**Manual abstract:**

*Content may differ from the final product, or from software provided by service providers or carriers, and is subject to change without prior notice. For the latest version of the manual, refer to the Samsung website, [www.samsung.com](http://www.samsung.com). Content (high quality content) that requires high CPU and RAM usage will affect the overall performance of the device. Applications related to the content may not work properly depending on the device's specifications and the environment that it is used in. Available features and additional services may vary by device, software, or service provider. Applications and their functions may vary by country, region, or hardware specifications. Samsung is not liable for performance issues caused by applications from any provider other than Samsung. Samsung is not liable for performance issues or incompatibilities caused by edited registry settings or modified operating system software.*

*Attempting to customise the operating system may cause the device or applications to work improperly. Software, sound sources, wallpapers, images, and other media provided with this device are licensed for limited use. Extracting and using these materials for commercial or other purposes is an infringement of copyright laws. Users are entirely responsible for illegal use of media. You may incur additional charges for data services, such as messaging, uploading and downloading, auto-syncing, or using location services.*

*To avoid additional charges, select an appropriate data tariff plan. For details, contact your service provider. About this manual Default applications that come with the device are subject to updates and may no longer be supported without prior notice. If you have questions about an application provided with the device, contact a Samsung Service Centre. For user-installed applications, contact service providers.*

*Modifying the device's operating system or installing softwares from unofficial sources may result in device malfunctions and data corruption or loss. These actions are violations of your Samsung licence agreement and will void your warranty. Instructional icons Warning: situations that could cause injury to yourself or others Caution: situations that could cause damage to your device or other equipment Note: notes, usage tips, or additional information Copyright*

For more information about available accessories, refer to the Samsung website. 9 Getting started Installing the SIM or USIM card Insert the SIM or USIM card provided by the mobile telephone service provider. •nly microSIM cards work with the device. O •ome LTE services may not be available depending on the service provider. For S details about service availability, contact your service provider. 1 Open the cover of the SIM card slot.

2 Insert the SIM or USIM card with the gold-coloured contacts facing downwards. 3 Push the SIM or USIM card into the slot until it locks in place. •o not insert a memory card into the SIM card slot. If a memory card happens to D be lodged in the SIM card slot, take the device to a Samsung Service Centre to remove the memory card. •se caution not to lose or let others use the SIM or USIM card. Samsung is not U responsible for any damages or inconveniences caused by lost or stolen cards. 4 Close the cover of the SIM card slot. 10 Getting started Removing the SIM or USIM card 1 Open the cover of the SIM card slot. 2 Push the SIM or USIM card until it disengages from the device, and then pull it out. 3 Close the cover of the SIM card slot.

Charging the battery Use the charger to charge the battery before using it for the first time. Use only Samsung-approved chargers, batteries, and cables. Unapproved chargers or cables can cause the battery to explode or damage the device. •hen the battery power is low, the battery icon appears empty. W •f the battery is completely discharged, the device cannot be turned on I immediately when the charger is connected.

Allow a depleted battery to charge for a few minutes before turning on the device. •f you use multiple applications at once, network applications, or applications I that need a connection to another device, the battery will drain quickly. To avoid disconnecting from the network or losing power during a data transfer, always use these applications after fully charging the battery. 11 Getting started Charging with the charger Connect the USB cable to the USB power adaptor and then plug the end of the USB cable into the multipurpose jack. Connecting the charger improperly may cause serious damage to the device.

Any damage caused by misuse is not covered by the warranty. •he device can be used while it is charging, but it may take longer to fully charge T the battery. •f the device receives an unstable power supply while charging, the touch screen I may not function. If this happens, unplug the charger from the device. •hile charging, the device may heat up. This is normal and should not affect the W device's lifespan or performance. If the battery gets hotter than usual, the charger may stop charging. •f the device is not charging properly, take the device and the charger to a I Samsung Service Centre. After fully charging, disconnect the device from the charger. First unplug the charger from the device, and then unplug it from the electric socket.

To save energy, unplug the charger when not in use. The charger does not have a power switch, so you must unplug the charger from the electric socket when not in use to avoid wasting power. The charger should remain close to the electric socket and easily accessible while charging. 12 Getting started Checking the battery charge status When you charge the battery while the device is off, the following icons will show the current battery charge status: Charging Fully charged Reducing the battery consumption Your device provides options that help you save battery power. By customising these options and deactivating features in the background, you can use the device longer between charges: •hen you are not using the device, switch to sleep mode by pressing the Power button. W •lose unnecessary applications with the task manager. C •eactivate the Bluetooth feature. D •eactivate the Wi-Fi feature. D •eactivate auto-syncing of applications. D •ecrease the backlight time.

D •ecrease the brightness of the display. D 13 Getting started Inserting a memory card Your device accepts memory cards with maximum capacities of 64 GB. Depending on the memory card manufacturer and type, some memory cards may not be compatible with your device. •ome memory cards may not be fully compatible with the device. Using an S incompatible card may damage the device or the memory card, or corrupt the data stored in it.

•se caution to insert the memory card right-side up. U •he device supports the FAT and the exFAT file systems for memory cards. When T inserting a card formatted in a different file system, the device asks to reformat the memory card. •requent writing and erasing of data shortens the lifespan of memory cards. F •hen inserting a memory card into the device, the memory card's file directory W appears in the SD Memory card folder.

1 Open the cover of the memory card slot. 2 Insert a memory card with the gold-coloured contacts facing downwards. 3 Push the memory card into the slot until it locks in place. 4 Close the cover of the memory card slot. 14 Getting started Removing the memory card Before removing the memory card, first unmount it for safe removal. On the Home t in afterimages L (screen burn-in) or ghosting. Turn off the touch screen when you do not use the device. Finger gestures Tapping To open an application, to select a menu item, to press an on-screen button, or to enter a character using the on-screen keyboard, tap it with a finger. 19 Basics Tapping and holding Tap and hold an item for more than 2 seconds to access available options. Dragging To move an icon, thumbnail, or preview to a new location, tap and hold it and drag it to the target position.

20 Basics Double-tapping Double-tap on a webpage or image to zoom in a part. Double-tap again to return. Flicking Flick left or right on the Home screen or the Applications screen to see another panel. Flick up or down to scroll through a webpage or a list, such as contacts. 21 Basics Pinching Spread two fingers apart on a webpage, map, or image to zoom in a part. Pinch to zoom out. Control motions Simple motions allow easy control of the device. Before using motions, make sure the motion feature is activated. On the Home screen, tap → Settings → Controls → Motions, and then drag the Motions switch to the right. Excessive shaking or impact to the device may result in unintended inputs.

Control motions properly. Rotating the screen Many applications allow display in either portrait or landscape orientation. Rotating the device causes the display to automatically adjust to fit the new screen orientation. 22 Basics To prevent the display from rotating automatically, open the notifications panel and deselect Screen rotation. •ome applications do not allow screen rotation. S •ome applications display a different screen depending on the orientation.

<http://yourpdfguides.com/dref/5580552>

*S Picking up* When you pick up the device after it has been idle for some time or when the screen has turned off, it vibrates if you have missed calls or new messages. *Panning to browse* When an image is zoomed in, tap and hold a point on the screen, and then move the device in any direction to browse the image. **23 Basics Tilting** Tap and hold two points on the screen, and then tilt the device back and forth to zoom in or out. *Palm motions* Use palm motions to control the device by touching the screen.

Before using motions, make sure the palm motion feature is activated. On the Home screen, tap → Settings → Controls → Palm motion, and then drag the Palm motion switch to the right. *Sweeping* Sweep your hand across the screen to capture a screenshot. The image is saved in Gallery → Screenshots. It is not possible to capture a screenshot while using some applications. **24 Basics Covering** Cover the screen with a palm to pause media playback. *Samsung Smart Pause* Use this feature to pause videos when you look away from the screen. On the Home screen, tap pause. → Settings → Controls → Smart screen, and then tick Smart. During video playback, look away from the screen to pause the video. To resume playback, look at the screen again.

**25 Basics Using Multi Window** Use this feature to run multiple applications on the screen at the same time. • Only applications on the Multi Window tray can run. • This feature may not be available depending on the region or service provider. *T To use Multi Window*, on the Home screen, tap → Settings → Device → Multi window, and then drag the Multi window switch to the right. You can use two types of Multi Window. <Split screen Multi Window> <Pop-up Multi Window> *Using a split screen Multi Window* Use this feature to run applications in a split screen. **26 Basics Launching applications in a split screen Multi Window 1** Drag your finger from the right edge of the screen towards the middle of the screen. Alternatively, tap and hold . The Multi Window tray appears at the right side of the screen. *Multi Window tray 2* Tap and hold an application icon on the Multi Window tray, and then drag it to the screen.

Release the application icon when the screen turns blue. **27 Basics 3** Tap and hold another application icon on the Multi Window tray, and then drag it to a new location. You can launch the same application in a split screen at the same time. Only applications with next to its icon support this feature. *Sharing content between applications* You can easily share content between applications, such as Email and Internet, by dragging and dropping them.

Some applications may not support this feature. **1** Launch Email and Internet in a split screen Multi Window. Access the Multi Window options. **2** Tap the circle between the application windows, and then tap ••: Switch locations between Multi Window applications. . Tap the circle between application windows to access the following options: •: Open a list of recently used applications in the selected window. •: Share items, such as images, text, or links, between application windows by dragging and dropping them. •: Maximise the window. •: Close the application. **28 Basics 3** Tap and hold an item in the Internet window and drag it to a location in the Email window. *Creating a Multi Window combination* Use this feature to save currently-running Multi Window applications as a combination. **1** Launch multiple applications in a split screen Multi Window. **2** Open the Multi Window tray and tap → Create. **3** Enter a title and tap OK. The currently-running Multi Window combination is added to the Multi Window tray.

To launch applications using a saved combination, select the combination from the Multi Window tray. **29 Basics Using a pop-up Multi Window** Use this feature to launch applications in pop-up windows. **1** Drag your finger from the right edge of the screen towards the middle of the screen. Alternatively, tap and hold . The Multi Window tray appears at the right side of the screen. *Multi Window tray 2* Tap an application icon on the Multi Window tray. A pop-up window appears on the screen. *Minimise the window. Close the window. Maximise the window.*

You can launch the same application in multiple pop-up windows at the same time. Only applications with next to its icon support this feature. **30 Basics Notifications** Notification icons appear on the status bar at the top of the screen to report missed calls, new messages, calendar events, device status, and more. Drag down from the status bar to open the notifications panel. Scroll the list to see additional alerts.

To close the notifications panel, drag up the bar that is at the bottom of the screen. From the notifications panel, you can view your device's current settings. Drag down from the status bar, and then tap to use the following options: • i-Fi: Activate or deactivate the Wi-Fi feature. W • PS: Activate or deactivate the GPS feature. G • Sound: Activate or deactivate silent mode.

You can vibrate or mute your device in silent S mode. • Screen rotation: Allow or prevent the interface from rotating when you rotate the device. S • Bluetooth: Activate or deactivate the Bluetooth feature. B • Reading mode: Activate or deactivate reading mode. In reading mode, the device helps R protect your eyes when reading at night. To select which applications will be used for, tap Settings → Device → Display → Reading mode. • Mobile data: Activate or deactivate the data connection. M • Locking mode: Activate or deactivate blocking mode. In blocking mode, the device will B block notifications. To select which notifications will be blocked, tap Settings → Device → Blocking mode.

• Power saving: Activate or deactivate power-saving mode. P • Multi window: Set the device to use Multi Window. M • Screen Mirroring: Activate or deactivate the screen mirroring feature. S • i-Fi hotspot: Activate or deactivate the Wi-Fi tethering feature. W • Smart stay: Activate or deactivate the smart stay feature. S • Smart pause: Activate or deactivate the smart pause feature. S • Sync: Activate or deactivate auto-syncing of applications. S • Light mode: Activate or deactivate flight mode. F The available options may vary depending on the region or service provider. To rearrange the options on the notifications panel, open the notifications panel, tap , tap and hold an item, and then drag the item to another location.

→ **31 Basics Home screen** The Home screen is the starting point to access all of the device's features. The Home screen has two different kinds of panels. The Classic home screen panel displays shortcuts to applications and widgets, and the Content home screen panel displays Content widgets. The Home screen can have multiple panels. To view other panels, scroll left or right.

<Classic home screen> <Content home screen> Viewing all applications On the Home screen, tap to view all applications.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY TAB PRO 10.1 SM-T525 user guide](http://yourpdfguides.com/dref/5580552)  
<http://yourpdfguides.com/dref/5580552>

<Home screen> <Applications screen> 32 Basics To return to the Home screen, press the Home button. Using the Classic home screen The Classic home screen displays indicator icons, widgets, shortcuts to applications, and others. Adding an item 1 Tap on the Home screen. 2 Tap and hold an item from the Apps or Widgets tab and drag it to the desired location.

Added icon Move to the Content home screen. 33 Basics Adding or removing a panel from the Classic home screen 1 Pinch your fingers together on the Classic home screen. 2 Tap to add a panel. To remove a panel, tap and hold a panel and drag it to the rubbish bin at the top of the screen. Setting wallpaper Set an image or photo stored in the device as wallpaper for the Classic home screen. Tap and hold an empty area on the Classic home screen, tap Home screen, and then select one of the following: •allery: See photos taken by the device's camera or images downloaded from the G Internet. •ive wallpapers: See animated images. L •otos: See images in Photos. P •allpapers: See wallpaper images. W Select an image, resize the frame if necessary, and then set it as wallpaper.

34 Basics Using the Content home screen The Content home screen displays Content widgets. You can access an application directly by selecting a Content widget on the Content home screen. Adding a widget or panel 1 Pinch your fingers together on the Content home screen. 2 On the Widgets screen, select a panel to edit or tap to create a new panel ( 1 ). Select widgets to add to the panel from the bottom pane of the screen ( 2 ). Scroll left or right on the bottom pane of the screen to view more widgets. 3 Tap Done. 35 Basics Adjusting widget size 1 On the Content home screen, tap and hold a widget you want to resize. 2 Adjust the size of the widget by dragging the frame around it. 3 Tap to save the change.

Removing a panel from the Content home screen 1 Pinch your fingers together on the Content home screen. 2 On the Widgets screen, tap and hold the panel to remove. 3 Drag the panel to the rubbish bin at the top of the screen. When the rubbish bin turns red, release the panel. At least one panel must remain on the Content home screen.

36 Basics Applications screen The Applications screen displays icons for all applications, including any new applications installed. On the Home screen, tap to open the Applications screen. To view other panels, scroll left or right. Rearranging applications This feature is available only in the customisable grid view. Tap → Edit, tap and hold an application, and then drag it to a new location.

To move it to another panel, drag it to the side of the screen. Organising with folders Put related applications together in a folder for convenience. Tap → Edit, tap and hold an application, and then drag it to Create folder. Enter a folder name and then tap OK. Put applications into the new folder by dragging, and then tap Save to save the arrangement. Rearranging panels Pinch on the screen, tap and hold a panel preview, and then drag it to a new location.

Installing applications Use application stores, such as Samsung Apps, to download and install applications. Uninstalling applications Tap → Uninstall/disable apps, and then select an application to uninstall it. Default applications that come with the device cannot be uninstalled. 37 Basics Disabling applications Tap → Uninstall/disable apps, and then select an application to disable it.

To enable the application, on the Applications screen, tap Settings → General → Application manager, scroll to DISABLED, select the application, and then tap Enable. •ownloaded applications and some default applications that come with the D device cannot be disabled. •hen you use this feature, disabled applications disappear from the Applications W screen but are still stored in the device. Using applications This device can run many different types of applications, ranging from media to Internet applications. Opening an application On the Home screen or the Applications screen, select an application icon to open it. Some applications are grouped into folders. Tap a folder, and then tap an application to open it. Opening from recently-used applications Tap to open the list of recently-used applications. Select an application icon to open. Closing an application Close applications not in use to save battery power and maintain device performance.

→ Task manager, and then tap End next to an application to close it. To close all Tap → Close all. running applications, tap End all. Alternatively, tap 38 Basics Help Access help information to learn how to use the device and applications or configure important settings. Tap Help on the Applications screen. Select a category to view tips. To sort categories by an alphabetical order, tap To search for keywords, tap . . Entering text Use the Samsung keyboard or the voice input feature to enter text. Text entry is not supported in some languages.

To enter text, you must change the input language to one of the supported languages. Changing the keyboard type Tap any text field, open the notifications panel, tap Choose input method, and then select the type of keyboard to use. Using the Samsung keyboard Hide the keyboard. Enter uppercase. Enter punctuation marks. Set options for the Samsung keyboard. Delete a preceding character. Break to the next line. Enter uppercase. Move the cursor.

Enter a space. 39 Basics Entering uppercase Tap Shift before entering a character. For all caps, tap Caps lock. Changing the keyboard type Tap and hold , and then tap to change the keyboard type. and move the floating keyboard to another On the floating keyboard, tap and hold location. Changing language keyboards Add languages to the keyboard, and then slide the space key left or right to change language keyboards. Handwriting Tap and hold , tap , and then write a word with a finger. Suggested words appear as characters are entered. Select a suggested word. Use handwriting gestures to perform actions, such as editing or deleting characters and inserting spaces.

To view the gesture guides, tap and hold , and then tap → Help. This feature may not be available depending on the region or service provider. 40 Basics Entering text by voice Activate the voice input feature and then speak into the microphone. The device displays what you speak. If the device does not recognise your words correctly, tap the underlined text and select an alternative word or phrase from the dropdown list.

To change the language or add languages for the voice recognition, tap the current language. Copying and pasting Tap and hold over text, drag or to select more or less text, and then tap Copy to copy or Cut to cut. The selected text is copied to the clipboard. To paste it into a text entry field, tap and hold at the point where it should be inserted, and then tap Paste. Connecting to a Wi-Fi network Connect the device to a Wi-Fi network to use the Internet or share media files with other devices.

[You're reading an excerpt. Click here to read official SAMSUNG GALAXY TAB PRO 10.1 SM-T525 user guide](http://yourpdfguides.com/dref/5580552)

(p. 128) Turning Wi-Fi on and off Open the notifications panel, and then tap Wi-Fi to turn it on or off. • our device uses a non-harmonised frequency and is intended for use in all Y European countries. The WLAN can be operated in the EU without restriction indoors, but cannot be operated outdoors. • urn off Wi-Fi to save the battery when not in use. T 41 Basics Joining Wi-Fi networks On the Applications screen, tap Settings → Connections → Wi-Fi, and then drag the Wi-Fi switch to the right. Select a network from the list of detected Wi-Fi networks, enter a password if necessary, and then tap Connect. Networks that require a password appear with a lock icon. After the device connects to a Wi-Fi network, the device will automatically connect to it any time it is available. Adding Wi-Fi networks If the desired network does not appear in the networks list, tap Add Wi-Fi network at the bottom of the networks list.

Enter the network name in Network SSID, select the security type and enter the password if it is not an open network, and then tap Connect. Activating Wi-Fi CERTIFIED Passpoint With Passpoint, the device automatically searches for available Wi-Fi networks and connects to one. If you move to a new area it will connect to another available Wi-Fi network without requiring a password. On the Applications screen, tap Settings → Connections → Wi-Fi → → Advanced, and then drag the Passpoint switch to the right. Forgetting Wi-Fi networks Any network that has ever been used, including the current network, can be forgotten so the device will not automatically connect to it. Select the network in the networks list, and then tap Forget. 42 Basics Setting up accounts Google applications, such as Play Store, require a Google account, and Samsung Apps requires a Samsung account. Create Google and Samsung accounts to have the best experience with the device. Adding accounts Follow the instructions that appear when opening a Google application without signing in to set up a Google account. To sign in with or sign up for a Google account, on the Applications screen, tap Settings → General → Accounts → Add account → Google. After that, tap New to sign up, or tap Existing, and then follow the on-screen instructions to complete the account setup. More than one Google account can be used on the device. Set up a Samsung account as well. Removing accounts On the Applications screen, tap Settings → General → Accounts, select an account name under My accounts, select the account to remove, and then tap → Remove account. Setting up user profiles Set up user profiles and then select one when unlocking the device to use personalised settings.

By setting up multiple user profiles, several users can share the device without affecting others' personal settings, such as email accounts, wallpaper preferences, and more. On the Applications screen, tap Settings → General → Users → → OK → Set up now, and then follow the on-screen instructions to set up a new user profile. To access the device with a user profile, select a profile at the top right of the locked screen. 43 Basics Transferring files Move audio, video, image, or other types of files from the device to the computer, or vice versa. The following file formats are supported by some applications. Some file formats are not supported depending on the version of the device's software or the computer operating system. • usic: mp3, m4a, mp4, 3ga, wma, ogg, oga, aac, and flac M • mage: bmp, gif, agif, jpg, and png I • ideo: avi, wmv, asf, flv, mkv, mp4, 3gp, webm, and m4v V • ocument: doc, docx, xls, xlsx, ppt, pptx, pdf, and txt D If the applications cannot play files in divx or ac3 format, install applications that support them. Connecting with Samsung Kies Samsung Kies is a computer application that manages media contents and personal information with Samsung devices. Download the latest Samsung Kies from the Samsung website. 1 Connect the device to the computer using the USB cable. Samsung Kies launches on the computer automatically. If Samsung Kies does not launch, double-click the Samsung Kies icon on the computer. 2 Transfer files between your device and the computer. Refer to the Samsung Kies help for more information. Connecting with Windows Media Player Ensure that Windows Media Player is installed on the computer.

1 Connect the device to the computer using the USB cable. 2 Open Windows Media Player and sync music files. 44 Basics Connecting as a media device 1 Connect the device to the computer using the USB cable. 2 Open the notifications panel, and then tap Connected as a media device → Media device (MTP). Tap Camera (PTP) if your computer does not support Media Transfer Protocol (MTP) or not have any appropriate driver installed. 3 Transfer files between your device and the computer. Securing the device Prevent others from using or accessing personal data and information stored in the device by using the security features. The device requires an unlock code whenever unlocking it. Setting a pattern On the Applications screen, tap Settings → Device → Lock screen → Screen lock → Pattern. Draw a pattern by connecting four dots or more, and then draw the pattern again to verify it. Set a backup unlock PIN to unlock the screen when you forget the pattern. 45 Basics Setting a PIN On the Applications screen, tap Settings → Device → Lock screen → Screen lock → PIN. Enter at least four numbers, and then enter the password again to verify it. Setting a password On the Applications screen, tap Settings → Device → Lock screen → Screen lock → Password. Enter at least four characters including numbers and symbols, and then enter the password again to verify it.

Unlocking the device Turn on the screen by pressing the Power button or the Home button, and enter the unlock code. If the unlock code is forgotten, take the device to a Samsung Service Centre to reset it. 46 Basics Upgrading the device The device can be upgraded to the latest software. This feature may not be available depending on the region or service provider. Upgrading with Samsung Kies Launch Samsung Kies and connect the device to the computer. Samsung Kies automatically recognises the device and shows available updates in a dialogue box, if any. Click the Update button in the dialogue box to start upgrading. Refer to the Samsung Kies help for details on how to upgrade. • o not turn off the computer or disconnect the USB cable while the device is D upgrading. • hile upgrading the device, do not connect other media devices to the computer. W Doing so may interfere with the update process. Upgrading over the air The device can be directly upgraded to the latest software by the firmware over-the-air (FOTA) service. On the Applications screen, tap Settings → General → About device → Software update → Update.
