charge status: Charging Fully charged Reducing the battery consumption Your device provides options that help you save battery power. By customising these options and deactivating features in the background, you can use the device longer between charges: •hen you are not using the device, switch to sleep mode by pressing the Power button. W •lose unnecessary applications with the task manager. C •eactivate the Bluetooth feature. D •eactivate the Wi-Fi feature. D •eactivate auto-syncing of applications. D •ecrease the backlight time. D •ecrease the brightness of the display.

D 13 Getting started Inserting a memory card Your device accepts memory cards with maximum capacities of 64 GB. Depending on the memory card manufacturer and type, some memory cards may not be compatible with your device. •ome memory cards may not be fully compatible with the device. Using an S incompatible card may damage the device or the memory card, or corrupt the data stored in it. •se caution to insert the memory card right-side up. U •he device supports the FAT and the exFAT file systems for memory cards. When T inserting a card formatted in a different file system, the device asks to reformat the memory card. •requent writing and erasing of data shortens the lifespan of memory cards. F •hen inserting a memory card into the device, the memory card's file directory W appears in the SD Memory card folder. 1 Open the cover of the memory card slot.

2 Insert a memory card with the gold-coloured contacts facing downwards. 3 Push the memory card into the slot until it locks in place. 4 Close the cover of the memory card slot. 14 Getting started Removing the memory card Before removing the memory card, first unmount it for safe removal. On the Home screen, tap → Settings → General → Storage → Unmount SD card. 1 Open the cover of the memory card slot. 2 Push the memory card until it disengages from the device, and then pull it out. 3 Clusing the on-screen keyboard, tap it with a finger. Tapping and holding Tap and hold an item for more than 2 seconds to access available options. 20 Basics Dragging To move an icon, thumbnail, or preview to a new location, tap and hold it and drag it to the target position.

To paste it into a text entry field, tap and hold at the point where it should be inserted, and then tap Paste. Connecting to a Wi-Fi network Connect the device to a Wi-Fi network to use the Internet or share media files with other devices.

(p. 94) Turning Wi-Fi on and off Open the notifications panel, and then tap Wi-Fi to turn it on or off. • our device uses a non-harmonised frequency and is intended for use in all Y European countries. The WLAN can be operated in the EU without restriction indoors, but cannot be operated outdoors. • urn off Wi-Fi to save the battery when not in use. T 36 Basics Joining Wi-Fi networks On the Applications screen, tap Settings → Connections → Wi-Fi, and then drag the Wi-Fi switch to the right. Select a network from the list of detected Wi-Fi networks, enter a password if necessary, and then tap Connect. Networks that require a password appear with a lock icon. After the device connects to a Wi-Fi network, the device will automatically connect to it any time it is available.

Adding Wi-Fi networks If the desired network does not appear in the networks list, tap Add Wi-Fi network at the bottom of the networks list.

Enter the network name in Network SSID, select the security type and enter the password if it is not an open network, and then tap Connect. Forgetting Wi-Fi networks Any network that has ever been used, including the current network, can be forgotten so the device will not automatically connect to it. Select the network in the networks list, and then tap Forget. 37 Basics Setting up accounts Google applications, such as Play Store, require a Google account, and Samsung Apps requires a Samsung account. Create Google and Samsung accounts to have the best experience with the device.

Adding accounts Follow the instructions that appear when opening a Google application without signing in to set up a Google account. To sign in with or sign up for a Google account, on the Applications screen, tap Settings → General → Accounts → Add account → Google. After that, tap New to sign up, or tap Existing, and then follow the on-screen instructions to complete the account setup. More than one Google account can be used on the device. Set up a Samsung account as well.

Removing accounts On the Applications screen, tap Settings → General → Accounts, select an account name under MY ACCOUNTS, select the account to remove, and then tap Remove account. 38 Basics Transferring files Move audio, video, image, or other types of files from the device to the computer, or vice versa. Connecting with Samsung Kies Samsung Kies is a computer application that manages media contents and personal information with Samsung devices. Download the latest Samsung Kies from the Samsung website. 1 Connect the device to the computer using the USB cable. 2 Transfer files between your device and the computer. Samsung Kies launches on the computer automatically. If Samsung Kies does not launch, double-click the Samsung Kies icon on the computer. Refer to the Samsung Kies help for more information. Connecting with Windows Media Player Ensure that Windows Media Player is installed on the computer.

1 Connect the device to the computer using the USB cable. 2 Open Windows Media Player and sync music files. Connecting as a media device 1 Connect the device to the computer using the USB cable. 2 Open the notifications panel, and then tap Connected as a media device → Media device (MTP). Tap Camera (PTP) if your computer does not support Media Transfer Protocol (MTP) or not have any appropriate driver installed. 3 Transfer files between your device and the computer. 39 Basics Securing the device Prevent others from using or accessing personal data and information stored in the device by using the security features. The device requires an unlock code whenever unlocking it. Setting a pattern On the Applications screen, tap Settings → Device → Lock screen → Screen lock → Pattern.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY TAB 4 10.1 SM-T535 user guide](http://yourpdfguides.com/dref/5588866)
<http://yourpdfguides.com/dref/5588866>

Draw a pattern by connecting four dots or more, and then draw the pattern again to verify it.

Set a backup unlock PIN to unlock the screen when you forget the pattern. Setting a PIN On the Applications screen, tap Settings → Device → Lock screen → Screen lock → PIN. Enter at least four numbers, and then enter the password again to verify it. Setting a password On the Applications screen, tap Settings → Device → Lock screen → Screen lock → Password. Enter at least four characters including numbers and symbols, and then enter the password again to verify it.

40 Basics Unlocking the device Turn on the screen by pressing the Power button or the Home button, and enter the unlock code. If the unlock code is forgotten, take the device to a Samsung Service Centre to reset it. Upgrading the device The device can be upgraded to the latest software. This feature may not be available depending on the region or service provider. Upgrading with Samsung Kies Launch Samsung Kies and connect the device to the computer. Samsung Kies automatically recognises the device and shows available updates in a dialogue box, if any. Click the Update button in the dialogue box to start upgrading. Refer to the Samsung Kies help for details on how to upgrade. • o not turn off the computer or disconnect the USB cable while the device is D upgrading. • hile upgrading the device, do not connect other media devices to the computer. W Doing so may interfere with the update process. Upgrading over the air The device can be directly upgraded to the latest software by the firmware over-the-air (FOTA) service. On the Applications screen, tap Settings → General → About device → Software update → Update now. 41 Communication Phone Use this application to make or answer a call. Tap Phone on the Applications screen.

Making calls Making a call Use one of the following methods: •hone: Enter the number using the keypad, and then tap . P •roups: Make a call from the list of contact groups. G •avourites: Make a call from the list of favourite contacts. F •ontacts: Make a call from the contacts list. C Speed dial numbers For speed dial numbers, tap and hold the corresponding digit. <http://yourpdfguides.com/dref/5588866>

S •uddy photo share: Set the device to recognise a person's face that you have tagged in a B photo and send it to that person. **•emote viewfinder:** Set a device to control the camera remotely. **R Controlling the camera remotely** Set a device as a viewfinder to control the camera remotely. Tap → → Remote viewfinder, and then connect the device and the camera using Wi-Fi Direct. Tap to take a photo remotely using the device as a viewfinder. **68 Media Configuring settings for Camera Tap** to configure settings for Camera. Not all of the following options are available in both still camera and video camera modes. The available options vary depending on the mode used. **•hoto size / Video size:** Select a resolution.

Use higher resolution for higher quality. But it P takes up more memory. **•etering modes:** Select a metering method. This determines how light values are M calculated. Centre-weighted measures background light in the centre of the scene. Spot measures the light value at a specific location. Matrix averages the entire scene. **•ocation tag:** Attach a GPS location tag to the photo. **L •o improve GPS signals,** avoid shooting in locations where the signal may be T obstructed, such as between buildings or in low-lying areas, or in poor weather conditions. **•our location** may appear on your photos when you upload them to the Internet.

Y To avoid this, deactivate the GPS tag setting. **•eview pics/videos:** Set to show photos or videos after taking them. **R •olume key:** Set the device to use the Volume button to control the shutter or zoom V function. **•imer:** Use this for delayed-time shots. **T •hite balance:** Select an appropriate white balance, so images have a true-to-life colour W range.

The settings are designed for specific lighting situations. These settings are similar to the heat range for white-balance exposure in professional cameras. **•rightness:** Change the brightness. **B 69 Media •uidelines:** Display viewfinder guides to help composition when selecting subjects. **G •ontextual filename:** Set the camera to display contextual tags.

Activate this to use Tag C Buddy in Gallery. **•ave as flipped:** Invert the image to create a mirror-image of the original scene. **S •torage:** Select the memory location for storage. **S •eset:** Reset the camera settings. **R •elp:** Access help information for using the camera. **H Shortcuts** Reorganise shortcuts for easy access to the camera's various options. Tap and tap and hold a shortcut icon. Tap and hold an option and drag it to a slot at the top of the screen. **Gallery Use** this application to view images and videos. Tap Gallery on the Applications screen.

Viewing images Launching Gallery displays available folders. When another application, such as Email, saves an image, the Download folder is automatically created to contain the image. Likewise, capturing a screenshot automatically creates the Screenshots folder. Select a folder to open it. In a folder, images are displayed by creation date. Select an image to view it in full screen. Scroll left or right to view the next or previous image. **70 Media Zooming in and out** Use one of the following methods to zoom in an image: **•ouble-tap** anywhere to zoom in. **D •pread** two fingers apart on any place to zoom in. Pinch to zoom out, or double-tap to S return.

Playing videos Video files show the icon on the preview. Select a video to watch it and tap . Trimming segments of a video Select a video and tap . Move the start bracket to the desired starting point, move the end bracket to the desired ending point, and then save the video. **Editing images** When viewing an image, tap and use the following functions: **•avourite:** Add to the favourites list.

F •lideshow: Start a slideshow with the images in the current folder. **S •hoto frame:** Use this to add a frame and a note to an image. The edited image is saved P in the Photo frame folder. **•hoto note:** Use this to write a note on the back of the image. Tap P **•opy** to clipboard: Copy to clipboard.

C •rint: Print the image by connecting the device to a printer. Some printers may not be P compatible with the device. **•ename:** Rename the file. **R •uddy photo share:** Send the image to a person whose face is tagged in the image. **B •otate left:** Rotate anticlockwise. R to edit the note. **71 Media •otate right:** Rotate clockwise. **R •rop:** Resize the blue frame to crop and save the image in it. **C •et as:** Set the image as wallpaper or a contact image. **S •etails:** View image details.

D •ettings: Change the Gallery settings. **S Favourite images** When viewing an image, tap → Favourite to add the image to the favourites list. **Deleting images** Use one of the following methods: **•n a folder,** tap → Select item, select images, and then tap I **•hen** viewing an image, tap W . . **Sharing images** Use one of the following methods: **•n a folder,** tap → Select item, select images, and then tap I share them via social network services. **•hen** viewing an image, tap W to send them to others or to send it to others or share it via social network services. **Setting as wallpaper** When viewing an image, tap → Set as to set the image as wallpaper or to assign it to a contact. **72 Media Tagging faces** When viewing an image, tap → Settings → Tags, and then tick Face tag. A yellow frame appears around the recognised face. Tap the face, tap Add name, and then select or add a contact.

When the face tag appears on an image, tap the face tag and use available options, such as making calls or sending messages. **Face recognition may fail** depending on the face angle, face size, skin colour, facial expression, light conditions, or accessories the subject is wearing. **Using Tag buddy** Tap → Settings → Tags → Tag buddy, and then drag the Tag buddy switch to the right to display a contextual tag (weather, location, date, and person's name) when opening an image. **Organising with folders** Create a folder to organise images or videos stored in the device. You can copy or move files from one folder to another. To create a new folder, tap . Enter a name for the folder, tap OK, and then tick images or videos. Tap and hold any selected image or video, drag it to the new folder, and then tap Done. **@@@Switch** to floating screen mode. Adjust the volume.

Access additional options. Move forwards or backwards by dragging the bar. Move the control panel to the left. Open the playlist. Restart the current video or skip to the previous video. Tap and hold to move backwards quickly. Skip to the next video. Tap and hold to move forwards quickly. Move the control panel to the right. Change screen ratio.

@@While watching to use the pop-up player. **@@@Tap** YouTube on the Applications screen. **@@Select** one of the returned search results to watch a video. **@@Tap** Play Store on the Applications screen. **@@Select** an application to view information.
